### BIDDING METHODS

#### HERITAGE Live!®<sup>1</sup> BIDDING

Bid live on your computer or mobile, anywhere in the world, during the Auction using our HERITAGELive!® program at HA.com/Live

#### LIVE FLOOR BIDDING (\*see note below)

Bid in person during the floor sessions.

#### LIVE TELEPHONE BIDDING (FLOOR SESSIONS ONLY)

Phone bidding must be arranged 24 hours before your session begins.  
Client Service: 866-835-3243

#### INTERNET ABSENTEE BIDDING

Proxy bidding ends ten minutes prior to the session start time.  
Live Proxy bidding continues through the session. | **HA.com/1320**

#### FAX BIDDING

Fax bids must be received 24 hours before your session begins.  
Fax: 214-409-1425

Lots are sold at an approximate rate of 150 lots per hour, but it is not uncommon to sell 75 lots or 200 lots in any given hour.

#### Buyer's Premium Per Lot:

This auction is subject to a Buyer's Premium of 20% (minimum \$19) per lot.

Extended Payment Terms available. Email: Credit@HA.com

TX Auctioneer Licenses: Teia Baber 16624; Ed Beardsley 16632; Sarah Davies 17505; Nicholas Dawes 16784; Sophie Duncan 17901; Christopher Dykstra 16601; Fiona Elias 17126; Francesca Felgar 17902; Samuel Foose 11727; Alissa Ford 17104; Kathleen Guzman 16142; Gregory Holman 17653; Gregory Francis Kopriva 18107; Roberta Kramer 17439; Brent Randall Lewis 17881; Jennifer Jayne Marsh 17105; Marina Medina 17512; Sarah Miller 18098; Rochelle Mortenson 17898; Scott Peterson 13256; Michael Provenzale 17157; Samantha Erin Robinson 18104; Michael Sadler 16129; Barry Sandoval 17649; Nathan Schar 17365; Kimberly Serrano 17657; Anthony Singleton 17507; Rebecca Elise Van Norman 18103; Andrea Voss 16406; Jacob Walker 16413; Rachel Weathers 17907; Brian Wiedman 17894; Adam Williams 17893; Phillip Wooten 17656.

**\*PLEASE NOTE:** At the time of printing the catalog, in-person lot viewing and in-person floor bidding can only be accommodated under certain circumstances due to COVID-19 restrictions. Remote bidding options include absentee, telephone, and online bidding. We are also available to preview lots for you via Skype or through other Apps. Take advantage of our high-resolution images and videos to place bids up until the live event, and then continue to bid during the Heritage Live auction event, including live streaming audio and video.

**Please contact us at Bid@HA.com or Client Services (866-835-3243) for more information about lots, how to bid and to arrange floor bidding.**

Dear Bidder,

Mark your calendar for October 14-18, when two rarity-filled auctions will prompt five busy days at Heritage's Dallas World Headquarters. Signature floor sessions are scheduled Wednesday through Friday, capped off by a pair of online sessions on Saturday and Sunday. The sessions are divided between The Maurice Storck Collection (featured in a separate catalog) and our regular October 2020 Signature event, as seen here in this catalog.

The Maurice Storck Collection occupies the 2:00 P.M. CT time slot on Wednesday, Thursday, and Saturday. Maurice was a popular, long-time coin dealer schooled early-on by the Great Depression, and later by World War II. He was a decorated veteran who witnessed first-hand the Japanese attack on Pearl Harbor. Later, he faithfully served the army's 25th infantry division at Guadalcanal and the Solomon Islands. After the war, he was one of the few coin dealers to attend the famed Palace Collections of Egypt (aka The King Farouk Sale), with many of the purchases remaining in his collection to be offered now. In addition to the King Farouk coins, the Storck consignment includes a great collection of California Fractional gold, the largest group we have sold in more than a decade. If you add in Western Souvenir gold pieces, it is the largest such collection we have ever offered. Maurice A. Storck was a fascinating man – one of the oldest Pearl Harbor survivors prior to his death in late 2019 – and a tireless volunteer busy with numismatics to the end. Please see his separate catalog for more information about the fresh-to-market coins and, even more important, about the man himself.

The companion Heritage Signature auction is equally loaded with quality. A high-value Premier Session on Thursday evening is followed by a robust Friday floor session with lots ranging from colonials to medals and tokens. On Sunday afternoon, a spirited online session concludes what will be an October to remember for U.S. Coins.

Two additional Featured Collections represent more than a third of the Heritage October Signature auction, each with its own specialties. Without exception, these coins were thoughtfully selected over the years and carefully preserved. Watch for the pedigree that appears with every Featured Collection lot – pedigrees are included on floor session and online lots. Helpful links allow you to view the entire collections online with a single click.

## THE MALTESE COLLECTION

A splendid array of proof coinage makes up more than 75% of this large and impressive consignment. The Premier Session alone hosts 38 lots from The Maltese Collection, including high-grade and colorfully toned proofs from the various silver series, plus some important copper proofs. Circulation strikes are represented in high grade as well, with many finest-known type coins in Gem, Premium Gem, and Superb Gem grades. Condition Census coins abound. The Barber series is especially well represented by proofs in high proof grades. We note some stunning proof Barber quarters, including a 1900 example in PR68 Cameo PCGS with CAC and a 1910 quarter in PR67+ Deep Cameo PCGS, the finest-certified by that service. Likewise, notable halves include a splendid 1893 PR67 Cameo PCGS with fabulous toning and richly frosted devices, and an 1897 PR68 Cameo PCGS, also with magnificent toning. The parade of proofs has many surprises, including several pre-1858 proofs across several denominations – especially early copper.

### THE PETER JONES M.D. COLLECTION

A passionate collector and author, Dr. Peter Jones has long enjoyed a fascination with colonial American coins and their stories. Recently, he wrote the book, *Colonial History in Your Hands*, which features many of the coins offered in this auction. As Dr. Jones points out, “you can actually feel a connection to the past when you hold a colonial coin in your hand.” Colonial issues from the collection are featured throughout the Premier Session and the Friday floor session, as well as some excellent examples in Sunday’s online session. A Lord Baltimore shilling certified XF40 PCGS and a rare New Yorke token – struck in brass circa 1670 – provide Premier Session highlights, while the Friday floor session includes many fine examples of Massachusetts silver. New Jersey copper enthusiasts will find a 1786 New Jersey copper, the “Bridle” variety, Maris 18-M graded AU53 NGC, plus several other New Jersey varieties in the Sunday online session. Copper colonial issues are only part of Peter’s interests, which extend to gold and silver type coins. Dr. Jones trained at Cambridge and Oxford Universities, UK, doing dual residency in Family Practice and Internal Medicine for 39 years. He enjoys American financial history, magic, and many aspects of numismatics, as well as playing the piano, flamenco, and classical guitar. He also authored *Notable Notes*, *Dow Jones by Peter Jones*, *Commemorative Coin Tales*, *The First Medals of America*, and – with Cynthia Adams – *Therapeutic Communication*, now in its third edition.

Although social distancing requirements prevent on-site bidding, Heritage makes it easy to bid from the comfort and safety of your own home. More than 3,000 total lots provide many opportunities to expand or upgrade any collection. Please take time to view the catalogs and place your bids either before or during the live auction. It all happens in real time, with the excitement of an in-person auction intact. As always, we wish the very best for you and yours, and welcome your participation!

Sincerely,

Greg Rohan  
President

## SESSION TWO

## COLONIALS

(1659) Lord Baltimore Sixpence, VF35  
Small Bust, W-1060  
Elusive Early Silver Type

**3001** (1659) Lord Baltimore Sixpence, Small Bust, VF35 PCGS. H. 2-C, W-1060, R.5. The Maryland silver coinage was contemporaneous with its Massachusetts counterpart, but is much scarcer, since it was struck in smaller numbers circa 1659. The coins were struck at the Tower Mint in London and exported to America. Demand from early American type collectors makes problem-free examples highly desirable. The present Choice VF sixpence has silver-blue fields and stone-gray high points. The borders display hints of russet toning. The evenly worn surfaces are unblemished and attractive. Listed on page 42 of the 2021 *Guide Book*. NGC ID# 2U3K, PCGS# 33

(1659) Lord Baltimore Shilling, XF40  
Hodder 1-A, W-1080, Large Bust

**3002** (1659) Lord Baltimore Shilling, XF40 PCGS. Hodder 1-A, W-1080, R.6. The English government sought to restrict the flow of silver to the colonies throughout the colonial era and the Maryland fourpence, sixpence, and shilling were the only silver colonial coinage ever sanctioned by the Crown. The coins were struck in London for circulation in Maryland. The right of coinage was expressly granted to Cecil Calvert, the second Lord Baltimore, in his 1632 charter, but he was still arrested and faced an inquiry for illegally transporting silver to the Maryland colony.

All the the varieties are elusive today. To quote the *Whitman Colonial Encyclopedia*, "the silver issues enjoyed an extensive circulation, and most examples seen today show considerable wear. Very Good, Fine, and Very Fine are typical grades, often with surface marks or damage." This impressive XF example shows light wear on the design elements, with a clash mark right of the shield on the reverse. The design elements were strongly impressed, aside from a touch of softness on some facial features. The lightly abraded surfaces are blanketed in dark shades of lavender-gray toning. Listed on page 42 of the 2021 *Guide Book*. Population: 6 in 40, 25 finer (9/20).

*From The Peter Jones M.D. Collection.*

NGC ID# 2U3L, PCGS# 34

(1694) London Elephant Token, MS65 Brown  
Scarce Thin Planchet Variety, W-12040

- 3003** (1694) London Elephant Token, Thin Planchet, MS65 Brown PCGS. Betts-81, Hodder 2-B, W-12040, R.2. A remarkable Gem of the famous Elephant token. The surfaces are smooth and well struck, and are chocolate-brown save for hints of apple-green near the rims. The usually seen die variety with LONDON as one word, straight lines within the shield, and a dagger in the first shield quadrant. But most Elephant tokens were struck on thick planchets. The Whitman *Colonial Encyclopedia* states “a few are on thin, wide planchets.” Those on a thin planchet trade for far more than their thick counterparts, as priced on page 48 of the 2021 *Guide Book*. Population: 2 in 65 Brown, 1 finer (9/20). NGC ID# 2U3B, PCGS# 58

(Ca. 1670) New Yorke Token, Fine 15  
Brass, W-1705, Rare Colonial Issue

- 3004** (Ca. 1670) New Yorke Token, Brass, Fine 15 PCGS. Rulau-E-NY-621, W-1705, R.6. A very rare Colonial-era token unknown until a lead impression was discovered in the Netherlands Royal Cabinet in 1853. According to Breen, the obverse devices of Venus and Cupid under a palm tree suggest propaganda for the colonies as a place to enjoy life. Despite the E added to YORK, it is not possible to pin down the date of this issue precisely as this spelling occurs intermittently between 1664 and the 1770s. A 2016 pedigree roster confirms 17 brass and four lead or pewter examples. This piece is evenly worn, but the outline of the devices are fully recognizable. The fields are granular and show deeper brown toning that contrasts with the olive-tan accents on the devices. An exceptionally rare opportunity to acquire this undated apocryphal farthing. Listed on page 49 of the 2021 *Guide Book*. Ex: Laird U. Park Collection (Stack's, 5/1976), lot 56; Stack's, 5/1985; David Bruce Collection (Heritage, 1/2002), lot 5049; Liberty Collection / Long Beach Signature (Heritage, 5/2008), lot 1862; FUN Signature (Heritage, 1/2011), lot 5402; Long Beach Signature (Heritage, 6/2011), lot 3007, where it realized \$19,550. From The Peter Jones M.D. Collection. NGC ID# AUBK, PCGS# 226

1787 Fugio Cent, MS65 Red and Brown  
Newman 8-X, Bank of New York Hoard  
Tied for Finest at PCGS

- 3005** 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays MS65 Red and Brown PCGS. Newman 8-X, W-6750, R.3. This late-die-state specimen has a heavy die crack from the lower obverse border with the die bulged left of the crack, obliterating part of the motto MIND YOUR BUSINESS. Clash marks are also evident.

The Newman 8-X figured prominently in the Bank of New York hoard of Fugio cents, with 189 examples found in the hoard, more than 10% of the 1,641 coins therein. This example ranks among the finest, with substantial orange luster and light brown toning. Carbon spots and planchet rifts are minimal. This piece is tied with eight others as the finest Red and Brown example that PCGS has examined (9/20). Listed on page 89 of the 2021 *Guide Book*.

Ex: *Central States Signature* (Heritage, 4/2013), lot 4102.

From *The Maltese Collection*.

NGC ID# 2B8E, PCGS# 884

1783 Chalmers Short Worm Shilling  
Choice VF, W-1785, Off Center

- 3006** 1783 Chalmers Shilling, Short Worm VF35 NGC. Breen-1011, W-1785, High R.4. Most pre-Federal private American issues are copper, but the varieties of Annapolis silversmith John Chalmers are silver. All are rare today, with the exception of his Short and Long Worm shillings, which are merely very scarce. This wheat-gold and gunmetal-gray representative is essentially unabraded and has clear types despite moderate wear. Struck about 10% off center toward 7 o'clock, though all legends are fully intact. Listed on page 52 of the 2021 *Guide Book*.

From *The Peter Jones M.D. Collection*.

NGC ID# 2AUU, PCGS# 596

LARGE CENT

1794 Liberty Cap Cent, AU50  
Head of 1794, S-65

- 3007** 1794 Head of 1794, S-65, B-51, R.1, AU50 PCGS. Breen Die State VI. Sheldon-65 was dubbed the "Shielded Hair" variety by Edward Maris in his 1869 reference, and the nickname has stuck for the past 150 years. On the present lightly circulated example, the neck curls are bold and exhibit luster. The obverse is mahogany-brown, while the reverse displays mottled tan, peach, rose, olive, and russet shades. Mentionable contact is limited to a slight obverse rim knock at 2 o'clock. Our EAC grade VF30.

From *The Maltese Collection*.

NGC ID# 223P, PCGS# 35654 Base PCGS# 901374

## PROOF LARGE CENTS

1829 N-6 Cent, PR64 Brown  
Bronzed Finish

**3008 1829 Bronzed PR64 Brown PCGS. N-6, R.6 as a Proof.** The Philadelphia Mint during the 19th century issued many bronzed medals, made by treating copper planchets with bronzing powder prior to the strike. In fact, this was the usual surface for medals sold to collectors during that century. However, bronzed cents are uncommon, although the Eliasberg 1829 N-6 proof was also bronzed. N-6 was also struck in business-strike format and is plentiful in worn grades.

N-6 is identified by a repunched base on the L in LIBERTY. The E and T in LIBERTY are also repunched. The reverse is less distinctive but the N in CENT is repunched near its right base. Both dies were only used to strike N-6.

The present mahogany-brown near-Gem is well struck except on the upper four stars. This localized softness is caused by an axially misaligned hammer die. Areas of minor gray toning are note but of little consequence. No post-strike contact is evident. A few slender obverse flan streaks are apricot-gold and indicate where the planchet was incorrectly treated with bronzing powder. A lintmark above the O in ONE provides an identifier. A second and trivial lintmark is west of the C in CENT.

PCGS estimates only ten 1829 proofs are known. As of (9/20), PCGS has certified seven: 3 in 64 Brown, 2 in 65 Brown, and 2 in 65 Red and Brown. NGC has certified six specimens, 5 as Bronzed and a single 64 Brown with a normal finish. Our EAC Grade PR61.

Ex: *Stack's* (1/2008), lot 63; *Adam Mervis Large Cent Collection / FUN Signature* (Heritage, 1/2014), lot 2136.

**From The Maltese Collection.**

NGC ID# 272D, PCGS# 1792

1848 Cent, PR64 Red and Brown  
Proof-Only Newcomb-19

**3009 1848 PR64 Red and Brown PCGS. N-19, Low R.6.** Proof cents dated 1844 to 1849 can be identified by a die scratch on the reverse rim near the E in UNITED. Presumably, all six dates were coined about the same time, most likely 1849. The N-19 proof-only Newcomb variety shows minor recutting on the date, principally above the foot of the 1. The obverse is close to full red but has scattered small carbon flecks. The reverse is primarily ocean-blue with frequent glimpses of pumpkin-gold. Razor-sharp and unabraded. Our EAC grade PR60.

Ex: *Central States Signature* (Heritage, 4/2008), lot 101; *FUN Signature* (Heritage, 1/2014), lot 3377.

**From The Maltese Collection.**

NGC ID# 226X, PCGS# 1974

1849 Cent, PR64 Brown  
N-30, Very Rare in Proof Format

- 3010 1849 PR64 Brown PCGS. N-30, R.6, R.7 as a Proof.** Grellman die state a. Heavy die polish lines between UNITED and the dentils identify the rare N-30. The status of N-30 proofs remains debated by specialists, since the reverse die lacks the rim die scratch at 9:30 associated with 1844 to 1849 proofs. However, the fields on the present specimen are reflective, and there is no indication of the high-point friction or abrasions customary of a business issue. Toned deep sea-green and mahogany-brown. Well struck aside from the center of star 4. Our EAC grade PR60.  
*Ex: Bowers and Merena (6/2001), lot 109; Stack's (7/2008), lot 1142; The Adam Mervis Large Cent Collection / FUN Signature (Heritage, 1/2014), lot 2330.*  
**From The Maltese Collection.**  
NGC ID# 226Y, PCGS# 1976

1855 Cent, PR64 Red and Brown  
Slanted 55, N-10

- 3011 1855 PR64 Red and Brown PCGS. CAC. N-10, R.5 as a proof.** Grellman Die State a. The small die defect on the front edge of the coronet attributes the Newcomb pairing. The flashy fields, mark-free surfaces, and sharp strike are all characteristic of proof production. The pumpkin-gold obverse appears full Red except for moderate carbon. The reverse is orange-red but the borders are dusky and also display forest-green. Our EAC grade PR63.  
*Ex: Orlando FUN Signature (Heritage, 1/2009), lot 294; National Money Show Signature (Heritage, 2-3/2014), lot 3713.*  
**From The Maltese Collection.**  
NGC ID# 2273, PCGS# 1995

PROOF FLYING EAGLE CENT

1856 Flying Eagle Cent, PR64  
Snow-9, Fully Struck

- 3012 1856 Snow-9 PR64 PCGS.** A fully struck walnut-brown near-Gem that shows glimpses of deeper gunmetal toning on the right-side borders. Evaluation beneath a lens fails to locate any consequential detractors. The 1856 Flying Eagle cent ranks as one of the most numismatically significant issues. Once collectors realized its rarity, there was a clamor to obtain examples, and many joined the hobby specifically to acquire the low-mintage date. The Snow-3 originals from 1856 were insufficient to meet demand, and restrikes from Snow-9 dies were struck in the late 1850s for unofficial sale, along with such delicacies as 12-piece 1858 sets of pattern cents.  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3717.*  
**From The Maltese Collection.**  
PCGS# 147890 Base PCGS# 2037

## INDIAN CENT

1873 Closed 3 Cent, MS64 Red and Brown  
Doubled LIBERTY, Snow-1b, FS-101  
Key Variety in the Series

**3013 1873 Doubled LIBERTY, Snow-1b, FS-101, MS64 Red and Brown PCGS.** Like the 1916 Buffalo nickel or 1955 Lincoln cent, this major doubled die variety is collected alongside regular issues in its series. Broad doubling is seen on LIBERTY, and throughout the portrait, including the eye and nose. Two reverses are known. This is the usual one with a die lump between the oak leaves and the C in CENT. Despite its bold nature, the variety now known as Snow-1 was only first published in 1957 by Walter Breen. Over the past 60 years, it has established itself as the top variety in the Indian Head series. All examples are highly collectible, regardless of condition. Mint State coins are particularly popular and rare, representing an estimated 20 of the 300 coins believed extant.

A majority of the surface area on this near-Gem remains copper-orange. Central violet tones inhibit a full Red designation. The strike is uniformly strong, though the upper-right leaves appear to have been struck through either grease or water — a common trait for the issue. Marks below the N in UNITED and right of the shield identify this Choice example. Population: 12 in 64 (1 in 64+) Red and Brown, 2 finer (8/20).  
PCGS# 37505 Base PCGS# 2116

## LINCOLN CENTS

1911-S Cent, MS66 Red  
CAC Approved, Tied for Finest Known

**3014 1911-S MS66 Red PCGS. CAC.** This piece was formerly in the Steven Duckor Collection, where it was described in part as,

"This piece is among the finest Red coins certified, and it is one of only four top-grade pieces to earn CAC recognition. There is no better option for the Registry collector."

"While MS66 Red examples of this issue occasionally appear at auction, the vast majority are not from the CAC population. We have previously handled only one specific coin in this grade with CAC endorsement, a piece that we offered once in 2012 and again in 2014. It is now in unknown hands. The Duckor coin brings to the market another one of these rare opportunities to acquire one of the finest-known 1911-S cents. It is in every respect the equal of the D.L. Hansen coin in the current highest-rated PCGS Registry Set, and it surpasses almost all other examples. Original copper-orange luster adorns satin surfaces, and sharp devices and bold lettering denote an early die state. A few microscopic pepper specks in the left obverse field serve merely to differentiate this piece from its few known peers."

NGC ID# 22B9, PCGS# 2449

1930-D Cent, MS67+ Red  
Sole Finest at PCGS

**3015 1930-D MS67+ Red PCGS.** The single finest 1930-D Lincoln cent at PCGS. This Plus-graded Superb Gem glitters in vibrant copper-orange luster with bold devices and remarkably clean surfaces. No carbon spotting is seen. The 1930-D is rare in MS67 Red. This piece is nothing other than the best possible representative of the date for the Registry collector. Population: 16 in 67 (1 in 67+) Red, 0 finer (9/20).  
NGC ID# 22CY, PCGS# 2608

## PROOF LINCOLN CENTS

1909 VDB Cent, PR63 Brown  
Key Among Lincoln Cent Proofs

- 3016 1909 VDB PR63 Brown PCGS.** The 1909 VDB is the hands-down key among proof Lincoln cents — a single-year type with a limited mintage of 1,194 pieces. This Select representative showcases mainly golden-brown surfaces with splashes of violet and blue toning that are more prevalent on the obverse than the reverse. As expected, every element of the Victor David Brenner design is fully brought-up, including the sculptor's initials at the lower reverse border. No points of obvious contact are worthy of singular attention. Population: 7 in 63 Brown, 14 finer in this color category (9/20).  
NGC ID# 22KR, PCGS# 3300

1913 Cent, PR67 Red  
None Finer at Either Service

- 3018 1913 PR67 Red PCGS.** The mintage of proof 1913 cents was large, consisting of 2,983 pieces, making it one of the most available issues of the matte proof era. Still, examples are elusive in an absolute sense, and very scarce in the higher grade ranges with the Red designation. PCGS has graded seven at this MS67 Red level, while NGC has certified four, with neither service having awarded a single higher grade (9/20). The obverse of this lustrous example is particularly appealing, with intermingled shades of red, orange, yellow, gold, pink, green, and violet. An intricate strike is an additional attribute of this exceptional coin.  
*Ex: FUN Signature (Heritage, 1/2014), lot 3617.*  
**From The Maltese Collection.**  
NGC ID# 22KW, PCGS# 3317

1911 Cent, PR67 Brown  
Vivid Fuchsia Coloration

- 3017 1911 PR67 Brown PCGS.** Vivid violet, gold, and fuchsia toning graces the matte surfaces of this Superb Gem Brown proof 1911 Lincoln cent. The strike is sharp, and the surfaces are spot free. The 1911 proof is a major rarity in PR67. PCGS lists only three pieces in this numeric grade, including two Brown coins and one Red and Brown piece. This example is highly attractive and sharp, showing broad, squared rims. Population: 2 in 67 Brown, 0 finer (9/20).  
NGC ID# 22KU, PCGS# 3309

## PROOF THREE CENT SILVER

1858 Three Cent Silver, PR66  
Seldom-Seen Early Odd-Denomination Type

**3019 1858 PR66 PCGS.** Proofs of the earlier three cent silver issues, from 1854 through 1857, are fairly rare; the year 1858 was the first in which the Mint began publicly advertising proof sets for sale, and the first for which some sources estimate a proof mintage for the trime, at 210 pieces in the *Guide Book*. Under a loupe the rather dark patina resolves into pretty, pastel lavender hues, with a golden accent in the central reverse. Die striations run diagonally though the obverse, as made and as usually seen, and there is some weakness on the denomination in the center of the reverse, but this piece is highly attractive, appealing, and rare, a nice example of this odd denomination for a type set. Population: 21 in 66 (2 in 66+), 2 finer (8/20).

Ex: *National Money Show Signature* (Heritage, 2-3/2014), lot 3741.

From *The Maltese Collection*.

NGC ID# 27C5, PCGS# 3705

1873 Three Cent Silver, PR67 Cameo

**3020 1873 PR67 Cameo NGC.** The year 1873 saw the last gasp of the three cent silver series in the form of this proof-only issue of 600 pieces. The present Superb Gem Cameo proof example is among a handful of the few finest survivors. Deep rose patina is tinged with blue on the high points of this well-contrasted. A tiny, curved lint mark appears in the left obverse field. Census: 7 in 67 Cameo (2 in 67★), 1 finer (9/20).

NGC ID# 27CJ, PCGS# 83724

## PROOF THREE CENT NICKEL

1881 Three Cent Nickel, PR67 Deep Cameo  
Top-Graded Example With CAC Approval

**3021 1881 PR67 Deep Cameo PCGS. CAC.** The sparkling silver-white surfaces show superlative field-device contrast and top-notch preservation, putting this late-series proof issue into a small minority of the finest survivors with the Deep Cameo designation, one of only two such submissions at PCGS (9/20). By the time this piece was struck the three cent nickel series was clearly on the downtrend, but the circulation strike pieces dated 1881 would see one last great, dying gasp, a mintage exceeding 1 million coins, while the proofs of the year would see a rather nominal mintage of 3,575 coins. Few of them rank as high as the present coin.

Ex: *National Money Show Signature* (Heritage, 2-3/2014), lot 3749.

From *The Maltese Collection*.

NGC ID# 2763, PCGS# 93777

## PROOF SHIELD NICKELS

1867 Shield Nickel, PR65  
Rare Short-Lived Rays Design

**3022 1867 Rays PR65 PCGS. Dannreuther-2.** Reverse Die State c. A Gem example of the most famous rarity of the Shield nickel series, the proof 1867 Rays has a listed *Guide Book* mintage of 25+ pieces. Research by John Dannreuther has discovered that perhaps 20 to 30 originals were struck, plus a small but unknown quantity of restrikes for collectors. John Dannreuther has written extensively on this issue, and as of 2007 had identified three different obverse dies in six distinct stages of the single Rays reverse, used with all three obverses.

Dannreuther believes that the 1867 With Rays proofs struck using Obverses 2 and 3 are restrikes, or second striking, although some of the Dannreuther-2 coins could have been struck in 1867. Such coins, if struck in 1867, would technically be originals, but they were struck after the Dannreuther-1 coins, as the progressive stages of the sole reverse die employed show. Dannreuther wrote in an earlier 2003-dated article that many of the restrikes “were likely struck for collectors in the years 1868-78.”

Housed in a green label holder, this Gem displays gorgeous toning, particularly on the obverse. The shield exhibits bright cherry-red color, with areas of orange at the peripheries. Elsewhere the patina includes shades of yellow and gold along with a splash of lime-green. Those hues appear on the reverse as well, but they intermingle to a greater degree. The surfaces display shimmering luster and the expected sharp proof strike. Population: 10 in 65, 2 finer (8/20).

Ex: ANA National Money Show (Heritage, 2/2014), lot 3751.

From The Maltese Collection.

NGC ID# 276H, PCGS# 3818

1869 Shield Nickel, PR67 Cameo  
None Finer Certified

**3023 1869 PR67 Cameo NGC.** Well-contrasted surfaces show excellent preservation and a modicum of field-device reflectivity. Both leading services combined have certified only five Superb Gem Cameo proofs of this date. A thin, curved lint mark appears near the tip of one of the lower-left stars on the reverse. The reverse die is the Fletcher IIa, star pointing between A and M, that appeared in 1867. Census: 2 in 67 Cameo, 0 finer (9/20).  
NGC ID# 276K, PCGS# 83823

## PROOF LIBERTY NICKELS

1891 Liberty Nickel, PR67+ Deep Cameo  
None Finer Graded of the Issue at PCGS

- 3024 1891 PR67+ Deep Cameo PCGS.** Even though a goodly number of Liberty nickel proofs were struck in 1891 — some 2,350 pieces — most of them today will achieve no better than a PR66 grade, and seldom do they appear with the Deep Cameo certification. And despite the date, a quick perusal of the PCGS populations will reveal that for the entire With CENTS type, only 23 grading events for all dates combined are at the PR67 Deep Cameo level (and eight in PR67+ Deep Cameo). Only two are finer for the type, both PR68 Deep Cameo. Specifically for the 1891 date, this piece is one of only two in PR67+ Deep Cameo and none are finer, making this a Registry Set essential (9/20). The white-on-black contrast is profound as the coin is rotated under light, and there is but a hint of gold toning in the central obverse.  
NGC ID# 277Z, PCGS# 93889

1892 Nickel, PR66 Deep Cameo  
Tied for Finest at PCGS

- 3025 1892 PR66 Deep Cameo PCGS. CAC.** A generous proof mintage of 2,745 Liberty nickels was accomplished in 1892. However, only two other Deep Cameo examples have been certified at PCGS in this grade, and NGC has not graded any pieces in this grade but there is one finer Ultra Cameo example (9/20). This piece possesses strong visual appeal, with only a few tiny marks present.  
*Ex: FUN Signature (Heritage, 1/2014), lot 3793.*  
*From The Maltese Collection.*  
NGC ID# 2782, PCGS# 93890

1895 Liberty Nickel, PR66+  
Registry Grade Deep Cameo Example

- 3026 1895 PR66+ Deep Cameo PCGS. CAC.** The 1895 proof Liberty nickel claims a mintage of 2062 pieces and the coins were issued with the proof sets (either minor, silver and minor, or complete sets). Although the issue was generally well-produced, few examples have survived with Deep Cameo surfaces. This Plus-graded Premium Gem exhibits razor-sharp definition on all design elements. The deeply mirrored fields contrast profoundly with the richly frosted devices to create an intense cameo effect. Both sides show highlights of emerald-green and pale jade toning. The outstanding quality and eye appeal are attested by the CAC sticker. Population: 2 in 66 (1 in 66+) Deep Cameo, 0 finer. CAC: 2 in 66, 0 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 2785, PCGS# 93893

1910 Liberty Nickel, PR68 Deep Cameo  
Tied With One Other for Finest  
Known Deep Cameo Liberty Nickel  
The Registry Set Collector's Dream Coin

**3027 1910 PR68 Deep Cameo PCGS.** The age of Registry Sets has dramatically changed the landscape for high-grade coins in series not otherwise heavily collected in those grades. Collector demand for “Registry-grade” examples of many common dates in the proof Liberty nickel series not only creates repeated record auction prices realized for many coins, but also draws newfound recognition among the numismatic community at large regarding just how rare some of these dates are in the finest-known condition.

In our June 2018 Long Beach Signature sale, a new milestone was reached when a PR68 Deep Cameo 1910 Liberty nickel sold for \$84,000, becoming the single most valuable proof Liberty nickel not dated 1913. At the time, it was the only proof Liberty nickel of any date graded PR68 Deep Cameo, with none finer. That stunning coin now resides in the all-time finest PCGS Registry Set of proof Liberty nickels, and for good reason. However, it actually has a twin, a coin that has only recently been recognized in this grade by PCGS. The present piece is the only other proof Liberty nickel of any date awarded the seemingly untouchable grade of PR68 Deep Cameo at PCGS (9/20).

This piece showcases stunning reflectivity and contrast, accentuated by the thick frost of the devices and their razor-sharp definition, which includes even the border stars and the troublesome corn ear to the left of the wreath bow. Wisps of amber-gold toning are faintly visible on each side, giving this piece a slightly warmer appearance compared to the icy starkness of its twin from our 2018 auction. The quality of this piece is simply unsurpassed, and the eye appeal that goes along with that is matched only by this coin's twin. This coin embodies the stunning quality demanded of coins going into the finest Registry Sets, and its rarity in this condition — nearly unique — reveals the incredible challenge that Registry Set builders encounter and why coins like this have become so popular in recent years. Population: 2 in 68 Deep Cameo, 0 finer (9/20). NGC ID# 278L, PCGS# 93908

## BUFFALO NICKELS

### 1916 FS-101 Nickel, Choice VF Doubled Die Obverse, Series Key

**3028 1916 Doubled Die Obverse, FS-101, VF35 PCGS.** David Lange provides a brief history of the 1916 Doubled Die Obverse nickel's discovery in *The Complete Guide to Buffalo Nickels*:

"The first published report of this variety ... appeared in *The Numismatic Scrapbook Magazine* for July 1962, when an example was submitted by Herbert S. Perlin of Pomona, California. Knowledge of it, however, was not widespread until the mid-1970s. Not until it was described and illustrated in the September 1976 issue of the *Coin Dealer Newsletter Monthly Summary* did this coin gain proper recognition."

That gave the 1916 FS-101 nickel more than half a century to circulate widely without detection, explaining its rarity in high grades. This Choice VF representative has bright dove-gray surfaces with darker olive accents around the raised devices. Well-detailed for the grade with strong doubling visible on the date, ribbon, and feathers.

PCGS# 145628 Base PCGS# 3931

### 1924-D Buffalo Nickel, MS66 Tied for Finest Certified

**3029 1924-D MS66 PCGS.** No nickels were struck at the Denver Mint from 1921 through 1923, because there was no demand for the coins after the large production totals of the war years. The 1924-D Buffalo nickel claims a smallish mintage of 5.2 million pieces, reflecting the still marginal commercial demand. Accordingly, the 1924-D is among the most challenging Denver Mint issues of the series in today's market. Many of the high-quality examples we know about today come from the holdings of the Connecticut State Library and were auctioned by Heritage in the 1990s.

The present coin exhibits an unusually sharp strike for the issue, which is often softly struck on the bison's head. The virtually flawless surfaces radiate vibrant mint luster with outstanding eye appeal. No examples have been certified in higher numeric grades at either of the leading grading services. Population: 14 in 66, 0 finer (8/20).

NGC ID# 22RY, PCGS# 3952

1927-D Buffalo Nickel, MS66  
Rare Top-Grade Registry Coin  
One of Four This Fine at CAC

- 3030 1927-D MS66 PCGS. CAC.** The finest 1927-D Buffalo nickels certified are Premium Gems, and these pieces are rare. Just 23 coins are reported by PCGS and NGC combined, including possible duplication (9/20). Registry collectors alone create enormous demand for these coins at auction. The present example has the distinction of a CAC green label — one of just four top-grade coins so recognized. Strike sharpness is impressive around the borders, particularly on the bison's head and the tips of the Indian's feathers. The centers are nearly as sharp, with only trivial softness observed on the bison's shoulder. Satiny luster yields warm golden and lavender toning, with no distracting abrasions visible. Population: 15 in 66 (1 in 66+), 0 finer. CAC: 4 in 66, 0 finer (9/20). NGC ID# 22S9, PCGS# 3961

1937-S Nickel, Lightly Toned MS68

- 3031 1937-S MS68 NGC.** The Indian's hair is coiffed in gold, while ice-blue and lilac hues play across smooth, lustrous surfaces. Perhaps only 10% or so of 1937-S nickels show full details, but this sharply struck example is razor-sharp throughout both sides. PCGS reports just two numerically finer examples. Census: 5 in 68 (1 in 68+, 1 in 68★), 0 finer (9/20). NGC ID# 22SY, PCGS# 3983

## PROOF BUFFALO NICKELS

1913 Type One Buffalo Nickel, PR68  
Beautifully Toned Top-Grade Rarity

- 3032 1913 Type One PR68 NGC.** The Type One Buffalo nickel is a famous one-year type. Many collectors know it as the type with the bison standing on a mound rather than a plain, but there are other characteristics of the inaugural issue that differ from the later Type Two variety, including the "chiseled" appearance of the fields, which lends itself well to the portrayal of American Midwest symbolism in the Indian chief's portrait and the bison. James Earle Fraser consumed the entirety of the 21.2 mm planchet to render his design in sculptural relief and simplicity, creating what could be described as more of a miniature medal than a coin.

The boldness of the Type One design is most appreciated on matte proofs. The sharpness of the strike, combined with the fine surface texturing, beautifully portrays Fraser's artistic handiwork. Proof coinage for the Type One issue amounted to 1,520 pieces, few of which survive in Superb Gem condition today. This PR68 example is one of the finest certified, with only 10 others reported in this grade by NGC and PCGS combined (9/20). The strike is razor-sharp, and each side delivers beautiful rainbow toning in concentric pastel rings. Census: 6 in 68 (2 in 68★), 0 finer (9/20). NGC ID# 278R, PCGS# 3988

1913 Buffalo Nickel, PR68  
Popular Type Two Design

**3033 1913 Type Two PR68 PCGS.** A change to the Type Two design on the Buffalo nickel was ordered on May 6, 1913 and 1,514 matte proof specimens of the new design were struck by the end of the year. The issue has a low survival rate, suggesting some examples remained unsold and were melted after the close of the year. The 1913 Type Two is the second rarest matte proof Buffalo nickel, after the 1916 issue.

This magnificent PR68 specimen displays sharply detailed design elements throughout and the impeccably preserved surfaces show vibrant, textured matte luster, under shades of pale jade and ice-blue toning. Eye appeal is terrific. Population: 12 in 68, 0 finer (9/20). NGC ID# 278S, PCGS# 3990

JEFFERSON NICKEL

1945-D Jefferson Nickel, MS68 Full Steps  
Beautifully Toned Wartime Registry Coin

**3034 1945-D MS68 Full Steps PCGS.** From the last year of the silvery alloy wartime composition, distinguished by the large D mintmark in the field above Monticello. Both sides yield radiant satin luster that is virtually untouched, cast in lovely concentric multicolor hues. The strike is sharp, and this is one of just nine Full Steps examples of the issue that PCGS has certified MS68, with none finer. Population: 9 in 68 (1 in 68+) Full Steps, 0 finer (9/20). NGC ID# 22TY, PCGS# 84026

PROOF JEFFERSON NICKEL

1941 Nickel, Richly Toned PR68  
One of the Finest Known

**3035 1941 PR68 PCGS.** This date from the earliest sub-series of proof Jefferson nickels, which spans from the design's debut in 1938 to the "war nickel" proofs of 1942, has a number of challenging dates for high-end Registry collectors. The 1941 in particular proves elusive at the top grade level, PR68, as PCGS has certified only seven such coins and none finer; with five pieces graded PR67 at NGC (9/20). This boldly impressed example displays bright reflectivity that shines through layers of rich patina. Nickel-white to gold colors are prominent at the centers, while the margins show peach, olive, and pink hues.

*Ex: Dallas Signature (Heritage, 11/2005), lot 2054; New York Signature (Heritage, 11/2013), lot 3546.*

**From The Maltese Collection.**

NGC ID# 27A2, PCGS# 4178

## SEATED HALF DIME

1862 Half Dime, MS68+  
Superior Quality, Tied for Finest

- 3036 1862 MS68+ PCGS.** The 1862 Seated half dime is one of the more frequently seen dates of the 1860s in all grades, but at the incredible MS68 grade level this issue is unquestionably rare. This piece is one of only eight so-graded examples at PCGS (8/20), and we suspect there is significant duplication in that population data. In the Legend Obverse series of half dimes, there are only 20 pieces certified in MS68 (minus resubmissions) and this is the only Plus-certified MS68 by PCGS, making it a must-have for the Registry collector. The strike is bold and the fields display modest semiprooflikeness. Soft rainbow peripheries provide a lovely frame for the brilliant centers.

Ex: ANA Signature (Heritage, 8/2015), lot 3615.  
NGC ID# 234B, PCGS# 4381

## PROOF SEATED HALF DIMES

1856 Half Dime, PR65 Cameo  
Rare, Pre-1858 Proof Issue

- 3037 1856 PR65 Cameo PCGS. CAC.** No record was kept of proof mintages in the years before the Mint began their official offerings in 1858, but production totals were undoubtedly small. Writing in 1988, Walter Breen estimated only 30-40 examples of the 1856 proof half dime were still extant, and some of them had been mishandled. This well-detailed Gem is one of the few survivors with cameo contrast, as the reflective fields and frosty devices provide a startling white-on black flash when the coin is tilted in the light. Attractive accents of champagne-gold and ice-blue toning enhance the well-preserved surfaces. Population: 1 in 65 Cameo, 4 finer. CAC: 2 in 65, 3 finer (8/20).

Ex: National Money Show Signature (Heritage, 10/2012), lot 3861; Long Beach Signature (Heritage, 2/2013), lot 3754; Long Beach Signature (Heritage, 6/2013).

From The Maltese Collection.

NGC ID# 235L, PCGS# 84434 Base PCGS# 84435

1859 Seated Half Dime, PR67  
None Finer at PCGS

- 3038 1859 PR67 PCGS. CAC.** Only 800 proof Seated Liberty half dimes were struck in 1859. A new obverse hub was used, with larger stars, according to Daniel Valentine. Valentine identified two die varieties for the 1859 half dime, with the proofs struck from the V-1 dies. Valentine's V-1 showed repunching on the numerals 1, 5, and 9 in the date. Al Blythe later noted two more varieties for the date and reclassified the V-1 variety as V-3. Walter Breen followed Valentine's nomenclature in his *Encyclopedia of United States and Colonial Proof Coins*, but he noted that proofs were also struck from the V-2 dies.

The present coin represents the V-1 variety (Blythe's V-3), with repunching on three numerals in the date. The repunching is most evident on the 1, with the 9 fainter, and the 5 barely detectible. The design elements are sharply detailed and the well-preserved fields are deeply reflective. Vivid shades of greenish-gold and cobalt-blue toning add to the exceptional eye appeal. Population: 6 in 67 (1 in 67+), 0 finer. CAC: 4 in 67, 0 finer (8/20).

Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3803.

From The Maltese Collection.

NGC ID# 235P, PCGS# 4438

1865 Half Dime, PR67 Cameo  
Low-Mintage Issue of Only 500 Coins

- 3039** 1865 PR67 Cameo PCGS. Exhibiting a sharp strike and areas of rich toning, this Superb Gem Cameo example has a lovely appearance. The toning includes shades of teal, golden-orange, and pale yellow. Reflectivity emerges beneath the patina. The 1865 proof Liberty Seated half dime issue consisted of only 500 pieces. Population: 2 in 67 Cameo, 0 finer (8/20).

Ex: San Francisco Signature (Heritage, 3/2014), lot 10214.

From The Maltese Collection.

NGC ID# 2362, PCGS# 84448

EARLY DIME

1804 Dime, JR-2, VF Details  
Key-Date Issue

- 3040** 1804 14 Stars Reverse, JR-2, R.5 — NGC Details. VF Elusive both as a date and a variety, this 1804 JR-2 dime is one of 100 to 125 pieces that survive. NGC notes a cleaning, with a speckling of deep-gray over silver-gray surfaces. Light pin scratches and minor ticks visit both sides, although sharp definition remains for the VF Details grade. Only slight merging of the reverse legend at TED and ST of UNITED STATES is visible. There is much to like despite the Details grade.

BUST DIMES

1835 JR-5 Dime, MS66  
Among the Finest for Any Variety

- 3041** 1835 JR-5, R.1, MS66 PCGS. This die marriage is quickly identified by Block 8 in the date and the placement of the 5 almost completely left of the hair curl. That digit has a straight flag rather than a curled flag. While JR-5 dimes are relatively easy to locate, any example of the 1835 dime is a rarity in Premium Gem condition. There are only a dozen such coins certified at PCGS and NGC combined with none finer.

This exemplary survivor features vibrant luster beneath orange, golden-olive, and gunmetal-blue toning. The central obverse remains largely brilliant, accentuating the unabraded fields. Strongly struck throughout. Population: 3 in 66, 0 finer (9/20). NGC ID# 237F, PCGS# 38883 Base PCGS# 4527

## MERCURY DIME

1919-S Dime, MS65+ Full Bands  
Major Condition Rarity

**3042 1919-S MS65+ Full Bands NGC.** The 1919-S Mercury dime claims a mintage of 8.8 million coins, but it is surprisingly challenging to locate in high grades with Full Bands definition. In fact, PCGS ranks the 1919-S second rarest in Uncirculated condition with the Full Bands designation. Only the 1942/1 is more elusive. The famous 1916-D is actually much more plentiful than this San Francisco issue, but its minuscule mintage makes it highly desirable and much more sought-after.

This Gem representative is high-end for the grade. Surfaces lightly toned in pale golden patina are razor-sharp at the centers and appear flawlessly preserved. Only WE and the date digits are noticeable incomplete. Worthy of a premium bid. Census: 7 in 65 (1 in 65+) Full Bands, 3 finer (9/20). NGC ID# 23HA, PCGS# 4927

## ROOSEVELT DIME

1956 Roosevelt Dime, MS68 Full Bands  
Tied for Finest PCGS Certified

**3043 1956 MS68 Full Bands PCGS.** This is one of only two MS68 Full Bands 1956 Roosevelt dimes certified at PCGS or NGC. The obverse has an extraordinary display of blue, green, violet, and gold toning. The reverse is essentially all brilliant with only faint powder-blue toning at the border. Population: 2 in 68 Full Bands, 0 finer (8/20).

Ex: *Houston Signature* (Heritage, 12/2013), lot 3357.

From *The Maltese Collection*.

NGC ID# 3TTG, PCGS# 85112

## PROOF ROOSEVELT DIME

1968 Roosevelt Dime, PR67 Cameo  
Rare No S Proof

**3044 1968 No S PR67 Cameo PCGS.** The United States resumed proof set offerings in 1968, after a three-year hiatus. Perhaps because the Special Mint Sets had been struck at the San Francisco Mint in the interim, it was decided to strike the new proofs at that location in 1968. Accordingly, all proofs were supposed to have an S mintmark. Dies for coinage were produced in Philadelphia and shipped to the branch mints for use in production. The S mintmark was inadvertently left off one of the dies intended for use on proof dimes and a small number of dimes were struck and released with the sets before the mistake was noticed. The June 28, 1968 edition of *Coin World* announced the discovery of the No S proofs. Probably around two dozen examples are known to numismatists today and the issue is avidly sought by series specialists and error collectors alike.

This spectacular Superb Gem exhibits fully struck design elements and virtually flawless surfaces, with a few delicate hints of pale green toning. The deeply reflective fields contrast boldly with the frosty devices and eye appeal is terrific. The 1968 No S proof Roosevelt dime is listed among the *100 Greatest U.S. Modern Coins*. Population: 4 in 67 Cameo, 8 finer (9/20).

**From The Maltese Collection.**  
NGC ID# 27F3, PCGS# 85245

## TWENTY CENT PIECE

1875-S Twenty Cent, Stunning MS67  
A Type Set Essential

**3045 1875-S MS67 PCGS. BF-3, R.5.** The obverse shows the date far left, 1 point of the shield directly atop the right side of the 1 and a small die crack in the denticles above stars 2 and 3. The reverse on this rare die pair always shows weakness, quite noticeable on this stunning Superb Gem, on the tops of TED STA in particular. Some weakness also appears on the two E's in the denomination. Parallel die striations from the planchet production process, as made at the Mint, appear on the reverse fields and the top of the eagle's left (facing) wing. Beyond these technical quibbles, however, the fact remains that there are no post-Mint distractions of any mentionable sort. Gorgeous frosty luster complements tinges of amber-gold and pale sage on both sides. The 1875-S is, of course, by far the most available issue in the short-lived twenty cent series, and this is one of the finest survivors, a virtual necessity for many fine 19th type collectors. Population: 6 in 67, 1 finer (9/20).  
NGC ID# 23R7, PCGS# 5298

## PROOF TWENTY CENT PIECES

1877 Twenty Cent Piece, PR65 Cameo  
Low-Mintage, Proof-Only Issue

- 3046 1877 PR65 Cameo PCGS.** The unpopular twenty cent piece was produced exclusively in proof format in 1877, to satisfy collector demand. The denomination was cancelled the following year, after another small proof-only mintage. As might be expected from the low mintage, examples in Gem condition, with the Cameo designation, are quite rare today.

Like most examples seen, this impressive Gem exhibits some incomplete detail on the eagle's feathers due to excessive die polishing. The frosty design elements contrast boldly with the mirrored fields to create a pleasing cameo effect. The surfaces show only a few minor hairlines and contact marks, with attractive hints of champagne-gold and pink patina. Population: 10 in 65 Cameo, 5 finer (8/20).

Ex: *Long Beach Signature* (Heritage, 9/2013), lot 6337.

From *The Maltese Collection*.

NGC ID# 27H4, PCGS# 85305

1878 Twenty Cent, PR64+★  
Proof-Only Date, Dramatic Toning

- 3047 1878 PR64+★ NGC. CAC.** Ex: "Col." E.H.R. Green. This sharply struck proof-only near-Gem is splendidly patinated. Butter-gold centers are bounded by rings of rose-red, ocean-blue, and olive-gray.

Ex: "Colonel" E.H.R. Green; *Green Estate*; *Partnership of Eric P. Newman / B.G. Johnson d.b.a. St. Louis Stamp & Coin Co.*; *Eric P. Newman @ \$20.00*; *Eric P. Newman Numismatic Education Society*; *Eric P. Newman Collection, Part II* (Heritage, 11/2013), lot 33164.

## PROOF SEATED QUARTERS

1849 Seated Liberty Quarter, PR64  
One of Six Proofs Documented  
Ex: Norweb

- 3048 1849 PR64 NGC. CAC. Briggs 4-C.** The number of proof 1849 Seated Liberty quarters known has been detailed in recent years through research for lot descriptions, beginning with our offering of the Eugene H. Gardner coin. Our roster of known examples includes just six specimens, including pieces from the Eliasberg, Gardner, Garrett, and Norweb collections, plus a couple of addition coins. This example is the Norweb coin, last known to have appeared at auction in its namesake sale by Bowers and Merena in March 1988. The coin was raw then, and designated a Gem. Currently, it resides in a PR64 NGC holder with CAC endorsement, and it exhibits the same lovely lavender and champagne toning as it did when it appeared in Norweb. The strike is sharp, and the reflective fields are beautifully illuminated by tilting the coin beneath a light. The following is our abbreviated roster of proof 1849 quarters:

1. **PR66 PCGS.** Eugene Gardner Collection (Heritage, 5/2015), lot 98376.
2. **PR66 PCGS.** Eliasberg Collection (Bowers and Merena, 4/1997), lot 1445.
3. **PR65+ PCGS.** From a numismatic holding formed in the 1950s; Long Beach Expo (Heritage, 6/2015), lot 3915.
4. **PR65 PCGS.** Garrett Collection (Stack's, 3/1976), lot 160.
5. **PR64 NGC.** Thomas Elder; Albert Holden; Norweb Collection (Bowers and Merena, 3/1988), lot 1585. **The present coin.**
6. **PR63 PCGS.** FUN Signature (Heritage, 1/1998), lot 6781. NGC ID# 23WC, PCGS# 5543

1855 Arrows Quarter, PR64 Cameo  
Rare, Two-Year Type

**3049 1855 PR64 Cameo PCGS. CAC.** The *Guide Book* gives no mintage figures for the 1855 quarter proof. Larry Briggs (1991) gives a figure of "15+ proofs," though it is not clear whether this is the estimated mintage or number known. Walter Breen (1989) says "possibly 15 to 20 survive in all," and PCGS/NGC population data indicate 20 certified examples, both non-Cameo and Cameo examples combined.

Light reddish-tan patina exists on the rims of this near-Gem and hints of this same color palette show up on both faces under magnification. Mirrored fields yield strong contrast with the moderately frosted, sharply struck devices. Some unobtrusive wispy field marks preclude Gem classification but do not detract from the coin's pleasing eye appeal, aptly recognized by the CAC green label. Population: 2 in 64 Cameo, 1 finer. CAC: 1 in 64, 1 finer (8/20).

Ex: *Los Angeles Signature* (Heritage, 8/2009), lot 1087.

**From The Maltese Collection.**

NGC ID# 23WW, PCGS# 85551

1856 Seated Quarter, PR65  
Only 25-30 Proofs Minted

**3050 1856 PR65 PCGS. CAC.** The Philadelphia Mint began its program of commercial proof production in 1858, when Mint Director James Ross Snowden published ordering instructions and a list of prices for obtaining proof examples of various denominations from that facility. Before that date, no official records were kept of proof production, and the number of coins minted was quite limited. Regarding the 1856 proof mintage, Walter Breen comments, "In some ways this is one of the most difficult and complicated dates of the series." Breen estimates the proof quarter mintage as less than 30 pieces, while Larry Briggs estimates the total as 25+ examples. Proof quarters of 1856 are rare in all grades today, with Gem specimens almost unobtainable. NGC has certified four coins in PR65, with two examples finer; while PCGS has graded three examples at the Gem Proof level, with none finer (9/20).

Briggs designates the proof die marriage as combination 10-H, with a diagnostic die bulge on the reverse from the first A in AMERICA to the eagle's wing, down through the arrow shafts to the L of DOL. The present coin features reflective proof surfaces under delightful gray, blue, and violet toning. Numerous die striations are evident in the fields, as usually seen on this issue. The strike is remarkably sharp, with only slight softness on stars 12 and 13. The coin offered here is one of the most attractive survivors from the tiny proof mintage and we expect intense competition from series enthusiasts when this lot is called.

Ex: *FUN Signature* (Heritage, 1/2010), lot 2519.

**From The Maltese Collection.**

NGC ID# 23WH, PCGS# 5552

1873 Arrows Quarter, Remarkable PR68 Cameo  
Tied for Finest Cameo Certified

- 3051 1873 Arrows PR68 Cameo NGC. Briggs 5-D.** The 1873 No Arrows quarters proofs were of the Closed 3 style, but the Arrows design, coming later in the year, also showed the updated Open 3 style with the 3 less resembling a final 8. Walter Breen's *Proof Encyclopedia* numbers the proof mintage of the Arrows quarters at 540 pieces — 500 for the silver proof sets, with 40 extra coins struck later in the year for unspecified reasons.

This piece is essentially immaculate, free from any visible post-Mint contact marks and showing surfaces that are fully struck over both sides. Original patina transitions from pinkish-gold in the centers through lilac to cobalt-blue near the rims, and ample mint frost ensures contrast with the reflective fields. An interesting raised mark on the left (facing) shield border is clearly something that was struck into the die before this coin was made, and thus is non-grade-affecting — perhaps a survey of other proof survivors would narrow down the number showing this anomaly.

Ex: *Summer FUN Signature* (Heritage, 6/2008), lot 852; *Eugene H. Gardner Collection, Part II* (Heritage, 10/2014), lot 98403.

NGC ID# 23XR, PCGS# 85574

BARBER QUARTER

1907-S Quarter, MS66+  
Array of Blended Rainbow Tones

- 3052 1907-S MS66+ PCGS. CAC.** This is a dazzling 1907-S quarter, one of 1.3 million coins struck and certainly among the finest available to collectors. An array of blended rainbow tones covers each side, allowing vibrant frosty luster to shine through. The only areas of overt strike softness are the right shield-wing juncture and the talon holding the arrows. Population: 20 in 66 (5 in 66+), 3 finer. CAC: 4 in 66, 3 finer (9/20).

NGC ID# 23ZB, PCGS# 5648

## PROOF BARBER QUARTERS

1900 Quarter, PR68 Cameo  
Delicately Toned, Among the Finest

**3053 1900 PR68 Cameo PCGS. CAC.** Coins from the first year of the new century have a collectible cachet lacking from other years. The 1900 is also next to the last year coins can generally be found with cameo contrast between the fields and devices. However, Cameo quarters graded PR68 are rare indeed. PCGS has only certified three others, NGC has graded only a total of six in this grade, and none are finer at either service (9/20). This deeply mirrored proof shows significant contrast against the frosted devices. Each side is well-balanced in overall appearance, and there is a light pinkish-rose color on the obverse that turns several shades deeper on the reverse.

*Ex: Central States Signature (Heritage, 4/2013), lot 4245.*

**From The Maltese Collection.**

NGC ID# 242F, PCGS# 85686

1901 Barber Quarter, PR68 Cameo  
Registry Set Essential

**3054 1901 PR68 Cameo PCGS.** Only 813 proof Barber quarters were struck at the Philadelphia Mint in 1901. The Mint switched to an all-brilliant finish for proofs the following year, largely eliminating the cameo contrast that collectors prized so much, and making the 1901 issue much more popular. Few survivors can match the quality and eye appeal of the present PR68 example. This remarkable specimen exhibits razor-sharp definition on all design elements and the richly frosted devices contrast boldly with the deeply mirrored fields to create a stunning white-on-black cameo flash when the coin is tilted in the light. The surfaces are virtually perfect and eye appeal is terrific. Population: 3 in 68 Cameo, 0 finer (9/20).

**From The Maltese Collection.**

NGC ID# 242G, PCGS# 85687

1910 Barber Quarter, PR67+ Deep Cameo  
Finest Certified at PCGS

**3055 1910 PR67+ Deep Cameo PCGS.** Only 551 proof Barber quarters were struck in 1910. Fortunately, some incredibly high-quality examples were saved by contemporary collectors, including the high-end Superb Gem offered here. This coin exhibits razor-sharp definition on all design elements and the devices display an unusually frosty texture for a coin of this period. Profound field-device contrast is apparent and close inspection with a loupe reveals no mentionable distractions. The surfaces are mostly brilliant-white, with just a trace of pale gold in selected areas. PCGS has graded only 10 Deep Cameo examples in all grades, with the finest being four specimens in PR67 Deep Cameo, including this sole coin in PR67+ Deep Cameo (9/20).

*Ex: FUN Signature (Heritage, 1/2014), lot 4234.*

**From The Maltese Collection.**

NGC ID# 242S, PCGS# 95696

1910 Quarter, PR68 Ultra Cameo  
Finest We Have Seen in a Decade

**3056 1910 PR68 Ultra Cameo NGC.** It has been more than a decade since we last had the pleasure of handling a 1910 proof Barber quarter in PR68 Ultra Cameo condition. This is a scarce issue in any grade with only 551 proofs minted, but only a handful meet the requirements for this lofty grade.

Both sides of this Superb Gem quarter are absolutely brilliant without the faintest trace of color. That lack of toning allows for the starkest degree of Ultra Cameo contrast between the thickly frosted, razor-sharp motifs and the glassy fields that surround them. Census: 5 in 68 Ultra Cameo (2 in 68 ★), 1 finer (9/20). NGC ID# 242S, PCGS# 95696

## STANDING LIBERTY QUARTERS

### 1916 Standing Liberty Quarter, MS63 Satiny Full Head Example

**3057 1916 MS63 Full Head NGC.** The 1916 is one of the biggest “stoppers” in the Standing Liberty quarter series for collectors of all levels, in low circulated grades through Mint State. This is a collectible Mint State coin, showing Full Head detail and bold central detail on the eagle. The gown lines of Liberty’s figure are soft as always on this issue, as the obverse die was not sharply engraved at the Mint. Light golden toning graces the satiny surfaces of this piece, and only minimal abrasions are seen. Eye appeal is pleasing for the grade. The 1916 is an essential piece of any complete Standing Liberty quarter collection, and in many cases the selection of a 1916 representative is the most important decision for collectors of this series.  
NGC ID# 242Y, PCGS# 5705

### 1919-D Quarter, MS65 Full Head Major Rarity in This Condition

**3058 1919-D MS65 Full Head NGC.** A 1919-D is Gem Full Head is a rarity that most Standing Liberty quarter collectors will never see in person, let alone own. The only dates offered at auction less frequently in this condition are the 1927-S, 1920-S, and 1918/7-S, the last of which does not actually exist this fine in Full Head. We rank the 1919-D as one of the foremost keys in the series in MS65 Full Head and finer.

This example displays the usual satin luster and near-brilliant appearance with hints of light champagne toning. Expected weakness occurs on the shield rivets, central gown folds, and the top of the date numerals. But Liberty’s head is sharp, and there are no distracting abrasions. An excellent Registry Set acquisition. Census: 6 in 65 Full Head, 4 finer (9/20).  
NGC ID# 243C, PCGS# 5731

## PROOF WASHINGTON QUARTERS

1937 Washington Quarter, PR68  
Tied for Finest Certified at PCGS

**3059 1937 PR68 PCGS. CAC.** The 1937 proof Washington quarter boasts a mintage of just 5,542 pieces, the smallest proof output of any denomination that year. The Washington design was relatively new in 1937, but the motifs were not perceived as attractive or artistic, and the demand for single proof examples was quite small. The great majority of the coins were sold as part of complete proof sets. The date enjoys much greater popularity with present-day collectors.

The present coin is a magnificent PR68 example, with deeply mirrored surfaces and razor-sharp definition on all design elements. Attractive traces of aquamarine toning add to the stunning eye appeal on both sides. Housed in a green label holder. Population: 6 in 68, 0 finer. CAC: 1 in 68, 0 finer (8/20).

Ex: Long Beach Signature (Heritage, 6/2013), lot 4494.

From The Maltese Collection.

NGC ID# 27HP, PCGS# 5976

1952 Quarter Dollar, PR67 Deep Cameo  
None Finer at PCGS

**3060 1952 PR67 Deep Cameo PCGS.** Appreciable cameo contrast and flashy, reflective fields provide this Superb Gem with an outstanding degree of visual appeal. Scattered tiny splashes of toning appear on both sides, but primarily on the right portion of the obverse. The hues include tan and gray, with a tiny splash of turquoise. Population: 4 in 67 Deep Cameo, 0 finer (8/20).

Ex: FUN Signature (Heritage, 1/2014), lot 4325.

From The Maltese Collection.

NGC ID# 7HV5, PCGS# 95984

## EARLY HALF DOLLARS

1802 O-101 Half Dollar, AU50  
Low-Mintage Heraldic Eagle Date

**3061 1802 O-101, T-1, R.3, AU50 PCGS. CAC.** Tompkins Die State 1/1, no die crack through (UNIT)ED. The Mint required only a single die marriage to strike the reported mintage of 29,890 coins, although there is no guarantee all of those were actually dated 1802. Some could well have been dated 1801, and equally, some of the half dollars struck in 1803 could have been from 1802-dated dies. At any rate, both the 1801 and 1802 half dollar dates, the first of the Heraldic Eagle design, are both low-mintage challenges for collectors. This piece is an attractive, evenly toned piece with only light circulation wear showing on the high points, a piece that probably lies with a few other coins slightly below the Condition Census for the date. This AU50 piece along with only one other have the green CAC bean, and CAC has also green-stickered one each in AU53, AU55, and two in AU58 with none finer (9/20). NGC ID# 24EE, PCGS# 39269 Base PCGS# 6065

## BUST HALF DOLLARS

1817 Half Dollar, O-111, MS64  
Sumptuous Patina and Sharp Strike

**3062** 1817 O-111, R.1, MS64 PCGS. easily identified by the sharp die-defect line extending downward from the ribbon end into the obverse right field. Sumptuous patina is abundant here, a glorious amalgam of jade, rose, pale blues and greens, simply a coin with tremendous eye appeal for aficionados of toned coins. The strike is sharp on all stars and devices, even though a few of the uppermost ones are drawn toward the edge. Population: 21 in 64 (4 in 64+), 3 finer (8/20).  
NGC ID# 24F6, PCGS# 39504 Base PCGS# 6109

1819/8 Half Dollar, MS64+  
Large 9, O-102

**3063** 1819/8 Large 9, O-102, R.2, MS64+ PCGS. Overton lists six different overdate die marriages, but O-102 is distinctive. Dr Glenn Peterson identifies the variety by a dentil space below the 0 in 50 C, and small triangular defects on the Ts in STATES. The present lustrous near-Gem ranks among the finest survivors of the variety. Light rose-gold toning visits the margins, and the strike is sharp throughout. Both sides are remarkably free from contact. The technical quality and preservation are outstanding, as is the eye appeal. Ideal for the advanced type, date, or variety collector. Population: 2 in 64, 2 finer (9/20).  
NGC ID# 24FC, PCGS# 39556 Base PCGS# 6119

1828 O-118 Half Dollar, MS66  
Square Base 2, Small 8, Large Letters

**3064** 1828 Square Base 2, Small 8s, Large Letters, O-118, R.3, MS66 NGC. The reverse is famous for the running-together of the words UNITED and STATES. This is a dramatically toned and visually stunning Premium Gem that would be important even if it were the commonest variety; that it is from a scarce and highly popular die pair is icing on the proverbial cake. On the obverse, blue-green outer toning shifts quickly to peach-gold, all over bright and semireflective surfaces. Similar shades wash over the reverse, less dramatically than on the obverse, but vibrantly lustrous and attractive. The needle-sharp central devices are not only free of wear, but they eschew most marks as well. This coin is tied at the top of Steve Herrman's Condition Census for the variety according to his Autumn, 2020 revision #57 (9/20).  
*From The Maltese Collection.*  
NGC ID# 24FR, PCGS# 39773 Base PCGS# 6151

## PROOF BUST HALF DOLLAR

1826 O-102 Half Dollar, PR63  
Extremely Rare in Proof Format

- 3065 1826 PR63 PCGS. O-102, High R.7 as a Proof.** Proof 1826 half dollars have a long and well-substantiated numismatic history, dating back to several prominent, early collections. More recently, both PCGS and NGC have authenticated proof 1826 half dollars, both from the O-101 and O-102 die pairs. More examples of the O-101 exist in proof format, contrary to Walter Breen's research into the 1826 proofs, when he believed only the O-102 dies were used to strike proofs. We believe the present coin traces to the Ira Reed and T. James Clarke collections. Breen described this exact coin in his *Proof Encyclopedia* as having been "struck twice, but the design was still not properly brought up: weakness on part of drapery and STA." We can add that stars 1, 4, and 5 lack central detail as well. The obverse fields show excellent reflectivity, with subtle but visually impressive iridescent toning in the fields. The toning deepens on the reverse into wide swaths of grayish-blue and pale-rose patina. Our research shows only six proofs are confirmed for both varieties combined, with just two of those from the scarce O-102 die marriage.  
NGC ID# 27SF, PCGS# 6203

## PROOF SEATED HALF DOLLAR

1862 Seated Half, PR67 Cameo  
Stunning Patina, Civil War Date

- 3066 1862 PR67 Cameo PCGS.** Seldom indeed does one find a Cameo proof 1862 half dollar, and rarer still are such coins in PR67 Cameo grade of this stunning coin. From the reported production of only 550 pieces for the year, PCGS reports an even dozen grading events from PR66 (non-Cameo) to PR66+ Cameo—but only two pieces, or perhaps this coin twice, have achieved the PR67 grade level, both of them Cameo (9/20). The colors are intense and range from steel-blue and rose dominating the obverse to lighter sky-blue and pale honey-gold on the upper reverse. In addition to the aesthetic allure of this Superb Gem Cameo coin, the cachet is considerably enhanced by the Civil War date, an era which many collectors find equally rewarding and challenging. Population: 2 in 67 Cameo, 0 finer (8/20).  
NGC ID# 27TN, PCGS# 86416

## BARBER HALF DOLLAR

### 1904-S Barber Half Dollar, MS64 Elusive Series Key

- 3067 1904-S MS64 NGC.** From a small business-strike mintage of 533,038 pieces, the 1904-S Barber half dollar is an underrated key and one of the most challenging issues of the series in high grade. Q. David Bowers notes the population data for this issue is inflated by resubmissions and crossovers and Mint State examples are much more elusive than those figures indicate. This impressive Choice example exhibits well-detailed design elements, with just a touch of the usual softness at the juncture of the shield and eagle's right (facing) wing. The well-preserved surfaces radiate satiny mint luster, with outstanding eye appeal. Census: 4 in 64, 3 finer (9/20). NGC ID# 24MP, PCGS# 6500

## PROOF BARBER HALF DOLLARS

### 1893 Barber Half Dollar, PR67 Cameo Concentrically Toned, Thickly Frosted

- 3068 1893 PR67 Cameo PCGS.** Few proof examples exist any finer than this amazingly toned Superb Gem, with PCGS and NGC combined reporting just three proofs certified in a higher numeric grade (9/20). Neon blue encircles the rims, with gradations of lavender and reddish-gold meeting at the highly contrasted central devices. The mirrored fields are unmarked and reveal none of the hairlines often present on even high-grade proofs of this era. The strike is mostly bold except at the top right corner of the shield and the adjacent eagle's wing, likely keeping this early Barber half proof from an even higher grade.  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3927.*  
**From The Maltese Collection.**  
NGC ID# 24NV, PCGS# 86540

1897 Barber Half Dollar, PR68 Cameo  
Magnificently Toned  
A 'Must Have' Coin for Barber Collectors

- 3069 1897 PR68 Cameo PCGS.** The Mint produced 731 proof Barber half dollars in 1897. PCGS has certified 336 specimens, while NGC has seen 330 pieces. A mere 10 of these have been designated as PR68 Cameos by the two services, with none finer. A melange of variegated deep gunmetal-blue, reddish-gold, orange, ice-blue, and yellow-gold toning adorns both sides of this magnificent example, and crisply defined design features complement the highly attractive color palette. Additionally, immaculately preserved surfaces round out the coin's outstanding eye appeal. This is a "must have" coin for the collector of toned Barber proof coinage. Population: 3 in 68 Cameo, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3928.*  
**From The Maltese Collection.**  
NGC ID# 24NZ, PCGS# 86544

1898 Half Dollar, PR67 Cameo  
Mix of Contrast and Patina

- 3070 1898 PR67 Cameo PCGS. CAC.** From a small proof mintage of 735 pieces, this magnificent Superb Gem exhibits sharply detailed design elements throughout. The mirrored fields shine through iridescent shades of gold, gray, and cobalt-blue toning. Exceptional eye appeal complements the high technical grade. Population: 9 in 67 (5 in 67+) Cameo, 2 finer. CAC: 6 in 67, 2 finer (8/20).  
*Ex: FUN Signature (Heritage, 1/2013), lot 4441.*  
**From The Maltese Collection.**  
NGC ID# 24P2, PCGS# 86545

1899 Barber Half, PR67 Deep Cameo  
Registry Set Contender

- 3071 1899 PR67 Deep Cameo PCGS.** The Philadelphia Mint struck 846 Barber half dollars in proof format in 1899 and the issue has always been popular because of its turn-of-the-century date. This spectacular Superb Gem proof exhibits fully struck design elements and virtually flawless surfaces, with highlights of emerald-green and cerulean-blue toning. The deeply mirrored fields contrast profoundly with the frosty devices. Population: 6 in 67 (1 in 67+) Deep Cameo, 1 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 24P3, PCGS# 96546

## WALKING LIBERTY HALF DOLLARS

1919-S Half Dollar, MS65  
Challenging in High Grades

**3072 1919-S MS65 PCGS.** This lower-mintage San Francisco issue (1.5 million coins struck) represents one of the more challenging Walking Liberty half dollars in the series. PCGS ranks the 1919-S fifth rarest out of 66 issues in MS60 or above, though it “only” ranks 12th rarest in MS65 or higher.

This Gem is brilliant with radiant mint frost over each side. Liberty’s head and branch hand, as well as the date and eagle’s leg feathers are all well-detailed. Just a handful of trivial reeding marks appear in the fields. Encapsulated in a green label holder. Population: 44 in 65 (5 in 65+), 13 finer (9/20). NGC ID# 24R2, PCGS# 6579

1921-D Half Dollar, MS64  
Satiny and Strongly Struck  
Important Denver Mint Key

**3073 1921-D MS64 PCGS.** With only 208,000 coins struck, few Walking Liberty half dollars are as challenging as the 1921-D and none claim lower mintages. The average certified grade awarded by the leading certification services is only Fine 15, with this near-Gem grading nearly 50 points higher. Liberty’s head and branch hand display excellent strike definition. Pale golden patina allows for considerable remaining brilliance at the centers on each side, and the underlying surfaces are characteristically satiny. This Choice Uncirculated Denver key date would undoubtedly serve as a highlight in an advanced set of Walker halves. NGC ID# 24R7, PCGS# 6584

1921-S Walking Liberty Half, MS64  
Low-Mintage Key

- 3074 1921-S MS64 NGC. CAC.** The 1921-S Walking Liberty half dollar claims a small mintage of 548,000 pieces and few high-quality examples were saved by contemporary collectors. As a result, the 1921-S is the most elusive issue of the series in Mint State. In addition, the 1921-S was not a well-produced issue, and almost all examples seen are softly struck on the obverse, with below average luster characteristics. This impressive Choice specimen exhibits well-detailed design elements, with a touch of the expected softness on Liberty's wreath hand and the eagle's leg. The well-preserved surfaces are blanketed in attractive shades of golden-tan and lavender-gray toning, with occasional specks of amber. Vibrant mint luster shines through the patina. Census: 54 in 64, 23 finer. CAC: 11 in 64, 4 finer (9/20). NGC ID# 24R8, PCGS# 6585

PROOF WALKING LIBERTY HALF DOLLAR

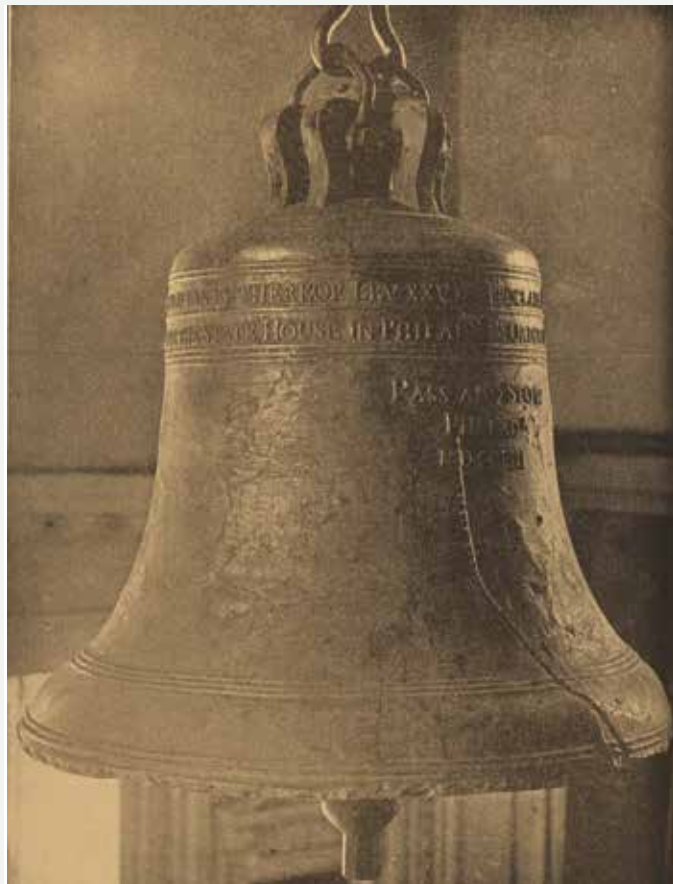

1936 Walking Liberty Half, PR67  
Iridescently Toned, Only One Finer

- 3075 1936 PR67 PCGS. CAC.** The 1936 Walking Liberty half dollar was the first proof issue of the "modern era," struck in the tiny amount of 3,901 pieces during a period in which collectors could order any proof denomination severally or individually. Thus it is that all five proof denominations made during the year have slightly differing mintages — but all minuscule. The present Superb Gem is a piece that is unlikely soon to be bettered at PCGS, as that service has certified only a single example in the PR68 grade. Generous luster prevails underneath a moderate layer of greenish-gold patina with amber and russet accents more prominent at the rims. The strike is every bit as sharp as would be expected, and the eye appeal is top-notch. Population: 64 in 67 (8 in 67+), 1 finer. CAC: 28 in 67, 0 finer (8/20). *From The Maltese Collection.* NGC ID# 27V4, PCGS# 6636

## FRANKLIN HALF DOLLARS

1949 Franklin Half, MS67 Full Bell Lines  
Early Series Condition Rarity

**3076 1949 MS67 Full Bell Lines PCGS. CAC.** All three of the 1949-PDS Franklin half issues can be considered as “darned difficult” with Full Bell Lines designation in Mint State grades of 66 or finer. The 1949-S issue, however, despite its sometimes perception as a key date, is actually the most available in MS67 Full Bell Lines. The 1949-D is unknown at both PCGS and NGC above MS66+ Full Bell Lines. The present MS67 Full Bell Lines 1949 Philadelphia coin is one of only seven such submissions (perhaps not all *different coins*) at PCGS, and one MS67+ is finer. NGC has seen a single 1949 in this grade. The surfaces boast soft, satiny luster throughout, freckled russet and bluish-gold patina lending great eye appeal to both sides. Population: 8 in 67 (1 in 67+) Full Bell Lines, 0 finer. CAC: 4 in 67, 0 finer (9/20). NGC ID# 24ST, PCGS# 86653 Base PCGS# 86653

## EARLY DOLLARS

# 1794 Flowing Hair Dollar

## B-1, BB-1, VF Sharpness

**3077 1794 B-1, BB-1, R.4 — Tooled — PCGS Genuine. VF Details.** Although the Mint Act of April 2, 1792 provided the official government approval for construction of the Philadelphia Mint building and the installation of the first coining press and related equipment, the Mint had no reliable source of silver bullion. Depositors brought foreign silver coin, tableware, and silver wrought items, but there was no bullion fund or stockpile of previously minted coinage to provide immediate payment for the raw silver. Depositors were required to wait until their account could be settled with freshly minted coins. During the first year of silver coinage operations in 1794, the sum total of the Mint's output was 1,758 silver dollars and 5,300 half dollars.

Even that small mintage would not have been accomplished without the intervention of Mint Director David Rittenhouse, who personally provided 1,734.50 troy ounces of refined silver ingots for the mintage of the inaugural silver dollars.

Perhaps only 140 or so 1794 Flowing Hair dollars survive from that first-year mintage. Other estimates suggest as many as 150 survivors. Numismatist and researcher Jack Collins spent some 25 years researching the 1794 issue, with much of his work forming the foundation for the comprehensive *The Flowing Hair Silver Dollars of 1794: An Historical and Population Census Study* by Martin A. Logies, which documents 134 distinct specimens in all grades.

The current offering is one of those documented coins, coming out of the May, 1993 Stetson University Collection auction by Bowers and Merena as lot 424. There, it was described as:

"Lightly cleaned long ago, now naturally retoning in shades of gold at the rims. A suitable representative, for the grade, of our nation's first silver dollar coinage..."

Pedigree markers include characteristics of Die State IV, with obverse clash marks removed by die lapping that also shortened the hair curls on Liberty. Weakness of strike from misaligned dies affect the lower half of the date and stars 1 through 8. A short scratch between 9 and 4 of the date and a small rim bump above the Y of LIBERTY help identify the piece. The reverse shows numerous adjustment marks through the letters in UNITED in a diagonal pattern unique to this coin.

The coin was offered in raw VF condition in the Stetson sale. It has since been certified in a PCGS Secure holder as PCGS Genuine — Tooled — with VF Details. The most noticeable area of tooling is at STATES on the reverse, where a planchet streak or flaw was smoothed. Although not noted on the holder, the coin has been cleaned (as suggested in its earlier 1993 appearance).

At least two dozen of the surviving 1794 dollars exhibit some kind of tooling, damage, repair, or other impairments. Few of the those pieces retain the detail and overall collectibility of this example, which provides an interesting opportunity for the many collectors who desire an example of "America's first dollar" for their collection.

Ex: Stetson University Collection (Bowers and Merena, 5/1993), lot 424; FUN Signature (Heritage, 1/2015), lot 4151; ANA Signature (Heritage, 8/2015), lot 4148.

1795 Flowing Hair Dollar, B-1, BB-21  
AU Sharpness

- 3078 1795 Flowing Hair, Two Leaves, B-1, BB-21, R.2 — NGC Details. AU. The surfaces have a somewhat bright look overall, but any cleaning likely occurred long ago. Much appeal remains, both in the level of detail and aesthetically. This is a highly collectible example, despite a few scattered spots of dark toning. A couple of thin scrapes on the reverse blend in well with light planchet adjustment marks that appear in the upper-left reverse.

1795 Flowing Hair Dollar, XF40  
B-5, BB-27, Three Leaves Type Coin

- 3079 1795 Flowing Hair, Three Leaves, B-5, BB-27, R.1, XF40 PCGS. Bowers Die State II, as often seen. A well-detailed example of this plentiful Flowing Hair variety, showing steel-gray surfaces with tinges of gold toning near the margins. Some adjustment marks are seen in the obverse periphery and within the recesses of Liberty's hair, not unusual for the issue. No major abrasions are seen. NGC ID# 24WZ, PCGS# 39977 Base PCGS# 6852

## PROOF SEATED DOLLAR

1872 Seated Liberty Dollar, PR66  
Nicely Contrasted Cameo Example

- 3080 1872 PR66 Cameo PCGS. OC-P1, R.2. Osburn-Cushing Die State a/a. A generous mintage of 950 proof Seated Liberty dollars was accomplished at the Philadelphia Mint in 1872, to accompany a large production of 1.1 million business strikes. All the proofs were struck from a single pair of dies. This was the only use of the obverse die, but the reverse was used again to strike all the proofs in 1873. The reverse shows strong doubling on the motto and the OC-P1 is a Top 30 Variety.

The present coin is a spectacular Premium Gem proof, with sharply detailed, richly frosted design elements that contrast boldly with the deeply reflective fields to create an intense cameo effect. The impeccably preserved surfaces are enhanced by subtle hints of lavender-gray toning. Population: 2 in 66 Cameo, 1 finer (9/20). NGC ID# 252U, PCGS# 87020

## TRADE DOLLAR

1878-CC Trade Dollar, MS63  
Final-Year Carson City Key

**3081 1878-CC MS63 PCGS.** Trade dollar coinage was suspended in 1878 at all mints, with the exception of proofs from Philadelphia that were struck for sale to collectors through 1883 (excluding, of course, the ultra-rare 1884 and 1885 proofs not known to the numismatic community until years later). The Trade dollar was never intended to circulate domestically, although it eventually did, upsetting commerce with its heavy silver weight compared to subsidiary denominations. No “business strike” Trade dollars were produced at Philadelphia in 1878, although Carson City and San Francisco both struck a number of coins before receiving the order to halt production. San Francisco struck more than 4.1 million 1878 Trade dollars, whereas Carson City managed a production of only 97,000 coins. The 1878-CC is today one of the condition keys of the series.

This Select Mint State example displays a sharp strike and vibrant cartwheel luster, with only trivial signs of surface contact. Both sides are mainly brilliant, save for a crescent of orange-gold toning along the lower reverse border. Eye appeal is outstanding. Population: 7 in 63 (1 in 63+), 10 finer (9/20). NGC ID# 253F, PCGS# 7047

## MORGAN DOLLARS

1879-CC Morgan Dollar, Capped Die  
Rim-Toned MS65

**3082 1879-CC Capped Die, VAM-3, MS65 PCGS.** A Top 100 Variety. Although series specialists are now well aware that the VAM-3 1879-CC is actually a Large CC Over Small CC with some attempted die-repair work on the part of a long-ago engraver, the old Capped Die moniker persists. Equally persistent are the many Carson City dollar enthusiasts seeking the finest example of this date they can acquire. For one forthright bidder, the search ends here. This Gem shows a light cast of gold in the centers, ceding to deep russet-red at the margins of both sides, accented by touches of steel-blue at the extremes. The critical high points, and indeed the surfaces overall, are virtually free of any distracting contact. This would be a capstone coin in even the finest Registry Set of Morgan dollars. Population: 15 in 65 (4 in 65+), 0 finer (9/20). NGC ID# 253T, PCGS# 133869 Base PCGS# 7088

1880-O Dollar, MS64+ Deep Mirror Prooflike  
Among the Finest at Both Services

**3083 1880-O MS64+ Deep Mirror Prooflike PCGS. CAC.** Small or Micro O. The 1880-O is a plentiful New Orleans issue, but it is much more difficult to locate with Deep Mirror Prooflike surfaces. This high-end near-Gem with CAC approval is remarkably clean for the grade. Mostly untoned surfaces exhibit a couple of areas of thin golden color at the lower obverse and upper reverse. Population: 40 in 64 (2 in 64+) Deep Mirror Prooflike, 0 finer. CAC: 3 in 64, 0 finer (9/20). NGC ID# 2543, PCGS# 97115

## 1883-CC Morgan Dollar, MS68 Among the Few Finest Graded

**3084 1883-CC MS68 PCGS. VAM-3.** The diagnostic for this VAM variety is the small dash remaining under the second 8. There was an earlier state for these dies, VAM-3A, of which some evidence still shows on this piece: remnants of die clashing in a V shape under Liberty's neck, and some remaining bits of the "clashed ST" (from TRUST on the reverse), but these latter have been largely polished off the dies. There is also a diagnostic dot on the upper-right loop of the first 8 for this variety, visible here.

The 1883-CC Morgan dollar is a common issue among the Carson City dates, a trait attributed to its survival in copious numbers in the historic General Services Administration sales of decades ago. Q. David Bowers' *Guide Book of Morgan Dollars* pegs the survivors of the original production of 1,204,000 pieces at more than 755,000 coins in a GSA inventory — about 73% of the total made.

The 1883-CC joins its siblings, the 1882-CC and 1884-CC issues, as the three most-common Carson City dates in those GSA sales. The typical 1883-CC coin is well-struck with good luster, usually untoned or lightly toned, and most average in the MS63-MS64 range. The present coin is among only six grading events seen at PCGS to date (and we are sure that several of those are for the same coin, the Battle Born example), and there are none finer at either service. NGC reports two examples in MS68 (9/20). This piece displays almost miraculous preservation, given the decades of bag storage that the great majority of survivors likely endured. Only the most trivial evidence of coin-to-coin contact appears on Liberty's face. The silvery surfaces are flashy and virtually untoned, save for a touch of gold around the obverse rim. The strike is full throughout, and the reverse shows surfaces that are nearly unmarked. Some typical die clashing is visible on the right reverse by the eagle's wing.

For the finest Registry Set, this piece should see extremely spirited bidding among the many lovers of untoned, completely original Morgan dollars.

NGC ID# 254H, PCGS# 7144

1884-S Morgan Dollar, MS63+  
Key Issue in High Grade  
Conditionally Rare Any Finer

**3085 1884-S MS63+ NGC.** The 1884-S Morgan dollar claims an adequate mintage of 3.2 million pieces, but the issue is much more elusive in high grade than the generous production total would suggest. Undoubtedly, most of the mintage was released into circulation near the time of issue, and examples in lower circulated grades are plentiful in today's market. Mint State examples are a different story however, and coins that grade better than MS63 are rare.

It seems that collectors in the first quarter of the 20th century were not aware of the elusive nature of the 1884-S in high grade. Two coins that appeared in B. Max Mehl auctions in 1914 and 1915 realized only \$1.20 and \$1.15, respectively. Q. David Bowers reports several bags were released from San Francisco Mint storage in 1926, which were quietly absorbed by the numismatic community and probably reinforced the perception that the coins were not rare. However, the bulk of the government stockpile was likely melted under the provisions of the Pittman Act in 1918, as the numbers released in later years were never large, and the issue attracted little attention over the years.

Perceptions changed after the Treasury releases of the 1960s. The 1884-S was not well-represented in those sales and series specialists recognized that the issue was scarce in all Mint State grades and rare above MS63. Today, the 1884-S is recognized as an important key to the Morgan dollar series in high grade.

This Plus-graded Select specimen exhibits sharply detailed design elements, with just a trace of softness on the hair above the ear, due to some striations that were not completely struck out. The surfaces are lightly marked and lightly toned, with vibrant mint luster underneath and a few areas of darker slate-gray toning on the lower obverse. Census: 49 in 63 (1 in 63+), 15 finer (9/20).

NGC ID# 254P, PCGS# 7156

1895-S Dollar, MS64+  
High-End Semikey

**3086 1895-S MS64+ PCGS.** A lightly frosted and partly reflective example of this semikey issue that is oh-so-close to a far more expensive Gem grade. Minor white and gray toning-dots appear in the obverse fields, but the remainder of the coin is silver. PCGS has graded only 52 pieces as MS65 or better (9/20).

*Ex: Long Beach Signature (Heritage, 9/2013), lot 6648.*

**From The Maltese Collection.**

NGC ID# 255Z, PCGS# 7238

1921 Morgan Dollar, MS67  
Virtually Untoned and Frosty

**3087 1921 MS67 PCGS.** Given the enormous, usually slipshod production of the 44+ million 1921 Morgan dollars and the rough bag storage that most of them endured, it is a small miracle that Superb Gems such as the present piece still survive, if infrequently found. This piece is almost completely untoned save for faint glimmers of gold in the centers of each side. Gorgeous frosty luster is a bonus. A couple of wispy peripheral die cracks are noted. A Registry Set prize. Population: 19 in 67, 0 finer (8/20). NGC ID# 256X, PCGS# 7296

PROOF MORGAN DOLLARS

1884 Morgan Dollar, PR66 Cameo  
Well-Contrasted, Impeccably Preserved

**3088 1884 PR66 Cameo PCGS.** While early collectors seldom differentiated between circulation strikes and proofs, they clearly preferred proofs over coins struck for circulation. The Mint cooperated to the extent of 875 proofs in 1884, but only about half of that total survives to this day. Cameo proofs represent a distinct minority of the survivors. This Premium Gem Cameo displays attractive, reddish-gold toning that deepens at the outer margins, surrounding well-frosted and sharply struck devices. Carefully preserved mirrored surfaces are free of any signs of mishandling or contact, with excellent eye appeal. Population: 11 in 66 (3 in 66+) Cameo, 4 finer; 2 in 66 Deep Cameo, 1 finer (9/20).

**From The Maltese Collection.**

NGC ID# 27ZC, PCGS# 87319

1885 Morgan Dollar, PR67★ Cameo

**3089 1885 PR67★ Cameo NGC.** The Mint struck 930 proof Morgan dollars in 1885. Q. David Bowers notes that this issue often possesses “medium cameo contrast. More than just a few of this date have been dipped so many times that the mirror surfaces are dull gray.” The present specimen is certainly one of the most eye-appealing examples of this issue. The cameo contrast verges on an Ultra Cameo designation, with thick mint frost over the ice-white devices providing stark contrast against the profoundly mirrored fields. Just the faintest touch of gold patina graces the far rims on each side. Evidence of contact is essentially absent, although a few wispy hairlines appear under a loupe. Census: 7 in 67 Cameo (2 in 67★), 3 finer (9/20).

*Ex: Summer FUN Signature (Heritage, 7/2011), lot 4235, as PR67 Cameo NGC, which realized \$13,800.*

NGC ID# 27ZE, PCGS# 87320

1890 Morgan Dollar  
Beautifully Toned PR67

**3090 1890 PR67 PCGS. CAC.** An amazing Superb Gem, this lovely proof Morgan dollar displays vibrant gold, lilac, and blue toning over deeply mirrored fields and highly lustrous devices. Despite its excellent cameo contrast, the coin has not garnered a Cameo designation from the grading service simply because the toning prevents an obvious decision about the degree of contrast. The strike is a bit soft in the centers, a common trait for Morgan dollars from this era. Population: 11 in 67 (1 in 67+), 0 finer. CAC: 3 in 67, 0 finer (9/20).

Ex: Dallas Signature (*Heritage*, 10/2008), lot 1530; FUN Signature (*Heritage*, 1/2009), lot 5087.  
NGC ID# 27ZK, PCGS# 7325

PEACE DOLLARS

1922-S Peace Dollar  
Conditional Rarity, MS66

**3091 1922-S MS66 PCGS.** Although one does not normally think of the 1922-S Peace dollar as any sort of conditional rarity, given its large production exceeding 17 million coins, but it nonetheless is rare in Gem Mint State and quite rare any finer. The present MS66 PCGS piece is among 21 submissions in that grade along with one MS66+ (9/20). This piece is virtually untoned, showing abundant quicksilver luster and extensive die-preparation lines, clearly an early strike from newly polished dies. The strike is sharp overall, save for trifling weakness on Liberty's central hair curls. This is a Peace dollar date that seldom appears in so high a grade. Series aficionados will act accordingly.  
NGC ID# 257E, PCGS# 7359

1925-S Peace Dollar, MS65  
Notable Condition Rarity

**3092 1925-S MS65 NGC.** The 1925-S is one of the most challenging issues in the Peace dollar series in Gem condition. Indeed, only a single NGC-graded MS66 is known finer. Brilliant, finely textured surfaces radiate frosty mint luster from each side. Void of significant imperfections. Census: 78 in 65 (3 in 65+), 1 finer (9/20).  
NGC ID# 257M, PCGS# 7366

1935 Peace Dollar, MS67  
Tied for the Finest Certified

**3093 1935 MS67 NGC.** The final year of production for the Peace dollars, unless a 1964-dated example comes to light some day, and even then, the 1935 and 1935-S Peace dollars will be the final collectible issues. Introduced in 1921, the design was struck continuously through 1928, and then discontinued until 1934 for its final two years. This Superb Gem is boldly defined with highly lustrous and frosty silver surfaces. This piece is tied for the finest that has been certified and presents an important opportunity for the advanced collector. Census: 7 in 67 (1 in 67+), 0 finer (9/20). NGC ID# 2582, PCGS# 7378

## GOLD DOLLARS

1864 Gold Dollar, MS67  
Pristine, Lustrous Surfaces

**3094 1864 MS67 NGC.** The 1864 gold dollar claims a small wartime mintage of just 5,900 pieces, with 2,400 coins delivered early in the year on February 23. The remaining 3,500 examples were delivered on December 6, in time for the holiday gift season. The issue is scarce-to-rare in all grades today, but some high-quality examples were saved by contemporary collectors, including the present coin. This spectacular Superb Gem exhibits well-detailed design elements, with some faint clash marks on the obverse. The impeccably preserved orange-gold surfaces radiate vibrant mint luster, with terrific eye appeal. Census: 6 in 67 (1 in 67+★), 4 finer (9/20). NGC ID# 25CY, PCGS# 7563

1872 Gold Dollar, MS67 Prooflike  
Absolute and Conditional Rarity

1881 Gold Dollar, MS68+  
Only One Coin Finer at PCGS

**3095 1872 MS67 Prooflike NGC.** With a mintage of 3,500 circulation strikes and 30 proofs, the 1872 gold dollar is often found with reflective surfaces and well-contrasted devices. This Superb Gem example stands out in both regards, with gleaming, mirrorlike fields and pinpoint-sharp, frosted devices. Marks are limited to a pair of tiny ticks below Liberty's ear, visible under a loupe. The small mintage was not well-saved, with perhaps only two dozen or so pieces at or above the MS63 level. This MS67 Prooflike coin ranks near the top of the circulation strike survivors, with wonderfully preserved honey-gold surfaces and dazzling eye appeal. Census: 2 in 67 Prooflike, 1 finer (9/20).

NGC ID# 25D9, PCGS# 783917 Base PCGS# 7572

**3096 1881 MS68+ PCGS.** This is about as close to a perfect gold dollar as one could hope to find. Every aspect of this diminutive coin's design is absolutely fully rendered, including the cotton bolls on the headdress, the curls, legends, wreath elements, and bow knot. Both sides feature luminous yellow-gold color and vibrantly frosted mint luster. The 1881 claims a limited mintage of 7,620 coins, and while the average graded awarded falls between MS64 and MS65, on a single example is graded higher than this Superb Gem at PCGS. Population: 47 in 68 (5 in 68+), 1 finer (9/20).

NGC ID# 25DK, PCGS# 7582

## PROOF GOLD DOLLAR

1872 Gold Dollar, PR67 Ultra Cameo  
Razor-Sharp and Boldly Contrasted  
Finest at NGC, Tied Finest Overall

**3097** 1872 PR67 Ultra Cameo NGC. JD-1, R.6. The 1872 proof gold dollar is a significant gold rarity, although not always recognized as such due to the comparatively large proof mintages from late in the series. For the 1872, just 30 proofs were struck. The obverse die was the same as on the 1871 proofs, while the reverse die exhibits a date that is well centered although placed minutely high. There is no question as to the proof status of this coin, as the definition of the head and wreath are razor-sharp, and the fields display an extremely deep mirror finish. Deeply frosted devices provide a strong cameo effect. Even under magnification, it is virtually impossible to detect any imperfections. A pair of tiny planchet flakes, as made, are noted near the lower truncation of Liberty's bust and in the right reverse field between the 2 of the date and the wreath. A small lintmark resides in the field below Liberty's close to the final A of AMERICA. Census: 1 in 67 Ultra Cameo, 0 finer (9/20). NGC ID# 25EF, PCGS# 97622

## EARLY QUARTER EAGLES

1825 BD-2 Quarter Eagle, XF Details  
Elusive in All Grades

**3098** 1825 BD-2, High R.4 — Surfaces Smoothed — PCGS Genuine. XF Details. Bass-Dannreuther Die State a/a. Of the three 1825 quarter eagle die varieties, only BD-2 is usually available, although even this issue is scarce, with a survivorship estimated at only 80 to 100 pieces in all grades. This XF-level example displays good detail and olive-gold patina. Some lightness of strike is seen on the shield, although it is minor. The surfaces are moderately abraded from an effort to repair them, although the scarcity of this type in general earns this piece significant appeal to budget-conscious collectors.

1830 Quarter Eagle, MS62  
BD-1, Only Dies for the Date

**3099** 1830 BD-1, R.4, MS62 PCGS. Bass-Dannreuther Die State a/a, no clashing, lapping, or cracks. A modest mintage of 4,540 Capped Head Left quarter eagles was accomplished in 1830, with a single die variety known for the date. This was the only use of the obverse die, but the hardy reverse was used to strike all the quarter eagles from 1830 until the design changed in 1834. John Dannreuther estimates the surviving population at 80-100 examples in all grades. This attractive MS62 example displays sharply detailed design elements in most areas, but there is some softness at the junction of the shield and eagle's feathers, due to some light planchet adjustment marks that were not completely struck out. The orange-gold surfaces are lightly marked and lustrous. Population: 12 in 62, 20 finer (9/20). PCGS# 45524 Base PCGS# 7670

## CLASSIC QUARTER EAGLE

1834 Classic Head Quarter Eagle, MS64  
HM-1, Frosty and Strongly Struck  
Profound Orange-Gold Color

**3100** 1834 Small Head, HM-1, R.2, MS64 NGC. CAC. This die marriage with the flat forecurl on Liberty's portrait is the most available 1834 Classic Head quarter eagle variety, representing about 54% of known survivors (about 1,550 coins total). According to Daryl Haynor, "The HM-1 is found beautifully and fully struck, with frosted and prooflike surfaces."

This is such a coin. Profound orange-gold surfaces display complete design definition. Although more frosty than prooflike, both sides are exceptionally clean and attractive. Census: 44 in 64 (7 in 64 ★), 17 finer. CAC: 9 in 64, 5 finer (9/20).  
PCGS# 764686 Base PCGS# 7692

## LIBERTY QUARTER EAGLES

1878-S Gem Quarter Eagle  
None Finer at PCGS  
Great Type Coin Choice

**3101** 1878-S MS65 PCGS. One of only two of the finest survivors graded of this issue at PCGS, the present Gem presents as an immaculate and evenly colored orange-gold piece that would make an excellent choice for a mid-19th century type coin. Given the moderate production of 178,000 quarter eagles, it comes as a surprise that not a single coin has graded finer at PCGS; after all, the 1878-S Morgan dollars are proof positive that the San Francisco Mint could churn out high-grade coins in quality during this era. Generous, flowing luster and a bold strike on this piece are in concert with the grade. NGC reports three in MS65 and one MS65+ (9/20).  
NGC ID# 25KZ, PCGS# 7829

1899 Quarter Eagle, Impressive MS68  
Sole Finest of the Date at PCGS

**3102 1899 MS68 PCGS.** The 1899 quarter eagle production continued a string of low mintages for this largely unloved denomination at 27,200 circulation strikes — a tad more than the 1898's mintage, and a bit less than that of the 1897. The areas of the country where "hard money" was needed were awash in Morgan silver dollars. This 1899 graded MS68 would form a phenomenal capstone for the Liberty Head type, the sole finest of this particular year graded at PCGS and among only 21 graded for the entire type (9/20).

Glints of greenish-gold on the obverse complement some reddish patina in the center reverse, on surfaces that are essentially immaculate. The strike is meticulously sharp. A tiny dark dot in the field near star 1 provides a pedigree identifier. This coin is a particularly important potential acquisition for the type collector seeking a 19th century example in this grade, as most of the aforementioned MS68 pieces are 20th century dates.  
NGC ID# 25LP, PCGS# 7851

## PROOF LIBERTY QUARTER EAGLES

1875 Quarter Eagle, PR64 Cameo  
 Legendary Gold Rarity  
 Only 20 Pieces Minted

**3103 1875 PR64 Cameo NGC. CAC. JD-1, R.6.** Any gold coin with an 1875 date has a special cachet for numismatists, as the year saw extremely low mintage totals for all gold denominations except the double eagle. Only 400 business strike quarter eagles were minted in 1875, and a mere 20 gold proofs were produced. Today, only 10 to 12 proof examples are known in private hands, with one example impounded in the National Numismatic Collection in the Smithsonian, and another in the ANS Collection.

The elusive nature of the proof 1875 quarter eagle was recognized at an early date. In its infrequent early auction appearances, catalogers emphasized the low mintage figure for the 1875, and touted its rarity. A typical citation from the William H. Woodin Collection (Thomas Elder, 3/1911), lot 1018 reads, "1875. Proof. Excessively rare. Only 20 coined, in proof. Plate." In recent times, auction appearances occur at intervals of one to two years, and the offerings are always hotly contested. The all-time high price at auction for an NGC-graded PR66 ★ Cameo example was lot 1848 of the Milwaukee Signature Auction (Heritage, 8/2007), where it realized \$92,000. A PCGS-certified PR66 Cameo brought \$102,145 in our 2019 ANA Signature.

The present coin is a magnificent Choice proof example, with razor-sharp definition evident on all design elements. Fine detail is present in Liberty's hair and all star centers show complete radials. The surfaces are a rich orange-gold color with intense green highlights. The fields are deeply mirrored, and contrast boldly with the frosty devices. We expect spirited competition from series enthusiasts when this lot is called. Census: 1 in 64 Cameo, 3 finer. CAC: 2 in 64, 1 finer (8/20).

Ex: FUN Signature (Heritage, 1/2011), lot 5035.

NGC ID# 287W, PCGS# 87901

1895 Quarter Eagle, PR69 Ultra Cameo  
Single-Finest Certified Example  
119 Examples Struck

**3104 1895 PR69 Ultra Cameo NGC. JD-1, High R.4.** The mintage of proof Liberty quarter eagles declined slightly in 1895, to just 119 pieces, the lowest production total of the series after 1893. The coins were delivered in quarterly batches of 35, 9, 21, and 54 pieces and a single die pair was used to strike all the proofs. The obverse die used on the proofs shows the 1 in the date placed slightly lower than on the business-strike die, with the logotype taking a small “bite” out of the dentils below. There are also a few die lumps on Liberty’s forehead on the proof die, and the reverse exhibits heavy swirling die polish in the clear stripes of the shield, making it possible to differentiate between proofs and prooflike circulation strikes. The 1895 proofs were produced to a high standard of quality and many examples are seen with Cameo or Deep Cameo surfaces. John Dannreuther estimates the surviving population at 60-70 examples in all grades. Only 6,000 business strikes were struck, and high-grade specimens are elusive. The high-quality of the proofs and their late 19th century date have always made them popular with type and date collectors, alike.

The present coin is the single-finest certified example at either of the leading grading services (9/20). This incredible PR69 example exhibits razor-sharp definition on all design elements and the deeply mirrored fields contrast profoundly with the richly frosted devices to create an intense cameo effect. The virtually perfect yellow-gold surfaces show the orange-peel texture of the best 19th century proofs and the overall eye appeal is terrific. This coin should find a home in the finest collection or Registry Set. NGC ID# 288J, PCGS# 97921

1899 Quarter Eagle, PR65 Ultra Cameo  
Outstanding 19th Century Type Coin

- 3105** 1899 PR65 Ultra Cameo NGC. JD-1, R.4. The Philadelphia Mint was at the height of its powers during the last few years of the 19th century. Proofs from that era — 1897, 1898, and 1899 — are well-known for their excellent strike definition and profound cameo contrast. This PR65 Ultra Cameo representative certainly embodies the proofs of that period. It is one of an estimated 90 to 110 survivors from a proof mintage of 150 pieces. Each side exhibits dramatic jet-black mirrors and thickly frosted yellow-gold motifs. There are a couple of microscopic contact flecks around Liberty's chin, but they are of no consequence. Eye appeal is outstanding. An ideal 19th century type coin. Census: 9 in 65 Ultra Cameo (1 in 65+, 2 in 65★), 31 finer (9/20). NGC ID# 288N, PCGS# 97925

1902 Two and a Half, PR66  
First Year of the All-Brilliant Finish

- 3106** 1902 PR66 NGC. JD-1, R.4. The 1902 quarter eagle recorded 193 proofs struck (all from a single pair of dies), of which 120 to 140 pieces are estimated to have survived today. This year also marked the Mint's brief experimentation with the all-brilliant (no contrast) finish for not only proof gold, but indeed proofs of all denominations and metals. While proof quarter eagles from this year are generally available in lower grades they are a challenge to locate in premium condition. This is a bright yellow-gold example whose surfaces are essentially flawless. The strike definition is complete throughout. Census: 7 in 66, 6 finer (9/20). NGC ID# 288S, PCGS# 7928

1903 Liberty Quarter Eagle, PR66  
Scarcer JD-2 Variety

**3107** 1903 PR66 NGC. JD-2, High R.5. A generous mintage of 197 proof Liberty quarter eagles was achieved at the Philadelphia Mint in 1903, with the coins delivered in quarterly batches of 96, 22, 27, and 52 pieces. Two different die pairs were used to strike the proofs this year. The coin offered here represents the scarcer JD-2 variety, with the date positioned farther to the right and the 1 farther from the dentils. John Dannreuther estimates the surviving population of JD-2 at 40-60 examples in all grades.

The Mint switched to an "all-brilliant" finish for proofs the year before, with minimal frosting of the design elements and little field/device contrast. The present coin is a spectacular Premium Gem, with razor-sharp definition on all design elements and deeply mirrored fields, but only modest cameo contrast. The well-preserved orange-gold surfaces add to the outstanding eye appeal. Census: 11 in 66 (2 in 66+, 1 in 66★), 6 finer (9/20). NGC ID# 288T, PCGS# 7929

THREE DOLLAR GOLD PIECE

1859 Three Dollar Gold, MS64  
Seldom Seen Finer

**3108** 1859 MS64 PCGS. CAC. From a mintage of 15,500 pieces, the 1859 three dollar gold piece is occasionally seen in lower Mint State grades, but the issue is rare at the MS64 grade level. This attractive Choice example offers well-detailed design elements and shows dramatic clash marks on both sides. The well-preserved peach-gold surfaces are lustrous and appealing. Population: 18 in 64 (3 in 64+), 9 finer. CAC: 8 in 64, 3 finer (9/20). NGC ID# 25MD, PCGS# 7979

EARLY HALF EAGLES

1804 Small 8 Five, BD-3, AU55  
Scarce Variety, Recut 4

**3109** 1804 Small 8, BD-3, R.5, AU55 NGC. Bass-Dannreuther Die State a/b. The 4 is clearly recut, with remnants of a previous crossbar and base below the high, primary 4, and the 1 is missing its flag. The 4 overlays the bust edge. Dannreuther notes BD-3 is a scarce variety, with only about 50 pieces known in all grades. This Choice About Uncirculated example displays frosted, greenish-gold color with traces of mint luster that remains on both sides. A bold reverse die crack runs from E in AMERICA through the wing and across the shield top to the edge above the left (facing) wing tip.

**From The Maltese Collection.**

PCGS# 519893 Base PCGS# 8085

1804 Capped Bust Right Half Eagle, MS63  
Small Over Large 8, BD-7  
Popular Guide Book Variety

**3110 1804 Small Over Large 8, BD-7, R.4, MS63 NGC. CAC.** Bass-Dannreuther Die State b/b, with both sides clashed and light die cracks on the reverse. According to Mint records, a fairly substantial mintage of 30,475 Capped Bust Right half eagles was accomplished in 1804, with seven die varieties known for the date. This coin represents the BD-7 variety, with the first three digits in the date dramatically overpunched and the upright of the E in STATES over a cloud space. The BD-7 is a scarce variety in absolute terms, but it is still one of the more available issues of this date, with a surviving population of 100-150 examples in all grades. The BD-7 dies probably struck 7,500-12,500 pieces of the reported mintage. This was the third use of the obverse die, which was also used to produce the BD-5 and BD-6 varieties of this date. This was the only use of the reverse die.

The 1804 Capped Bust Right half eagle was a favorite of early collectors, who began noticing the different varieties as early as lot 1634 of the Fifth Semi-Annual Sale (W. Elliot Woodward, 10/1864), "1804 Very fine, and from a die entirely different from the last, both obverse and reverse; very scarce." The lot realized \$11, about the average price for half eagles in that sale. Recent sales include the MS63 PCGS example in lot 3168 of the Summer FUN Signature (Heritage, 7/2019), which realized \$54,000.

This impressive Select specimen exhibits sharply detailed design elements on the obverse, with dramatic clash marks over the date and in front of the portrait. The reverse shows some loss of detail in selected areas, due to planchet adjustment marks that were not completely struck out. The lightly marked orange-gold surfaces are lustrous and appealing. Census: 10 in 63 (1 in 63★), 1 finer. CAC: 4 in 63, 1 finer (9/20).

PCGS# 519897 Base PCGS# 8086

1806 Knob 6 Half Eagle, MS61  
7x6 Stars, BD-6, Great Type Coin

- 3111** 1806 Knob 6, 7x6 Stars, BD-6, R.2, MS61 PCGS. Bass-Dannreuther Die State d/f. Clash marks from the eagle's left (facing) wing to a nearby star; die cracks from a dentil left of 1 in the date; through the top shield point, U in UNUM, and the star in back of the eagle's head; a die rust lump on R in LIBERTY; and finally, more clash marks (a second clashing) between the vertical shield stripes, all indicate the late die state of these well-worked dies. The luster is a bit dull, but the surfaces show attractive honey-gold coloration, and there are no signs of wear. The strike is fairly bold, save for the upper-left shield area. Scattered contact marks account for the grade, none singularly mentionable other than a small patch on the leftmost vertical shield stripes. This Mint State coin would make a great type set addition, given its rather plentiful survival rate for an early half eagle.  
NGC ID# BFXJ, PCGS# 45620 Base PCGS# 8089

1806 BD-6 Half Eagle, MS62  
Knob 6, 7x6 Stars, CAC Approval

- 3112** 1806 Knob 6, 7x6 Stars, BD-6, R.2, MS62 NGC. CAC. Bass-Dannreuther Die State d/f. The 1806 BD-6 half eagle is the only Knob 6, 7x6 Stars variety for the year, making attribution simple. It is also the most available die marriage for the year and one of the most collectible early five dollar gold pieces in the entire series. Examples are often found in type sets.  
This gorgeous CAC-endorsed MS62 representative would be perfect for such purposes. Rich yellow-gold surfaces glimmer with vibrant mint frost and show pale reddish accents. Definition is strong, if slightly uneven on the right-side stars and central reverse. Minor adjustment marks occur around the obverse border. Late die state with clash marks within the lower part of the shield. Clean for the grade and housed in an former generation holder.  
NGC ID# BFXJ, PCGS# 45620 Base PCGS# 8089

1806 Pointed 6, 8x5 Stars Five Dollar  
BD-1, 'Crusty Gold' MS63

- 3113** 1806 Pointed 6, 8x5 Stars, BD-1, R.4, MS63 PCGS. Bass-Dannreuther Die State c/e, showing delicate obverse die cracks through many of the left-side stars and from star 1 to the 1 in the date. The 1806 Pointed 6, 8x5 Stars die variety is far and away more difficult than its Knob 6, 7x6 Stars counterpart, which Bass-Dannreuther estimates is about six times more plentiful. The surfaces of this coin show lovely ruddy-red color at the edges contrasting with lighter greenish-gold centers. The strike is rather blunt in the immediate centers of each side, and some trivial planchet adjustment marks show through the obverse profile of Liberty. An original coin with the well-loved "crusty gold" look collectors seek. NGC ID# BFXJ, PCGS# 45620 Base PCGS# 8089

1810 Five, Bold AU58  
Small Date, Tall 5, BD-1

- 3114** 1810 Small Date, Tall 5, BD-1, High R.3, AU58 PCGS. Bass-Dannreuther Die State c/c. Diagnostic rust lumps on each side. In *Early U.S. Gold Coin Varieties* (2006), John W. Dannreuther explains that this variety must "have been struck on at least two occasions, as the dies are both found without and with rust lumps. This indicates that there was a production run, the dies were removed and improperly stored, and then they were used again for other production."

This near-Mint Capped Bust Left half eagle is beautifully preserved. The yellow-gold surfaces show occasional green and reddish tints and significant luster remains. The devices are sharply impressed throughout with only trivial friction over the high points that prevent an Uncirculated designation. Population: 16 in 58 (1 in 58+), 44 finer (8/20).

Ex: *Long Beach Signature* (Heritage, 9/2014), lot 3405.  
PCGS# 507596 Base PCGS# 8106

1813 Five Dollar, MS61  
Lustrous and Sharp BD-1 Example, CAC

1813 BD-1 Half Eagle, MS64  
First Year of the Design

**3115** 1813 BD-1, R.2, MS61 NGC. CAC. Bass-Dannreuther Die State b/b. Die clashing is visible in the letters of LIBERTY and within the shield. Dots from die rust sprinkle the area between stars 3 and 4. A few light abrasions and marks on Liberty's cheek are seen under magnification, the main difference between the assigned MS61 grade and an even finer Mint State level. Luminous orange-gold surfaces feature smoothly frosted fields and devices.

The BD-1 obverse is shared with BD-2, the only two varieties known. Together, they produced a mintage of 95,428 half eagles. BD-1 is the more common of the two varieties, identified by the first S in STATES centered over the gap between E and P of E PLURIBUS. The 1813 BD-1 variety inaugurates the Capped Small Bust type, with continuous stars encircling most of the portrait. Later issues in the series are scarce-to-rare, making this an ideal candidate for type collectors.

PCGS# 519907 Base PCGS# 8116

**3116** 1813 BD-1, R.2, MS64 PCGS. Bass-Dannreuther Die State b/b. Light clash marks are evident within the letters of LIBERTY and in the shield spaces. This is the first year of the Capped Head design, a modification of John Reich's Capped Bust design that was introduced in 1807, and also the most frequently encountered date of the type. This Choice Mint State half eagle is tied with 58 others at PCGS, with only one finer example. There are no marks of any consequence. Both sides feature a strong strike and beautiful, frosty yellow-gold luster. Population: 59 in 64 (6 in 64+), 0 finer (9/20). PCGS# 519907 Base PCGS# 8116

## CLASSIC HALF EAGLE

1834 Plain 4 Half Eagle, MS65  
Extraordinary Classic Head Type Coin  
HM-5 Die Variety

**3117 1834 Plain 4, HM-5, R.2, MS65 PCGS.** Many collectors recognize that the 1834 Plain 4 is the most plentiful Classic Head half eagle in the series. However, that availability evaporates at the Gem grade level. PCGS has only certified 19 coins in MS65 or finer condition across the entire Classic half eagle series. Eight of those 19 coins represent the 1834 Plain 4 issue. So while this date is inherently rare in Gem condition, it is still the best option for collectors seeking a Condition Census Classic Head type coin.

This piece represents the HM-5 die variety. This variety shows the 4 in the date triple punched, and there is repunching on the bottom of the D in UNITED on the reverse. Daryl Haynor in *Classic Gold Coins* notes that HM-5 is typically very weakly struck, and some of that strike weakness is noted on this piece in the centers. The hair curls above Liberty's ear and the left side of the shield exhibit the most noticeable weakness, while the peripheral stars are all sharply defined.

The grade of this piece is what sets it apart from most Classic half eagles, and that surface quality is amplified by semiprooflike reflectivity in the fields while the devices produce frosty luster. Only the faintest signs of contact are evident, and the coin yields a radiant cartwheel effect. We have only seen a Gem example of this issue on a few occasions in recent years, and it has been nearly a decade since we handled a finer 1834 Plain 4 Classic Head half eagle. A highly important opportunity for the advanced gold type collector. Population (all varieties): 5 in 65 (1 in 65+), 2 finer (9/20). PCGS# 765195 Base PCGS# 8171

## LIBERTY HALF EAGLES

1844 Half Eagle, MS64  
Exceptional No Motto Type Coin

**3118 1844 MS64 PCGS.** The 1844 is much scarcer, especially in high grades, than its mintage of 340,330 pieces might indicate. Most of the survivors are heavily circulated or damaged. As indicated by the Garrett-Guth reference, Harry Bass managed to accumulate a remarkable six examples of this date in Uncirculated condition. The finest of those was an MS65 piece that realized \$50,025 at auction, a record that still stands 15 years later. This is a highly attractive example whose surfaces display slightly variegated color with most of each side reddish-gold and the occasional dab of lilac interspersed. The strike details are complete and there are no mentionable abrasions. Population: 5 in 64, 1 finer (9/20). NGC ID# 25T7, PCGS# 8219

1857-C Half Eagle, MS63  
Lustrous and Strongly Struck  
Only One Example Finer

**3119 1857-C MS63 NGC. Variety 1.** Although Doug Winter describes the 1857-C half eagle as “one of the more available Charlotte half eagles both in terms of overall and high grade rarity,” he also acknowledges that only 225 to 275 pieces are believed to exist. Of those, he suspects only 10 to 12 pieces qualify for an Uncirculated assessment. This is one of two MS63 representatives at NGC, with one coin finer. Three submissions are reported at this grade level at PCGS. None are graded higher at that service (9/20).

Coloration is a deep shade of orange-gold, illuminated with impressively vibrant mint luster. Strike definition is phenomenally sharp for a Charlotte Mint product, verging on full. Minor hairlines and field chatter explain the grade. A wonderful branch mint five dollar.

NGC ID# 25V3, PCGS# 8272

1858-S Half Eagle, AU58  
Essentially Unimprovable

- 3120 1858-S AU58 NGC.** The San Francisco Mint was in its fifth year of operation when it coined 18,600 of these 1858-S half eagles. Virtually all of them entered circulation, and only about 100 pieces are believed to survive. NGC and PCGS each record a single Uncirculated example, possibly representing the same coin. This borderline-Mint State offering showcases partial luster amid glowing honey-gold surfaces. Strike definition is razor-sharp on the obverse and essentially complete on the reverse. Nothing more than fine ticks and hairlines are noted. Census: 12 in 58 (1 in 58+), 1 finer (9/20). NGC ID# 25VA, PCGS# 8279

1874-CC Half Eagle, AU53  
Smooth, Original Surfaces

- 3121 1874-CC AU53 NGC. CAC. Variety 2-C.** Ex: "Col." E.H.R. Green. This olive-gold example displays attractive orange overtones and original, virtually unabraded surfaces — traits seldom seen for this Carson City issue in any condition. Most representatives are found heavily marked and without the eye appeal shown by this exceptional coin. Smooth wear accompanies the soft, underlying mint luster and the attractive patina. Just two or three Uncirculated pieces are known, and high-quality About Uncirculated examples with natural surfaces such as this coin are rare.  
Ex: "Colonel" E.H.R. Green; Green Estate; Partnership of Eric P. Newman / B.G. Johnson d.b.a. St. Louis Stamp & Coin Co.; Eric P. Newman @ \$30.00; Eric P. Newman Numismatic Education Society; Eric P. Newman Collection, Part V (Heritage, 11/2014), lot 3293. NGC ID# 25WP, PCGS# 8334

1877-CC Five Dollar, AU Details  
Scarce, Low-Mintage CC Issue

- 3122 1877-CC — Repaired — PCGS Genuine. AU Detail. Variety 1-B.** The 1877 Carson City half eagle is seldom seen at auction despite a mintage of 8,680 pieces. Nearly all of the mintage circulated to some extent. Thus far, all of the auction appearances we have handled have been of this variety, although a second die marriage may exist. The surfaces are granular with bright yellow-gold color. Sharply detailed.

INDIAN HALF EAGLES

1909-O Indian Half Eagle, AU58  
Only O-Mint Indian Five

- 3123 1909-O AU58 NGC.** With by far the lowest mintage of the Indian five series and as the final gold issue struck at the venerable New Orleans Mint, the 1909-O half eagle stands out numismatically if not in terms of absolute rarity. To be sure, rarer issues exist among U.S. gold coins, and even within the Indian half eagle lineup in comparable and finer grades. Yet the 1909-O never fails to attract attention.

This orange-gold AU58 coin is sharp for the issue, which can come weakly struck and often shows damage or mishandling. Light abrasions visit the high-point fields, with a rather broad mark from the headdress to star 9. Beige-gray residue sits in some of the incuse lettering and devices. The headdress feathers are well-defined, as are the feathers at the eagle's shoulder, and the donut-like mintmark is fully outlined, narrowly doubled.  
NGC ID# 25ZK, PCGS# 8515

1911 Half Eagle, MS65  
Scarce This Fine, CAC Endorsed

- 3124 1911 MS65 NGC. CAC.** While reasonably available from the generous 915,000-piece mintage, the 1911 Indian five becomes conditionally rare at the Gem level and essentially unobtainable any finer. This is a gleaming and attractive coin, well deserving the Gem grade for both its surface quality and eye appeal. The strike is sharper than most for a 1911, with only brief weakness at the lowest headdress feather. A tiny nick at the rim below star 5 is the sole obverse mark to mention, while a few light lines beneath UNUM provide little distraction. Lovely smooth fields and crisp devices radiate orange-gold color. PCGS has seen eight finer examples (6 in 65+, 2 finer), while NGC has only certified two 1911 half eagles finer than the MS65 grade (9/20). NGC Census: 50 in 65, 2 finer. CAC: 27 in 65, 0 finer (9/20). NGC ID# 28DP, PCGS# 8520

1911-D Five Dollar, MS62  
Satin and Strongly Struck  
Green CAC Approval Sticker

- 3125 1911-D MS62 PCGS. CAC.** David Akers called the 1911-D half eagle "more rare than any Indian Head \$10 or collectible Saint-Gaudens \$20 in MS-64 or better! Think about it. There are gem quality examples known of the 1911-D, 1913-S and 1920-S eagles, gems of the 1921 and 1920-S Saints, but nothing of comparable quality known of the 1911-D half eagle. I rest my case." Although not quite Choice Uncirculated, this MS62 representative is high-end for the grade and endorsed by CAC. Strike definition is uniformly sharp, and orange-gold surfaces glisten with eye-appealing satin mint luster. A minimally abraded and conditionally rare key from a low mintage of 72,500 pieces. NGC ID# 28DR, PCGS# 8521

1929 Half Eagle, MS62  
Series-End Melt Rarity

**3126 1929 MS62 NGC.** After a 13-year hiatus, the Mint struck 662,000 half eagles in 1929. Gold circulated little in the U.S. by this time, and the majority of the 1929 mintage remained in government vaults following its coinage. When President Roosevelt issued the famous 1933 Gold Recall executive order, the coins were melted down and cast into bars. By that point, only a few hundred 1929 half eagles had been paid out of the Mint through the Cashier or the Treasury, making this issue far and away the scarcest date in the series today. Nonetheless, since gold circulation was so minimal at the time of issue, most surviving 1929 fives are in various Mint State grades.

This MS62 example is well struck and displays satiny orange-gold patina with modest luminance. Light marks in the fields are not overly significant for the grade. Eye appeal is pleasing.  
NGC ID# 28E2, PCGS# 8533

## EARLY EAGLES

1799 Capped Bust Right Eagle, MS63  
Small Obverse Stars, BD-6  
Elusive Variety

**3127 1799 Small Obverse Stars, BD-6, R.5, MS63 PCGS.** Bass-Dannreuther Die State e/b, with extensive die cracks on the obverse and lapping on the reverse. The 1799 eagle claims a relatively large mintage for the series, at an impressive 37,449 pieces. Among Capped Bust Right eagles, only the 1801 issue has a larger reported mintage. However, the 1799 mintage was split between 10 different die varieties and only two of those (BD-7 and BD-10) are seen with any regularity. This coin represents the BD-6 variety, with the numerals 17 in the date closely spaced and reverse star 12 not touching the beak. BD-6 is a rare variety, with a surviving population of 35-45 examples in all grades. John Dannreuther estimates the BD-6 dies were used to strike 1,500-2,000 pieces of the reported mintage. This was the third and final use of the obverse die, which was used previously to strike the BD-4 and BD-5 varieties of 1799. It was the first use of the reverse die, which was employed again to produce the BD-7 variety of this date.

The 1799 eagle was always a collector favorite and examples began appearing at auction at least as early as lot 172 of the A.C. Kline Sale (Moses Thomas and Sons, 6/1855). The first serious study of die varieties for the early eagles, conducted by John W. Haseltine and John Colvin Randall, took place about 30 years later. When Randall sold his collection through coin dealer W. Elliot Woodward in June of 1885, he identified five different die varieties of 1799 eagles in his collection. Lot 854 in the catalog of the sale, Randall's variety No. 3, sounds a lot like a BD-6:

"1799 No. 3; in date 1 and 7 close together, small stars; rev., stars different from the others; very fine indeed; rev., proof."

The closely spaced 17 in the date and the Small Obverse Stars conclusively identify the BD-6 obverse and the "different" reverse stars may refer to the position of reverse star 12 outside the eagle's beak. This may well be the first description of the BD-6 variety in print.

The present coin is a spectacular Select example, with sharply detailed design elements in most areas and just a touch of incompleteness on the juncture of the shield and eagle's tail and some clouds, due to lapping. Many obverse die cracks are evident, with the crack along the edge of the cap most advanced. The vivid orange-gold surfaces show only minor signs of contact, with vibrant mint luster on both sides. Overall eye appeal is outstanding.  
PCGS# 45729 Base PCGS# 98562

## LIBERTY EAGLES

1842 Large Date Ten Dollar, MS61  
Seldom Encountered in Mint Condition

- 3128** 1842 Large Date MS61 NGC. The Large Date variety is somewhat more common than the Small Date and it is another rarity in Uncirculated condition. There is a single Gem known, graded MS65 by PCGS, which is the finest known and it seems likely that this is the same coin that we sold as a PCGS MS64 in our October 1995 sale of the Warren Miller Collection. A second MS64 has also been graded by PCGS in addition to two coins in MS63 at this service. This a bright and notably well-struck coin. The shimmering yellow-gold surfaces show a few marks, but they are mostly scattered and only two are seen on the profile of Liberty. NGC ID# 262K, PCGS# 8584

1864-S Ten Dollar, VF Details  
Second Scarcest Ten Dollar Liberty

- 3129** 1864-S — Repaired — PCGS Genuine. VF Detail. The appearance of any 1864-S Liberty eagle at auction is cause for excitement. This is far and away the rarest San Francisco issue in the series, and it is the second rarest date over all from any mint. Only the legendary 1875 eagle is rarer. PCGS estimates that only 22 to 26 pieces survive in all grades. Some of these pieces are impaired, although collectors seeking an 1864-S will accept just about any example, since even an impaired coin is a rare sight in a public offering. The date is unknown in Mint State.

The mintage of just 2,500 coins is the lowest of any San Francisco Liberty eagle. That mintage, along with heavy attrition, contributes to the rarity of this issue. This issue was highly undervalued prior to 2014, when a group of four pieces from the Donald Bently collection came on the market and spiked collector excitement. Today, this issue is more sought after than ever. The present example is well defined on the motifs and displays rich olive-gold patina with lightly abraded surfaces. The repair is well-concealed and the coin actually displays eye appeal that surpasses many other examples.

1867 Ten Dollar, AU55  
Low-Mintage Production

- 3130 1867 AU55 NGC.** This is an outstanding, lightly circulated, honey-gold example of this low-mintage issue of only 3,090 business strikes and 50 proofs. The surfaces are consistent in color and show only minimal small contact marks. Both the 1867 and 1867-S eagle issues are next to impossible to find in Mint State, making this Choice AU example a cogent potential acquisition. NGC reports only three Mint State grading events, not necessarily all separate coins. Census: 17 in 55, 10 finer (9/20).  
NGC ID# 264L, PCGS# 8651

1870-CC Eagle, XF40  
Challenging Carson City Key Date  
Inaugural Year for the Nevada Mint

- 3131 1870-CC XF40 PCGS. Variety 1-B.** As might be expected, first-year production of ten dollar gold pieces was meager at the Carson City Mint, with just under 6,000 pieces struck. The coins circulated locally and wore out quickly, making the 1870-CC extremely challenging to find with sharp motifs and acceptable surface quality. Many consider this issue the premier prize of the entire Liberty Head eagle series — if not by rarity, then by popularity. The well-defined obverse shows a trio of shallow reeding marks in the lower fields that serve to pedigree this piece, but they are of little concern at the XF grade level. Light field chatter peppers both sides. Rare at this grade and often out of reach any finer, this lightly worn green-gold coin is sure to complement a fine Carson City or Liberty eagle collection. PCGS has certified fewer than three dozen such pieces at the grade. Population: 11 in 40, 19 finer (9/20).  
NGC ID# 264U, PCGS# 8658

## INDIAN EAGLES

1907 Rolled Rim Ten Dollar, AU58  
Prized Indian Head Melt Rarity

**3132 1907 Rolled Rim AU58 NGC.** The 10th edition (2009) of the Judd pattern reference lists the 1907 Rolled Rim ten as a pattern, Judd-1903 (formerly Judd-1775), but demurs on its exact status, saying, “Regular or pattern? This point can be debated.” The 1907 Wire Rim and Rolled Rim designs were deemed inferior to the revised design as prepared by Homer Saint-Gaudens and his assistant, Henry Hering, from Augustus Saint-Gaudens’ original concept. The modified design (No Periods) is what was ultimately released into circulation, while the former two versions were mostly distributed to privileged individuals, sold to the public, or melted.

The total number of Rolled Rim tens originally struck, and the number that survived the original mintage, are also open to question. The latest Judd reference suggests that 32,500 pieces were struck, “but all but 42 [were] melted.” The second edition of Garrett and Guth (2008) enumerates 31,500 pieces struck with 50 surviving, apparently taking a cue from Roger Burdette, whose research finds that the number saved was actually 50 coins. In *Renaissance of American Coinage, 1905-1908*, Burdette refers to a November 9, 1907 letter found in the National Archives written by Mint Superintendent John Landis to Mint Director Frank Leach. From the correspondence, it was determined that Director Leach “decided that the incorrectly minted eagles should be destroyed, and on November 9 he approved melting \$315,000 (31,500) in gold eagles made from the second models (border, with periods), holding back only fifty pieces for collectors.”

Today the 1907 Rolled Rim eagle remains a rare and desirable coin, regardless of the exact number saved. NGC and PCGS combined have certified 84 examples (9/20) — a number that certainly reflects multiple resubmissions of the same coins. Most survivors are Uncirculated, which is logical since this issue never entered the channels of commerce. The current coin represents one of the few lightly circulated examples known and, as such, is a welcome opportunity for budget-conscious collectors.

This piece was probably not just a pocket piece for some fortunate collector. From the numerous abrasions scattered over each side it shows extensive contact with other coins, more than would be expected from a pocket piece. That being said, the only mark of consequence is a scrape to the left of the date. The strike is a bit soft in the centers on surfaces that are bright yellow-gold throughout.

Ex: ANASignature (Heritage, 7/2008), lot 2027, which brought \$54,625; ANA Signature (Heritage, 8/2015), lot 4427, realized \$88,125.

NGC ID# 268C, PCGS# 8851

1910-D Ten Dollar Indian, MS65  
High-End, CAC-Certified Type Coin

- 3133** 1910-D MS65 NGC. CAC. Boldly struck with luminous, highly lustrous surfaces that display lovely, light honey-gold coloration. Exquisitely preserved for more than a century and nearly blemish-free on both sides, except for a few faint ticks that are only discernible with magnification. One of the most common Indian eagle issues (and the most common from the Denver Mint), making this piece an excellent potential acquisition for a type specialist. Ex: *Long Beach Signature* (Heritage, 5/2009), lot 1788. NGC ID# 28GS, PCGS# 8866

## LIBERTY DOUBLE EAGLES

1851-O Double Eagle, AU55  
Excellent New Orleans Type Coin, CAC

- 3134** 1851-O AU55 NGC. CAC. Variety 2. The 1851-O double eagle is both popular and available in contrast to later New Orleans double eagles, which grow increasingly rare in later dates — especially after 1854. This is a Choice About Uncirculated example, with remnant mint luster that flashes across minimally marked and pleasing orange-gold surfaces. Any early double eagle is seldom seen so well-preserved in a circulated grade, and it is no surprise that this sharp and attractive O-mint twenty earns CAC endorsement for its Choice surfaces. NGC ID# 268J, PCGS# 8905

1853/'2' Double Eagle, MS60  
FS-301, Rare in Mint State

- 3135** 1853/'2' FS-301 MS60 PCGS. This so-called overdate is the only such variety in the No Motto series. Its status as a genuine overdate is debated (Bowers and John Dannreuther both question its legitimacy), but the 1853/'2' remains popular as a *Guide Book* and *Cherrypickers' Guide* listing. Doug Winter notes: "There is still quite a bit of controversy regarding the true status of this variety. I believe it is and continue to list it in this book as such, but I can see the doubters' argument as well."

Either way, examples of this issue are almost always seen in XF and AU grades. An estimated five to seven pieces supposedly survive in Mint State. This example showcases rose and green-gold color with frosty luster around the devices. The portrait and eagle are strong, while a few of the stars show slight softness. Expectedly abraded for the grade, but far superior to what is normally available. PCGS# 145730 Base PCGS# 8909

1857-S Double Eagle, MS65  
Frosty and Fully Struck

- 3136 1857-S MS65 PCGS. Variety 20B. Bold S.** This is undoubtedly an S.S. *Central America* recovery coin, although no such mention is made on the PCGS insert. What gives the origin away, aside from the impossibly high grade level and practically unabraded surfaces, is the combination of rich, frosty mint luster and rose and orange-gold color. Both sides are completely defined. A single mark on the bust tip identifies this Gem 1857-S double eagle. NGC ID# 2696, PCGS# 8922

1857-S No Motto Twenty, MS65  
Glistening Yellow-Gold Surfaces

- 3137 1857-S MS65 NGC. Variety 20B. Bold S.** This Gem has the characteristic look of an S.S. *Central America* recovery coin, although it is certified in a generic NGC holder. Mint luster is vibrant and frosty, glistening across light yellow-gold surfaces that show remarkably few abrasions for the type. Fully struck throughout with terrific aesthetic appeal. NGC ID# 2696, PCGS# 8922

1857-S Double Eagle, MS65  
Ex: S.S. *Central America*

- 3138 1857-S Spiked Shield, Variety 20A, MS65 PCGS. Ex: S.S. *Central America*, SSCA 2164.** This attractive Gem 1857-S double eagle displays vivid orange-gold and tangerine hues across frosty, lustrous surfaces. This rich coloration is typical of S.S. *Central America* coins in high grade, and many collectors find it irresistibly appealing. Bold design elements and remarkably clean fields add to the eye appeal of this piece. PCGS# 70000 Base PCGS# 8922

1866 Liberty Double Eagle, MS63  
First Year With Motto  
Only One Finer at PCGS

**3139 1866 Motto MS63 PCGS.** The design of the double eagle was modified to include the motto IN GOD WE TRUST on the reverse in 1866, initiating the popular Type Two design. The San Francisco Mint struck both Type One and Type Two twenties that year, but all double eagles produced at the Philadelphia Mint were of the new Motto design.

The 1866 Liberty double eagle claims a substantial business-strike mintage of 698,745 pieces, but few high quality examples were saved by contemporary collectors. Only the wealthiest 19th century collectors could afford to set aside lengthy date runs of twenty dollar gold coins, and the well-heeled numismatists who did collect double eagles preferred to update their collections by purchasing proof examples from the Mint every year. The coins were seldom seen in circulation, as they could only be purchased from banks and bullion brokers at a premium and the general public had become accustomed to the more convenient paper money during the Civil War years. Much of the 1866 mintage was exported and melted. Some more coins were sent to the Western United States where they circulated heavily in the hard-money economy of that region. By the time numismatic interest in the denomination became widespread in the late 1930s the coins had been circulating for decades, suffering much wear and attrition along the way. The 1866 Liberty double eagle is not difficult to locate in circulated grades today, but Mint State examples are decidedly elusive. Most Uncirculated examples are concentrated in the MS60-MS61 grade range and finer coins are rare. The present coin is the only MS63 example certified at PCGS, with a single MS64 specimen finer, while NGC has graded no coins in MS63, also with one finer (9/20).

The coin offered here is a charming Select specimen, with sharply detailed design elements throughout. The lightly marked orange-gold surfaces are lustrous and appealing. An amber alloy streak on the reverse, above the eagle's left (facing) wing, is the best pedigree marker. We expect intense competition from series specialists, type collectors, and Registry Set enthusiasts when this lot is called. This coin is pictured on PCGS CoinFacts. Population: 1 in 63, 1 finer (9/20).  
NGC ID# 269X, PCGS# 8949

1871-CC Double Eagle, XF40  
Low-Mintage Early Carson City Rarity

- 3140** 1871-CC XF40 PCGS. **Variety 2-A**, showing the first 1 in the date centered over a dentil, and the second 1 centered between dentils. Two obverse dies were combined with a single reverse die to manufacture the mintage of 17,387 double eagles at the Carson City Mint in 1871. Although many examples have been lost to attrition, enough survive so that pleasing certified examples — those coins usually found in XF or Choice XF grade, less often AU — appear at auction with some regularity. A handful of “monster” Mint State examples also survive of this second-year CC issue. This XF40 PCGS coin shows a few notable abrasions, among them a few hits on Liberty’s face and neck and one linear mark in the obverse field below star 4. The reverse shows one long, thin, diagonal scrape through the shield, and scattered other smaller signs of contact appear. The amber-gold surfaces nonetheless retain a good amount of essential eye appeal and are well-struck overall, despite the 20 points of wear. Population: 25 in 40, 82 finer (8/20).  
*Ex: Central States Signature (Heritage, 4-5/2016), lot 4829.*  
NGC ID# 26AB, PCGS# 8961

1871-CC Double Eagle, AU Details  
Sharp Detail, Scarce in Any Grade

- 3141** 1871-CC — **Altered Surfaces** — NCS. **AU Details. Variety 1-A.** The second 1 in the date is centered over a dentil. The 1871-CC double eagle serves as the second emission from the Carson City branch mint. Output for the denomination increased from 3,789 pieces in 1870 to 17,387 in 1871, but only 200 to 250 examples are believed to survive. Rusty Goe writes: “The early ‘CC’ issues that did indeed circulate locally acquired heavy bagmarks and surface damage, greatly marring their appearance.” This AU Details representative appears to have had its surfaces treated minimize the appearance of those marks. Nevertheless, each side showcases strong detail and rich yellow-gold color that collectors should find appealing.

1873-CC Twenty Dollar, AU58  
Early, Low-Mintage Carson City Issue

- 3142 1873-CC AU58 NGC. Variety 1-A.** Most examples of this rare Carson City date grade in the XF to AU range, with few Uncirculated survivors. Numerous marks emerge from even minimal circulation, and heavy bagmarks are the rule. Although the mintage was similar to the 1871 and 1872 issues — 22,410 pieces were struck in 1873 — each of those dates demonstrate high attrition, and few pieces remain for the many double eagle and Carson City specialists in high grades. The abrasions on this near-Mint coin are relatively minor in most areas, although we note two or three more prominent obverse marks including a long, narrow indent near the nose. A cluster of small ticks is seen around 73 of the date, where the 3 appears large and slightly deformed. Medium-gold surfaces display pale-orange accents, while the motifs show only a few areas of high point weakness from wear and light strike. Despite the noted limitations, any 1873-CC is seldom available appreciably finer. NGC reports just 18 examples in a higher grade (9/20). NGC ID# 26AJ, PCGS# 8968

1878-CC Double Eagle, XF40  
Low Mintage, Low Survivorship

- 3143 1878-CC XF40 PCGS. Variety 3-A.** Coin production dropped sharply in 1878 at the Carson City Mint — only silver dollars and quarters were struck in decent quantity. Among the gold issues, double eagles are scarce-to-rare in all grades. Garrett and Guth estimate just 400 total survivors, a number that may have increased slightly with sporadic foreign repatriates in recent years. The base of 7 in the date is centered over a dentil on this moderately circulated example — a scarce obverse die paired with the Wide CC reverse mintmark. A number of light abrasions and bagmarks exist across the pleasing, medium-gold surfaces, but fewer than might be expected for a Carson City twenty with 20 points of wear. NGC ID# 26B4, PCGS# 8986

1878-CC Double Eagle, XF40  
Just 13,180 Coins Struck

- 3144 1878-CC XF40 PCGS. Variety 1-A.** The usual variety with a long diagonal die scratch on Liberty's neck and a widely spaced mintmark. About 400 to 450 1878-CC double eagles are thought to survive from a mintage of 13,180 pieces. Reverse definition is impressively strong, while the obverse exhibits blending on the cheek, curls, and hair bun. Semireflective yellow-gold surfaces display myriad small ticks. NGC ID# 26B4, PCGS# 8986

1878-CC Double Eagle, XF40  
Red-Gold Color, CAC-Approved

- 3145 1878-CC XF40 NGC. CAC. Variety 1-A.** Eye appeal is phenomenal, and CAC has appropriately endorsed this XF40 Carson City double eagle with a green approval sticker. Both sides display rich red-gold color and partial remaining mint luster around the relief elements. Lightly abraded with a bit of rub, as expected, but the natural appeal of this twenty dollar gold piece is undeniable. Only 13,180 1878-CC double eagles were struck.

1879 Double Eagle, MS65  
Single Finest Ever Auctioned  
Tied at the Top of the Condition Census

**3146** 1879 Doubled Die Reverse, FS-801, MS65 NGC. The 1879 is a date that many old-time double eagle collections lacked in Mint State. When David Akers performed his analysis of auction records for this denomination in 1982, he listed only 14 appearances of a Mint State coin and called such pieces “very scarce.” Presumably many of the Uncirculated examples known today were repatriated from overseas hoards, and the bagmarked surfaces of most are further reminiscent of trade coins. The 1879 is a date that is rare any finer than MS62, extremely rare in MS64, and up until just a few years ago was unknown in Gem condition. NGC and PCGS each list a single MS65, and NGC lists a single MS66 coin as the finest known.

Impressively sharp design elements complement blazing, frosty cartwheel luster and original yellow-gold coloration. Collectively, a few insignificant luster grazes prevent an even finer grade, although these melt into the luminous surfaces and cause no visual intrusion.

The reverse shows sharp die doubling of virtually all lettering, most notably on AMERICA, E PLURIBUS, and IN GOD WE TRUST. This *Cherrypickers'* variety is intriguing to the die characteristic specialist, but it is largely overshadowed by the incredible quality and conditional rarity that this top-grade 1879 double eagle possesses. As Mike Fuljenz writes in *Type Three Double Eagles*, second edition, “It might be a number of years before a properly graded MS63 or better piece with clean surfaces is offered for sale ... This is a Type Three issue with excellent growth potential in all uncirculated grades.” Arguably no Mint State 1879 has more growth potential than this Gem.

PCGS# 145736 Base PCGS# 8988

1879-CC Liberty Double Eagle, XF40  
In-Demand Branch Mint Twenty

- 3147** 1879-CC XF40 PCGS. Variety 1-A. Foreign holdings have increased the number of known survivors, although the 1879-CC remains scarce in an absolute sense. Just 10,708 pieces were struck. This is an attractive XF example, with pleasing orange-gold surfaces and a faint hint of mint luster that remains amid the legends and devices, especially on the reverse. Small marks are unavoidably present, but not overly numerous or distracting. Sharp definition remains for the assigned grade. NGC ID# 26B7, PCGS# 8989

1885-CC Double Eagle, AU55  
Last CC-Mint Twenty Issue Until 1889

- 3148** 1885-CC AU55 NGC. Variety 1-A, the only pair of dies needed to strike the small production of 9,450 double eagles in this year, which saw the death of beloved superintendent James Crawford. As a result, rather than suspend entirely (as it did the following year), the Carson City Mint went on short shifts and struck only silver dollars and double eagles. While nearly all of the 1885-CC silver dollars survive in Mint States, most of the double eagles average only AU. This Choice AU piece displays excellent eye appeal over surfaces with consistent color and a sharp strike. Census: 52 in 55, 81 finer (9/20). NGC ID# 26BN, PCGS# 9004

1885-CC Twenty Dollar, AU55  
Good Remaining Luster

- 3149** 1885-CC AU55 PCGS. CAC. Variety 1-A, the only variety. The 1885-CC is one of the scarcest Carson City double eagles struck in the 1880s. Only 9,450 pieces were struck, and most were extensively circulated in the West. It was also exported overseas, which may account for the relatively high grade of this survivor. This Choice AU example displays luster in the recesses of the well-impressed design elements. The bright peach-gold surfaces are laced with hints of light tan and reveal just a scattering of minor abrasions. Ex: Long Beach Signature (Heritage, 5/2009), lot 1935. NGC ID# 26BN, PCGS# 9004

**1885-CC Double Eagle, AU58  
High Grade for the Issue**

- 3150 1885-CC AU58 PCGS. Variety 1-A.** Only 9,450 pieces were struck, and perhaps as few as 400 pieces survive despite some Mint State examples that have filtered back from foreign holdings in recent years. This coin circulated briefly and retains nearly Mint State surfaces. Significant amounts of original mint luster remain, while rose and reddish-orange accents supplement the attractive rich-gold color.

A sharp strike adds to the considerable eye appeal. Liberty's hair strands, curls, and bun remain individually bold, while only minor marks and tiny abrasions indicate transport and handling. This coin is equally at home in a high-grade circulated set or a Mint State collection of double eagles. The 1885-CC is traditionally known as one of the scarcest Carson City issues from the 1880s. Population: 39 in 58 (1 in 58+), 31 finer (9/20).  
NGC ID# 26BN, PCGS# 9004

**1889-CC Double Eagle, MS60  
Elusive in Mint Condition**

- 3151 1889-CC MS60 PCGS. Variety 1-A.** Coinage production at the Carson City Mint resumed in 1889 after a break in operations dating back to 1885. The facility limited output to 30,945 double eagles and 350,000 Morgan dollars upon resumption. Both issues are in ever-strong demand and are especially elusive in high grades. The 1889-CC twenty is very scarce in mint condition. Examples are almost unseen beyond MS62, and even they push the limits of obtainability. This MS60 offering has numerous scattered marks across luminous yellow-gold surfaces. Abundant mint frost shimmers over sharply rendered relief elements.  
NGC ID# 26BV, PCGS# 9011

**1891-CC Twenty Dollar, VF30  
Scarce, Late-Date CC Issue**

- 3152 1891-CC VF30 NGC. CAC. Variety 1-A.** The low-mintage 1891-CC is the scarcest of all Carson City issues struck during the Mint's second era of operation (1889 to 1893). A scant 5,000 pieces were struck, and survivors are pursued in all grades. This problem-free midgrade example retains traces of luster in the lettering and devices.  
*Ex: Pittsburgh Signature (Heritage, 10/2011), lot 5169.*  
NGC ID# 26C3, PCGS# 9017

**1892-CC Dollar, MS60  
Orange-Gold Color, Lively Luster**

- 3153 1892-CC MS60 NGC. Variety 1-A.** Repatriated overseas shipments make up the majority of 1892-CC Mint State twenties. While most of the coins grade below Select or Choice Uncirculated condition, a few pieces such as this one are above-average for their grade. Aside from slight weakness at stars 1 and 2, the strike is razor-sharp. Only tiny marks are scattered across the attractive and lustrous, orange-gold surfaces. Eye appeal is extra strong.  
NGC ID# 26C6, PCGS# 9020

1893-CC Double Eagle, AU58+  
Nearly Full Mint Luster Remains

- 3154** 1893-CC AU58+ NGC. Variety 2-A. Perhaps just a touch of wear on Liberty's highest curls prevents a full Mint State grade for this high-end About Uncirculated double eagle. A pinpoint-sharp strike accompanies strong mint luster that radiates from the frosted surface. Only minor chatter and shallow abrasions disturb the otherwise smooth surfaces, with a thin mark beneath Liberty's eye the only obverse nick of note. A small planchet flaw between AMERICA and DOLLARS is of little concern. This is a fitting relic of the Carson City Mint's final year of coinage operations, with great eye appeal. NGC ID# 26C9, PCGS# 9023

1904 Double Eagle, MS66  
Richly Frosted Orange-Gold Surfaces

- 3155** 1904 MS66 PCGS. CAC. The 1904 Liberty Head double eagle is by far the most collectible issue in the long-running series. It claims a substantial mintage of 6.2 million coins and can be found without trouble through Gem condition. Examples in MS66 are scarcer and virtually impossible to surpass with only three MS67 submissions at PCGS and two at NGC. CAC has endorsed 32 submissions in MS66 and none finer (9/20). This high-end Premium Gem is seemingly flawless, devoid of anything other than a tiny fleck on Liberty's neck below the jaw. Orange-gold surfaces are richly frosted, and strike definition is pinpoint-sharp. A perfect type coin. NGC ID# 26CY, PCGS# 9045

1907 Twenty Dollar, MS65  
Final-Year Liberty Head Type Coin

- 3156** 1907 MS65 PCGS. When the date 1907 comes up for double eagles, most collectors think of the Saint-Gaudens issue, especially the High Reliefs. Few collectors think of the earlier Liberty Head type, and this issue is somewhat underrated in high grade. The present Gem is tied for the finest certified. Sharp design elements complement satiny olive-gold and yellow luster, and there are no major abrasions. Population: 30 in 65 (4 in 65+), 0 finer (9/20). NGC ID# 26D7, PCGS# 9052

## PROOF LIBERTY DOUBLE EAGLES

1898 Twenty Dollar, Proof, Unc Details  
Only 75 Proofs Produced

- 3157** 1898 — Altered Surfaces — PCGS Genuine. Proof, Unc Details. JD-1, R.5. Across all denominations, the proofs from 1898 are among the best produced of all years. The double eagle of this year had a mintage of only 75 pieces, all struck from a single pair of dies, and it is estimated that today 35 to 50 proofs are extant in all grades. While this coin has its problems it, nevertheless, exhibits deeply reflective fields on each side. The strike is pinpoint-sharp on each side, and the color is variegated with bright yellow-gold centers that are surrounded by deeper orange-gold margins. There are no contact marks worthy of mention.

1903 Double Eagle, PR53  
Collectible Proof Example

- 3158 1903 PR53 PCGS. JD-1, R.4.** The 1903 boasts the largest mintage in the proof Liberty double eagle series (158 coins). Nonetheless, it is no more plentiful today than most other proofs of the 20th century date run. PCGS estimates that only 50 to 60 pieces survive in all grades. This example presents budget-conscious collectors an opportunity to acquire a problem-free proof double eagle — something that is usually far out of reach for most enthusiasts. It is sharply struck and deeply mirrored, and it is kept from a 60+ grade more by scattered contact marks than measurable wear. Rich yellow-gold color adorns the mirrored fields and satiny devices. Population: 3 in 53, 37 finer (9/20). NGC ID# 26ER, PCGS# 9119

HIGH RELIEF DOUBLE EAGLES

1907 Wire Rim Double Eagle, MS62  
'A Living Thing and Typical of Progress'

- 3159 1907 High Relief, Wire Rim MS62 NGC.** Collectors are widely aware that the creation of the new double eagle in 1907 began from an interest by President Roosevelt for coinage of greater artistic merit. After a dinner where the president and the sculptor discussed in broad terms what such a project might look like, Augustus Saint-Gaudens wrote to the president in November 1905: "My idea is to make it a living thing and typical of progress." Over the next year and a half Saint-Gaudens and his assistant, Henry Hering, modified the figure of Liberty from the Sherman Monument and translated that figure's vibrancy into the limitations of a 34 mm coin. This MS62 example shows fully articulated design elements on each side and certainly reflects the "living thing" Saint-Gaudens strove to represent. The surfaces are satiny and the only mentionable contact mark is located at the reverse rim at 7 o'clock. NGC ID# 26F2, PCGS# 9135

MCMVII High Relief Twenty Dollar, MS62  
Wire Rim

1907 High Relief, Wire Rim Twenty, MS64  
Saint-Gaudens' *Magnum Opus*

- 3160 1907 High Relief, Wire Rim MS62 NGC.** Prior to modeling the High Relief twenty, Augustus Saint-Gaudens needed to know how much relief he could actually put into his design. In January 1906 he wrote to Treasury Secretary Shaw, "... and on reflection I think it would be best to know at once if there are not some inflexible modern requirements that necessitate extreme flatness." Mint Director George Roberts sent the Treasury Secretary a lengthy response, but he basically said no to a design in high relief. But Shaw knew of the president's keen interest in the redesign process and conveyed to Saint-Gaudens Roosevelt's authorization to continue with the high relief models. This was the answer Saint-Gaudens wanted (as well as the president) and that was the direction he took his designs for the new double eagle. This is an attractive MS62 example whose surfaces display the usual satiny mint luster and full strike definition. There are no noticeable or distracting contact marks on either side.  
NGC ID# 26F2, PCGS# 9135

- 3161 1907 High Relief, Wire Rim MS64 NGC.** No matter how many times dedicated collectors see the amazing aesthetic and technical appeal of the *magnum opus* of sculptor Augustus Saint-Gaudens' numismatic creations, they never tire of it. A display of one, or a dozen, of these magnificent High Relief double eagle gold coins — hands-down the United States' most beautiful "regular-issue" coins — is guaranteed to draw a crowd of admirers at any-size coin show, large or small. It is no stretch to call the demand for these coins "incessant."

That great appeal is in full bloom on this near-Gem NGC-graded example, offering a wire rim visible throughout most of each side. Excellent surface preservation is in keeping with the grade. A tiny tick on the reverse rim at 3 o'clock is noted but minuscule.  
NGC ID# 26F2, PCGS# 9135

## SAINT-GAUDENS DOUBLE EAGLES

### 1910-S Saint-Gaudens Twenty, MS65 Elusive Issue in Finer Grades

- 3162 1910-S MS65 PCGS. CAC.** The 1910-S Saint-Gaudens double eagle was well-represented in some Central American hoards that surfaced in the 1980s. As a result, the issue is not difficult to locate in grades up to the MS65 level, but finer coins are rare. This sharply detailed Gem exhibits well-preserved orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. PCGS has graded 13 numerically finer examples. CAC: 7 in 65, 2 finer (9/20). NGC ID# 26FH, PCGS# 9156

### 1911-D Twenty Dollar, MS66+ Strong Upper-End Quality

- 3163 1911-D MS66+ NGC. CAC.** The 1911-D makes an interesting study in declining availability as grades increase by one point. It presents a typical bell curve with the peak number of coins certified in MS64. Then in Gem condition the availability decreases almost by half, then in MS66 the number certified decreases by three-quarters, dwindling to nearly unavailable numbers in MS67. This reddish-tinted Premium Gem is upper-end for the grade with thick, satiny mint luster over the always seen matte-like surfaces. CAC endorsed for eye appeal within the grade. NGC ID# 26FK, PCGS# 9158

### 1922-S Twenty Dollar, MS64 Popular Mintmarked Issue

- 3164 1922-S MS64 PCGS. CAC.** The popular 1922-S double eagle is an elusive issue, despite a production of 2.6 million coins. This splendid example has rich, frosty yellow-gold luster with hints of olive and iridescent toning. The surfaces are nearly pristine with a few scattered abrasions. PCGS has only certified 25 finer examples of this issue (8/20).  
*Ex: Summer FUN Signature (Heritage, 6/2008), lot 2412; Long Beach Signature (Heritage, 9/2009), lot 1957.*  
NGC ID# 26G4, PCGS# 9174

### 1925-S Double Eagle, MS63 Mass-Melted San Francisco Issue

- 3165 1925-S MS63 PCGS.** Roger Burdette's authoritative series reference suggests an estimated survivorship of merely 1,500 coins for the 1925-S double eagle, which claims a mintage in excess of 3.7 million pieces. Nearly the entire production was melted. The present Select Uncirculated offering enjoys radiant mint frost and warm orange-gold color. Light chatter is expected for the grade. NGC ID# 26GC, PCGS# 9182

### 1925-S Saint-Gaudens Twenty, MS64 Prime Condition Rarity in High Grade

- 3166 1925-S MS64 PCGS.** The 1925-S Saint-Gaudens double eagle claims the third-highest mintage of the series, at nearly 3.8 million pieces. Unfortunately, the great majority of this large production total did not survive the great Gold Recall of 1933, and the 1925-S is a leading condition rarity today. Even coins that grade MS64 are rare, and finer examples are seldom available at any price.  
The present coin is an impressive Choice specimen, with well-detailed design elements and vivid orange-gold surfaces that show strong hints of rose. No mentionable surface flaws are evident and visual appeal is outstanding. Population: 27 in 64 (3 in 64+), 5 finer (8/20).  
*Ex: FUN Signature (Heritage, 1/2016), lot 5690.*  
NGC ID# 26GC, PCGS# 9182

## COMMEMORATIVE SILVER

1921 Alabama Half, Boldly Struck MS67  
Rare, Among the Finest Certified

**3167 1921 Alabama MS67 PCGS.** The Alabama Territory was admitted into the Union as a state in December 1819. The statehood centennial was celebrated in 1919, and the next year a half dollar coin was authorized to commemorate the milestone. Production of the Alabama Centennial half dollar did not take place until 1921, although the dual dates 1819-1919 were incorporated on the reverse. Two varieties were struck, one with a small engraving of St. Andrew's cross (from the state flag) separating the number 22 in the field, indicating Alabama as the 22nd state, and the other without the "2x2" element.

This Superb Gem example of the "plain" variety displays a bold strike amid frosty mint brilliance that complements delicate gold and iridescent toning. A tiny splash of deep russet appears on the obverse at 9 o'clock and should conveniently identify a prior provenance with a little searching. The Alabama type in general is rare this fine, and this piece is among the finest at PCGS. Population: 6 in 67 (2 in 67+), 0 finer (9/20).

Ex: Long Beach Signature (Heritage, 2/2011), lot 4059; FUN Signature (Heritage, 1/2015), lot 4439.  
NGC ID# BYF2, PCGS# 9224

## 1937-D Boone Half Dollar, PR63 Likely Unique Denver Mint Matte Proof

**3168 1937-D Boone Matte PR63 PCGS. CAC.** We recently offered the companion piece for this 1937-D Boone matte proof half dollar as part of our August 2020 Signature sale, which made headlines and realized \$84,000. This example derives from the same three-coin set, and its story bears repeating:

"The production of these matte proofs was not recorded by the Mint, and their existence was once unknown to many researchers. In his *Proof Encyclopedia*, Walter Breen cites 'rumors' of the possible existence of matte proof Roanoke and Antietam half dollars of this year, but makes no mention of the Boone matte proofs. More recently, the legitimacy of these coins as genuine matte proofs has been an issue of controversy, but their authentication, first by NGC and now by PCGS, confirms their status beyond any doubt.

"The origin of the PDS set from which this proof originates has been researched by commemorative authority Anthony Swiatek with the conclusion that the coins were all struck at the Philadelphia Mint for Chief Engraver John R. Sinnock before the branch mint dies were shipped to their respective facilities. It has been suggested by others that possibly four matte proof sets were produced on Sinnock's account, but no evidence has surfaced to confirm the existence of any but the present coin and its D and S-mint counterparts. Writing in *The Encyclopedia of United States Silver & Gold Commemorative Coins*, coauthored by Breen (1981), Swiatek states:

'There is a set of the three 1937 coins with matte finish, which has been represented as matte proofs. These are extremely rare and show more detail than on the business strikes. These MS-70 coins must be seen to be fully appreciated. Each of them possesses a double strike with sharp square letters — especially notable on the PIONEER YEAR inscription. In other words, there isn't the usual roundness on the lettering, dates or mint marks.'

This likely unique, no-questions matte proof half dollar features absolutely needle-sharp devices and finely textured stone-gray surfaces. Microscopic specks of crimson toning appear on each side. A major prize for any advanced commemorative enthusiast.  
Ex: John R. Sinnock; Abe Kosoff; Jerry Bauman; Anthony Swiatek; unknown intermediaries; ANA Signature (Heritage, 8/2015), lot 4531, offered as part of a complete 1937 Boone PDS matte proof set. PCGS# 680813

## COMMEMORATIVE GOLD

1915-S Panama-Pacific Fifty Dollar, MS62  
 Iconic Octagonal Design  
 Only 645 Coins Sold

**3169** 1915-S Panama-Pacific 50 Dollar Octagonal MS62 NGC. The Octagonal Panama-Pacific fifty dollar gold piece is a memorable and iconic issue, with its distinctive shape and its minuscule distribution of 645 coins. The issue tends to jump out of the pages of the annual *Guide Book*, sticking in the minds of new collectors flipping through the “bible” of American numismatics. As those collectors progress, the 1915-S Octagonal fifty often remains a key date on their want lists, establishing itself a sort of pinnacle of numismatic achievement.

What keeps these coins out of the hands of all but a small group of advanced collectors today is the same thing that limited their sales more than a century ago: price. Both the Octagonal and Round fifties struck to commemorate the Panama-Pacific International Exhibition retailed in 1915 for \$100 — double face value. That was about the same cost as a round-trip train ticket from the East Coast to San Francisco. Fairgoers could have stayed in a hotel all week and dined for about \$15, putting the substantial expense of these massive two-and-a-half-ounce gold pieces into perspective.

Of the two 1915-S fifty dollar types, this is the more desirable. Its shape harkens back to the famous fifty dollar slugs produced by Augustus Humbert and the United Assay Office of Gold during the early days of the California Gold Rush. This particular MS62 representative enjoys rich yellow-gold color and finely textured, softly frosted surfaces that show full strike definition. A handful of tiny ticks and some light hairlines on each side limit the numeric grade but have no effect whatsoever on the coin’s lovely eye appeal.

NGC ID# BYLX, PCGS# 7452

## PROOF COMMEMORATIVE GOLD

1903 Jefferson Gold Dollar  
Louisiana Purchase, PR66 Ultra Cameo  
Only 100 Proofs Produced

**3170** 1903 Louisiana Purchase Jefferson Gold Dollar PR66 Ultra Cameo NGC. To help commemorate the Louisiana Purchase Exposition, one hundred proof Jefferson and one hundred proof McKinley gold dollars were struck in 1903. Many of these have been mishandled over the years, and today few exist in pristine, undamaged condition.

This is a spectacular and rare piece. The jet-black fields exhibit gorgeous, deep reflectivity, and the frosted golden devices present a beautiful cameo effect on each side. Other than a few scattered, pinpoint-sized planchet flaws, the surfaces seem essentially undisturbed. Census: 4 in 66 Ultra Cameo, 6 finer (8/20).

Ex: Long Beach Signature (Heritage, 6/2006), lot 4746.

NGC ID# BYMF, PCGS# 97482

1903 Louisiana Purchase Gold Dollar  
McKinley Obverse Type, PR65 Cameo  
Rare Early Striking in Proof Format

**3171** 1903 Louisiana Purchase McKinley Gold Dollar PR65 Cameo PCGS. The 1903 gold dollars depicting presidents Thomas Jefferson and William McKinley were issued in conjunction with the Louisiana Purchase Exposition, held in St. Louis in 1904 — one year before the Lewis and Clark Exposition was held in Portland, Oregon. The Louisiana Purchase Expo gold dollars were the first gold commemoratives struck by the U.S. Mint (excluding the 1848 CAL. quarter eagle). The first 100 pieces of each design struck were produced in proof format and given to government and exposition officials, along with a few others who were well-connected. The original packaging for these proofs was a wax-sealed paper window on an imprinted card, secured inside a large frame for display. Almost none of the coins remain in or are even accompanied by their original frames today.

This Gem Cameo example of the McKinley proof is deeply reflective and fully struck. A few faint coppery colorations appear in the fields, but the coin is otherwise bright yellow-gold overall. Neither side shows any mentionable contact marks. Population: 6 in 65 Cameo, 3 finer (9/20).

NGC ID# BYMG, PCGS# 87483

## TERRITORIAL GOLD

1852 Assay Office Ten Dollar, MS61  
K-12a, Gorgeous Natural Color  
Important Gold Rush Relic

**3172** 1852 Assay Office Ten Dollar MS61 NGC. CAC. K-12a, R.4. The central reverse inscription on the Kagin-12a variety reads: UNITED STATES ASSAY / OFFICE OF GOLD / SAN FRANCISCO / CALIFORNIA 1852. The O in OFFICE is under the N in UNITED. This Gold Rush relic was struck by federal authority rather than by a private concern, making it both important for local circulation at the time and for present-day collectors of United States coinage.

Deep red and orange-gold hues color each side. Strike definition is remarkably full, and the devices show no evidence of friction. Faint hairlines and ticks occur throughout, limiting the grade, although overall preservation remains impressive. Eye appeal is terrific, explaining the CAC approval sticker. Listed on page 404 of the 2021 *Guide Book*. Census: 21 in 61, 14 finer. CAC: 2 in 61, 5 finer (9/20).

NGC ID# ANGV, PCGS# 10001

1849 Mormon Quarter Eagle, K-1, AU55  
Seldom Encountered in Higher Grades

**3173** 1849 Mormon Quarter Eagle AU55 PCGS. K-1, High R.5. The Mormon quarter eagles were struck from gold dust collected along the American River in California by members of the Mormon Battalion returning from the Mexican War, soon after the Gold Rush began in 1848-49. There was almost no circulating coinage in the Mormon settlement at the time, causing great difficulties in the local economy. A mint was established in Salt Lake City under the direction of Brigham Young, with all the equipment manufactured there by Mormon craftsmen and blacksmiths.

Unfortunately, no trained assayer was available, leading to well-publicized problems with the fineness of the issue. Although produced from the native California gold, additional alloys were present which brought the fineness below the stated value on the coins. Lightweight specimens were also reported. The coinage was a local success, as merchants of the Mormon church would accept the coins at face value, but outside the settlement they were only accepted at a steep discount. Still, the coins enabled the Mormons to purchase needed goods from neighboring communities until an adequate supply of U.S. coinage reached the area in the early 1860s.

The present chestnut-gold example has pleasing sharpness on the clasped hands, and the minutely grainy surfaces exhibit only a few faint slide marks. The obverse die is buckled through the lower portion of the all seeing eye, which weakens that area, and is diagnostic for this issue. Listed on page 412 of the 2021 *Guide Book*. Population: 9 in 55, 5 finer (8/20).

Ex: *Long Beach Signature* (Heritage, 2/2006), lot 3769.  
NGC ID# 2BCD, PCGS# 10259

## S.S. CENTRAL AMERICA GOLD INGOT FACEPLATE

Kellogg & Humbert Faceplate  
183.16 Ounces (Originally), Now 489 Grams

- 3174 Kellogg & Humbert Gold Ingot Faceplate. 183.16 Ounces (Originally).** CABG-426. This faceplate was originally a Very Large size ingot. The bulk of this massive ingot was melted and used to make Kellogg & Humbert restrike coins. The plate shows a good bit of “character” that is derived from the copper alloy that leached to the surface and has turned portions of the face a rich coppery-red color. The specifications are laid out evenly on the face and read: No 456 / KELLOGG & HUMBERT ASSAYERS / 183.16 Oz / 895 FINE / \$3388.69. Part of the company logo is unreadable due to a natural depression in the surface of the ingot. What remains today weighs 489 grams.  
*Ex: Baltimore Signature (Heritage, 7/2003), lot 10938, where it brought \$10,925.*

*End of Session One*

## SESSION TWO

### COLONIALS

1652 Oak Tree Shilling, VF35  
Noe-5, W-470, IN at Bottom

- 3175** 1652 Oak Tree Shilling, IN at Bottom, VF35 PCGS. Noe-5, W-470, Salmon 3-D, R.2. 67.44 grains. Lavender-gray patina complements satiny surfaces on this Choice VF example. The border legends are sharp, as are the date and denomination, although the tree is weak as usual. The strike is off center toward 8 o'clock relative to the tree. The edge of the planchet is irregular above the tree. Listed on page 41 of the 2021 *Guide Book*.  
*From The Peter Jones M.D. Collection.*  
NGC ID# 2ARL, PCGS# 45362 Base PCGS# 20

1652 Oak Tree Shilling, AU Details  
Very Scarce Noe-9 Variety

- 3176** 1652 Oak Tree Shilling, IN at Bottom — Scratches — NGC Details. AU. Noe-9, W-500, Salmon 7-E, R.5. 72.2 grains. An oval-shaped example with pleasing sharpness and attractive eye appeal. The centers are pearl-white while the borders show wheat-gold toning. Boston Mint clips favor the upper obverse and lower reverse legends. A pair of hair-thin vertical marks are noted on the right side of the tree, and correspond to the NGC notation. Listed on page 41 of the 2021 *Guide Book*.  
*From The Peter Jones M.D. Collection.*

1652 'Spiny Tree' Shilling, VF Details  
Noe-14, Scarce *Guide Book* Variety

- 3177** 1652 Oak Tree Shilling, Spiny Tree — Cleaned — NGC Details. VF. Noe-14, W-530, Salmon 11a-Gi, R.4. 69.4 grains. The "Spiny Tree" earns a separate *Guide Book* listing from its Oak Tree peers, due to its prickly appearance. This evenly worn representative has clear legends. All but the extremities of the tree are bold. IN M is partial, but the rest of the peripheral letters are complete. The lilac-gray surfaces display infrequent and unobtrusive marks. Listed on page 41 of the 2021 *Guide Book*.  
*From The Peter Jones M.D. Collection.*

1652 Pine Tree Threepence, AU53  
Noe-34, Ex: Norweb-Partrick

- 3178** 1652 Pine Tree Threepence, Pellets at Trunk, AU53 NGC. Noe-34, W-630, Salmon 1-A, R.4. Ex: Norweb, Partrick. 17.3 grains. Pellets at Trunk. This deep steel-gray example shows a bold tree and an unmarked obverse. A small cluster of abrasions is noted near the first numeral in the denomination. As usual for Noe-34, the obverse appears off center toward 12 o'clock, but the reverse is nicely centered. Noe-34 and Noe-35 threepence coins were produced from the same obverse and reverse dies. Noe-35 has the reverse further engraved with the D in NEW ENGLAND backward and the addition of ANO. Listed on page 41 of the 2021 *Guide Book*.  
Ex: Henry Grunthal (12/1952); Norweb Collection, Part I (Bowers and Merena, 10/1987), lot 1223; Jon Hanson (11/1987); Donald Groves Partrick Collection (Heritage, 1/2015), lot 5613.  
*From The Peter Jones M.D. Collection.*  
NGC ID# 2ARR, PCGS# 45365 Base PCGS# 21

1652 Pine Tree Sixpence, AU53  
Noe-33, Misaligned Obverse Die

- 3179** 1652 Pine Tree Sixpence AU53 PCGS. Noe-33, W-670, Salmon 2-B, R.3. Gunmetal-gray and lavender toning embraces unmarked and briefly circulated surfaces. The lower reverse displays the somewhat wavy appearance typical of rocker press emission. Characteristic of Noe-33 (but not Noe-33a), the obverse appears off-center toward 12 o'clock, while the reverse is well centered. Listed on page 41 of the 2021 *Guide Book*.  
*From The Peter Jones M.D. Collection.*  
PCGS# 22

- 
- The image shows two sides of a circular coin. The left side (obverse) features a pine tree in the center, surrounded by a circular border containing the text "SATHVSEI" at the top and "MA" at the bottom. The right side (reverse) shows the text "ENGLAND" at the top and "1682" in the center, with a small mark below the date. The coin appears to be made of a dark metal, possibly copper or lead, and shows signs of wear and patina.

**1721-B French Colonies, 9 Deniers, VF20  
Martin 1.1-A.7**

- 3186** 1721-B French Colonies, 9 Deniers, VF20 PCGS. Martin 1.1-A.7, R.6. When Sydney Martin prepared his 2015 reference, *French Coinage Specifically for Colonial America*, he included a table of the many varieties of 9 Deniers coins known in collections, including his own. The table shows that he owns 17 different examples of the 1721-B coins, including 11 of the 13 varieties. The present piece is one of the two not included in his collection. He had only encountered one other example that grades just VG. The present VF20 example is exceedingly important to any advanced French Colonies collector.

Although somewhat unevenly struck, this piece has choice light brown surfaces and extraordinary eye appeal for the grade. A small planchet flaw at 3 o'clock is hidden under the tab of the PCGS holder, and is not obvious for that reason. This is an example that should garner considerable interest. Listed on page 55 of the 2021 *Guide Book*.

Ex: Jacques Schulman, Amsterdam; John J. Ford, Jr. (1/16/1969); Ted L. Craig Collection (Stack's Bowers, 11/2012), lot 6245.

From The Peter Jones M.D. Collection.

PCGS# 170192

- 3187** 1778-79 Rhode Island Ship Token, Wreath Below, Pewter, AU53 PCGS. Betts-563, W-1745, High R.6. Ex: Garrett. The Rhode Island Ship Tokens were issued as propaganda items during the Revolutionary War. Only light wear shows on the strongly impressed design elements of this AU53 pewter example, attributed by the wreath below the ship. The lightly abraded surfaces are toned a pleasing shade of lavender-gray. Listed on page 52 of the 2021 *Guide Book*.

Ex: Col. James W. Ellsworth Collection; John Work Garrett; Johns Hopkins University; Garrett Collection, Part 3 (Bowers and Ruddy, 10/1980), lot 1328.

NGC ID# 2AUM, PCGS# 585

**1787 Massachusetts Half Cent, W-5940  
MS62 Brown, Mark-Free Surfaces**

- 3188** 1787 Massachusetts Half Cent, R. 4-C, W-5940, R.2, MS62 Brown NGC. Outstanding from the technical perspective, this medium brown and ebony example is virtually without marks. Three-quarters of the coin is well struck, but the upper left obverse and lower right reverse are lightly brought up and partly retain the texture of the planchet. The likely cause of the inconsistent strike was a planchet of uneven thickness. Listed on page 61 of the 2021 *Guide Book*.

From The Peter Jones M.D. Collection.

PCGS# 688343 Base PCGS# 296

**1787 Immunis Columbia, XF40  
W-5680, Eagle Reverse**

- 3189** 1787 Immunis Columbia, Eagle Reverse, XF40 PCGS. W-5680, High R.4. The 1787 Immunis Columbia coppers with the Eagle reverse were probably actually struck in 1789 by Matthias Ogden at the Rahway Mint in New Jersey. PCGS certifies these coins as copper patterns, but their status is debatable. This pleasing XF specimen displays smooth chocolate-brown surfaces that show only light wear on the softly struck design elements. Listed on page 57 of the 2021 *Guide Book*.

From The Peter Jones M.D. Collection.

NGC ID# BFJL, PCGS# 841

**1786 New Jersey Copper, AU53  
'Bridle' Variety, Maris 18-M**

- 3190** 1786 New Jersey Copper, Bridle, Wide Shield, M. 18-M, W-4890, R.2, AU53 NGC. The vertical die crack below the horse's snout is the source of the "Bridle" nickname. This briefly circulated example is mostly lavender-brown, but has blushes of orange toning on both sides. The lightly granular surfaces are refreshingly free from marks. Listed on page 71 of the 2021 *Guide Book*.

From The Peter Jones M.D. Collection.

PCGS# 766247 Base PCGS# 501

**1787 Fugio Cent, MS63 Brown  
N. 8-B, W-6740, UNITED STATES**

- 3191** 1787 Fugio Cent, UNITED STATES, 4 Cinquefoils, MS63 Brown PCGS. CAC. N. 8-B, W-6740, R.3. An often seen Pointed Rays, Cinquefoils variety, ideal for collectors seeking a single attractive type coin. This Select Brown example is struck from heavily clashed dies, as usual. Luminous satin surfaces yield shades of burgundy-brown, olive, and gold amid the well-struck design elements and clean fields. The lower obverse border shows the only mentionable weakness, although the die variety is easily identified. Listed on page 99 of the 2021 *Guide Book*.

NGC ID# 2B8F, PCGS# 889

1783 Chalmers Shilling, VF30  
Short Worm, W-1785

- 3192** 1783 Chalmers Shilling, Short Worm, VF30 PCGS. CAC. Breen-1011, W-1785, High R.4. John Chalmers was a Maryland silversmith who undertook the Herculean task of replacing clipped and heavily worn Spanish-American silver with his own privately coined denominations. The Short and Long Worm shillings are his most frequently encountered varieties. This example has bold peripheral legends. The central motifs are worn but can be identified. The reverse is misaligned several degrees toward 4:30. Listed on page 52 of the 2021 *Guide Book*. NGC ID# 2AUU, PCGS# 596

- 3193** (1785) 'USA' Bar Copper — Environmental Damage — NGC Details. Fine. CAC. Breen-1145, W-8520, R.4. The scarce and popular Bar 'cent' circulated in New York City, and was the subject of a much-quoted article in the November 12, 1785 *New Jersey Gazette*. The design was based on the buttons of Continental Army soldiers. This example is well detailed. The high points are tan-brown, while the fields are lavender and lightly granular. The bars display small pits. Listed on pages 75 of the 2021 *Guide Book*.

1783 Washington & Independence  
Cent Restrike, No Button  
Vlack 17-L, PR67 Brown

- 3194** 1783 Washington & Independence Cent, Draped Bust, No Button, Copper Restrike, Plain Edge, PR67 Brown PCGS. Baker-3 Variety, Vlack 17-L, W-10370, Musante GW-107, R.5. One of the well-made circa-1851 bronzed copper proof restrikes produced by W.J. Taylor. This Superb Gem example features surfaces with a uniform brick-red color and virtually free of abrasions. Trivial die rust is perceptible (and expected) on the profile of President Washington. Listed on page 82 of the 2021 *Guide Book*. NGC ID# 2B6S, PCGS# 682

1791 Washington Liverpool Halfpenny, XF40  
Baker-17, W-10650

- 3195** 1791 Washington Liverpool Halfpenny, Copper, XF40 PCGS. Baker-17, W-10650, Musante GW-19, R.6. Lettered Edge. Areas of olive, gold, and ebony appear throughout the burgundy-brown patina of this XF example. The devices are well detailed with light wear over the high points and in the fields. This issue is rarely seen in any grade. Listed on page 83 of the 2021 *Guide Book*. From *The Peter Jones M.D. Collection*. NGC ID# 2B7H, PCGS# 698

Good Samaritan Shilling, Wyatt Copy  
MS62, Silver, W-14082

- 3196** (circa 1850) Good Samaritan Shilling, Wyatt Copy, MS62 NGC. Kenney-8, Noe-GS, W-14082, Low R.7. Silver, 46.8 grains. The NGC holder refers to this example as a fantasy, but since the Charles Bushnell Good Samaritan shilling was believed genuine in 1850, Thomas Wyatt's intent was to provide an affordable copy of an uncollectible early American type. This high grade example has pleasing cream-gray and steel-blue matte surfaces. No marks are apparent. From *The Peter Jones M.D. Collection*.

HALF CENT

1793 C-2, B-2 Half Cent, XF Details

- 3197** 1793 C-2, B-2, R.3 — Corrosion — NGC Details. XF Copper coinage of 1793 is always popular with collectors, even in impaired condition. This C-2 half cent displays sharp detail, earning the XF designation from NGC, but the surfaces are deeply granular from corrosion and have thick ebony color. Some green verdigris is evident in the design recesses. Our EAC grade AG3.

## PROOF HALF CENT

1852 Half Cent, PR64 Brown  
B-2, First Restrike

- 3198** 1852 First Restrike, Small Berries, B-2, R.4, PR64 Brown PCGS. Three varieties are known for proof 1852 half cents. Those with large berries are B-1, struck in 1852. The small berry specimens, B-2 and B-3, are restrikes from later in the decade. Doubling on the T in CENT identifies B-2. Since B-1 and B-3 are extremely rare, B-2 is invariably chosen by those who collect proof half cents by date. Although certified as Brown, this well-struck Choice copper displays substantial brick-red color, along with lavender hues and a blush of ocean-blue on the upper obverse. Our EAC grade PR64. *From The Maltese Collection.*  
PCGS# 1317 Base PCGS# 35402

## LARGE CENTS

1796 S-110 Cent, VF20  
Reverse of 1794

- 3199** 1796 Reverse of 1794, S-110, B-16, R.3, VF20 PCGS. Breen Die State VII with a diamond-shaped die chip below the E in UNITED, and a diagonal die chip east of the E in ONE. This walnut-brown example has pleasing surfaces save for small radial edge splits above the Y in LIBERTY and opposite near the final A in AMERICA. Our EAC grade VG10.  
NGC ID# 223W, PCGS# 35801 Base PCGS# 1404

1814 Plain 4 Cent, MS62 Brown  
S-295, Die State IV

- 3200** 1814 Plain 4, S-295, B-2, R.1, MS62 Brown NGC. Breen Die State IV-V with a faint diagonal crack from 3:30 to the 8 in the date. A deep golden-brown example with satin luster and a bold, even strike. Marks are absent aside from a couple of faint field lines near the profile. The curls display a hint of wear. Our EAC grade AU50. *Ex: Superior (6/2002), lot 2462; The COL Steve Ellsworth Die State Collection / Long Beach Signature (Heritage, 9/2013), lot 4866.* *From The Maltese Collection.*  
NGC ID# 224Y, PCGS# 36517 Base PCGS# 1576

1820/19 Cent, MS65 Brown  
Single Finest as N-1 at NGC

- 3201** 1820/19 N-1, R.1, MS65 Brown NGC. The (9/20) NGC Census indicates that 21 pieces have been designated as N-1, and among those, the present coin is the single highest graded. Unlike the other two overdate varieties, N-2 and N-3, N-1 also shows repunching on the 1 and 8 in the date. This magnificent Gem has smooth golden-brown and steel-blue surfaces. Carbon is nearly absent, and the strike is sharp on the portrait and wreath. Our EAC grade AU55. *From The Maltese Collection.*  
NGC ID# 2257, PCGS# 36679 Base PCGS# 1618

1846 Cent, MS65 Red and Brown  
Newcomb-1, Small Repunched Date

- 3202** 1846 Small Date, N-1, R.1, MS65 Red and Brown PCGS. CAC. Die State a, the rare uncracked obverse die state, showing repunching to the left of the 1 in the date and fine die lines up from the dentils between the date and star 13. The reverse has faint die lines behind and above UNITED, as well as a crack from the first A in AMERICA to the rim above the M, which is always present on this variety. This Gem Red and Brown coin is CAC endorsed. The strike is sharp, and the satiny luster displays lovely copper-pink hues accented by burgundy-brown overtones. Our EAC grade MS63.  
PCGS# 397609 Base PCGS# 1866

---

1853 N-10 Cent, MS65 Red  
Outstanding Color and Quality

- 3203 1853 N-10, R.1, MS65 Red PCGS. The present Mature cent type coin was struck 167 years ago, but it has retained Red status all along. The orange-gold color is predominant despite a blush of mauve on the wreath below the NT in CENT. The strike is good save for a few blunt stars. Marks are nearly absent. As of (9/20), PCGS has certified two cents as both N-10 and MS65 Red, although others, such as this lot, appear in the Population without a variety designation. Our EAC grade MS64.

*From The Maltese Collection.*

NGC ID# 226K, PCGS# 406005 Base PCGS# 1903

---

1853 N-25 Cent, MS66 Red  
Popular Mature Head Type Coin

- 3204 1853 N-25, R.1, MS66 Red PCGS. Grellman Die State b. This lustrous Premium Gem is predominantly orange-red though small freckles of steel-blue are also evident, mostly on the upper obverse. Lustrous and unabraded with a crisp strike on the motifs and a few incompletely struck lower stars. Our EAC grade MS63. Population: 17 in 66 (1 in 66+) Red, 1 finer (8/20).

*Ex: Chicago Signature (Heritage, 8/2013), lot 3067.*

*From The Maltese Collection.*

NGC ID# 226K, PCGS# 403925 Base PCGS# 1903

---

1855 N-4 Cent, MS66 Red  
Upright 55, Among the Finest Graded

- 3205 1855 Upright 55, N-4, R.1, MS66 Red PCGS. Grellman Die State a. A pair of die chips, south and southwest of the earlobe, are diagnostic for Newcomb-4. This highly lustrous fire-red Premium Gem is essentially devoid of contact, and the sole post-strike imperfections are infrequent tiny spots. The strike is crisp except on stars 4 and 5. Ideal for the early copper type collector who will settle for nothing shy of the finest obtainable quality. Our EAC grade MS64.

*From The Maltese Collection.*

NGC ID# 226M, PCGS# 406155 Base PCGS# 1909

---

PROOF FLYING EAGLE CENTS

---

1857 Flying Eagle Cent, PR63  
Snow-PR3, Scarce in All Grades

- 3206 1857 Flying Eagle PR63 PCGS. Snow-PR3. Some die doubling is evident on UNITED on this proof variety. The 1857 proof Flying Eagle cent is scarce in all grades and highly sought-after by specialists of this series. This Select example is sharp and reflective, showing rich copper-pink and lilac hues across each side. Eye appeal is pleasing. Population: 11 in 63, 43 finer (9/20).

*From The Maltese Collection.*

NGC ID# 227B, PCGS# 2040

---

1858 Flying Eagle Cent, PR63  
Low-Mintage, Small Letters Variant

- 3207 1858 Small Letters PR63 PCGS. Eagle Eye Photo Certificate. The 1858 Small Letters Flying Eagle cent boasts a tiny proof mintage of about 200 pieces, including both High Leaves and Low Leaves varieties. The issue is rare today in all grades. The present coin represents the more available Low Leaves variety, with the leaves in the wreath below the top of O in ONE. The surfaces of this Select example are nicely reflective, with light golden-brown color. The devices are strongly impressed, and a few spots of dark color on the reverse are the only mentionable distractions. Population: 11 in 63, 57 finer (8/20).

*Ex: Long Beach Signature (Heritage, 9/2010), lot 5028; Houston Signature (Heritage, 12/2010), lot 3185; Long Beach Signature (Heritage, 2/2012), lot 3113.*

NGC ID# 272W, PCGS# 2043

## INDIAN CENT

1886 Cent, MS65 Red  
Conditionally Rare Type One Coin

- 3208 1886 Type One MS65 Red PCGS. Razor-sharp and beautifully preserved, this Gem Red Type One 1886 Indian cent yields radiant cartwheel luster and is entirely spot free. Rich copper-red color engulfs each. This issue is scarce in MS65 Red, and only a handful of finer pieces are known. Population: 29 in 65 Red, 8 finer (9/20). NGC ID# 272Y, PCGS# 2156

## PROOF INDIAN CENTS

1868 Indian Cent, PR65 Red Cameo  
Nearly Inverted Reverse

- 3209 1868 PR65 Red Cameo PCGS. Many 1868 proof Indian cents have medal alignment, with the reverse inverted from the usual coin alignment. This example has about 330 degree alignment. Stated another way, the shield is located at 5 o'clock, rather than 12 o'clock, when the coin is turned normally. This Gem has exceptional orange mint color with fully mirrored fields and outstanding contrast. Population: 7 in 65 (1 in 65+) Red Cameo, 6 finer (8/20).  
Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3724.  
From The Maltese Collection.  
NGC ID# 229L, PCGS# 82293

1877 Indian Cent, PR64 Red  
Strong Date Pressure on Proofs

- 3210 1877 PR64 Red PCGS. Because of the preeminence of the 1877 business strike as the key issue of the Indian cent series, proofs of this date are also very popular with specialists. This is an attractive near-Gem with original orange-red color. The fields are brightly reflective, with slightly deeper red color throughout. A few tiny, barely visible carbon flecks, and a small linear strike-through directly below the O in OF in the upper right obverse field, are seemingly all that separate this piece from a full Gem grade. Population: 41 in 64 Red, 37 finer (8/20).  
Ex: San Francisco Signature (Heritage, 3/2014), lot 10053.  
From The Maltese Collection.  
NGC ID# 229W, PCGS# 2320

1878 Indian Cent, PR67 Red and Brown Cameo  
Impeccably Struck, Sole Finest

- 3211 1878 PR67 Red and Brown Cameo NGC. Dappled gold and wine-red prevail on both sides, accented by tinges of palest blue and lavender. Only the small shield on reverse is what we would truly call brown. There is sufficient field-device contrast for the Cameo designation, which NGC will assign to Red and Brown coins (and Brown ones) while PCGS does not. The impeccable strike is needle-sharp throughout. There are no visible distractions, and the eye appeal is quite high.  
The minor proof sets of 1878, struck in the reported amounts of 2,350 sets, contained the Indian cent along with two proof-only issues, the three cent nickel and Shield five cent nickel. Although NGC has seen 33 grading events of this issue in Red and Brown Cameo, this piece is the sole PR67 among them (9/20).  
NGC ID# 229X, PCGS# 2322

**1882 Indian Cent, PR67+ Brown  
Sole Finest in Any Color at NGC**

- 3212 1882 PR67+ Brown NGC.** The Brown designation here, in fact, encompasses beautifully toned blue-green surfaces with a hint of pale lavender. The reverse adds a ring of gold near the rim. Both sides are refreshingly free of mentionable contact, and the strike is every bit as impressive as the PR67+ grade suggests. The Plus on the grade makes this coin the current sole finest by that margin at NGC, regardless of color or Cameo designation (9/20). NGC ID# 22A3, PCGS# 2333

**1906 Indian Cent, PR66+ Red  
Only Two Finer Coins at PCGS**

- 3213 1906 PR66+ Red PCGS. CAC.** From a small proof mintage of 1,725 pieces, this high-end Premium Gem displays pinpoint definition on all design elements and deeply mirrored fields. The well-preserved original red surfaces are free of mentionable distractions. Population: 15 in 66 (3 in 66+) Red, 2 finer. CAC: 4 in 66, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3108. From The Maltese Collection.*  
NGC ID# 22AV, PCGS# 2407

**LINCOLN CENTS**

**1909-S VDB Cent, MS66 Red  
Lustrous and Bold**

- 3214 1909-S VDB MS66 Red PCGS.** Ample luster flows over golden-red surfaces on this lovely Premium Gem Red PCGS-graded coin — “the” coveted key date in nearly any grade, much less high Mint State Red. The bold strike and overall excellent preservation compensate for a couple of trivial flecks near the rims. NGC ID# 22B2, PCGS# 2428

**1909-S Lincoln Cent, MS66+ Red**

- 3215 1909-S MS66+ Red PCGS. CAC.** The surfaces of this first-year key S-mint display copious mattelike, fine-grained luster, and judging only by the obverse we would call this piece a full MS67 Red. The reverse texture falls just a tad shy of the Superb Gem level, however, while still retaining a great deal of eye appeal. The letters E P that begin the motto are a bit weakly struck, as often seen. Population: 28 in 66+ Red, 11 finer. CAC: 44 in 66, 3 finer (8/20). NGC ID# 22B4, PCGS# 2434

**1914-D Lincoln Cent, MS65 Red and Brown  
Low-Mintage Series Key**

- 3216 1914-D MS65 Red and Brown PCGS. CAC.** The 1914-D Lincoln cent is an elusive key in the early series, from a small mintage of 1.1 million pieces. This delightful Gem exhibits sharply detailed design elements and well-preserved original red surfaces that have mellowed to light brown in a few areas. Vibrant mint luster radiates from both sides. Population: 75 in 65 (5 in 65+) Red and Brown, 2 finer. CAC: 33 in 65, 2 finer (9/20). NGC ID# 22BH, PCGS# 2472

**1917-D Lincoln Cent  
Well-Struck MS66 Red and Brown**

- 3217 1917-D MS66 Red and Brown PCGS. CAC.** The 1917-D Lincoln cent issue is a generally well-struck one, and such is the case here on this appealing Premium Gem Red example. Trivial weakness on the top of O(NE) is almost a given for branch mint Lincoln cents. This piece shows no trace of carbon or other mentionable distractions, amid pleasing reddish-gold color and excellent luster. Population: 5 in 66 Red and Brown, 0 finer. CAC: 3 in 66, 0 finer (9/20). NGC ID# 22BT, PCGS# 2499

## SMS LINCOLN CENT

1965 SMS Cent, Seldom-Seen MS67 Cameo  
One of Two So Fine at PCGS

- 3218** 1965 SMS MS67 Cameo PCGS. The Red designation is assumed on these Cameo coins, but this appealing and high-grade example offers such surfaces in abundance. The preservation is especially meticulous on this piece, one of the few finest of this challenging Special Mint Set date with Cameo designation. Certified in an early PCGS slab with the MS prefix, which PCGS later changed to SPXX for Special Strike coins. The certification number now comes up as SP67 Cameo. Population: 2 in 67 Cameo, 0 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 22LU, PCGS# 83290

## PROOF LINCOLN CENTS

1912 Cent, PR65 Red  
CAC Endorsement

- 3219** 1912 PR65 Red PCGS. CAC. Satiny matte luster and sharp details complement broad, squared rims on this Gem Red proof. The surfaces yield burnt-orange and copper-amber color, the usual shade of "red" seen on the 1912 matte proof. A partial print on Lincoln's neck is hardly noticed. The 1912 is rare in Gem Red condition, and this is one of just a half dozen coins in the present grade with CAC recognition. PCGS lists just two Red proofs finer. Population: 30 in 65 (1 in 65+) Red, 2 finer. CAC: 6 in 65, 1 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 22KV, PCGS# 3314

1915 Cent, Matte PR65 Red  
Only 1,150 Pieces Struck

- 3220** 1915 PR65 Red PCGS. CAC. Only 1,150 proofs were struck in 1915, and all were from a single pair of dies. This is a bright, sparkling matte proof that exhibits a considerable range of color for a coin termed Red. Red, of course, is the dominant color, but a slight accent of lilac is present over Lincoln's portrait, and lighter yellowish-tinged red is seen around the margins. Every detail in the beard is fully defined, as are all the other design elements. Scarce with full red color. Population: 16 in 65 Red, 10 finer. CAC: 1 in 65, 4 finer (8/20).  
*Ex: FUN Signature (Heritage, 1/2014), lot 3621.*  
*From The Maltese Collection.*  
NGC ID# 22KY, PCGS# 3323

1916 Lincoln Cent, PR65 Brown  
Elusive Early Matte Proof

- 3221** 1916 PR65 Brown PCGS. CAC. The 1916 matte proof Lincoln cents are the second most elusive in the early series behind the vaunted 1909 VDB proofs. This attractive Gem example displays almond-brown surfaces with no visible carbon and some reddish tinges. A stripe of darker brown runs before Lincoln's head, and the obverse has a bit of woodgrained appearance. The strike is meticulously sharp and the rims high and squared-off. Population: 19 in 65 (1 in 65+) Brown, 10 finer. CAC: 6 in 65, 4 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 22KZ, PCGS# 3324

1936 Satin Finish Proof Cent, PR66 Red

- 3222** 1936 Type One — Satin Finish PR66 Red PCGS. Elegant copper-orange surfaces with subtle undercurrents of rose. The strike is bold, and while the luster is satiny compared to the later brilliant proofs, both sides show definite reflectivity. A single small flyspeck is noted in the upper-right obverse field. Population: 42 in 66 (7 in 66+) Red, 1 finer (8/20).  
*Ex: Long Beach Signature (Heritage, 2/2008), lot 3268.*  
*From The Maltese Collection.*  
NGC ID# 22L2, PCGS# 3332

**1936 Brilliant Finish Cent, PR66 Red  
Deeply Reflective Fields**

**3223 1936 Type Two — Brilliant Finish PR66 Red PCGS.** The vivid reddish-orange surfaces show the gleaming, watery texture that marks the later brilliant proofs for this initial modern-era proof issue. Fully struck with squared rims and marvelous preservation. One of just 5,569 specimens coined. Population: 74 in 66 (6 in 66+) Red, 2 finer (8/20).

Ex: Long Beach Signature (Heritage, 2/2008), lot 3269.

From The Maltese Collection.

NGC ID# 22L3, PCGS# 3335

**1990 No S Cent, PR68 Red Deep Cameo  
Key to the Proof Memorial Series**

**3226 1990 No S, FS-101, PR68 Red Deep Cameo PCGS.** The 1990 No S is the key to the proof Memorial Reverse series. Estimates of surviving examples range from 100 to about 250 pieces. Golden-orange-on-black contrast reaches out to the observer from both sides of this breathtaking specimen. Razor-sharp detail and immaculate preservation further add to the magnificent eye appeal.

Ex: New York Signature (Heritage, 11/2013), lot 3520.

From The Maltese Collection.

PCGS# 408239 Base PCGS# 93506

**1937 Cent, PR67 Red  
CAC-Approved Registry Coin**

**3224 1937 PR67 Red PCGS. CAC.** The proof 1937 Lincoln cent is rare in Superb Gem Red condition at PCGS. That service lists just 33 non-Cameos and five Cameos in the 67 numeric grade, with none in 68. This CAC-approved non-Cameo is quite colorful for a Red coin, yielding rich cherry-red around the borders with copper-orange and golden hues throughout the interiors. Spotless and pristine. Population: 33 in 67 (1 in 67+) Red, 0 finer. CAC: 15 in 67, 0 finer (9/20).

From The Maltese Collection.

NGC ID# 22L4, PCGS# 3338

**1990 No S Cent, PR69 Red Deep Cameo  
Red-on-Black, Near Perfection**

**3227 1990 No S, FS-101, PR69 Red Deep Cameo PCGS.** Essentially flawless and fiery red, this key Lincoln Memorial cent is a meticulously struck Superb Gem. Mirrored fields are so deep they appear black under direct light, surrounding frosted, orange-red devices.

The stippled field texture seen on this cent is characteristic of the No S proofs. This interesting and rare modern proof variety appears to have a surviving population of fewer than 200 coins, making it a must-have rarity for the serious Lincoln cent collector. Population: 64 in 69 Red Deep Cameo, 0 finer (8/20).

Ex: FUN Signature (Heritage, 1/2014), lot 5147.

From The Maltese Collection.

PCGS# 408239 Base PCGS# 93506

**1937 Cent, Nicely Contrasted PR66 Red Cameo**

**3225 1937 PR66 Red Cameo PCGS. CAC.** Medium-red surfaces show effulgent luster, good preservation, and perceptible contrast, save that magnification reveals one small contact mark above the last S in STATES that has developed a dark fleck. At actual size, however, it is far from distracting, and the overall eye appeal is excellent. Finding an example in Cameo surfaces finer would no doubt entail a long (and perhaps fruitless) search. Population: 24 in 66 (5 in 66+) Red Cameo, 5 finer. CAC: 10 in 66, 4 finer (9/20).

From The Maltese Collection.

NGC ID# 22L4, PCGS# 83338

**1998-S Close AM Cent, PR70 Red Deep Cameo  
One of Only Two Such at PCGS**

**3228 1998-S Close AM, FS-901, PR70 Red Deep Cameo PCGS.** The close AM, a characteristic of business strike dies, was used on a small minority of proof dies in 1998, creating this sought-after variety. This is a perfect orange-red, thoroughly contrasted example showing absolutely no trace of carbon or other impairment. PCGS has certified only two submissions in this perfect Red grade (9/20).

Ex: FUN Signature (Heritage, 1/2014), lot 3630.

From The Maltese Collection.

PCGS# 507302 Base PCGS# 93529

## TWO CENT PIECES

### 1864 Large Motto Two Cent, MS66+ Red Near the Condition Census

- 3229 1864 Large Motto MS66+ Red PCGS.** The Large Motto 1864 two cent piece represents the best option for date collectors, as attractive Gem Red examples are accessible. This Premium Gem is conditionally scarce, and only two finer pieces are listed at PCGS. The strike is sharp, complemented by luminous copper-orange luster and unabraded surfaces. A lone fleck is noted in the lower reverse margin near the right ribbon end. Population: 76 in 66 (10 in 66+) Red, 2 finer (9/20). NGC ID# 22N9, PCGS# 3578

### 1871 Two Cent MS66 Red and Brown

- 3230 1871 MS66 Red and Brown PCGS.** CAC. Excellent preservation is the hallmark of this ruddy-red Premium Gem 1871 two cent, one of the nicer survivors of the original production of 721,250 circulation strikes. Visible carbon is absent and much red color remains, although a couple of brownish patches in the fields on the reverse account for the color designation. Population: 9 in 66 Red and Brown, 0 finer. CAC: 6 in 66, 0 finer (9/20). NGC ID# 5NAT, PCGS# 3610

## PROOF TWO CENT PIECES

### 1869 Two Cent, PR67 Red and Brown Attractive Red-Leaning Color Palette

- 3231 1869 PR67 Red and Brown NGC.** A conditionally rare Superb Gem example of the 1869 proof, showing reflective fields with flashes of fire-orange, burgundy, and olive-green toning over each side. There is no obvious carbon spotting, and the devices are sharp. Eye appeal is outstanding. Census: 5 in 67 Red and Brown, 0 finer (9/20). NGC ID# 274Y, PCGS# 3640

### 1869 Two Cent, PR66 Red Eye-Catching Color

- 3232 1869 PR66 Red PCGS.** The *Guide Book* reports an estimated mintage of 600+ two cent proofs in 1869. Exact numbers are unknown because minor proof production totals were not recorded until 1878. This spectacular Premium Gem proof enjoys eye-catching copper-orange color with pleasing magenta and neon-green accents. Clean and reflective with a single carbon speck within the shield. Population: 20 in 66 (1 in 66+) Red, 1 finer (9/20). NGC ID# 274Y, PCGS# 3641

### 1871 Two Cent, PR66 Red Moderately Contrasted

- 3233 1871 PR66 Red PCGS.** The motto IN GOD WE TRUST is die doubled on this 1871 proof two cent piece, as it always is on proof strikes of two different varieties. This Premium Gem has brilliant, pale orange mint color with fully mirrored fields behind lustrous devices, imparting slight cameo contrast. Population: 22 in 66 (4 in 66+) Red, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3738.*  
**From The Maltese Collection.**  
NGC ID# 22NH, PCGS# 3647

### 1872 Two Cent Piece, PR67 Red and Brown Essentially Perfect Surfaces, Much Red Remains

- 3234 1872 PR67 Red and Brown NGC.** The production of circulation-strike two cent pieces was winding down in 1872, but proofs were made in larger numbers for the collector trade. Still, only 950 proofs were struck and high-grade survivors are very scarce today. Red and Brown is accurate, but there is a significant presence of original mint luster on each side. The surfaces are pristine; the only pedigree identifier we see is a small, irregularly shaped speck of grease that was struck into the upper shield lines. Census: 7 in 67 (1 in 67★) Red and Brown, 0 finer (9/20).  
*Ex: Eric P. Newman Numismatic Education Society; Eric P. Newman Collection, Part II (Heritage, 11/2013), lot 33008.*  
**From The Maltese Collection.**  
NGC ID# 2752, PCGS# 3649

**1873 Two Cent Piece, PR64 Brown  
Original Closed 3 Variety**

- 3235 1873 Closed 3 PR64 Brown PCGS. CAC.** Two cent pieces were only produced in proof format in 1873, and the original mintage can be distinguished from the later restrikes by the Closed 3 in the date. This sharply detailed Choice example exhibits dark brown surfaces with highlights of original red and intense reflectivity. Population: 53 in 64 (1 in 64+) Brown, 40 finer. CAC: 8 in 64, 23 finer (8/20).  
Ex: *October Signature* (Heritage, 10/2011), lot 3285.  
From *The Peter Jones M.D. Collection*.  
NGC ID# 2753, PCGS# 3651

**1873 Closed 3 Two Cent Piece  
PR64 Red and Brown  
Lovely and Impressive Original Striking**

- 3236 1873 Closed 3 PR64 Red and Brown PCGS.** For the proof-only 1873, the Closed 3 pieces were struck the same year as the date, while the slightly scarcer Open 3 examples are called restrikes, though they might also have been struck in 1873. The present near-Gem is an original striking, and is sharply struck with minimal carbon and dusky orange-gold and steel-blue color. Encapsulated in an old green label holder.  
Ex: *Pittsburgh Signature* (Heritage, 10/2011), lot 3286; *San Francisco Signature* (Heritage, 3/2014), lot 10108.  
From *The Maltese Collection*.  
NGC ID# 2753, PCGS# 3652

**1873 Open 3 Two Cent  
Dual-Toned PR66 Red and Brown**

- 3237 1873 Open 3 PR66 Red and Brown PCGS.** A gorgeous example of the proof-only Open 3 restrikes, which were believed struck after the series' official end in 1873. Walter Breen's *Proof Encyclopedia*, listing these in its Restrikes and Fantasy Pieces chapter, comments that "one of these is seen for every 9 or 10" of the Closed 3 two cents. He also makes the curious comment "Reverse same as 1872 and closed 3 1873's, or sometimes a different die" without further elaboration. This piece is largely orange-toned on the obverse and plum-toned on the reverse, a stunning presentation with some tinges of blue near the rims on both sides. The strike and preservation are both top-notch. Population: 19 in 66 (1 in 66+) Red and Brown, 0 finer (9/20).  
NGC ID# 2754, PCGS# 3655

**THREE CENT SILVER**

**1858 Type Two Three Cent Silver  
Lightly Toned MS66**

- 3238 1858 MS66 PCGS.** This attractive Premium Gem Type Two three cent offers a lightly mauve-toned obverse, while the reverse adds shades of blue and jade-green. Pristine preservation is the order of the day throughout, and some light die clash marks appear primarily on the left-side obverse. The 1858 was the last of the Type Two issues as well as the last emission of the series exceeding 1 million pieces. Population: 48 in 66 (4 in 66+), 15 finer (9/20).  
NGC ID# 2227, PCGS# 3674

## THREE CENT NICKEL

### 1867 Three Cent Nickel, MS67 None Finer at NGC

- 3239 1867 MS67 NGC.** An untoned, lustrous, and pristine Superb Gem. The strike is generally sharp, although the three denominational columns show occasional softness. More than 3.9 million pieces were coined, but surprisingly few remain in high grades. Struck from multiply clashed dies. Census: 3 in 67, 0 finer (9/20).  
*Ex: FUN Signature (Heritage, 1/2013), lot 3338.*  
**From The Maltese Collection.**  
NGC ID# 2755, PCGS# 3733

## PROOF THREE CENT NICKELS

### 1865 Three Cent Nickel, PR66 Cameo Lowest Proof Mintage of Type

- 3240 1865 PR66 Cameo PCGS.** The 1865 is the rarest proof date in the three cent nickel series, though the 1877 is about as valuable due to its proof-only status. 1865 proofs show a clearly repunched date and are infrequently encountered with the evident cameo contrast seen on the present almond-gold specimen. After the proof strikes were made, the obverse die was then put into service to produce coins for circulation. Examples of those pieces still exhibit a strongly repunched date and are listed as FS-302 in *Cherry-pickers'*. Population: 34 in 66 (2 in 66+) Cameo, 4 finer (8/20).  
*Ex: Long Beach Signature (Heritage, 6/2013), lot 4370.*  
**From The Maltese Collection.**  
NGC ID# 275K, PCGS# 83761

### 1866 Three Cent Nickel, PR66 Deep Cameo Highly Reflective Fields

- 3241 1866 PR66 Deep Cameo PCGS. CAC.** The best guess for the proof mintage of 1866 three cent nickels is 725 pieces, although few survive as nicely preserved or well-contrasted as this example. The surfaces are completely untoned. Some of the leaves on the reverse and parts of the bow ribbons are attenuated due to die lapping. Population: 8 in 66 (1 in 66+) Deep Cameo, 6 finer. CAC: 8 in 66, 4 finer (8/20).  
*Ex: Long Beach Signature (Heritage, 2/2013), lot 3729.*  
**From The Maltese Collection.**  
NGC ID# 275L, PCGS# 93762

### 1867 Three Cent Nickel, PR67 Cameo Lower-Mintage, Early Proof Date

- 3242 1867 PR67 Cameo NGC.** The lovely silver-white surfaces show just a trace of golden patina near the obverse rim. The strike wanes a bit on the Roman numerals on the reverse. The only mentionable distraction is a small contact mark near the date. The contrast is moderate on the obverse, considerably deeper on the reverse. Census: 5 in 67 Cameo (1 in 67★), 1 finer (9/20).  
*Ex: FUN Signature (Heritage, 1/2008), lot 617; Long Beach Signature (Heritage, 2/2013), lot 3249.*  
**From The Maltese Collection.**  
NGC ID# 275M, PCGS# 83763

### 1874 Three Cent Nickel, PR67 Delicately Toned, Tied for Finest

- 3243 1874 PR67 PCGS. CAC.** Delicate gold and iridescent tones grace the deep olive-gray surfaces of this Superb Gem proof. The devices show significant mint luster, with almost enough contrast for a Cameo designation. The aesthetic appeal of this beauty is extremely high, as is its rarity in so fine a grade. Population: 5 in 67, 0 finer. CAC: 2 in 67, 0 finer (8/20).  
*Ex: Houston Signature (Heritage, 12/2009), lot 207; Chicago Signature (Heritage, 8/2013), lot 3320.*  
**From The Maltese Collection.**  
NGC ID# 275V, PCGS# 3770

---

**1874 Three Cent Nickel, PR66 Ultra Cameo**  
**Impressive Eye Appeal, Only a Few Finer**

- 3244 1874 PR66 Ultra Cameo NGC.** The exact number of proofs three cent nickel proofs struck is an estimate at best, with the *Guide Book* suggesting 950+ pieces is a good number. This spectacular Premium Gem Ultra Cameo proof is certainly one of the top survivors, with less than a handful of pieces certified in finer grades at PCGS and NGC combined. A dusting of reddish-gold patina visits both sides, assuring the originality of the deeply mirrored fields and boldly frosted motifs. Eye appeal is equally strong. Census: 2 in 66 Ultra Cameo, 2 finer (9/20).  
NGC ID# 275V, PCGS# 93770

---

**1877 Three Cent Nickel, PR66**  
**Proof-Only Issue, Seldom Seen Finer**

- 3245 1877 PR66 PCGS. CAC.** One of the few finest survivors from this proof-only issue of 900 coins, the present piece is lightly toned with considerable reflectivity and good eye appeal, seemingly on the verge of a Cameo designation. The certified populations in this grade are no doubt rife with duplications. Population: 65 in 66 (5 in 66+), 7 finer. CAC: 25 in 66, 1 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 275X, PCGS# 3773

---

**1879 Three Cent Nickel, PR68 Cameo**  
**Black-and-White Contrast**

- 3246 1879 PR68 Cameo PCGS.** Both sides of this amazing Superb Gem Cameo proof are fully brilliant and untoned with bold design motifs as expected. The fields are fully and deeply mirrored behind lustrous devices with impressive field-to-device contrast. Population: 1 in 68 Cameo, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3748.*  
*From The Maltese Collection.*  
NGC ID# 275Z, PCGS# 83775

---

**1881 Three Cent Nickel, PR68**  
**Top-Grade CAC Registry Coin**  
**Beautiful Light Toning**

- 3247 1881 PR68 PCGS. CAC.** An otherwise available proof three cent nickel, the 1881 becomes conditionally rare at the PR68 level, and no numerically finer coins are reported (9/20). The piece offered here is one of just two coins for the grade with CAC endorsement. Each side displays a balance of satin luster and reflectivity, complementing a tinge of ice-blue and delicate lavender toning. Eye appeal is outstanding. Population: 5 in 68, 0 finer. CAC: 2 in 68, 0 finer (9/20).  
NGC ID# 2763, PCGS# 3777

---

**1881 PR68 Cameo Three Cent Nickel**  
**Tied for Finest Certified**

- 3248 1881 PR68 Cameo NGC.** Consistent pale gold toning visits this undisturbed and fully struck Superb Gem. The date is obviously repunched. The wreath and the portrait demonstrate pleasing contrast against the glassy fields. A flawless and unimprovable specimen. Census: 12 in 68 Cameo (2 in 68★), 0 finer (9/20).  
*Ex: Long Beach Signature (Heritage, 6/2011), lot 3187.*  
*From The Maltese Collection.*  
NGC ID# 2763, PCGS# 83777

## PROOF SHIELD NICKELS

### 1866 Rays Nickel, PR66 Cameo Lightly Toned, Sharply Contrasted

- 3249 1866 Rays PR66 Cameo PCGS.** This lovely piece was struck in the initial year of five cent nickel coinage, and is a low-mintage, two-year proof type coin with a mintage of "600+" proofs, according to the 2021 *Guide Book*, a revised estimate that was only "200+" several years ago. This is a boldly struck coin with nicely mirrored fields and the diagnostic center dot is plain to see on the reverse. What sets this Premium Gem specimen apart from most proofs seen from this year is sufficient contrast between the fields and devices to earn it the Cameo designation. Population: 40 in 66 (1 in 66+) Cameo, 4 finer (8/20).  
*Ex: Dallas Signature (Heritage, 11/2006), lot 313; New York Signature (Heritage, 2/2014), lot 5042.*  
**From The Maltese Collection.**  
NGC ID# 276G, PCGS# 83817

### 1868 Shield Nickel, PR67 Cameo Registry-Grade Condition Rarity

- 3250 1868 PR67 Cameo NGC.** PCGS has not certified a single 1868 proof Shield nickel in Superb Gem condition. NGC lists only nine pieces to quality for this numeric grade, including three non-Cameos, five Cameos (one of which is offered here), and a lone Ultra Cameo (9/20). This coin is starkly contrasted and deeply mirrored, showing the faintest trace of champagne toning across otherwise brilliant, untouched surfaces.  
NGC ID# 276J, PCGS# 83822

### 1877 Shield Nickel, PR66+ Cameo

- 3251 1877 PR66+ Cameo PCGS.** The 1877 Shield nickel is a proof-only issue and one of the keys to the series, struck in a meager reported quantity of 900 pieces. This Premium Gem offers golden-toned surfaces that are well-contrasted and sharply struck, as expected. A couple of small scrapes on the lower reverse are noted but undistracting, as plenty of eye appeal remains throughout. Population: 10 in 66+ Cameo, 11 finer (9/20).  
NGC ID# 276U, PCGS# 83831

### 1877 Shield Nickel, PR66+ Cameo CAC-Approved Registry Contender

- 3252 1877 PR66+ Cameo PCGS. CAC.** Struck only in proof format and just to the extent of 900 pieces, the 1877 Shield nickel is a necessity to proof series collectors and date collectors. This high-end Premium Gem Cameo is CAC endorsed. Light champagne toning warms the mirrored fields and satiny devices, and the strike is sharp. Population: 53 in 66 (10 in 66+) Cameo, 11 finer. CAC: 30 in 66, 3 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 276U, PCGS# 83831

### 1879/8 Shield Nickel, PR67 Cameo Strong Eye Appeal

- 3253 1879/8 PR67 Cameo PCGS. CAC.** The design motifs are fully impressed and the pristine surfaces exhibit startling contrast between richly frosted devices and gorgeously reflective fields. A lovely black-and-white Superb Gem that is equally impressive for its high degree of technical merit and stunning visual appeal. Population: 14 in 67 (1 in 67+) Cameo, 0 finer. CAC: 8 in 67, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2/2014), lot 4406.*  
**From The Maltese Collection.**  
NGC ID# 22PG, PCGS# 83834

### 1881 Shield Nickel, PR66 Deep Cameo Rarely Seen Contrasted Proof

- 3254 1881 PR66 Deep Cameo PCGS. CAC.** The 1881 is an important issue in the Shield nickel series, having a low overall mintage. Proofs of this issue are no rarer than of any other Shield nickel issue, but they are in higher demand as a result of the low business strike mintage. This Premium Gem Deep Cameo proof is brilliant and untuned with extraordinary contrast. Population: 1 in 66 Deep Cameo, 3 finer. CAC: 1 in 66, 1 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 4408.*  
**From The Maltese Collection.**  
NGC ID# 276X, PCGS# 93836

## LIBERTY NICKELS

1883 With Cents Nickel, MS67  
None Graded Higher

**3255 1883 With Cents MS67 PCGS.** Appearances of the first-year 1883 With Cents nickel in Superb Gem condition are scant. The issue is scarce at this unsurpassed grade level. Far more examples of the earlier type were saved by collectors. The strike is sharp with vibrant mint frost over brilliant surfaces. Population: 23 in 67 (1 in 67+), 0 finer (9/20).  
NGC ID# 22PH, PCGS# 3844

1884 Liberty Nickel, MS67  
Top-Grade Semikey Coin

**3256 1884 MS67 PCGS.** While “rainbow” is a vastly overused adjective in cyberspace, it is entirely appropriate here, as concentric toning envelops both sides in gorgeous shades of violet, amber, orange, and pale blue. A sharp strike and lack of contact marks will not go unmentioned. There is a meandering die crack on the reverse from the bottom rim through E in CENTS, the V denomination, and up to the A in STATES that actually gives this piece even more cachet, if possible. In the MS67 grade level, the 1884 and 1885 are neck-and-neck in the PCGS populations: seven for the 1884, six for the 1885, none finer for either one (8/20).  
NGC ID# 22PJ, PCGS# 3845

## PROOF LIBERTY NICKELS

1883 With Cents Nickel, PR66 Deep Cameo  
Brilliant and Deeply Reflective

**3257 1883 With Cents PR66 Deep Cameo PCGS. CAC.** The 1883 proof Liberty nickels with CENTS on the reverse were struck in an amount slightly more than the No Cents proofs. This is an untoned, highly reflective nickel-gray piece with a great strike, even on the problematic lower-left ear of corn. The surfaces show only the most minor ticks, consistent with the grade. Population: 4 in 66 Deep Cameo, 2 finer. CAC: 2 in 66, 1 finer (8/20).  
*Ex: Houston Signature (Heritage, 12/2013), lot 3541.*  
**From The Maltese Collection.**  
NGC ID# 277S, PCGS# 93881

1884 Nickel, PR66+ Deep Cameo  
Profoundly Contrasted and Fully Struck

**3258 1884 PR66+ Deep Cameo PCGS. CAC.** This second-year proof mintage of the Liberty nickel was a nominal 3,942 pieces, nonetheless down quite a bit from the first-year 1883 production. This PR66+ Deep Cameo PCGS example shows a full strike throughout both sides, including the problematic lower-left ear of corn on the reverse. The surfaces are largely untoned and profoundly contrasted, creating the desired white-on-black appearance. There are no mentionable marks of any consequence. Population: 5 in 66 (1 in 66+) Deep Cameo, 2 finer. CAC: 2 in 66, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3756.*  
**From The Maltese Collection.**  
NGC ID# 22PV, PCGS# 93882

1885 Liberty Nickel, PR67+  
Popular Key Issue in the Series

- 3259 1885 PR67+ PCGS. CAC.** The key-date issue within the Liberty nickel series, the 1885 is avidly collected in both proof and circulation-strike formats. This impeccable PR67+ coin shows pale lavender interiors framed by an arc of warm sunset-orange on each side, with scattered smoky accents and a full proof strike throughout. Close to the finest graded, and with the CAC approval as well. Population: 31 in 67 (6 in 67+), 3 finer. CAC: 18 in 67, 2 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3758.*  
**From The Maltese Collection.**  
NGC ID# 277T, PCGS# 3883

1886 Nickel, Pastel PR67  
Attractive CAC Example

- 3260 1886 PR67 PCGS. CAC.** This delightful Superb Gem proof displays lovely lilac and powder-blue hues throughout the mirrored fields, while the softly frosted devices yield sharp definition. Neither side has discernible marks. The 1886 proof is popular with collectors who find high-grade business strikes to be out of reach. This Superb Gem proof is conditionally scarce, and PCGS has seen only a single finer non-Cameo example. Population: 36 in 67 (5 in 67+), 1 finer. CAC: 23 in 67, 0 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 277U, PCGS# 3884

1887 Liberty Nickel, Toned PR67

- 3261 1887 PR67 PCGS. CAC.** This Superb Gem proof Liberty nickel is among the top-graded examples of the 1887 issue at PCGS and CAC. Both sides boast a bold strike complementing lovely orange-gold toning with some deeper dollops of fire-red. This piece would be a standout in any Registry Set of this popular type. Population: 11 in 67 (2 in 67+), 0 finer. CAC: 5 in 67, 0 finer (8/20).  
NGC ID# 277V, PCGS# 3885

1897 Deep Cameo PR66 Nickel  
Light, Streaks of Toning

- 3262 1897 PR66 Deep Cameo PCGS.** Just a slight rose-tinted streakiness is seen over the starkly contrasted deep mirrors and the heavily frosted devices. The strike definition is complete on all the devices, and the surfaces appear flawless. This piece has no peers and only two proofs are finer at both services combined (9/20).  
*Ex: FUN Signature (Heritage, 1/2014), lot 3800.*  
**From The Maltese Collection.**  
NGC ID# 2787, PCGS# 93895

1907 Liberty Nickel, PR67 Cameo  
Palest Blue Patina Over Each Side

- 3263 1907 PR67 Cameo PCGS.** Ice-blue and pale rose toning characterize this amazingly well-preserved Liberty nickel. The cameo effect is also strong on each side with deeply mirrored fields and a nice presence of mint frost over the devices. The strike is fully brought up, as one would expect from a proof. Population: 6 in 67 (1 in 67+) Cameo, 0 finer (8/20).  
*Ex: FUN Signature (Heritage, 1/2014), lot 3804.*  
**From The Maltese Collection.**  
NGC ID# 278H, PCGS# 83905

1909 Nickel, PR67+ Cameo  
Nearly Deep Contrast

- 3264 1909 PR67+ Cameo PCGS. CAC.** Delicate gold toning appears on both sides of this brilliant nickel-gray Superb Gem Cameo proof. The fields are pristine with amazing depth of mirrors, and the boldly detailed devices are brilliant and highly lustrous. This example borders on Deep Cameo contrast. Population: 46 in 67 (11 in 67+) Cameo, 5 finer. CAC: 36 in 67, 3 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3760.*  
**From The Maltese Collection.**  
NGC ID# 278K, PCGS# 83907

**1911 Nickel, PR67 Cameo**  
**Among the Finest Known at PCGS**

- 3265 1911 PR67 Cameo PCGS. CAC.** Deeply toned in mirror-image patina, this Superb Gem has tremendous eye appeal. The well-contrasted obverse displays a long green-gold crescent centered at lower left embracing a blue-and-violet interior, while the reverse has a peach-gold core with ice-blue around. The coin is sharply struck, adding to the attractiveness. Population: 22 in 67 (5 in 67+) Cameo, 0 finer. CAC: 10 in 67, 0 finer (8/20).  
*Ex: Chicago Signature (Heritage, 8/2013), lot 3367; New York Signature (Heritage, 11/2013), lot 3219.*  
**From The Maltese Collection.**  
 NGC ID# 278M, PCGS# 83909

**BUFFALO NICKELS**

**1913-S Type One Nickel, MS67+**  
**Clashed Die State**

- 3266 1913-S Type One MS67+ NGC.** This is a virtually pristine Type One San Francisco nickel, showing satiny luster cast in delicate lilac-gold toning. Strike sharpness is outstanding. An interesting feature of this piece is the heavy clash marks on each side, which are most prominent in the right obverse field. The sculpted fields of the Type One design serve to minimize the impact of the clash marks elsewhere. An outstanding example of this important first-year S-mint issue. Census: 30 in 67 (10 in 67+, 1 in 67★), 3 finer (9/20).  
 NGC ID# 22PY, PCGS# 3917

**1916-D Nickel, Outstanding MS66**  
**Among the Finest at PCGS**

- 3267 1916-D MS66 PCGS.** The mintage of more than 13 million pieces suggests the 1916-D is readily available across the grading spectrum, which indeed it is. Still, Gem or finer examples become scarce. This is a magnificent Premium Gem coin, iridescently toned in light pastel colors including attractive sage-green and pale-rose hues. The strike is sharp for this Denver issue, lacking only some high-point fur definition on the bison. Smooth and lustrous fields surround nearly mark-free central devices. Eye appeal is exceptional. Population: 41 in 66 (5 in 66+), 0 finer (9/20).  
 NGC ID# 22RB, PCGS# 3932

**1919-D Buffalo Nickel, MS65+**  
**Treat for Toning Enthusiasts**

- 3268 1919-D MS65+ PCGS.** A stunningly toned Gem example of this semikey Buffalo nickel date, offering a needle-sharp strike including on all hair details, the bison's eye, horn, and split tail, and the fur on the back. Gorgeous amber, orange, and pastel blue patina make this piece a treat for the eyes of toning enthusiasts. Population: 32 in 65+, 21 finer (9/20).  
 NGC ID# 22RM, PCGS# 3942

**1920-D Nickel, MS65**  
**Satiny and Well-Defined**

- 3269 1920-D MS65 PCGS.** Although most 1920-D nickels are poorly defined from badly eroded and widely spaced dies, this Gem exhibits strong detail on the date and legends. Softness over the braid and bison's head is relatively minor. Satiny and delicately toned in pale golden patina. Only six grading events are numerically higher at PCGS (9/20).  
**From The Maltese Collection.**  
 NGC ID# 22RR, PCGS# 3945

---

### 1921-S Buffalo Nickel, Multicolor MS65

- 3270 1921-S MS65 PCGS.** This Gem 1921-S, besides being a conditionally rare key date in the series, should garner a considerable premium from aficionados of toned Buffalo nickels. Dappled wine, gold, jade, orange, and purple areas embellish both sides, which show excellent preservation overall. Only a single tick on the Indian's cheek is worth mentioning, while not overt. The strike is decent overall, while showing some expected weakness in typical areas such as the horn and tail.

NGC ID# 22RU, PCGS# 3948

---

### 1923 Buffalo Nickel, MS67 Splendid Overall Surfaces

- 3271 1923 MS67 PCGS.** The 1923 is readily available through the Gem level of preservation. Premium Gems become more challenging, Superb Gems are elusive, and anything finer is virtually unobtainable. An array of soft nickel-gray, sky-blue, violet, and lilac patina resides on the highly lustrous surfaces of this magnificent MS67 example. Impeccably preserved throughout, and exhibiting nicely struck design features. Population: 33 in 67 (4 in 67+), 1 finer (9/20).

Ex: Joseph C. Thomas Collection / Central States Signature (Heritage, 4-5/2009), lot 1513.

NGC ID# 22RV, PCGS# 3949

---

### 1925-D Buffalo Nickel, Rose-Toned MS65+

- 3272 1925-D MS65+ PCGS.** The 1925-D and 1926-D Buffalo nickels are notorious (and notoriously hard to grade) due to the overused, fatigued dies from which most examples were struck. (The Philadelphia Mint die shop supplied all the dies for all branch mints from their founding until 1996, when Denver finally got its own.) This coin is an MS65+ in terms of its excellent preservation (minimal signs of contact) and showy luster, but the obverse die, and the reverse die even more so, show evidence of fatigue and loss of detail, as well as flow marks in the fields on the reverse. This piece is still quite nice, and the beautiful predominant rose toning is another plus. Population: 25 in 65+, 14 finer (9/20).

NGC ID# 22S3, PCGS# 3955

---

### 1937 Buffalo Nickel, MS68 None Numerically Finer at Either Service

- 3273 1937 MS68 NGC.** As befits the high mintage of 79.4 million pieces, this is one of the most available dates in the Buffalo nickel series, but few examples can match the quality and eye appeal of the present coin. This specimen displays delicate iridescent ice-blue, gold-beige, and lilac patina over pristine surfaces that exhibit dazzling luster. Boldly detailed with immense visual appeal. Census: 22 in 68 (3 in 68+, 2 in 68★), 0 finer (9/20).

Ex: Central States Signature (Heritage, 4/2006), lot 1127; FUN Signature (Heritage, 1/2007); FUN Signature (Heritage, 1/2015), lot 3660.

NGC ID# 22SV, PCGS# 3980

---

### 1938-D/S Buffalo Nickel, MS68 Popular Overmintmark Variety

- 3274 1938-D/S FS-511 MS68 NGC.** Several different overmintmarked dies were prepared at the Philadelphia Mint die shop when it was determined that the San Francisco Mint would not strike any of the last-year Buffalo design, those dies instead going to the Denver Mint. This piece offers reddish-gold surfaces and pristine preservation, among the few finest of these popular overmintmarked varieties that "launched a generation of variety collectors," according to David Lange in *The Complete Guide to Buffalo Nickels*. Census: 20 in 68 (1 in 68+, 1 in 68★, 1 in 68+★), 0 finer (9/20).

NGC ID# 22T3, PCGS# 38476 Base PCGS# 3985

---

## PROOF BUFFALO NICKELS

---

### 1913 Type One Buffalo Nickel, PR65 Lightly Toned One-Year Proof Type Coin

- 3275 1913 Type One PR65 PCGS.** The Type One 1913 matte proof Buffalo nickel is widely popular not only as the first issue in the proof series but also as a type coin. The textured luster of the matte proofs complements the rugged boldness of the design, and on this Gem example it is joined by lilac, gold, olive, and tan toning. No significant marks are seen.

From The Maltese Collection.

NGC ID# 278R, PCGS# 3988

**1913 Type One Buffalo Nickel  
Splendid PR66+**

- 3276 1913 Type One PR66+ PCGS. CAC.** A splendid survivor of this Type One Buffalo nickel proof mintage, also known as Bison on Mound, showing golden high points contrasting against silver and pearl-gray fields. A tinge of orange color also appears on the reverse. The strike is well-executed save for some softness on LIBERTY (which is more a design flaw than a production issue). Population: 4 in 66+, 83 finer. CAC: 45 in 66, 32 finer (9/20). NGC ID# 278R, PCGS# 3988

**1913 Type One Nickel, PR67  
Great Example of This Single-Year Design**

- 3277 1913 Type One PR67 PCGS. CAC.** The rugged original reverse to the Buffalo nickel, with the bison standing atop a bluff with the words FIVE CENTS in raised letters, did not survive its first year of striking; the Mint also produced both business strike and proof coins dated 1913 and bearing the revised or Type Two Reverse. (Of course, the main concern behind the design change — the wearing away of the denomination — theoretically does not apply to proofs.) In any event, the sole Type One proof issue is immensely popular with collectors, and the supply of just 1,520 specimens originally struck cannot keep up with demand. This magnificently preserved PR67 example has elegant matte surfaces under delicate, delightful lavender and pastel-yellow patina. Population: 78 in 67 (18 in 67+), 5 finer. CAC: 31 in 67, 1 finer (8/20). Ex: FUN Signature (Heritage, 1/2010), lot 589; Central States Signature (Heritage, 4/2012), lot 5054. **From The Maltese Collection.** NGC ID# 278R, PCGS# 3988

**1913 Type Two Buffalo Nickel, PR66  
Ex: Eliasberg**

- 3278 1913 Type Two PR66 PCGS. CAC.** The matte proof 1913 Type Two Buffalo nickel claims a mintage of 1,514 pieces. Collectors prize the matte proof issues today, but they were less popular with collectors of the early 20th century, and many examples were not saved. The present coin is a magnificent Premium Gem specimen with an illustrious pedigree. The coin is fully struck and exhibits pleasing chestnut-gold and lavender toning. One tiny spot is located beneath the chin. Housed in a green label holder. Ex: Louis E. Eliasberg, Sr. Collection (Bowers and Merena, 5/1996), lot 811; Stamford Coinfest (Heritage, 10/2010), lot 4029; Long Beach Signature (Heritage, 9/2013), lot 3332. **From The Maltese Collection.** NGC ID# 278S, PCGS# 3990

**1913 Type Two Nickel, PR67  
Mintage of 1,514 Proofs**

- 3279 1913 Type Two PR67 PCGS. CAC.** The first issue of the modified Buffalo nickel design claims a proof mintage of 1,514 pieces. This Superb Gem representative is mostly brilliant with splashes of golden color. James Earle Fraser's design is fully rendered in needle-sharp detail, as expected. PCGS reports 12 numerically finer submissions (9/20). **From The Maltese Collection.** NGC ID# 278S, PCGS# 3990

**1914 Buffalo Nickel, PR67  
Glistening Matte Luster**

- 3280 1914 PR67 PCGS.** This nearly flawless Superb Gem proof has a solitary spot below the 4 in the date that identifies this specimen from all others. The obverse has delicate gold toning and the reverse has bands of champagne and pale blue. Both sides exhibit crisp design definition and brilliant satin luster. Population: 34 in 67+, 17 finer (9/20). Ex: ANA Signature (Heritage, 2/2014), lot 3772. NGC ID# 278T, PCGS# 3991

**1914 Buffalo Nickel, PR67**

**Ex: Eliasberg**

- 3281 1914 PR67 PCGS. CAC.** The matte proof mintage of Buffalo nickels was only 1,275 pieces in 1914, and few survivors can match the quality of this spectacular Superb Gem. This coin is fully struck, with vibrant mint luster, and pristine surfaces. Vivid shades of ice-blue and gold toning grace both sides of this magnificent piece. This coin traces its history back to the fabled Eliasberg Collection, where it was one of the highlights of the Buffalo nickel section. Housed in a green label holder.  
*Ex: Louis E. Eliasberg Collection (Bowers and Merena, 5/1996), lot 814; Stamford Coinfest Signature (Heritage, 10/2010), lot 4030.*  
**From The Maltese Collection.**  
 NGC ID# 278T, PCGS# 3991

**1915 PR67 Buffalo Nickel**

**Impressively Struck**

- 3282 1915 PR67 PCGS.** This 1915 Superb Gem matte proof displays alternating silvery areas with some deeper rose-gold patches to pleasing effect. The aesthetics of this piece are extremely attractive, and the search for a numerically finer example would likely be long and arduous. There is an impressive depth of fine detail visible throughout both sides, and we detect no mentionable distractions. Population: 84 in 67 (18 in 67+), 8 finer (9/20).  
**From The Maltese Collection.**  
 NGC ID# 278U, PCGS# 3992

**1915 Buffalo Nickel, PR67**  
**Limited Production of Only 1,050 Pieces**

- 3283 1915 PR67 PCGS. CAC.** A fully struck and pristine example of the short-lived matte proof method of production. Only 1,050 proofs were struck in 1915 and few can match the overall preservation of this Superb piece. Each side exhibits beautiful, bright rose-gray surfaces. Impeccably preserved and eye-appealing. Population: 85 in 67 (18 in 67+), 8 finer. CAC: 35 in 67, 3 finer (8/20).  
*Ex: Portland Signature (Heritage, 3/2004), lot 5421.*  
**From The Maltese Collection.**  
 NGC ID# 278U, PCGS# 3992

**1916 Buffalo Nickel, PR66**

**Attractive Matte Surfaces**

- 3284 1916 PR66 PCGS.** Pastel lime-green and chestnut-gold shades compete for territory across this flawless and undisturbed specimen. A well-struck and satiny Premium Gem. The end of the trail for the proof type until its resumption two decades later. Certified in a green label holder.  
*Ex: Long Beach Signature (Heritage, 2/2013), lot 4139.*  
**From The Maltese Collection.**  
 NGC ID# 278V, PCGS# 3993

**1916 Nickel, Iridescent PR67**

- 3285 1916 PR67 PCGS.** With only 600 pieces struck, the 1916 matte proof is the lowest-mintage issue in the short set and arguably the most desirable among Type Two dates. The present Superb Gem enjoys beautifully textured fields, expectedly fully struck devices, and iridescent toning over each side. Population: 39 in 67 (4 in 67+), 11 finer (9/20).  
*Ex: Internet Auction #747 (David Lawrence Rare Coins, 3/2014), lot 405116.*  
**From The Maltese Collection.**  
 NGC ID# 278V, PCGS# 3993

**1936 Nickel, Toned PR68**  
**Satin Finish, Only Two Coins Finer**

- 3286 1936 Type One — Satin Finish PR68 PCGS. CAC.** Buffalo nickel proof coinage resumed in 1936 after a two-decade hiatus. The Mint originally offered proofs in a Satin Finish, as here, but quickly switched to a Brilliant Finish after receiving collector feedback. This mattelike Superb Gem is marvelously toned in delicate peach-orange, lavender, and powder-blue hues. Virtually pristine. PCGS reports two numerically finer grading events. CAC: 16 in 68, 0 finer (9/20).  
**From The Maltese Collection.**  
 NGC ID# 278X, PCGS# 3994

**1936 Type Two, Brilliant Finish Nickel, PR67+  
Attractively Toned and Boldly Struck**

- 3287 1936 Type Two — Brilliant Finish PR67+ PCGS. CAC.** Faint splashes of ice-blue and lavender toning visit the light gold, luminous surfaces of this high-end Buffalo nickel proof, concentrated on the Indian's hair and on the rear portion of the bison. Boldly struck design elements and impeccable preservation complement the attractive patination. Brilliant Finish specimens such as the present coin account for approximately one-third of the 4,420-piece mintage of 1936 proof Buffalo nickels.  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3774.*  
**From The Maltese Collection.**  
NGC ID# 278Y, PCGS# 3995

**1937 Buffalo Nickel, PR68  
High-End Registry Candidate**

- 3288 1937 PR68 NGC.** A beautifully preserved, golden-toned Superb Gem example of the last proof issue in the Buffalo nickel series. The 1937 is scarce in PR68, and NGC does not list any numerically finer examples (9/20). This piece is sharp and deeply reflective, with outstanding eye appeal. Census: 69 in 68 (2 in 68+, 5 in 68★), 0 finer (9/20).  
NGC ID# 278Z, PCGS# 3996

**1937 Buffalo Nickel, Untoned PR68**

- 3289 1937 PR68 NGC.** The quicksilver surfaces are basically untoned, with no more than a suggestion of a golden cast. This Superb Gem proof offers an impeccable, pinpoint-sharp strike with flowing luster. One hair-thin scrape appears on the bison's abdomen, not in the least distracting. Census: 69 in 68 (2 in 68+, 5 in 68★), 0 finer (9/20).  
NGC ID# 278Z, PCGS# 3996

**1937 Nickel, Mildly Contrasted PR68**

- 3290 1937 PR68 PCGS. CAC.** The last of the proof Buffalo nickel issues, this date is available through PR67 but it is rare any finer. All proofs of this date have fully brilliant fields, devices, and edges. Moreover, the mirrored fields offer a mild contrast with the motifs when the coin is tilted slightly under a light source. The essentially untoned surfaces display razor-sharp design elements and are immaculately preserved. These attributes add up to outstanding eye appeal, appropriately recognized by CAC. Population: 52 in 68 (3 in 68+), 2 finer. CAC: 19 in 68, 0 finer (8/20).  
*Ex: New York Signature (Heritage, 2/2014), lot 5071.*  
**From The Maltese Collection.**  
NGC ID# 278Z, PCGS# 3996

**JEFFERSON NICKELS**

**1938-D Jefferson Nickel, MS68 Full Steps  
Tied for Finest at PCGS**

- 3291 1938-D MS68 Full Steps PCGS.** The 1938-D Jefferson nickel is generally plentiful, even with Full Steps, but such coins become conditionally rare in MS68. This is the grade that Registry Set collectors most highly seek out, and PCGS lists only six pieces in MS68 Full Steps. The present coin is sharp and satiny with untouched, champagne-toned surfaces. The eye appeal is simply outstanding. Population: 6 in 68 Full Steps, 0 finer (9/20).  
NGC ID# 22T5, PCGS# 84001

**1941-D Nickel, MS68 Full Steps  
Incredible Concentric Toning  
A Top-Grade Registry Set Rarity**

- 3292 1941-D MS68 Full Steps PCGS.** Beautiful concentric rings of gold, mint-green, blue, and lilac frame warm rose interiors on this remarkably high-end 1941-D Jefferson nickel. PCGS has certified only five Full Steps coins in this lofty grade, and none are finer at either leading service (9/20). The strike is sharp, and the seemingly flawless surfaces glisten beneath a light. Population: 5 in 68 Full Steps, 0 finer (9/20).  
NGC ID# 22TH, PCGS# 84011

**1945 Doubled Die Reverse Nickel, MS66  
FS-803**

- 3293 1945-P Doubled Die Reverse, FS-803 MS66 PCGS.** The lower reverse is clearly die doubled, strongest on CENTS and AMERICA. Not to be confused with FS-801, the prominent *Guide Book* DDR. This is a well-struck, olive-green Premium Gem with just a blush of steel-blue on the upper left portion of the reverse. Population: 2 in 66, 0 finer (8/20).

Ex: *San Francisco Signature* (Heritage, 3/2014), lot 10199.

**From The Maltese Collection.**

PCGS# 38502 Base PCGS# 84025

**1948-D Nickel, MS67+ Full Steps  
Beautifully Toned Top-Grade Registry Coin**

- 3294 1948-D MS67+ Full Steps PCGS.** Few 1948-D Jefferson nickels have been certified in Superb Gem condition with Full Steps, and none are finer than the present MS67+ Full Steps example. This piece is beautifully toned in concentric rainbow rings, and the strike is sharp through. Luster glistens beneath the array of colors and shows no distracting abrasions. Population: 33 in 67 (6 in 67+) Full Steps, 0 finer (9/20).

NGC ID# 22U9, PCGS# 84035

**1962 Jefferson Nickel Strike Rarity  
MS67 Five Full Steps**

- 3295 1962 MS67 Five Full Steps NGC.** A strike and condition rarity occasioned by the enormous (for the era) number of 1962 Philadelphia nickels produced, more than 97 million, nearly all of them either handled, mishandled, or at the least lacking sufficient detail for a Full Steps designation. The strike is exceptional here, not only on the central steps, but throughout most areas save for the side steps, which are virtually never full on business strikes. Census: 8 in 67 Five Full Steps (0 in 67 Six Full Steps), 0 finer (9/20). NGC ID# 22VC, PCGS# 84071

**PROOF JEFFERSON NICKELS**

**1939 Reverse of 1938 Nickel, PR68  
None Certified Finer**

- 3296 1939 Reverse of 1938 PR68 PCGS.** The majority of the proof 1939 Jefferson nickels are found with the "wavy steps" Reverse of 1938, while the opposite is true for circulation strikes; most of them, perhaps 90%, are the Reverse of 1940. Gorgeous gold, peach, and pale ice-blue toning alternates throughout both sides of this lustrous example. Population: 19 in 68, 0 finer (8/20).

Ex: *Rosemont Signature* (Heritage, 8/2013), lot 7469; *FUN Signature* (Heritage, 1/2014), lot 3897.

**From The Maltese Collection.**

NGC ID# 22YB, PCGS# 4176

**1952 Nickel, PR68 Deep Cameo  
Seldom Encountered With Such Contrast**

- 3297 1952 PR68 Deep Cameo PCGS.** Only 81,980 proof Jefferson nickels were struck in 1952. The Philadelphia Mint used an all-brilliant finish on proof coins of this era and few examples show any degree of cameo contrast. In addition, the coins were poorly packaged and often suffered from mishandling. To quote Rick Tomaska in *Cameo and Brilliant Proof Coinage of the 1950 to 1970 Era*, "Well-preserved examples are so scarce with ultra-heavily contrasted devices that few cameo dealers or collectors have ever even seen one."

The present coin is a magnificent PR68 example, with virtually perfect brilliant fields that contrast profoundly with the unusually frosty devices. The design elements show razor-sharp definition throughout and eye appeal is incredible. Population: 6 in 68 Deep Cameo, 1 finer (8/20).

Ex: *Long Beach Signature* (Heritage, 9/2013), lot 6296.

**From The Maltese Collection.**

NGC ID# 5L2E, PCGS# 94184

## EARLY HALF DIME

1797 Half Dime, V-2, LM-1, XF40  
Well-Detailed Example

- 3298** 1797 15 Stars, V-2, LM-1, R.3, XF40 NGC. The 1797 Draped Bust half dime claims a mintage of 44,527 pieces, with four die varieties known for the date. This coin represents the LM-1 variety, with 15 stars and the outer berry between N and I in UNITED. This lightly worn example retains much original design detail on Liberty's hair. The lightly abraded surfaces display shades of pale gold and lavender-gray toning. The central obverse portrait shows slight strike softness.  
*From The Peter Jones M.D. Collection.*  
NGC ID# 22ZZ, PCGS# 38597 Base PCGS# 4258

## BUST HALF DIMES

1833 Half Dime, V-3, LM-4.1, MS67★  
Colorfully Toned, Tied Finest at NGC

- 3299** 1833 V-3, LM-4.1, R.2, MS67★ NGC. Rich sea-green and olive-gold toning graces this lustrous and magnificently preserved Superb Gem. The centers are not completely brought up, but the stars and legends are exquisitely defined. An exceptional type coin. LM-4 is identified by the broadly repunched base of the O in OF; this reverse die was also paired with two different 1832 obverse dies. Census: 14 in 67 (2 in 67★), 0 finer (9/20).  
NGC ID# 232F, PCGS# 38688 Base PCGS# 4280

1836 Small 5C Half Dime, V-6, LM-5  
Nicely Toned MS65

- 3300** 1836 Small 5C, V-6, LM-5, R.2, MS65 PCGS. Strong repunching appears on star 1 with extra points on the obverse, and atop the right serif of the N in UNITED on the reverse. This attractive Gem coin shows alternating russet and silver-rose patina on the reverse with some honey-gold and jade-green accents on the obverse. For the LM-5 variety, PCGS has seen only the present MS65 piece and two finer, one each in MS66 and MS67+ (9/20).  
*From The Maltese Collection.*  
NGC ID# 232J, PCGS# 38728 Base PCGS# 4288

## SEATED HALF DIME

1850 Half Dime, Lightly Toned MS67  
Excellent Type Coin

- 3301** 1850 MS67 PCGS. CAC. Among the few finest certified of this fairly available date from a mintage of nearly 1 million pieces, although seldom seen so fine. The silvery surfaces offers satin luster accented with tinges of pale russet patina. A few trivial ticks appear, unsurprisingly, on Liberty's lower legs, but the surfaces elsewhere are nearly mark-free. One nick appears on the bottom of I in DIME. Light die clashing shows on the reverse. This Superb Gem CAC coin would be an excellent type-coin choice. Population: 11 in 67 (2 in 67+), 1 finer. CAC: 8 in 67, 0 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 233F, PCGS# 4345

## PROOF SEATED HALF DIMES

1860 Half Dime, PR67  
Toned CAC Type Coin

- 3302** 1860 PR67 PCGS. CAC. Only a handful of proof 1860 half dimes are certified by PCGS in Superb Gem condition, Cameo and non-Cameo combined. This CAC-endorsed non-Cameo displays a bold strike and beautifully preserved mirror fields. Original gold, lavender, blue, and sea-green hues adorn each side, adding to the eye appeal. Population: 5 in 67, 0 finer; 3 in 67 (1 in 67+) Cameo, 0 finer. CAC: 5 in 67, 0 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 235V, PCGS# 4443

1868 Half Dime, PR66+ Deep Cameo  
Only 600 Proofs Produced

- 3303** 1868 PR66+ Deep Cameo PCGS. CAC. This glittering jewel of a half dime shows untuned surfaces with a needle-sharp proof strike throughout. The deep field-device contrast creates the desired silver-on-black appearance as the coin is rotated under a light. A total of 600 proofs were struck of this issue. Population: 4 in 66 (1 in 66+) Deep Cameo, 1 finer. CAC: 3 in 66, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3804.*  
**From The Maltese Collection.**  
NGC ID# 2365, PCGS# 94451

1873 Half Dime, PR67  
Final Year of Issue

- 3304** 1873 PR67 PCGS. Half dimes were discontinued in 1873 as the Shield nickels took their place. The proof mintage was a mere 600 coins. This Superb Gem is tied with seven others for the finest non-cameo example that PCGS has certified (9/20). None have been graded numerically finer. This example has gorgeous blue and iridescent toning over deeply mirrored fields with masked cameo contrast. Population: 8 in 67 (3 in 67+), 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3805.*  
**From The Maltese Collection.**  
NGC ID# 236A, PCGS# 4456

EARLY DIME

1801 Draped Bust Dime, VF20  
JR-1 Type Coin

- 3305** 1801 JR-1, R.4, VF20 NGC. The A in STATES is considerably larger than seen on JR-2, the only other die pair for this very scarce date. The centers were softly impressed, but the wings and PLURIBUS show ample detail. Liberty's neck curls are also fairly sharp. The lilac-gray and powder-blue surfaces show only incidental contact.  
NGC ID# 236J, PCGS# 38756 Base PCGS# 4471

SEATED DIMES

1859 Seated Dime, MS66+  
Sole Finest at PCGS

- 3306** 1859 F-106a, R.2, MS66+ PCGS. A gorgeous example of this midseries Seated Liberty dime issue, showing blended reddish-gold and ocean-blue patina throughout both side amid preservation that is virtually pristine. Minor strike weakness shows on stars 1-3 and the date shows a slight downslope. This piece is currently the sole finest graded of the date at PCGS. Population: 17 in 66 (1 in 66+), 20 finer (9/20).  
PCGS# 538138 Base PCGS# 4619

1877-CC Dime, MS67  
Type One Reverse

- 3307** 1877-CC Type One Reverse, F-106, R.3, MS67 PCGS. Type One Reverse. At the Seateddimevarieties.com website, Gerry Fortin has identified 10 varieties with the Type One reverse having ribbons ending in a double point, and 22 others with the Type Two reverse with ribbons ending in a single point. The obverse has a strong rust patch in the lower drapery, and the reverse has the mintmark slanting up to the right. This frosty Superb Gem has sharp design motifs and light silver-gray surfaces with gold and iridescent peripheral toning. It just doesn't get much better. Population: 10 in 67 (1 in 67+), 0 finer (9/20).  
PCGS# 538589 Base PCGS# 4683

## PROOF SEATED DIMES

### 1858 Dime, PR64+ Cameo Generally Unavailable With Contrast

- 3308 1858 PR64+ Cameo PCGS. CAC. F-101, R.5.** Struck in the first year of increased production for proofs, the 1858 is generally the beginning of any collection of modern proof coinage. The fields are deeply mirrored on each side with noticeably contrasting mint frost over the devices. Each side is mostly brilliant with a light accent of golden around the margins. Population: 5 in 64 (2 in 64+) Cameo, 5 finer. CAC: 1 in 64, 3 finer (8/20).

Ex: Teich Family Collection / New York Signature (Heritage, 2/2014), lot 5089.

From The Maltese Collection.  
NGC ID# 23CC, PCGS# 84747

### 1860 Seated Dime, PR66+ Cameo Reverse Die Doubling

- 3309 1860 PR66+ Cameo PCGS. CAC. F-101, R.3.** Slightly doubled on the reverse at ME of DIME. Bright, silver-white surfaces display sharp cameo contrast, and the design elements are well struck throughout. This specimen exudes great eye appeal. Population: 6 in 66 (3 in 66+) Cameo, 10 finer. CAC: 4 in 66, 5 finer (9/20).

Ex: Long Beach Signature (Heritage, 2/2005), lot 6245, which realized \$2,185.

NGC ID# 23CJ, PCGS# 84753

### 1860 Seated Liberty Dime, PR67 Cameo Only One Coin Finer at PCGS

- 3310 1860 PR67 Cameo PCGS. F-101, R.3.** A stunning Superb Gem Cameo proof representing the first year of the Legend obverse design, this specimen has brilliant and lustrous silver-gray devices with subtle blue peripheral toning. Both sides are moderately mirrored with excellent field-to-device contrast. The reverse reveals numerous clash marks. Population: 9 in 67 (5 in 67+) Cameo, 1 finer (8/20).

Ex: Houston Signature (Heritage, 12/2013), lot 3565.

From The Maltese Collection.  
NGC ID# 23CJ, PCGS# 84753

### 1874 Arrows Dime, PR65+ Vivid Border Toning

- 3311 1874 Arrows, F-101, R.3, PR65+ PCGS.** A beautifully preserved, glimmering high-end Gem proof, with vibrant ocean-blue, violet, and sea-green hues around the borders, complementing orange-gold interiors. Liberty's temple is a trifle weak, but no other mentionable strike softness is seen. Eye appeal is outstanding. Population: 23 in 65 (1 in 65+), 14 finer (9/20).

PCGS# 539034 Base PCGS# 4770

### 1877 Dime, PR66+ Cameo Only 510 Proofs Struck

- 3312 1877 PR66+ Cameo PCGS. F-101, R.4.** Type Two Reverse. This 1877 proof dime derives from a limited mintage of 510 pieces. The coin is utterly brilliant with just the faintest bit of crimson-gold color around the rims. Thick frost resides over the devices, and the fields are deeply mirrored. Population: 5 in 66 (4 in 66+) Cameo, 2 finer (9/20).

NGC ID# 23D2, PCGS# 84774

### 1880 Seated Dime, Toned PR67 Cameo

- 3313 1880 PR67 Cameo PCGS. CAC. F-101, R.3.** showing a broken lower-left loop on the second 8. It is rare to encounter so deeply toned a Seated dime with the Cameo designation, but here it is, a coin both well-mirrored with thick mint frost and spectacular color. Aquamarine prevails near the rims on each side, ceding to rose, cherry, and orange interior hues. This is a "coin that has it all," including a CAC approval. Population: 9 in 67 (1 in 67+) Cameo, 0 finer. CAC: 6 in 67, 0 finer (9/20).

From The Maltese Collection.  
NGC ID# 23D5, PCGS# 84777

1881 F-101 Dime, PR67 Cameo  
Vibrant Multicolor Toning

- 3314** 1881 PR67 Cameo PCGS. CAC. F-101, R.3. Both sides are beautifully toned. The obverse has sun-gold borders, an ocean-blue field, and blushes of peach-gold and plum-red on the seated Liberty. The reverse has an apricot center framed by orange, magenta, and aquamarine colors. From a proof mintage of just 975 pieces. Population: 9 in 67 (2 in 67+) Cameo, 3 finer. CAC: 7 in 67, 1 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 23D6, PCGS# 84778

1885 Dime, Multicolor PR67★  
Attractive Proof Type Coin

- 3315** 1885 F-101, R.3, PR67★ NGC. A beautifully toned Superb Gem proof, showing sharply struck design elements and deeply mirrored fields beneath the patina. Blue, violet, and gold hues form vivid concentric rings around each side, and there are no visible contact marks. The 1885 proof Seated dime is conditionally rare in this grade. Census: 11 in 67 (1 in 67★), 3 finer (9/20).  
PCGS# 539056 Base PCGS# 4782

BARBER DIME

1916 Barber Dime, Lightly Toned MS67  
Excellent Last-Year Type Coin

- 3316** 1916 MS67 PCGS. CAC. Pastel lavender and golden-orange embellish portions of the obverse of this last-year Barber dime, while the reverse is a more-consistent coin-gray. Frosty luster emanates from both sides. A couple of tiny abrasions on the cheek only appear under magnification. A great example for last-year-of-type collectors. High-grade Barber dimes are an overlooked segment of the current numismatic marketplace, in our opinion. Population: 14 in 67 (3 in 67+), 0 finer. CAC: 9 in 67, 0 finer (9/20).  
NGC ID# 23FY, PCGS# 4870

PROOF BARBER DIMES

1892 Barber Dime, PR67+ Cameo  
Well-Contrasted First-Year Issue

- 3317** 1892 PR67+ Cameo PCGS. CAC. This well-contrasted first-year Barber dime offers a silvery, untoned obverse combined with a reverse lightly tinged with pinkish-gold hues, all against deeply reflective fields and overall pristine surfaces. The proof strike has brought up all details fully on both sides, making this a great-looking coin for a type set. Population: 11 in 67 (4 in 67+) Cameo, 2 finer. CAC: 10 in 67, 2 finer (8/20).  
*Ex: Houston Signature (Heritage, 12/2013), lot 3569.*  
*From The Maltese Collection.*  
NGC ID# 23G2, PCGS# 84875

1896 Dime, PR67 Cameo  
Beautiful Multicolor Patina

- 3318** 1896 PR67 Cameo NGC. The mintage of 762 silver proof sets in 1896 now largely exists divided into its surviving component coins. This Superb Gem Cameo dime emerged from one of those sets, with vibrant-blue, sea-green, and reddish-gold toning throughout the obverse. Silver mirroring remains prominent in the fields, providing substantial contrast with the frosted central devices. The reverse shows dappled hues of russet and tan-gold. On both sides, the strike is razor-sharp. Only a few 1896 Cameo proof dimes are technically finer. Census: 13 in 67 Cameo (1 in 67★, 1 in 67+★), 3 finer (9/20).  
NGC ID# 23G9, PCGS# 84880

**1898 Barber Dime, PR67+ Cameo  
Strong Visual Appeal**

**3319 1898 PR67+ Cameo PCGS. CAC.** Often considered the best-produced issue within the Barber dime series, the 1898 is one of the most common issues in the proof Barber dime series, with a mintage of 735 coins. This exceptional piece displays a near-white portrait of Liberty that contrasts nicely against the mirrored fields, as does the slightly darker ONE DIME device on the reverse. Lovely toning includes medium-intensity reddish-gold and deep electric-blue colors clinging to the borders, with deeper hues on the reverse. The design elements are razor-sharp and the surfaces are immaculately preserved. A wonderful example, this piece exudes outstanding eye appeal. Population: 16 in 67 (4 in 67+) Cameo, 4 finer. CAC: 11 in 67, 6 finer (8/20).

*Ex: Houston Signature (Heritage, 12/2013), lot 3570.*

**From The Maltese Collection.**

NGC ID# 23GB, PCGS# 84882

**1906 Barber Dime, PR67 Cameo  
Brilliantly Mirrored**

**3320 1906 PR67 Cameo PCGS. CAC.** The surfaces are brilliantly mirrored and show nice frost on the devices, sufficient for a Cameo designation. A trace of almond color shows on Liberty's face and neck. This sharply struck Superb Gem proof shows little evidence of postproduction contact. Population: 4 in 67 (2 in 67+) Cameo, 0 finer. CAC: 4 in 67, 0 finer (9/20).

**From The Maltese Collection.**

NGC ID# 23GK, PCGS# 84890

**1910 Barber Dime, Honey-Gold PR67 Cameo  
Underrated Series Issue**

**3321 1910 PR67 Cameo PCGS. CAC.** A boldly struck Superb Gem proof with perceptible field-device contrast and attractive honey-gold color deepening the amber, pale blue, and cherry-red near the obverse rim. One of the nicest from the mintage of 551 proof coins. High-grade Barber dimes, both proofs and business strikes, seem to be screamingly overlooked buys in today's numismatic marketplace. Population: 4 in 67 (1 in 67+) Cameo, 2 finer. CAC: 3 in 67, 1 finer (9/20).

**From The Maltese Collection.**

NGC ID# 23GR, PCGS# 84894

**1911 Dime, Superb Gem Proof  
Low-Mintage Date**

**3322 1911 PR67 PCGS. CAC.** This fully struck and flawless Superb Gem displays vibrant sea-green centers and olive-gold peripheries. In addition, the portrait and lower reverse margin displays glimpses of plum-mauve toning. The devices demonstrate modest contrast despite the rich palette of colors. A scant 543 proofs were produced. Population: 14 in 67 (2 in 67+), 6 finer. CAC: 6 in 67, 5 finer (8/20).

*Ex: Long Beach Signature (Heritage, 9/2013), lot 3629; National Money Show Signature (Heritage, 2/2014), lot 3339.*

**From The Maltese Collection.**

NGC ID# 23GS, PCGS# 4895

**MERCURY DIMES**

**1928 Dime, MS67+ Full Bands  
Condition Census Representative**

**3323 1928 MS67+ Full Bands PCGS. CAC.** Boasting a healthy mintage of nearly 19.5 million coins, the 1928 dime is a plentiful issue in most Mint State grades even with Full Bands. Superb Gems, scarce but obtainable, are essentially the best examples available to collectors. This pristine dime is fully struck. The obverse is delicately toned in beautiful shades of powder-blue, gold, green, and violet hues, while the reverse remains frosty and brilliant. Population: 56 in 67 (8 in 67+) Full Bands, 2 finer. CAC: 18 in 67, 1 finer (9/20).

NGC ID# 23HX, PCGS# 4967

**1928-S Dime, MS66 Full Bands  
Boldly Lustrous**

**3324 1928-S MS66 Full Bands PCGS.** The surfaces are highly lustrous and show no more than a hint of golden and reddish tinges. Powerful luster radiates from both sides. A single thin scrape on Liberty's upper cheek likely precluded an even finer grade, but this piece remains an elusive date in the upper echelons of certified survivors. Population: 48 in 66 (3 in 66+) Full Bands, 12 finer (9/20).

NGC ID# 23HZ, PCGS# 4971

**1930 Mercury Dime**  
**Minimally Toned MS67 Full Bands**

- 3325 1930 MS67 Full Bands PCGS.** This Superb Gem Mercury dime will appeal to collectors who prefer minimal toning on their coins. The obverse does offer a light golden cast, but it is even, while the reverse is virtually blast-white and both sides feature frosty luster. The strike is uniformly bold. We see one tiny reddish fleck near the obverse rim at 6 o'clock. Population: 32 in 67 (6 in 67+) Full Bands, 0 finer (9/20).  
NGC ID# 23J5, PCGS# 4979

**1940-D Dime, MS67 Full Bands Prooflike**  
**Finest at PCGS**

- 3326 1940-D MS67 Full Bands Prooflike PCGS. CAC.** This is the finest single 1940-D dime at PCGS with Full Bands and Prooflike surfaces. The fields are surprisingly glassy, contrasting noticeably against fully struck devices. Clearly one of the first coins produced from these dies and readily appealing. A tick below the central bands is the sole mentionable abrasion.  
PCGS# 85025 Base PCGS# 5025

**1941 Mercury Dime, MS68 Full Bands**  
**Boldly Struck With Dappled Toning**

- 3327 1941 MS68 Full Bands PCGS.** This freshly graded 1941 Mercury dime has achieved the coveted MS68 Full Bands level, showing a satiny finish with intermittent daubs of fire-red, orange, and saffron scattered around both sides. The bold strike extends not only to the central and diagonal bands, but also to the small details of Liberty's headgear. Population: 19 in 68 (3 in 68+) Full Bands, 0 finer (8/20).  
NGC ID# 23JX, PCGS# 5029

**PROOF MERCURY DIMES**

**1937 Dime, PR68★**  
**Spectacular Toning**

- 3328 1937 PR68★ NGC. CAC.** Extraordinary surface preservation for this second-year proof. This piece obviously spent many years in a cardboard holder due to the rich toning scheme exhibited on each side. The center of the obverse is bright with most of the outer area toned a cornucopia of red, green, gold, and magenta. The reverse displays a slightly deeper configuration of crimson, jade-green, antique-gold, and sky-blue in a concentric fashion. One of the finest we have seen. Census: 42 in 68 (2 in 68+, 4 in 68★), 0 finer. CAC: 7 in 68, 0 finer (9/20).  
Ex: FUN Signature (Heritage, 1/2004), lot 5701.  
NGC ID# 27DH, PCGS# 5072

**1941 Mercury Dime, PR68**  
**Exceptional Obverse Border Toning**

- 3329 1941 PR68 PCGS. CAC.** Beautiful bands of cherry-red, lemon-gold, and apple-green illuminate the obverse border, and are especially prominent near 12 o'clock. The rest of this pristine specimen shows only a hint of lilac patina. Fully struck and the finest obtainable quality. Encased in an old green label holder. Population: 35 in 68 (1 in 68+), 0 finer. CAC: 17 in 68, 0 finer (8/20).  
Ex: Beverly Hills Signature (Heritage, 11/2011), lot 3598.  
From The Maltese Collection.  
NGC ID# 27DM, PCGS# 5076

**1941 Dime, Outstanding PR68**  
**Exceptional Toning**

- 3330 1941 PR68 PCGS. CAC.** A rainbow crescent embraces the obverse of this Superb Gem Proof with profound colors so complex they should be viewed under magnification for full effect. The reverse is more straightforward, but no less impressive. The surfaces appear to be immaculate, and even with a loupe it is difficult to locate anything that keeps this razor-sharp piece from perfection. Population: 35 in 68 (1 in 68+), 0 finer. CAC: 17 in 68, 0 finer (8/20).  
Ex: Houston Signature (Heritage, 12/2013), lot 3582.  
From The Maltese Collection.  
NGC ID# 27DM, PCGS# 5076

### 1942 Mercury Dime, Toned PR68+

- 3331 1942 PR68+ PCGS. CAC.** A stunning Superb Gem proof from the last year of proof manufacture for the Mercury dime series. It is doubtful that any circulation strike for this year ever saw the incredible amount of detail present on this piece, a masterwork of three-dimensionality. The toning is equally amazing, rose-gold on the reverse while the obverse frames Liberty in a crescent of saffron-orange and lavender. Not a single visible contact mark mars the effect. Population: 9 in 68+, 3 finer. CAC: 51 in 68, 3 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 27DN, PCGS# 5077

### SMS ROOSEVELT DIME

#### 1967 SMS Dime, MS68 Deep Cameo Exceptional Preservation

- 3332 1967 SMS MS68 Deep Cameo PCGS.** A stunning white-on-black appearance greets the viewer of this Superb Deep Cameo. Crisp detail is seen in Roosevelt's hair and the vertical lines and bands of the torch. The untoned surfaces are virtually perfect. Population: 3 in 68 Deep Cameo, 1 finer (8/20).  
*Ex: FUN Signature (Heritage, 1/2014), lot 4092.*  
*From The Maltese Collection.*  
NGC ID# 27F2, PCGS# 95242

### PROOF ROOSEVELT DIME

#### 1950 Roosevelt Dime, PR68 Deep Cameo Tied for Finest-Certified at PCGS

- 3333 1950 PR68 Deep Cameo PCGS.** This is a marvelously preserved Superb Gem dime that exhibits profound contrast between frosted white devices and endlessly reflective fields on each side. Fully struck on every design element, with pristine surfaces that are thoroughly untuned. Population: 7 in 68 Deep Cameo, 0 finer (8/20).  
*Ex: San Francisco Signature (Heritage, 3/2014), lot 10255.*  
*From The Maltese Collection.*  
NGC ID# 27EJ, PCGS# 95225

### PROOF TWENTY CENT PIECES

#### 1875 Twenty Cent, PR66 Colorful Obverse Border

- 3334 1875 PR66 NGC. BF-3, R.6.** The twenty cent piece was struck only four years, and is very scarce as a proof type. The last two years were proof-only, which focuses demand on the first two dates. This sharply struck high-grade specimen has lightly toned fields and motifs, though the obverse margin exhibits original autumn-brown and powder-blue shades. No imperfections are readily evident. Census: 21 in 66, 1 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 27GZ, PCGS# 5303

#### 1875 Twenty Cent, PR64+ Cameo 1,200 Proofs Minted

- 3335 1875 PR64+ Cameo NGC. BF-1, R.1.** The usual die pair with the shield point over the left side of the upright of the 1. This first-year twenty cent proof appears minimally toned with a faint layer of dusky golden color. Fully struck, as expected, with lovely field reflectivity and frosted devices. Only 1,200 pieces struck.  
NGC ID# 27GZ, PCGS# 85303

#### 1876 Twenty Cent Piece, PR64 Stunning Deep Cameo Example

- 3336 1876 PR64 Deep Cameo PCGS. BF-1, R.4.** The frosty devices are fully defined and provide blatant contrast with the glassy fields. A lightly toned near-Gem example of this scarce proof denomination. Unusual die polish lines are noted near stars 12 and 13. STATES exhibits minor die doubling. Population: 5 in 64 (2 in 64+) Deep Cameo, 2 finer (8/20).  
*Ex: FUN Signature (Heritage, 7/2010), lot 3525; FUN Signature (Heritage, 1/2013), lot 4075.*  
*From The Maltese Collection.*  
NGC ID# 27H3, PCGS# 95304

1877 Twenty Cent, PR61 Cameo  
Scarce Proof-Only Emission

- 3337** 1877 PR61 Cameo PCGS. BF-1, R.3. This is the scarcer of two proof-only varieties in the series, claiming a small total mintage of 520 pieces. Each side presents frosted devices set against glassy, mirrored fields. Dusky golden patina fails to diminish the Cameo effect. Light hairlines define the grade. NGC ID# 27H4, PCGS# 85305

BUST QUARTERS

1824/2 B-1 Quarter Dollar, VF35  
One-Variety Year

- 3338** 1824/2 B-1, R.3, VF35 PCGS. This *Guide Book* overdate is the only die variety of the 1824 Bust quarter. The present example displays strong detail for the VF grade level, with deep tan-gold, olive, and russet toning over each side. No outright obtrusive marks are seen. Both sides have complete border dentils with some of the stars retaining partial center lines. NGC ID# 23RR, PCGS# 38972 Base PCGS# 5335

1837 B-4 Bust Quarter, MS64  
Seldom Seen So Fine

- 3339** 1837 B-4, R.3, MS64 PCGS. CAC. A die marriage easily identified by the often-seen die cracks on both sides: the reverse from D STATE to the rim, the obverse bisected from the rim to the lowest point of the drapery, through Liberty's jawline, the cap, and back to the rim. This is an extremely attractive near-Gem example of this available variety showing russet-gold and bluish tinges over highly lustrous surfaces. A small dark spot near the obverse rim above star 8 is not overt. This would be near the top of the known Condition Census coins for the B-4 variety, save for one or two MS65 pieces. Population for the date: 28 in 64 (2 in 64+), 19 finer. CAC: 6 in 64, 9 finer (9/20). NGC ID# 23S4, PCGS# 39013 Base PCGS# 5356

SEATED QUARTERS

1856 Seated Quarter, MS66  
Meticulous Preservation

- 3340** 1856 MS66 PCGS. The 1856 Seated quarters saw a massive production of more than 7.2 million pieces, but of that enormous number, precious few indeed survive today so fine as the present Premium Gem. The centers display silvery luster with steel-blue and orange-russet accents near the borders of both sides. The preservation is meticulous for a coin of this vintage. A small patch of grayish patina appears left of the eagle's beak. Population: 12 in 66, 0 finer (9/20). *From The Maltese Collection.* NGC ID# 23TB, PCGS# 5438

1859-S Quarter Dollar, XF45  
Few Known This Fine

- 3341** 1859-S XF45 NGC. Briggs 1-A. A mintage of 80,000 pieces was insufficient to ensure the widespread survival of the 1859-S quarter dollar. The issue is scarce in all grades and unknown in Mint State. This Choice XF coin is conditionally rare. The strike is sharp, and wear is minimal. Both sides feature uniform olive-gray patina and are devoid of bothersome abrasions. Census: 3 in 45, 3 finer (9/20). NGC ID# 23TN, PCGS# 5450

1890 Seated Quarter, MS67  
Intense Mint Luster

- 3342** 1890 MS67 PCGS. A conditionally rare Superb Gem example of this otherwise available late-series issue. This piece is incredibly vibrant and frosty, with splashes of olive-gold, amber, lilac, and sky-blue encompassing much of each side. The right-hand stars are a trifle weak, but the central motifs are well-defined. Eye appeal is exceptional. Population: 30 in 67 (4 in 67+), 2 finer (8/20). *Ex: Long Beach Signature (Heritage, 9/2015), lot 3871.* NGC ID# 23VP, PCGS# 5523

## PROOF SEATED QUARTERS

### 1860 Quarter, PR65 Only Half the Mintage Sold

- 3343 1860 PR65 PCGS. CAC. Briggs 9-H.** The Mint instituted a proofing fee of 13 cents in 1860, reducing demand for these collector coins. Of the 1,000 proofs manufactured that year, probably little more than half were sold and the rest melted. Deep cobalt-blue, golden-orange, and violet tones blend over each side, leaving areas of brilliance in the fields. Tremendous quality for the grade and readily appealing. Population: 19 in 65, 11 finer in this category. CAC: 4 in 65, 6 finer (9/20).

**From The Maltese Collection.**  
NGC ID# 23WM, PCGS# 5556

### 1863 Seated Quarter, Richly Toned PR65

- 3344 1863 PR65 PCGS.** Deep patina in shades of purple, pink, rose, cobalt-blue, and violet covers both sides of this attractive Gem proof 1863 quarter, one of only 460 pieces struck this year. The strike is full throughout both sides, making this a tempting acquisition to represent the type. Population: 17 in 65, 12 finer (8/20).

**Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3391.**  
**From The Maltese Collection.**  
NGC ID# 23WR, PCGS# 5559

### 1864 Seated Quarter, PR65 Attractively Toned

- 3345 1864 PR65 PCGS.** Just 470 proof quarters were struck in 1864, a low number that gradually increased following the Civil War. Survivors are scarce at grade levels above PR64 at both services. This is a lovely Gem example with blended toning variations that complement smooth, unmarked surfaces. Population: 13 in 65, 8 finer (8/20).

**Ex: San Francisco Signature (Heritage, 3/2014), lot 10278.**  
**From The Maltese Collection.**  
NGC ID# 23WS, PCGS# 5560

### 1865 Quarter, PR66 Cameo Boldly Struck

- 3346 1865 PR66 Cameo PCGS.** Only 500 proof Seated Liberty quarters were struck in 1865, the relatively small mintage probably due to the financial uncertainties of the last year of the Civil War. The frosty motifs of this Premium Gem stand out sharply against the fields that display deep russet toning. All the devices are razor sharp and neither side reveals mentionable marks. Population: 6 in 66 (2 in 66+) Cameo, 2 finer (8/20).

**Ex: Long Beach Signature (Heritage, 9/2013), lot 6363; National Money Show Signature (Heritage, 2-3/2014), lot 3862.**

**From The Maltese Collection.**  
NGC ID# 23WT, PCGS# 85561

### 1871 Seated Quarter, PR67 Cameo Strong Visual Appeal

- 3347 1871 PR67 Cameo PCGS.** The marked contrast between the fields and devices, particularly on the obverse, provides this piece with exceptional eye appeal. This Superb Gem displays peach-gold color overall, with areas of bright blue, red, and orange also present. The colors are more vivid on the obverse. A small mark appears to the right of star 4 and the reverse reveals evidence of die rust. Population: 3 in 67 Cameo, 0 finer (8/20).

**Ex: San Francisco Signature (Heritage, 3/2014), lot 10280.**  
**From The Maltese Collection.**  
NGC ID# 23X4, PCGS# 85570

### 1874 Arrows Quarter, Toned PR65+

- 3348 1874 Arrows PR65+ PCGS. Briggs 5-D,** the sole die pair for the proofs, showing die scratches near the rim above star 10 and at the left shield border on the reverse. Lovely shades of blue and lavender enliven both sides of this PR65+ example, and the strike is sharply executed save for some bluntness on star 13. An excellent type acquisition. Population: 31 in 65 (1 in 65+), 32 finer (8/20). NGC ID# 23XS, PCGS# 5575

**1880 Quarter Dollar, PR67 Cameo  
Outstanding Eye Appeal**

- 3349 1880 PR67 Cameo PCGS. CAC.** Type One Reverse. The mirrored fields of this Superb Gem Cameo accentuate the design elements, yielding pleasing contrast on both sides. Whispers of golden-tan on the obverse cede to blushes of orange-gold, lavender, and violet on the reverse. Sharply struck design elements and impeccably preserved surfaces complement the above attributes and render outstanding eye appeal, aptly recognized by CAC. Population: 17 in 67 (2 in 67+) Cameo, 2 finer. CAC: 6 in 67, 2 finer (8/20).  
*Ex: New York Signature (Heritage, 11/2013), lot 3588.*  
**From The Maltese Collection.**  
NGC ID# 23XC, PCGS# 85581

**BARBER QUARTERS**

**1894 Barber Quarter, MS66  
None Numerically Finer at PCGS**

- 3350 1894 MS66 PCGS. CAC.** Even though thousands of this date survive today — mostly in AG3 and Good 4 grades — in Gem Mint State or finer, fewer than 100 is a pretty good bet. This Premium Gem boasts lovely ocean-blue and rose patina on the reverse, contrasted against a golden-orange obverse with excellent strike and preservation throughout. PCGS has never certified an MS67 example of this issue. Population: 15 in 66 (6 in 66+), 0 finer. CAC: 10 in 66, 0 finer (9/20).  
NGC ID# 23XZ, PCGS# 5607

**1897-O Barber Quarter, MS64  
Beautiful Two-Sided Toning**

- 3351 1897-O MS64 NGC.** The 1897-O Barber quarter is scarce in Choice Mint State, and it is rarely seen finer. This piece stands apart from most coins in this grade with its profound multicolor toning on both sides. The strike is sharp, and the satiny mint luster reveals no major abrasions. An excellent Mint State collector coin. Census: 16 in 64, 14 finer (9/20).  
NGC ID# 23YB, PCGS# 5617

**1911 Barber Quarter, MS66+**

- 3352 1911 MS66+ PCGS. CAC.** The silvery centers cede to deep russet-red hues on this MS66+ PCGS coin, a coin near the top of certified survivors. The strike is sharp throughout the reverse, even on the right shield corner and eagle's claws, areas that are often weak. A couple of facial ticks are trivial on Liberty but may have precluded an MS67 grade. Population: 14 in 66+, 2 finer. CAC: 10 in 66, 0 finer (9/20).  
NGC ID# 23ZN, PCGS# 5659

**PROOF BARBER QUARTERS**

**1892 Quarter, PR67 Cameo  
Type Two Reverse**

- 3353 1892 PR67 Cameo PCGS. CAC.** Type Two Reverse. The obverse is close to brilliant and exhibits exceptional contrast between the icy portrait and darkly mirrored field. The reverse is partly untuned but also displays splashes of deep jade-green. A high-grade specimen from the first year of the proof type. Population: 16 in 67 (1 in 67+) Cameo, 5 finer. CAC: 5 in 67, 5 finer (8/20).  
*Ex: Long Beach Signature (Heritage, 2/2013), lot 3789.*  
**From The Maltese Collection.**  
NGC ID# 2427, PCGS# 85678

**1893 Quarter, Untoned PR67 Cameo  
Deeply Contrasted Silver-on-Black Surfaces**

- 3354 1893 PR67 Cameo PCGS. CAC.** A stunning, untoned silver-on-black Superb Gem Cameo proof, this 1893 quarter verges on Deep Cameo, and in our opinion attains it. The proof strike is full throughout both sides, and the pristine preservation makes contact marks simply a nonissue. A great coin for type purposes. Population: 16 in 67 Cameo, 8 finer. CAC: 5 in 67, 7 finer (8/20).  
*Ex: New York Signature (Heritage, 2/2014), lot 5118.*  
**From The Maltese Collection.**  
NGC ID# BYMM, PCGS# 85679

1893 Quarter, PR67 Deep Cameo  
Only Two Finer

- 3355** 1893 PR67 Deep Cameo PCGS. CAC. Ex: Larry Shapiro. The central devices display marked contrast against the mirrored fields on this Superb Gem Deep Cameo example. Subtle pale champagne color is present. The strike is intricate, adding to the appeal of this outstanding example. Population: 7 in 67 Deep Cameo, 2 finer. CAC: 2 in 67, 1 finer (8/20).  
Ex: FUN Signature (Heritage, 1/2014), lot 4223.  
**From The Maltese Collection.**  
NGC ID# 2428, PCGS# 95679

1898 Barber Quarter, PR67 Deep Cameo  
Beautifully Rendered, Starkly Contrasted Proof

- 3356** 1898 PR67 Deep Cameo PCGS. A beautifully struck, deeply mirrored, and starkly contrasted Superb Gem Deep Cameo proof, showcasing delicate champagne toning across largely pristine fields and devices. The luster on the Liberty portrait and eagle is softly frosted and attractive. The 1898 proof is scarce this fine in the Deep Cameo category. Population: 14 in 67 (2 in 67+) Deep Cameo, 12 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 242D, PCGS# 95684

1903 Quarter, PR67+ Cameo  
Rare Contrasted Proof

- 3357** 1903 PR67+ Cameo PCGS. CAC. A sensational Superb Gem Cameo proof example from the early 20th century, minted at a time when few coins exhibited such contrast. The central obverse is brilliant-white, within a frame of gold, violet, and blue. The reverse is entirely toned sea-green and magenta. Population: 14 in 67 (2 in 67+) Cameo, 7 finer. CAC: 9 in 67, 8 finer (8/20).  
Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3872.  
**From The Maltese Collection.**  
NGC ID# 242J, PCGS# 85689

1908 Barber Quarter, PR67  
Vivid Multicolor Toning

- 3358** 1908 PR67 PCGS. From a low proof mintage of 545 pieces, this spectacular Barber quarter exhibits sharply detailed design elements and well-preserved deeply reflective fields, under vivid shades of greenish-gold and violet toning. The eye appeal is terrific. Population: 18 in 67 (3 in 67+), 8 finer (8/20).  
Ex: Central States Signature (Heritage, 5/2007), lot 532; Chicago Signature (Heritage, 8/2013), lot 3798; San Francisco Signature (Heritage, 3/2014), lot 10300.  
**From The Maltese Collection.**  
NGC ID# 242P, PCGS# 5694

1911 Barber Quarter, Lovely Toned PR67

- 3359** 1911 PR67 PCGS. CAC. The dappled surfaces of this Superb Gem proof display remaining silver embellished with multicolor patina in a range of attractive hues. There are no visible contact marks even under magnification, and the strike is needle-sharp even on often-problematic areas such as the upper-right shield corner and the eagle's right (facing) claw. Another excellent potential acquisition for toned coin enthusiasts. Population: 24 in 67 (3 in 67+), 5 finer. CAC: 8 in 67, 4 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 242T, PCGS# 5697

1912 Barber Quarter, PR67  
Delicate Champagne-Gold Toning

- 3360** 1912 PR67 PCGS. Sharp, satiny devices and deeply mirrored fields yield light russet-gold toning across this Superb Gem proof. The 1912 is rarely offered this fine. Superb Gem examples are unknown in Deep Cameo PCGS, and Cameo or non-Cameo pieces are seldom seen. This coin is beautifully preserved, and only a handful of finer proofs are reported at PCGS. Population: 10 in 67 (1 in 67+), 4 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 242U, PCGS# 5698

**1912 Barber Quarter, PR67 Cameo  
White-On-Black, Few Finer**

- 3361 1912 PR67 Cameo PCGS.** This snow-white Superb Gem displays remarkable Cameo contrast for a 20th century Barber proof, with mint frost strongly evident on all the devices including the rims. A superior strike accompanies the pristine, deeply mirrored fields. Common as a business strike, this date is anything but common in brilliant proof format with strong Cameo contrast — one of just 700 proofs produced. Very few are found finer. Population: 9 in 67 (1 in 67+) Cameo, 1 finer (8/20).  
*Ex: New York Signature (Heritage, 2/2014), lot 5119.*  
**From The Maltese Collection.**  
NGC ID# 242U, PCGS# 85698

**1915 Barber Quarter, PR67  
Second Lowest Proof Mintage**

- 3362 1915 PR67 PCGS. CAC.** The 1915 proof Barber quarter was struck in the amount of 450 proofs, not the absolute lowest of the series but much lower than most, an indication of waning collector interest in the long-lived Charles Barber design. This Superb Gem proof offers delicate gold and iridescent toning enveloping the obverse, contrasting with pale blue and iridescent toning over the reverse. The light contrast is insufficient for a Cameo designation, but this splendid example of the final proof Barber quarter issue is highly appealing. Population: 17 in 67 (7 in 67+), 2 finer. CAC: 9 in 67, 3 finer (8/20).  
*Ex: New York Signature (Heritage, 12/2011), lot 3538; Philadelphia Signature (Heritage, 8/2012), lot 5127; Dallas Signature (Heritage, 3/2013), lot 3443.*  
**From The Maltese Collection.**  
NGC ID# 242X, PCGS# 5701

**STANDING LIBERTY QUARTERS**

**1919-D Standing Liberty Quarter  
Elusive MS61 Full Head**

- 3363 1919-D MS61 Full Head ANACS.** Not only is Liberty's hairline complete from forehead to ear, but all shield rivets are boldly struck up. Dappled russet and reddish patina dots both sides of this attractive coin, the color somewhat richer and more intense on the reverse. The 1919-D is an elusive issue with Full Head designation at all services.  
NGC ID# 243C, PCGS# 5731

**1924-S Quarter Dollar, MS66+  
Conditionally Scarce**

- 3364 1924-S MS66+ NGC.** The 1924-S is conditionally scarce in MS66, and this is one of only two non-Full Head pieces in this grade with CAC endorsement. Satiny luster is without abrasion, and it yields warm russet gold toning over each side. The date numerals are sharp, as is Liberty's temple, while the shield rivets are weak, and Liberty's ear lacks complete definition. Few higher-grade pieces are known. Census: 23 in 66 (2 in 66+), 2 finer (9/20).  
NGC ID# 243N, PCGS# 5750

**1930-S Standing Liberty Quarter, MS68  
Tied for Numeric Finest at NGC or PCGS**

- 3365 1930-S MS68 NGC.** This is one of the most well preserved 1930-S Standing Liberty quarters certified. NGC rates just three non-Full Head pieces this fine, plus five Full Head coins, with none finer; PCGS has not seen any non-Full Head pieces finer than MS67+ and reports only a single Full Head coin in MS68 (9/20). The luster of this piece is thick and frosty, characteristic of the 1930-S which was often struck from worn dies. A faint, isolated graze on Liberty's outstretched arm and an even fainter one on her shin appear to be all that deny this coin absolute perfection. Ivory-white luster envelops the interiors, ceding to daubs of amber and russet around the borders.  
NGC ID# 2446, PCGS# 5780

## WASHINGTON QUARTERS

### 1939 Washington Quarter Lightly Toned MS68

- 3366 1939 MS68 PCGS.** This pristine coin is scarcely toned in barely perceptible pastel shades and scarcely marked, a coin with flowing, frosty luster approaching perfection. After extensive perusal, we only see one tiny contact mark on Washington's upper neck, although it is far from overt. One of the finest graded at either leading service. Population: 19 in 68, 0 finer (9/20). NGC ID# 244R, PCGS# 5808

### 1940-D Quarter Dollar, MS67+ Registry-Grade CAC Candidate

- 3367 1940-D MS67+ PCGS. CAC.** Vibrant multicolor toning encompasses the obverse margins of this high-end Superb Gem and overlaps onto the outer periphery of the reverse. The interiors exhibit lovely lilac-gold tinting. This 1940-D Washington quarter is tied for the finest certified at PCGS, and it is among just a few dozen Superb Gems with CAC endorsement. Population: 95 in 67 (18 in 67+), 0 finer. CAC: 42 in 67, 0 finer (9/20). NGC ID# 244V, PCGS# 5812

### 1956-D Washington Quarter, MS67+ Top-of-the-Line CAC Registry Coin

- 3368 1956-D MS67+ PCGS. CAC.** A stunning Registry coin, Plus graded and CAC endorsed, and tied for the finest example certified by either service (9/20). Frosty luster illuminates gold, olive, and russet toning on the obverse, while the reverse yields russet freckles in the margins with pearl iridescence across the interior. No abrasions are seen. Population: 53 in 67 (6 in 67+), 0 finer. CAC: 30 in 67, 0 finer (9/20). NGC ID# 246C, PCGS# 5861

### 1971 Quarter Dollar, MS67 Toned Registry Contender

- 3369 1971 MS67 PCGS.** A condition rarity and important Registry coin, among the finest 1971 Washington quarters certified. The satiny surfaces are pristine, complementing sharp design elements and attractive original toning. Amber-russet toning in the margins cedes to ribbons of crimson and forest-green, leaving the interiors iridescent. Eye appeal is stunning for the issue. Population: 8 in 67, 0 finer (9/20). NGC ID# 2477, PCGS# 5887

## PROOF WASHINGTON QUARTERS

### 1936 Quarter, PR67 Among the Finest Certified

- 3370 1936 PR67 PCGS. CAC.** Popular as the first year Washington quarter proof, the 1936 can be located in the lower numerical grades. Even Gems and Premium Gems can be had with patience and searching. Examples in the lofty PR67 level of preservation are elusive, and finer specimens are virtually unobtainable. A thin layer of grayish patina graces both sides of this Superb example, joined by blishes of rose on the reverse. Exceptional eye appeal, aptly recognized by CAC. Housed in a prior generation holder. Population: 21 in 67, 0 finer. CAC: 6 in 67, 0 finer (8/20). *From The Maltese Collection.* NGC ID# 27HN, PCGS# 5975

### 1937 Washington Quarter, Splendid PR68

- 3371 1937 PR68 NGC.** Rich, splendid multicolor patina appears over surfaces that display the expected sharp strike and a notable lack of contact on this Superb Gem proof Washington quarter, the second year among proofs. NGC reports a total of 18 pieces in PR68, including two with the Star designation, and a single PR69 is finer (9/20). *Ex: Central States Signature (Heritage, 4/2015), lot 4321.* NGC ID# 27HP, PCGS# 5976

**1941 Quarter, PR68  
Tied for Finest Certified**

- 3372 1941 PR68 PCGS. CAC.** The 1941 Washington quarter is not top of mind for collectors considering the purchase of an early proof within the series. Most opt for a first-year 1936 in high grade, or a 1937, which will cost considerably less. But how about purchasing one of the finest-graded 1941 proofs, with the added CAC approval? Given the permanence of the Registry Set phenomenon, it is a safe bet this piece will see strong bidding. Pristine surfaces show the palest hints of rose and jade in the fields, with thorough reflectivity throughout.

*Ex: FUN Signature (Heritage, 1/2014), lot 4324.*

*From The Maltese Collection.*

NGC ID# 27HU, PCGS# 5980

**1942 Quarter, PR68  
Peripherally Toned**

- 3373 1942 PR68 PCGS. CAC.** The 1942 proof Washington quarter, from a mintage of 21,123 pieces, can be located with ease through Premium Gem. PR67 coins are more difficult, and the issue is rare any finer. Deep multicolored patination at the margins frames the mostly brilliant centers of this PR68 example. Sharply struck devices and impeccable preservation rounds out the outstanding eye appeal. Population: 14 in 68, 1 finer. CAC: 10 in 68, 0 finer (8/20).

*Ex: New York Signature (Heritage, 11/2013), lot 3613.*

NGC ID# 27HV, PCGS# 5981

**EARLY HALF DOLLARS**

**1806/5 Half Dollar, Late-State O-102  
AU58 'Circulated Cameo'**

- 3374 1806/5 O-102, T-7, High R.3, AU58 NGC.** Tompkins Die State 2/2 and technically O-102'a' showing die cracks through N in UNITED, clash marks on obverse before Liberty's hair, cud on reverse above D. This scarcely circulated overdate half dollars shows an appealing "circulated cameo" appearance, with darker slate-gray margins contrasting against lighter silver-gray centers. The overdate is bold, and the late die state will provide undoubted appeal to series specialists.

NGC ID# 24EK, PCGS# 39298 Base PCGS# 6077

**1806/5 O-103 Draped Bust Half, AU50  
Original Patina, CAC Approved**

- 3375 1806/5 O-103, T-8, R.2, AU50 PCGS. CAC.** Tompkins Die State 1/1, uncracked with little evidence of die erosion around the obverse border stars. Original gold, russet, olive, and amber toning paints the fields, growing lighter toward the centers. The devices show slate-gray color on the worn points, but mirror the fields tones elsewhere. Eye appeal is outstanding on CAC-approved AU overdate.

NGC ID# 24EK, PCGS# 39299 Base PCGS# 6077

**1806 O-118a, T-24 Half Dollar, AU53  
Pointed 6, With Stem  
Intermediate Die State**

- 3376 1806 Pointed 6, Stem, O-118a, T-24, R.3, AU53 PCGS. CAC.** Tompkins Die State 1/4. The dies must have clashed soon after this coin was struck, based on diagnostic reverse die cracks. The "waves" over 1806 and a "collar" from the neck to above the chest are unseen. Pleasing multicolor album toning covers both sides, with mint luster prevalent throughout the margins and surrounding the other raised devices. As always, the O-118a is weakly struck at the centers — primarily at the wing/shield junction and at Liberty's central curls. Only a few small marks exist on either side.

NGC ID# 24EJ, PCGS# 39322 Base PCGS# 6071

**1807 Draped Bust Half Dollar, MS61  
O-109a, Late Die State**

- 3377** 1807 Draped Bust, O-109a, T-2, R.3, MS61 NGC. Tompkins Die State 4/2. Extensive cracks have formed around the obverse border in this state. This piece is Uncirculated, showing golden toning and satiny mint luster. The strike is deficient in the centers, as is often seen on the 1807 O-109 die pair, but surface abrasions are minimal for the grade. Census: 17 in 61, 59 finer (9/20). NGC ID# 24EM, PCGS# 39350 Base PCGS# 6079

**1824/4 Half Dollar, MS63  
O-110, Repunched 4**

- 3380** 1824/4 O-110, R.2, MS63 PCGS. Diagnostic markers for the O-110 variety include the 4 recut over a 4 and a die lump in the field below the U in UNUM. This Select Uncirculated example is mostly brilliant with pale chestnut-gold accents throughout. The peripheral elements are slightly flat and drawn to the rims, but the centers show crisp detail. A lustrous Bust half with great eye appeal *From The Maltese Collection*. NGC ID# 24FK, PCGS# 39644 Base PCGS# 6140

**BUST HALF DOLLARS**

**1811/10 Half Dollar, AU58  
Lustrous O-101 Example**

- 3378** 1811/10 O-101, R.1, AU58 PCGS. A partly lustrous pearl-gray example that shows hints of cobalt-blue and lavender near the rims. The left-side stars are UNITED are lightly brought up, but the rest of the design is fairly sharp. Wear is minimal, and perhaps confined to the eagle's brow. No marks are remotely consequential. NGC ID# 24EV, PCGS# 39421 Base PCGS# 6099

**1832 Small Letters Half, O-106  
Sharply Struck, Beautifully Toned Gem**

- 3381** 1832 Small Letters, O-106, R.1, MS65 NGC. Tiny extra recut lines on star 1 are diagnostic, as is the small, squat flag atop the 5 on the reverse and a tiny hole-shaped flaw at the bottom shield point. This is a conditionally rare example showing beautiful red and blue patina with some lighter-toned silver-russet areas. A sharply struck and thoroughly attractive example of this Small Letters variety. NGC ID# 24FW, PCGS# 39864 Base PCGS# 6160

**1820 O-105 Half Dollar, AU58  
Square Base 2, Large Date**

- 3379** 1820 Square Base 2, Large Date, Knob, O-105, R.1, AU58 PCGS. CAC. The usual early die state of the Overton-105 die pair. This near-Mint example displays a sharp strike and satiny, partially lustrous fields. Both sides exhibit rich original toning. The obverse has crimson, gold, sea-green, blue, and lavender peripheral rings around lilac-gold interior color, while the reverse displays mottled olive, gold, and russet patina. Eye appeal is excellent. NGC ID# 24FD, PCGS# 39567 Base PCGS# 6122

**SEATED HALF DOLLAR**

**1843-O Half Dollar, MS64+  
CAC Approval, Conditionally Rare**

- 3382** 1843-O WB-101, Die Pair 11, R.3, MS64+ PCGS. CAC. Date placement and small reverse die cracks in the border legends identify Die Pair 11 of the 1843-O half dollar. This issue as a whole is rarely seen in MS64 and finer condition. This is the sole Plus-graded piece at PCGS in this grade, and it is the only Choice example with CAC approval from either service. The design elements are well defined, complementing original, softly frosted luster in the fields. Attractive olive, gold, amber, lavender, and sea-green hues adorn each side, attesting to the originality of the surfaces. Population: 5 in 64 (1 in 64+), 2 finer. CAC: 1 in 64, 1 finer (9/20). PCGS# 801071 Base PCGS# 6244

## CONFEDERATE STATES OF AMERICA

### 1861 Scott Token in White Metal Confederate Obverse, MS64

- 3383 1861 Scott Restrike MS64 PCGS. CAC.** These popular tokens were struck in white metal by J.W. Scott circa 1879, pairing the Confederate States of America obverse die with a custom commemorative reverse. This near-Gem is one of just 500 pieces struck for this *Guide Book* issue. The brilliant surfaces are well struck and semiprooflike. The Confederate obverse shows light die rust while the medal reverse exhibits numerous peripheral cracks.  
*Ex: Long Beach Signature (Heritage, 6/2010), lot 760; FUN Signature (Heritage, 1/2013), lot 4331.*  
**From The Maltese Collection.**  
NGC ID# DXRA, PCGS# 340403

## PROOF SEATED HALF DOLLARS

### 1857 Seated Half, Sharp PR63

- 3384 1857 PR63 PCGS.** Perhaps three dozen proof examples survive today from the unknown quantity struck in 1857, presumably a small number before the Mint began mass-marketing to collectors in the following year. Despite the PR63 grade, the present piece is a “whole lot of coin for the money,” showing some clear signs of special die preparation in the form of raised die lines on the obverse, excellent reflectivity, and a pinpoint strike. Some light hairlines and field chatter also appear, as expected. Lightly toned and thoroughly attractive. Population: 16 in 63, 20 finer (9/20).  
*Ex: Internet Sale (Heritage, 5/2002), lot 17295; Internet Sale (Heritage, 6/2002), lot 17154; Internet Sale (Great Collections, 3/2014), lot 164810.*  
**From The Maltese Collection.**  
NGC ID# 27TG, PCGS# 6411

### 1862 Seated Half, PR64 Cameo Mid-Civil War Issue

- 3385 1862 PR64 Cameo PCGS. CAC.** This near-Gem Cameo proof Seated half dollar was struck during the second year of the Civil War, in which first silver and gold coins, and finally Indian cents as well would disappear from circulation due to hoarding. Only 550 proofs were struck, and this piece is in about a typical grade for proof survivors. The mirrored fields provide good contrast against frosted devices, but there are some scattered scuffs and hairlines in the obverse fields. Touches of orange-red and slate decorate both sides of this appealing coin. Civil War specialists will be interested. Population: 15 in 64 (1 in 64+) Cameo, 8 finer. CAC: 5 in 64, 3 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27TN, PCGS# 86416

### 1864 Seated Liberty Half, PR65 Cameo Border-Toned No Motto Type Coin

- 3386 1864 PR65 Cameo PCGS.** This sharp Gem Cameo displays strong contrast on each side, complementing the mirroring in the fields. Original blue-green and lavender toning surrounds the borders, while the interiors are brilliant. Eye appeal is outstanding for the grade. Cameo 1864 proof halves are rare in this condition, and none are finer at PCGS. Population: 4 in 65 Cameo, 0 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27TR, PCGS# 86418

### 1865 Half Dollar, PR65 Cameo Final Year of the No Motto Type

- 3387 1865 PR65 Cameo PCGS.** Dramatic Cameo contrast exists between the frosted devices and watery fields. Colorful blue, magenta, and golden patina around the borders heightens the eye appeal. This was the final year of the No Motto type, and only 500 proofs were struck. Population: 14 in 65 (1 in 65+) Cameo, 12 finer in this category (9/20).  
**From The Maltese Collection.**  
NGC ID# 27TS, PCGS# 86419

**1866 Half Dollar, Colorful Gem  
First With Motto Issue**

- 3388 1866 Motto PR65 PCGS. CAC.** This is well-known as the first year of the Motto design. The Mint struck 725 proof halves. This colorful Gem is gorgeously toned in shades of gold, magenta, violet, and blue patina. Flashy despite the toning and readily appealing. Population: 17 in 65, 9 finer in non-Cameo. CAC: 6 in 65, 1 finer (9/20).  
Ex: *Pre-Long Beach Sale (Goldberg Auctions, 1/2014)*, lot 1156.  
**From The Maltese Collection.**  
NGC ID# 27TZ, PCGS# 6424

**1866 Gem Cameo Proof Half Dollar  
First Year of the With Motto Design**

- 3389 1866 Motto PR65 Cameo PCGS.** This Gem Cameo proof is basically untoned and free of any singular impairments, although we note a couple of small, squiggly strike-throughs in the obverse fields that may have prevented an even finer grade. A razor-sharp and appealing coin from the first year of the With Motto type. Population: 3 in 65 Cameo, 6 finer (8/20).  
Ex: *Long Beach Signature (Heritage, 9/2010)*, lot 5097; *New York Signature (Heritage, 2/2014)*, lot 5144.  
**From The Maltese Collection.**  
NGC ID# 27TZ, PCGS# 86424

**1868 Half Dollar, PR65 Cameo  
Brilliant, Strongly Contrasted Surfaces**

- 3390 1868 PR65 Cameo PCGS.** From a tiny mintage of only 600 pieces, the proof 1868 Seated Liberty half dollar is a scarce coin today in all grades. Coins in PR65 condition, with the Cameo designation are almost unobtainable. The present coin features fully detailed, boldly frosted design elements, and deeply reflective fields that culminate in dramatic Cameo contrast. Population: 6 in 65 Cameo, 5 finer (8/20).  
Ex: *Long Beach Signature (Heritage, 9/2010)*, lot 5117; *New York Signature (Heritage, 2/2014)*, lot 5145.  
**From The Maltese Collection.**  
NGC ID# 27U3, PCGS# 86426

**1872 Seated Half, PR65 Cameo  
Deeply Mirrored, Boldly Contrasted**

- 3391 1872 PR65 Cameo PCGS.** Remarkably few distractions are seen on the silver-mirrored fields of this Gem proof half dollar. Deep aqua and auburn-red toning encircles the central devices, which are thickly covered in mint frost. A loupe reveals a few delicate hairlines, but none are visible without magnification nor do they disturb the watery-deep mirrors. A full strike shows no weakness on the devices. 950 proofs were made but it is likely not all were distributed based on the certification data, and Breen reports an unknown number of unsold proofs were melted in 1873. Population: 6 in 65 (1 in 65+) Cameo, 4 finer (8/20).  
Ex: *National Money Show Signature (Heritage, 2-3/2014)*, lot 3914.  
**From The Maltese Collection.**  
NGC ID# 27U7, PCGS# 86430

**1873 No Arrows, Closed 3 Half, PR65+ Cameo  
Beautifully Patinated**

- 3392 1873 No Arrows, Closed 3, PR65+ Cameo PCGS.** The 1873 No Arrows proof half dollars were struck in the amount of 600 pieces, mostly of the Closed 3 style although Wiley and Bugert note that at least one Open 3 proof is known. This beautiful PR65+ Cameo shows bluish rim patina on each side, more prominent on the reverse, complementing dusky amber-gold and pinkish patina in the centers, all amid good field-device contrast. The proof strike is sharp throughout both sides. Population: 8 in 65 (3 in 65+) Cameo, 5 finer (8/20).  
Ex: *National Money Show Signature (Heritage, 2-3/2014)*, lot 3916.  
**From The Maltese Collection.**  
NGC ID# 27U8, PCGS# 86431

1877 Half Dollar, PR66 Cameo  
Closed Bud Reverse

- 3393 1877 PR66 Cameo PCGS.** Type Two. This is the usual Closed Bud reverse hub, with no split in the lower berry (bud) over the H in HALF. A stunning Premium Gem Cameo proof, this example has central brilliance within a frame of delicate reddish-gold and pale blue peripheral toning. The strike is bold, enhancing the exceptional eye appeal. Both sides have deeply mirrored fields that provide a wonderful backdrop for the frosty and highly lustrous devices. This piece borders on the Deep Cameo designation and will prove a wonderful addition to an advanced collection. Population: 7 in 66 (2 in 66+) Cameo, 0 finer (8/20).  
*Ex: National Money Show Signature (Heritage, 2-3/2014), lot 3917.*  
**From The Maltese Collection.**  
NGC ID# 27UC, PCGS# 86438

1882 Half Dollar, PR66+ Cameo  
Untoned and Starkly Contrasted

- 3394 1882 PR66+ Cameo PCGS. CAC.** Just a trace of color appears over surfaces that are deeply contrasted and offer the desirable "silver on black" appearance of Cameo proofs of this era. The proof strike is full throughout both sides. Both proofs and business strikes of this year saw tiny mintage figures. Population: 11 in 66 (5 in 66+) Cameo, 4 finer. CAC: 6 in 66, 4 finer (8/20).  
*Ex: New York Signature (Heritage, 2/2014), lot 5152.*  
**From The Maltese Collection.**  
NGC ID# 27UH, PCGS# 86443

1884 Seated Half, PR66  
Beautifully Toned

- 3395 1884 PR66 PCGS. CAC.** Another 1880s Seated half dollar that saw low mintages of circulation issues, the 1884s were made to the extent of 4,400 business strikes and 875 proofs. The present Premium Gem proof shows a fairly consistent rose-colored palette with blue punctuation on the obverse, but the reverse blooms out into fantastic metallic blue, mauve, orange, and wine patina with a bit of silver remaining in the center. The pinpoint strike and lack of visible contact are added bonuses. Population: 15 in 66, 4 finer. CAC: 7 in 66, 5 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27UK, PCGS# 6445

1885 Half Dollar, Boldly Struck  
Toned PR65

- 3396 1885 PR65 PCGS. CAC.** Struck during an era when the Mint was producing few circulation-strike minor silver coins, proofs of the 1880s have had to serve double duty for collectors seeking high-grade examples. The 1885 half dollars saw only 5,200 business strikes and 930 proofs made. This Gem proof example displays rose, mauve, and copper patina with excellent eye appeal and a bold strike. Population: 29 in 65, 20 finer. CAC: 7 in 65, 5 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27UL, PCGS# 6446

1886 Seated Half, Concentrically Toned PR66

- 3397 1886 PR66 PCGS.** The 1886 Seated half dollar proofs were struck in the memorable extent of 886 pieces during an era when few circulation strikes were produced: 5,000 in this year. This lovely Premium Gem proof offers concentric toning with violet at the extremes with blue and russet further in, a consistent color palette on both sides. The surfaces are needle-sharp and virtually abrasion-free. Population: 16 in 66 (2 in 66+), 6 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27UM, PCGS# 6447

**1888 PR66 Half Dollar  
Undesignated Contrast**

- 3398 1888 PR66 PCGS.** Only 832 proofs were struck out of a total mintage for the year of 12,833 half dollars. This is an all-brilliant proof with crystal-clear, deeply mirrored fields. It is curious that the coin has not been designated as a Cameo, as it displays obvious contrast on each side. Fully struck. Population: 15 in 66 (3 in 66+), 3 finer (8/20).

*Ex: New York Signature (Heritage, 2/2014), lot 5154.*

**From The Maltese Collection.**

NGC ID# 27UP, PCGS# 6449

**1889 Seated Liberty Half, PR66+  
Only Four Finer PCGS Coins**

- 3399 1889 PR66+ PCGS. CAC.** From a small mintage of just 711 pieces, high-end Premium Gem proof 1889 Seated Liberty half dollars are rarely encountered. The present coin displays spectacular iridescent cobalt-blue and golden-brown toning, with razor-sharp design elements and deeply mirrored fields. Population: 11 in 66 (2 in 66+), 4 finer. CAC: 4 in 66, 3 finer (8/20).

*Ex: Beverly Hills Signature (Heritage, 11/2011), lot 3444.*

**From The Maltese Collection.**

NGC ID# 27UR, PCGS# 6450

**1890 Seated Half Dollar, PR66  
Attractive Toning, CAC**

- 3400 1890 PR66 PCGS. CAC.** A conditionally scarce Premium Gem example of the 1890 proof, showing reflective fields that illuminate gold, sea-green, and lavender toning across each side. The right hand obverse stars are weak, but the central devices show sharp definition. Eye appeal is outstanding. Population: 17 in 66 (1 in 66+), 8 finer. CAC: 8 in 66, 3 finer (9/20).

**From The Maltese Collection.**

NGC ID# 27US, PCGS# 6451

**1890 Seated Half, PR64 Ultra Cameo  
Deeply Contrasted Throughout**

- 3401 1890 PR64 Ultra Cameo NGC.** The frosty white devices of this near-Gem proof late-series Seated Liberty half stand out in stark contrast against the deeply mirrored fields. It seems that only a few light, scattered ticks on surfaces devoid of mentionable contact keep this admirable coin from a Gem grade. Census: 1 in 64 Ultra Cameo, 11 finer (9/20).

NGC ID# 27US, PCGS# 96451

**1890 Seated Half, PR65 Deep Cameo  
Conditionally Rare, CAC Approval**

- 3402 1890 PR65 Deep Cameo PCGS. CAC.** A stunning Deep Cameo Gem, razor-sharp and beautifully contrasted with light golden warmth across each side. The CAC endorsement confirms the exceptional quality for the grade. The 1890 proof half dollar is rarely offered in Gem Deep Cameo or better condition. This piece is tied with one other coin in this grade for the finest Deep Cameo endorsed by CAC. Population: 6 in 65 (1 in 65+) Deep Cameo, 7 finer. CAC: 2 in 65, 0 finer (9/20).

**From The Maltese Collection.**

NGC ID# 27US, PCGS# 96451

**BARBER HALF DOLLARS**

**1897 Barber Half, Sharply Struck MS66**

- 3403 1897 MS66 PCGS. CAC.** The strike is extremely sharp on all star details, Liberty's hair and leafy headdress, and even the eagle's claws and tailfeathers, as well as the right shield corner, are full or nearly so. A light golden cast and frosty luster contribute to a pleasing ensemble. Minor contact marks in the left obverse field are inconsequential. Population: 11 in 66 (5 in 66+), 3 finer. CAC: 7 in 66, 3 finer (9/20).

NGC ID# 24LY, PCGS# 6477

**1901-S Barber Half, Sharp MS63  
Condition and Absolute Rarity**

- 3404 1901-S MS63 PCGS.** Hub Type One, showing the (W)E touching a leaf, seen less frequently than the Type Two. But this is, as they say, a distinction without a difference, as the 1901-S is rare in any Mint State grade. Bowers writes in *A Guide Book of Barber Silver Coins* that “an MS-63 or 64 offered at auction will attract bids far and wide.” The mintage of the 1901-S was about 847,000 coins, and most certified examples today are no better than VF25-VF30. This is a handsome Select example, showing excellent luster on silvery surfaces with some dabs of orange-russet patina. A row of trivial ticks on Liberty’s neck is likely from some mechanical device, and a few die cracks are at the extreme lower bust and nearby devices. The strike is impressive in most areas, save for usual areas such as star 3, the right (facing) shield corner, and right claw. Population: 10 in 63, 23 finer (9/20). NGC ID# 24ME, PCGS# 6491

**1906-D Barber Half, MS66  
Conditionally Rare CAC Coin**

- 3405 1906-D MS66 PCGS. CAC.** Satiny luster reveals golden peripheral toning that frames brilliant interiors on this Premium Gem 1906-D half. The eagle’s right (facing) shoulder is weak as usual, although elsewhere the design elements show pleasing sharpness. The reverse of this coin alone could easily grade a point or two finer, but a few small marks on the obverse necessitate the MS66 level. Still, CAC approval is earned for the eye appeal. Population: 9 in 66 (2 in 66+), 1 finer. CAC: 8 in 66, 1 finer (9/20). NGC ID# 24MV, PCGS# 6505

**1906-O Barber Half, MS65+  
Conditionally Scarce New Orleans Issue**

- 3406 1906-O MS65+ NGC.** Soft, satiny luster illuminates light golden toning on this high-end Gem 1906-O Barber half. The fields are clean, and only a few faint grazes are evident on Liberty’s cheek. The usual strike weakness is seen on the eagle’s right (facing) shoulder and star 12 on the obverse. Nonetheless, eye appeal is excellent for the issue. NGC ID# 24MW, PCGS# 6506

**1912 Barber Half  
Frost-White MS66**

- 3407 1912 MS66 PCGS.** This frost-white Premium Gem Barber half offers copious luster throughout both sides with no trace of color other than a narrow band of brownish patina around the left side of the shield and near the upper rim. The strike is bold throughout, even if a tad short of complete on some of the high points. Population: 6 in 66 (2 in 66+), 0 finer (9/20). NGC ID# 24NG, PCGS# 6524

**PROOF BARBER HALF DOLLARS**

**1892 Half Dollar, PR66 Cameo  
Solid Contrast**

- 3408 1892 PR66 Cameo PCGS.** A clearly contrasted example with little toning apart from a faint gold-gray layer and splashes of violet-amber along Liberty’s jawline and near the rims. Carefully preserved and an all-around appealing first-year proof. Population: 22 in 66 (2 in 66+) Cameo, 10 finer (8/20). Ex: *Teich Family Collection / New York Signature (Heritage, 2/2014), lot 5157.*  
**From The Maltese Collection.**  
NGC ID# BYMW, PCGS# 86539

**1895 Barber Half Dollar  
Top-Notch PR66 Cameo**

- 3409 1895 PR66 Cameo PCGS.** The surfaces are virtually free of color, further emphasizing the depth of contrast between brilliantly mirrored fields and well-frosted, silvery devices. The excellent preservation, a bold strike, and no visible evidence of contact peg this coin a couple of notches above most survivors of the issue. Population: 19 in 66 (2 in 66+) Cameo, 12 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 24NX, PCGS# 86542

---

1901 Half Dollar, Attractively Toned PR67

**3410** 1901 PR67 NGC. Splashes of violet, yellow-gold, orange, and soft russet cascade over the luminous surfaces of this Superb Gem half dollar proof. Sharply struck design elements complement the attractive color palette. Both sides have been well-cared for. Census: 20 in 67 (1 in 67★), 7 finer (9/20).

Ex: *National Money Show Signature* (Heritage, 2-3/2014), lot 3930.

**From The Maltese Collection.**

NGC ID# 24P5, PCGS# 6548

---

1902 Half Dollar, Pastel-Toned PR67

**3411** 1902 PR67 PCGS. Pristine preservation and vivid patina are hallmarks of this lovely Superb Gem proof 1902 Barber half, tied for the finest at PCGS with 11 other such submissions (9/20). Pale pastel shades encompass both sides including pink, purple, pale canary-yellow, and violet hues. The strike is strong save for, typically, the upper-right shield corner.

Ex: *New York Signature* (Heritage, 2/2014), lot 5159.

**From The Maltese Collection.**

NGC ID# 24P6, PCGS# 6549

---

1904 Half Dollar, PR66  
Rare CAC-Approved Example

**3412** 1904 PR66 PCGS. CAC. Sharp and golden toned, this CAC-approved Premium Gem proof displays exceptional visual appeal and even has modest field-device contrast on each side. The preservation is outstanding. The 1904 proof Barber half dollar is seldom available in this grade, and CAC coins are rare. Population: 22 in 66 (1 in 66+), 12 finer. CAC: 7 in 66, 4 finer (9/20).

**From The Maltese Collection.**

NGC ID# 24P8, PCGS# 6551

---

1905 Barber Half, PR66 Cameo  
Seldom Seen with Frosted Devices

**3413** 1905 PR66 Cameo PCGS. A Premium Gem proof with untouched surfaces and brilliant appeal. The devices display a light coat of pleasing mint frost — unusual for proofs of this era that were normally prepared with an all-brilliant finish. A blush of vivid blue toning is seen near the date, with similar toning transparently evident near the reverse rims. The surfaces are otherwise untuned with liquid-deep mirrors offsetting the Cameo devices. Fully struck and immensely attractive. Population: 5 in 66 (1 in 66+) Cameo, 2 finer (8/20).

Ex: *New York Signature* (Heritage, 2/2014), lot 5160.

**From The Maltese Collection.**

NGC ID# 24P9, PCGS# 86552

---

1908 Barber Half Dollar, PR66 Cameo  
Ex: SDC / Eliasberg

**3414** 1908 PR66 Cameo PCGS. CAC. Ex: SDC-Eliasberg Collections. The 1908 has one of the lowest proof mintages in the Barber half dollar series (545 pieces). Magnificent field-motif contrast shows on both sides of this Premium Gem. Fully struck, save for the usual minor softness on the upper-right shield corner. Whispers of cobalt-blue and gold-orange make occasional visits to this impeccably preserved specimen. Population: 9 in 66 (1 in 66+) Cameo, 3 finer. CAC: 3 in 66, 1 finer (8/20).

Ex: *Baltimore Signature* (Heritage, 3/2009), lot 2191; *Pittsburgh Signature* (Heritage, 10/2011), lot 3817.

**From The Maltese Collection.**

NGC ID# 24PC, PCGS# 86555

---

1909 Half Dollar, Well-Struck PR65 Cameo

**3415 1909 PR65 Cameo PCGS.** After the Mint's brief experiment with the no-contrast method of proofing a few years before, the striking of subsidiary coinage returned to the deep mirror effect used prior to 1902. Curiously, in 1909 the Mint used two proofing methods and continued this two-track method until 1916. As mentioned, lower denomination coins were deeply mirrored in the fields, but gold coins received the new, European-influenced matte process.

The obverse of this Gem is mostly untuned and there is a moderate degree of contrast between the fields and devices. Both sides are essentially brilliant. The design elements are well-struck save for the usual softness in the upper-right shield corner. An exceptionally lovely Gem 1909 half dollar. Population: 11 in 65 Cameo, 34 finer (8/20).

Ex: *Central States Signature (Heritage, 2005), lot 7303; Pittsburgh Signature (Heritage, 10/2011), lot 3818; San Francisco Signature (Heritage, 3/2014), lot 10394.*

---

1912 Barber Half, PR66+ Cameo  
Immaculate, Contrasted Proof

**3416 1912 PR66+ Cameo PCGS.** One of 700 proofs issued for the date and rare with Cameo contrast, this brilliant example is deeply mirrored and visually magnificent. Despite a tiny bit of weakness on the upper-right shield corner, this stunning proof is otherwise sharp with white-on-black reflectivity throughout the fields. Mint frost sits upon all the devices for excellent contrast. A few evidences of orange-gold toning reside near the reverse rims but do not affect the overall, brilliant-white impression of this glistening proof. Population: 5 in 66 (3 in 66+) Cameo, 3 finer (8/20).

Ex: *New York Signature (Heritage, 2/2014), lot 5161.*

**From The Maltese Collection.**

NGC ID# 24PG, PCGS# 86559

---

---

1913 Barber Half, PR65 Cameo  
Boldly Struck, High-Interest Date

**3417 1913 PR65 Cameo PCGS.** Desirable for its frosted Cameo contrast and for the rarity of its business strike counterpart, this 1913 proof Barber half is brilliant and highly appealing. Just 627 proofs were made. This example is fully struck with bold devices displaying the most intricate elements of the Barber design. A silver-white Gem, the deep mirrors are free of all but a few microscopic lines near star 3 that keep it from an even higher grade. Rare and popular in this high-end, proof format. Population: 9 in 65 Cameo, 12 finer (8/20).

Ex: *New York Signature (Heritage, 2/2014), lot 5162.*

**From The Maltese Collection.**

NGC ID# 24PH, PCGS# 86560

---

1913 Half Dollar, PR66 Cameo  
Elusive Barber Issue

**3418 1913 PR66 Cameo PCGS. CAC.** The rarity of business strikes enhances the demand for proof 1913 Barber half dollars. This Premium Gem Cameo proof has fully mirrored fields that frame the lustrous and boldly defined design motifs on both sides. Splendid multicolored toning enhances the eye appeal of this beauty. Population: 5 in 66 Cameo, 7 finer. CAC: 4 in 66, 4 finer (8/20).

Ex: *National Money Show Signature (Heritage, 2-3/2014), lot 3931.*

## WALKING LIBERTY HALF DOLLARS

### 1917-D Half Dollar, MS65 Popular Obverse Mintmark Type

- 3419 1917-D Obverse Mintmark MS65 NGC.** Obverse Mintmark Walking Liberty half dollars are always sought-after, representing a two-year type. In the case of the 1917-D Obverse half, only 765,400 coins were struck and the average example grades around AU50. This satiny Gem is lightly toned in blushes of gunmetal and olive-gold color, but considerable brilliance remains. Strike detail is somewhat uneven, but overall preservation is excellent. NGC reports four finer coins (9/20). NGC ID# 24PR, PCGS# 6570

### 1917-S Walking Liberty Half, MS63 Obverse Mintmark

- 3420 1917-S Obverse Mintmark MS63 NGC. CAC.** The mintmark was moved to the reverse on the Walking Liberty half dollar part way through the year in 1917, but the San Francisco Mint struck a small production of 952,000 pieces of the Obverse Mintmark type before the change took effect. Few high-quality examples were saved for numismatic purposes, making the Obverse type scarce-to-rare in all Mint State grades. This sharply detailed Select specimen features lightly toned, lustrous surfaces, with only minor signs of contact. NGC ID# 24PT, PCGS# 6572

### 1919 Walking Liberty Half, MS62 Elusive Issue in High Grade

- 3421 1919 MS62 PCGS.** From a modest Philadelphia Mint mintage of 962,000 pieces, the 1919 Walking Liberty half dollar is seldom encountered in high grade. This impressive MS62 specimen displays sharply detailed design elements throughout, with lightly marked, lustrous surfaces that exhibit highlights of pale jade, russet, and lavender-gray toning. NGC ID# 24PY, PCGS# 6577

### 1919 Half Dollar, High-End MS64 Thick, Frosty Luster

- 3422 1919 MS64 PCGS. CAC.** The fields are remarkably clean for the grade on this CAC-approved near-Gem half dollar. Few ticks are hidden within the confines of the design, which is strongly raised. Thick, frosty luster and total brilliance deliver terrific aesthetic appeal. CAC: 21 in 64, 21 finer (9/20). NGC ID# 24PY, PCGS# 6577

### 1919-D Half Dollar, MS61 Conditionally Rare

- 3423 1919-D MS61 PCGS.** The 1919-D is a major rarity in high grades, with the issue claiming an average assessment of VF35. This MS61 representative survives in a collectible level of Uncirculated condition. It features typical D-mint satin luster and razor-sharp detail on Liberty's head and the date. Blushes of pale patina complement mostly silver surfaces. Housed in an old green label holder. NGC ID# 24PZ, PCGS# 6578

### 1919-S Half Dollar, MS62 Early, Conditionally Scarce Branch Mint Issue

- 3424 1919-S MS62 PCGS.** The 1919-S represents an early, conditionally scarce issue in the Walker half dollar series (1.5 million coins struck). An average survivor is apt to grade no higher than Choice VF. This frosty, well-preserved MS62 coin is brilliant with strong detail on Liberty's head. The branch hand and tops of 191 are slightly soft, as is the central part of the eagle. Encapsulated in an old green label holder. NGC ID# 24R2, PCGS# 6579

**1920-S Half Dollar, MS64  
Challenging in High Grade**

- 3425 1920-S MS64 NGC.** This 1920-S Walking Liberty half dollar is remarkably well struck, yielding sharp definition on Liberty branch hand and head, as well as on the eagle's trailing leg. Satiny, largely untuned surfaces yield only a trace of champagne warmth. There are fewer abrasions than expected for the grade. Finer 1920-S Walkers are scarce.  
NGC ID# 24R5, PCGS# 6582

**1921 Half Dollar, MS62  
Perennially In-Demand Key Date**

- 3426 1921 MS62 PCGS.** A production of 246,000 coins ensures perennial demand for the key date 1921 Walking Liberty half dollar. This is a softly frosted and largely untuned Mint State survivor with full detail on Liberty's branch hand and bold definition elsewhere. Swirling die polish lines appear in the fields. A couple of prominent die gouges occur near the eagle's head, and curving raised lines are seen through the left (facing) wing.  
NGC ID# 24R6, PCGS# 6583

**1933-S Half Dollar, Satiny MS66+**

- 3427 1933-S MS66+ NGC.** The last, but far from the least, of the so-called "early series" of Walking Liberty half dollars, the 1933-S is a perennial collector favorite. This golden-toned, satiny MS66+ NGC example is close to as good as it gets at either leading service. The strike is sharp, the preservation essentially immaculate. Census: 4 in 66+, 12 finer (9/20).  
NGC ID# 24RE, PCGS# 6591

**1933-S Half Dollar, Fully Struck MS66  
Scarce Middle-Date Issue**

- 3428 1933-S MS66 PCGS. CAC.** The 1933-S half is a remarkably well-produced issue that almost always shows a full strike or one that is very nearly full, which is what is seen on this piece. The surfaces on most 1933-S halves are also usually brightly frosted, as seen here also. Each side has speckled golden-rose toning and there are no noticeable abrasions present.  
Ex: Long Beach Signature (Heritage, 9/2012), lot 4029.  
From The Maltese Collection.  
NGC ID# 24RE, PCGS# 6591

**1941 Walking Liberty Half  
Stunning MS68 Example**

- 3429 1941 MS68 PCGS.** The Walking Liberty half dollar often wins "runner-up" status as America's second most beautiful coin design, behind the High Relief Saint-Gaudens double eagles. This piece is among the top-graded survivors of this readily available date, but certainly seldom seen in so fine a grade. The satiny luster is silver with daubs of gold, and a patch of rainbow iridescence near the top obverse is a further complement. Excellent preservation on a stunning coin. Population: 31 in 68 (1 in 68+), 0 finer (8/20).  
NGC ID# 24S3, PCGS# 6611

**1943-S Walking Liberty Half, MS67+  
Tied for Finest Certified**

- 3430 1943-S MS67+ NGC.** The 1943-S is generally available in Mint State, being among the "Short Set" dates that are generally considerable plentiful. However, Superb Gem examples are conditionally scarce, and just a handful carry Plus designations. No 1943-S Walkers are certified finer this piece. Luster glistens across satiny, unabraded surfaces, complementing bold design elements. Sea-green, blue, violet, and amber-gold toning graces the peripheries, while the centers remain brilliant. Census: 38 in 67 (6 in 67+, 1 in 67★), 0 finer (9/20).  
NGC ID# 24SB, PCGS# 6620

**1945 Half Dollar, MS67+  
Beautifully Toned, Tied for Finest**

- 3431 1945 MS67+ PCGS.** Vibrant, frosty surfaces are virtually flawless on this high-end Superb Gem. Each side yields iridescent lavender-silver surfaces, while daubs of amber, olive, gold, and russet toning appear in the border regions. Liberty's head is sharp, and the branch hand has partial thumb separation. Only a fraction of the 1945 Walkers in MS67 are Plus graded, and none are certified finer by PCGS or NGC. Population: 26 in 67+, 0 finer (9/20).  
NGC ID# 24SF, PCGS# 6624 Base PCGS# 6624

**PROOF WALKING LIBERTY  
HALF DOLLARS**

**1936 Half Dollar, PR66  
First-Year Proof Issue**

- 3432 1936 PR66 PCGS. CAC.** A scarce, high-grade example of this elusive first year of issue for modern proofs. When found, most 1936 proof halves show signs of cleaning, therefore relatively few exist today in the higher and more sought-after grades. This piece shows good reflectivity in the fields with a hint of opaque toning on each side.  
Ex: Baltimore Signature (Heritage, 7/2003), lot 7892; FUN Signature (Heritage, 1/2014), lot 4764.  
**From The Maltese Collection.**  
NGC ID# 27V4, PCGS# 6636

**1937 Walking Liberty Half, PR68  
Fantastic Toning, CAC-Approved**

- 3433 1937 PR68 PCGS. CAC.** A fantastically toned Superb Gem proof, this 1937 Walking Liberty half shows Liberty striding into an orange and fire-red crescent suggestive of the setting sun, with the remainder of the obverse a pale lavender. The reverse shows burgundy, violet, orange, and jade areas, with some cherry-red at the lower rim. both for its outstanding preservation and its incredible patina, this coin is liable to inspire some intense bidding competition among collectors of toned coins. Population: 16 in 68 (1 in 68+), 0 finer. CAC: 3 in 68, 0 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27V5, PCGS# 6637

**1938 Half Dollar, PR68  
Beautifully Toned**

- 3434 1938 PR68 PCGS. CAC.** Boldly border-toned yellow-orange with subtler lavender-gray and peach shadings through the interiors. Great gleaming luster persists through the patina. The plastic holder has a scrape over the reverse that should not be interpreted as damage to the piece. Housed in a green label holder. Population: 22 in 68 (1 in 68+), 0 finer. CAC: 7 in 68, 0 finer (8/20).  
Ex: National Money Show Signature (Heritage, 10/2012), lot 3775.  
**From The Maltese Collection.**  
NGC ID# 27V6, PCGS# 6638

**1939 Walking Liberty Half, PR68  
Virtually Untoned**

- 3435 1939 PR68 PCGS. CAC.** The surfaces on this stunning Superb Gem proof at first glance offer a quicksilver appearance, although closer inspection under magnification does reveal faint touches of color on each side. The preservation is pristine, with nary a contact mark seen. A precise strike imparts excellent detail throughout. Population: 54 in 68 (2 in 68+), 0 finer. CAC: 21 in 68, 0 finer (9/20).  
**From The Maltese Collection.**  
NGC ID# 27V7, PCGS# 6639

**1940 Half Dollar, PR68  
Unimprovable Quality**

- 3436** 1940 PR68 PCGS. CAC. With deeply reflective fields and full strike definition, this specimen should fit nicely into any Superb quality type set. Virtually perfect with a light coating of milky-tan iridescence drifting toward the borders. Population: 44 in 68 (2 in 68+), 0 finer. CAC: 17 in 68, 0 finer (8/20).  
Ex: *Dallas Signature (Heritage, 12/2004)*, lot 6300.  
From *The Maltese Collection*.  
NGC ID# 27V8, PCGS# 6640

**1941 Half Dollar, PR68  
Among the Finest Known**

- 3437** 1941 PR68 PCGS. Ex: Jack Lee. This gleaming Superb Gem, housed in a green label holder, offers sharply detailed devices and vibrantly mirrored fields beneath splashes of gold and olive patina. Beautifully preserved and one of the finest survivors from this penultimate proof Walking Liberty issue. Population: 40 in 68 (4 in 68+), 0 finer (8/20).  
Ex: *Dallas Signature (Heritage, 10/2008)*, lot 1032.  
From *The Maltese Collection*.  
NGC ID# 24SP, PCGS# 6641

**FRANKLIN HALF DOLLARS**

**1951-S Half Dollar, MS67 Full Bell Lines  
Tied for Finest Certified**

- 3438** 1951-S MS67 Full Bell Lines NGC. The 1951-S Franklin half dollar is a "strike rarity" with few that carry the Full Bell Lines designation. Less than 10% of NGC submissions have earned the coveted designation. Almost certainly a Mint Set coin, this Superb Gem has dappled gold toning that accompanies areas of frosty silver luster. The strike is exceptional throughout. Census: 0 in 67 Full Bell Lines, 0 finer (9/20).  
NGC ID# 6L2T, PCGS# 86660 Base PCGS# 86660

**1954 Franklin Half, MS67 Full Bell Lines  
FS-401, 'Bugs Bunny,' CAC Approved  
The Finest at PCGS**

- 3439** 1954 "Bugs Bunny," FS-401, MS67 Full Bell Lines PCGS. CAC. The "Bugs Bunny" variety comprises a small portion of the surviving 1954 Franklin half dollar population. In MS67, this piece is the sole finest Full Bell Lines example that PCGS has certified, and it is also CAC endorsed. Lovely lavender, blue, gold, and cottonwood-green toning adorns each side, with frosty luster shining through. The preservation is nearly flawless.  
PCGS# 147871 Base PCGS# 86667

**1959 Half Dollar, MS66+ Full Bell Lines  
Scarce High-Grade Representative**

- 3440** 1959 MS66+ Full Bell Lines PCGS. Like many extant Uncirculated 1959 half dollars, this coin is moderately toned over the obverse and fully brilliant on the reverse. There the similarity ends. Most survivors are noticeably abraded with inadequate striking definition. The fully frosted surfaces of the present Gem are distraction-free save for two small, out-of-the-way reeding marks on the Liberty Bell. Attractive and solidly graded.  
NGC ID# 24TJ, PCGS# 86676

## PROOF FRANKLIN HALF DOLLARS

### 1953 Franklin Half, PR67 Deep Cameo Extremely Rare

- 3441** 1953 PR67 Deep Cameo PCGS. CAC. The 1953 Franklin half is extremely rare in Deep or Ultra Cameo condition, and even more elusive with the CAC approval of the present PR67 Deep Cameo PCGS piece, which basically presents as untoned. The preservation and profound contrast are both off the charts. One small patch of color occurs at UN on the reverse. The last untoned example in this grade, a non-CAC PCGS coin, brought \$7,800 in our January FUN Signature. Population: 17 in 67 (1 in 67+) Deep Cameo, 1 finer. CAC: 8 in 67, 0 finer (9/20).

**From The Maltese Collection.**  
NGC ID# 27VD, PCGS# 96694

### 1958 Franklin Half, PR68 Deep Cameo Registry-Grade CAC Coin

- 3442** 1958 PR68 Deep Cameo PCGS. CAC. The 1958 proof Franklin is occasionally available in PR68 as a Cameo, but Deep Cameos are rare this fine at PCGS, and only 20 such coins are awarded CAC approval. This piece is beautifully struck and deeply mirrored, showcasing frosty devices that stand in stark contrast to the liquidlike fields. Each side is brilliant, and the preservation is virtually flawless. No numerically finer Deep Cameo Registry coin exists in a PCGS holder. Population: 31 in 68 (2 in 68+) Deep Cameo, 0 finer. CAC: 20 in 68, 0 finer (9/20).

**From The Maltese Collection.**  
NGC ID# CPER, PCGS# 96699

### 1961 Franklin Half, Doubled Die Reverse Seldom-Seen FS-801 Variety, PR67 With CAC

- 3443** 1961 Doubled Die Reverse, FS-801, PR67 PCGS. CAC. The doubling on this proof issue is so dramatic that the *Cherrypicker's Guide*, fifth edition, volume II, chose it as their cover coin. Fivaz and Stanton write that "this coin ... has everything going for it: the doubling is dramatic and naked-eye visible, it's on a large coin, and the issue is a Proof. Very few have been uncovered in the last five or six years ... ." This is a great-looking Superb Gem example with silvery surfaces accented by dappled orange-red at the rims and wonderful reflectivity. The CAC online *Pop/Price Report* gives a price of \$6,000 in this grade, Population: 17 in 67 (1 in 67+), 1 finer. CAC: 12 in 67, 3 finer (9/20).

**From The Maltese Collection.**  
PCGS# 145292 Base PCGS# 6689

### 1963 Franklin Half, PR69 Deep Cameo None Certified Finer

- 3444** 1963 PR69 Deep Cameo PCGS. The Franklin design was retired after 1963, making the date an important one for type purposes. The 1963 is not as difficult to locate in high grades as the earlier proof issues, but virtually perfect Deep Cameo examples, like the present coin, are quite rare. Population: 20 in 69 Deep Cameo, 0 finer (8/20).

*Ex:* FUN Signature (*Heritage*, 1/2014), lot 4813.

**From The Maltese Collection.**  
NGC ID# CPEU, PCGS# 96704

## KENNEDY HALF DOLLAR

### 1970-D Kennedy Half, Lightly Toned MS67 Registry Set Prize

- 3445** 1970-D MS67 PCGS. "Mint set only" is the rap attached to the 1970-D Kennedy halves, just like "proof set only" is for the 1970-S Kennedys, both the last (except for the one-off 1976-S Bicentennial halves) in the 40% metallic composition. One would expect decent preservation from mint sets, but the truth is that most 1970-D Kennedy halves appear quite sloppily and carelessly made. A Superb Gem such as this piece is a real prize for series enthusiasts and Registry collectors. This piece offers a touch of golden patina on each side, and the few marks noticeable are relegated to an out-of-the-way area at the bottom of President Kennedy's neck. This piece is far, far nicer than most survivors of the issue, and most of those mint sets have been gone through by now. Population: 18 in 67, 0 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 24U9, PCGS# 6713

## SMS KENNEDY HALF DOLLAR

### 1967 SMS Kennedy Half, SP68 Deep Cameo Among the Finest at PCGS

- 3446** 1967 SMS SP68 Deep Cameo PCGS. The 1967 SMS Kennedy half dollar is elusive in SP68, and such coins are rare in the Deep Cameo category at PCGS. None are finer at that service. This piece displays full definition throughout the softly frosted devices, while the mirrored fields glimmer beneath a light. Neither side has mentionable toning, and the preservation is outstanding. Population: 19 in 68 Deep Cameo, 0 finer (9/20).  
*From The Maltese Collection.*  
NGC ID# 24WJ, PCGS# 96847

## EARLY DOLLARS

### 1795 Flowing Hair, Two Leaves Dollar B-9, BB-13, Fine 12

- 3447** 1795 Flowing Hair, Two Leaves, B-9, BB-13, R.4, Fine 12 PCGS. Die State I. This very scarce die pairing is often called the "Hidden Star" variety because star 15 is "hidden" beneath Liberty's bust where she cannot "see" any portion of it. This obverse die was also used to strike the BB-11 and BB-12 dollars. The Two Leaves reverse die shows the berries arranged nine left, eight right. The wine-colored fields show numerous light pinscratches, none heavy, and the reverse is well-detailed for the grade. A planchet flaw, as made at the Mint, appears from the lower left (facing) wing through TE to the rim. A nice, collector-grade example of this in-demand early die variety.  
*From The Peter Jones M.D. Collection.*  
NGC ID# 24WZ, PCGS# 39980 Base PCGS# 6853

### 1795 Flowing Hair Dollar, VF20 B-7, BB-18, Three Leaves

- 3448** 1795 Flowing Hair, Three Leaves, B-7, BB-18, R.3, VF20 PCGS. Bowers Die State I, as usual. This Head of 1794 variety is usually available in circulated grades, earning it popularity with type collectors. Type representative suits this piece well, as it displays uniform pewter-gray surfaces and bold detail for the grade. No adjustment marks are seen, and the borders are sharp. A few tiny nicks near the date do not detract.

**1795 Flowing Hair Dollar, Two Leaves  
B-2, BB-20, VG10**

- 3449** 1795 Flowing Hair, Two Leaves, B-2, BB-20, R.3, VG10 PCGS. Die State II, lowest curl of hair is separated, and the lower-left stars are lapped and have a “spidery” appearance. Although some 1795 Flowing Hair silver dollars may have been struck in 1796 or even 1798, according to Bowers, the BB-20 and BB-18 are two die combinations (among others) that were definitely struck in 1795, as examples of those pairings were in the Lord St. Oswald Collection, brought back to England in autumn 1795. This example, given the grade, is heavily circulated and shows little remaining fine detail in the central obverse, save for some lower curl outline. The mauve-gray interiors, however, show little contact evidence, and no singular marks. The reverse also displays only deep central detail.

*From The Maltese Collection.*

NGC ID# 24WZ, PCGS# 39985 Base PCGS# 6853

**1795 Draped Bust, Centered Dollar, VF30  
B-15, BB-52, ‘Circulated Cameo’ Surfaces**

- 3450** 1795 Draped Bust, Centered, B-15, BB-52, R.2, VF30 ANACS. Bowers Die State IV, showing a small triangular break in Liberty's hair and a knifelike extension upward. The reverse shows a small die break on a leaf near OF but no die crack connecting ICA. This example displays an attractive “circulated cameo” appearance, lighter silver-colored and coin-gray devices contrasting against areas of pale blue, mauve, orange, and russet in the fields.

*From The Peter Jones M.D. Collection.*

NGC ID# 24X2, PCGS# 39995 Base PCGS# 6858

**1797 B-1, BB-73 Dollar, XF Details  
9x7 Stars, Large Letters**

- 3451** 1797 9x7 Stars, Large Letters, B-1, BB-73, R.3 — Questionable Color — PCGS Genuine. XF Details. Bowers Die State II-III. An unlisted intermediate state with only a single crack through the hair ribbon. PCGS took umbrage at the vivid peach-gold, plum-red, and gunmetal-blue patina, though it is attractive. The lower obverse displays a subtle checkered pattern that would be called “bag toning” if this were a Morgan dollar instead of a Bust dollar. A well defined and only lightly abraded example of the challenging Small Eagle type.

*From The Maltese Collection.*

**PROOF SEATED DOLLARS**

**1840 Seated Dollar, Unc Details  
Rare Die Proof Pairing**

- 3452** 1840 — Altered Surfaces — PCGS Genuine. Proof, Unc Details. OC-P4, High R.7. Osburn-Cushing Die State a/a. This first year of issue is obviously a scarce one in proof format. Four die pairings for proofs have been confirmed, but the estimated number of survivors is probably no more than 25 pieces (many of which have been resubmitted). This scarce die pair is most easily distinguished by several vertical shield lines that extend into the horizontal lines. The strike details are strong, except on the highest portion of Liberty's hair and the upper-left part of the eagle's wing. The fields are deeply mirrored and each side is covered with multicolored toning.

**1868 Seated Dollar, Richly Toned PR63**

- 3453** 1868 PR63 PCGS. OC-P2, High R.3. Cobalt-blue and golden tan patina runs over both sides of this Select proof, and is joined by splashes of purple and golden-orange on the reverse. A strong strike leaves strong delineation on the design elements. Nicely preserved for the designated grade.

*Ex: FUN Signature (Heritage, 1/2009), lot 4374.*

*From The Maltese Collection.*

NGC ID# 252P, PCGS# 7016

**1869 Seated Dollar, PR64 Cameo**  
**Attractively Contrasted Proof Type Coin**

- 3454** 1869 PR64 Cameo NGC. OC-P2, R.4. Osburn-Cushing Die State a/a, as always. A scarce near-Gem Cameo example of this proof issue, showing a dusting of light champagne toning across mirrored fields and frosted devices. Liberty's head is sharply detailed, and only slight weakness is seen on the eagle's left (facing) leg. Eye appeal is outstanding for the grade. Census: 7 in 64 Cameo, 14 finer (9/20). NGC ID# 252R, PCGS# 87017

**1873 Seated Dollar, PR63**  
**Richly Toned, Final-Year Issue**

- 3455** 1873 PR63 PCGS. OC-P1, R.3. Only one pair of dies was used to strike the 600 proofs in this final year for the Seated dollar, both obverse and reverse die unique to this year. This is a richly toned example that displays purple, blue, and rose-golden toning intermixed with occasional glimpses of mint brilliance on the obverse. The eagle's plumage is softly defined, but all the design elements on the obverse are fully brought up. Population: 54 in 63, 53 finer (8/20).  
*From The Peter Jones M.D. Collection.*  
 NGC ID# 252V, PCGS# 7021

**PROOF TRADE DOLLARS**

**1873 Trade Dollar, PR63**  
**Scarcer First-Year Issue**

- 3456** 1873 PR63 PCGS. CAC. The 1873 is the scarcest date as a proof in the run from 1873 through 1883. While 865 proofs were struck, attrition has taken a heavy toll on this date. Breen believed about 200 pieces were sold to non-collectors and were subsequently spent, accounting for the date's rarity. This is an all-brilliant example that has nicely reflective, flashy mirrors in the fields. It is also fully struck in all areas, which is not a given on 1873 proofs. Both obverse and reverse are lightly hairlined, explaining the grade. Population: 55 in 63 (2 in 63+), 38 finer. CAC: 2 in 63, 9 finer (8/20).  
*Ex: Long Beach Signature (Heritage, 2/2010), lot 1329.*  
*From The Peter Jones M.D. Collection.*  
 NGC ID# 27YJ, PCGS# 7053

**1875 Trade Dollar, PR63 Cameo**  
**Golden Toning, Pleasing Contrast**

- 3457** 1875 PR63 Cameo PCGS. Type One Reverse. Period after FINE. This sharp, golden-toned Select Cameo proof displays surprisingly strong eye appeal for the grade, as a few scattered marks in the fields are hardly noticed at first glance. Cameo proof 1875 Trade dollars are elusive in all grades, and Deep Cameos are rarely ever seen. Population: 22 in 63 Cameo, 33 finer (9/20).  
*From The Maltese Collection.*  
 NGC ID# 27YL, PCGS# 87055

**MORGAN DOLLARS**

**1879-CC Morgan Dollar, MS62**  
**Brilliant With a Hint of Golden Color**

- 3458** 1879-CC MS62 PCGS. Normal Mintmark. A tinge of pale gold color around the obverse border complements what are otherwise brilliant and fully frosted surfaces. A touch soft at the centers, but generally well-struck and clean for the grade. The 1879-CC is a semikey Nevada issue with a mintage of 756,000 coins. Housed in a green label holder.  
 NGC ID# 253T, PCGS# 7086

**1879-CC Morgan Dollar, MS62**  
**Scarce VAM-5 Variety, Normal Mintmark**

- 3459** 1879-CC MS62 NGC. VAM-5. Normal Mintmark. The 1879-CC is far scarcer than most CC-Mint issues in Mint State — the mintage was low (just 756,000 pieces) and the issue was not heavily represented in the GSA sales of the 1970s. The present example is only lightly abraded for the assigned grade, with satiny pale-gold surfaces and a strike that is slightly weak over the ear. The VAM-5 variety is scarcer than most, slightly doubled on the obverse at 18 in the date, and on the reverse legend most visibly at U of UNITED. Spikelike die lines from the base of Liberty's nose confirm the variety.  
 NGC ID# 253T, PCGS# 7086

**1879-S VAM-9 Silver Dollar, MS64  
Scarce Second Reverse**

**3460 1879-S Reverse of 1878, VAM-9, MS64 PCGS.** A Top 100 Variety. Parallel upper fletching feather. Partial R in TRUST. Glimpses of plum-red patina adorn the borders, but this lustrous and sharply struck Choice silver dollar is predominantly brilliant. The obverse is well preserved, and the reverse field exhibits moderate contact.

Ex: *Central States Signature (Heritage, 4/2012)*, lot 1169.  
PCGS# 133858 Base PCGS# 7094

**1879-S Morgan Dollar, MS68  
Epitome of the Coiner's Art**

**3461 1879-S MS68 PCGS.** The 1879-S through 1882-S Morgan dollars are classics of the coiner's art, usually showing bold strikes and abundant luster on well-made planchets. It is not surprising that they are accordingly found — the word is *occasionally*, given their large mintages in the several millions — in certified grades up to MS68 and MS68+. This MS68 1879-S typifies the excellent quality of these coins, boasting flashy cartwheel luster, only a single luster graze in the right obverse field, and a uniformly bold strike. The slight golden cast is more perceptible on the virtually mark-free reverse. Several dozen are certified in this grade at PCGS, although the figures are doubtless considerably inflated by resubmissions. NGC ID# 253X, PCGS# 7092

**1879-S Morgan Dollar, MS68  
Exceptional Type Coin**

**3462 1879-S MS68 NGC.** The 1879-S Morgan dollar claims a large mintage of more than 9.1 million pieces, making the issue readily available in high grade and an extremely popular choice with type collectors. This virtually perfect MS68 specimen exhibits sharply detailed design elements and brilliant, lustrous surfaces, with terrific eye appeal. NGC has certified no coins in higher numeric grades (9/20).

From *The Maltese Collection*.  
NGC ID# 253X, PCGS# 7092

**1879-S Dollar, MS68  
Superlative Type Coin**

**3463 1879-S MS68 NGC.** This is a remarkable example with highly brilliant mint frost on both sides. The surfaces nearly define perfection and the strike is complete throughout. The obverse of this Super Gem dollar is bright white, while the reverse is lightly toned with peripheral gold color. NGC ID# 253X, PCGS# 7092

**1880-S Silver Dollar, MS68  
Brilliant and Semiprooflike**

**3464 1880-S MS68 NGC.** An available issue even at this high MS68 grade, the 1880-S is always an outstanding selection for type. Brilliant and stark-white, the piece was struck from polished dies resulting in a few faint die lines in the semiprooflike fields. Liberty's cheek is mark-free and frosty. A sharply struck example, as expected for the grade and this well-produced San Francisco issue. NGC and PCGS combined report just 10 numerically finer coins (8/15).

Ex: *New York Signature (Heritage, 10-11/2015)*, lot 4790.  
NGC ID# 2544, PCGS# 7118

**1881-CC Dollar, MS65+ Deep Mirror Prooflike  
Green CAC Approval Sticker**

**3465 1881-CC MS65+ Deep Mirror Prooflike PCGS. CAC.** Dramatic Deep Mirror Prooflike contrast and total brilliance are the hallmarks of this frosty CAC-approved and Plus-designated Gem Carson City Morgan dollar. The hair strands over Liberty's ear and the eagle's breast feathers are fully struck. An eye-catching example of the 1881-CC dollar. CAC: 25 in 65, 9 finer (9/20). NGC ID# 2547, PCGS# 97127

**3466 1881-S MS68 PCGS.** The 1881-S Morgan dollars are the epitome of the coiner's art when it comes to Morgan dollars, along with its siblings the 1879-S and 1880-S, all extremely well-made products of the San Francisco Mint. This gorgeous MS68 example offers a touch of gold patina at the rims on both sides with a clean cheek on Liberty, generous frosty luster, a bold strike, and excellent eye appeal. NGC ID# 2549, PCGS# 7130

**1881-S Morgan, Brilliant MS68  
Vibrantly Lustrous Type Coin**

- 3467 1881-S MS68 NGC.** True to the grade, this 1881-S Morgan dollar is virtually flawless. Brilliant, radiant cartwheel luster dazzles the viewer as it travels through semireflective fields and across the frosty, glistening devices. The strike is sharp throughout. The 1881-S is plentiful in grades through MS67. MS68 pieces such as this occasionally come up for auction, but the quality varies from coin to coin. This example is outstanding.  
NGC ID# 2549, PCGS# 7130

**1881-S Dollar, MS68  
Spectacular Morgan Type Coin**

- 3468 1881-S MS68 NGC.** This dazzling, high-end Superb Gem displays radiant cartwheel luster unhindered by toning or abrasions. The appearance is of a coin just struck. Sharp devices and outstanding eye appeal earn this piece high marks as a type coin but also as a Registry coin. The 1881-S is almost uncollectible finer, and with this piece's quality, "finer" may not be something realistically obtainable.  
NGC ID# 2549, PCGS# 7130

**1882-S Morgan Dollar, MS68  
Strong Registry Set Candidate**

- 3469 1882-S MS68 NGC.** Like the 1880-S and 1881-S, the 1882-S Morgan dollar is widely available in high grade and popular as a type coin. Examples often exhibit radiant luster and sharp strikes, with comparably strong eye appeal. Nonetheless, the 1882-S is seen much less often in MS68 than its earlier San Francisco counterparts. Type collectors can easily enough opt for the more common 1881-S, but Registry collectors must be patient for an 1882-S in this grade to come around. This example is beautifully struck and borders on being flawlessly preserved. The interiors are brilliant, graced by golden peripheral hues.  
NGC ID# 254F, PCGS# 7140

**1883-S Dollar, MS64  
Strong Central Definition**

- 3470 1883-S MS64 PCGS.** Unlike its big brother, the 1884-S, this issue can be found through MS64. Finer coins are scarce, however, with only 27 numerically higher-graded submissions at PCGS (9/20). This brilliant near-Gem enjoys typical S-mint and strong central strike definition. Pale hints of reddish-gold color gently accent a few of the border areas.  
NGC ID# 254K, PCGS# 7148

**1884-CC Dollar, Brilliant MS67**

- 3471 1884-CC MS67 NGC.** The GSA distributions of the 1970s were responsible for 788,630 1884-CC dollars entering the market. High-grade examples in Superb Gem condition are always sought-after and survive in far above-average condition. This is a completely brilliant MS67 with swirling cartwheel luster. Sharply struck with clean fields and a few roller marks over Liberty's jaw/cheek.  
NGC ID# 254M, PCGS# 7152

**1884-CC Morgan, MS67+  
Reddish Obverse Toning**

- 3472 1884-CC MS67+ NGC.** The reverse is frosty and untuned while the obverse offers scattered reddish patina. The preservation, as expected for the MS67+ NGC grade, is virtually flawless. Some "pull-away toning" is obvious on the lower date and stars, and Liberty's cheek is as clean as can be. Census: 17 in 67+, 8 in 67★, 2 in 67+★, 1 finer (9/20).  
NGC ID# 254M, PCGS# 7152

**1884-O Dollar, MS67+  
Brilliant, Pristine Surfaces**

- 3473 1884-O MS67+ NGC.** Mint luster is surprisingly frosted for a New Orleans Morgan dollar, most of which are distinctly satiny. Perhaps even more impressive is that the central devices on both sides are fully struck. This is an exceptionally clean and totally brilliant Superb Gem that will appeal to the most discerning specialists. A single 1884-O dollar is graded higher at NGC (9/20).  
NGC ID# 254N, PCGS# 7154

**1885 Dollar, MS67+  
Untoned and Frosty**

- 3474 1885 MS67+ NGC.** George Morgan's design is fully defined on this blazing, untuned Superb Gem. Both sides are thickly frosted and practically unabraded. The 1885 claims a large mintage of 17.7 million coins and can be found in high grades without difficulty, but there are only eight higher grading events at NGC (9/20).  
NGC ID# 254R, PCGS# 7158

**1885-CC Morgan Dollar, MS67  
Registry-Grade Example**

- 3475 1885-CC MS67 PCGS.** Superb Gem Carson City Morgan dollars are always in high demand. The allure of the CC mintmark combined with the uniquely frosted luster that high-grade Carson City Morgans exhibit makes these coins coveted both as type coins but also as Registry Set pieces. This 1885-CC is sharp and incredibly attractive. The interiors are brilliant, while tinges of amber-gold toning appear in the margins.  
NGC ID# 254S, PCGS# 7160

**1885-CC Morgan Dollar, MS67  
Radiantly Lustrous**

- 3476 1885-CC MS67 NGC.** A stunning, frosty Superb Gem example of this popular Carson City Morgan, showing brilliant surfaces and a sharp strike. The fields balance cartwheel luster with a hint of reflectivity, adding to the visual appeal. NGC has seen only five finer non-Prooflike 1885-CC coins. This date is popular for its low mintage of 228,000 coins, although it is collectible in high grade because of the GSA sales of the 1970s.  
NGC ID# 254S, PCGS# 7160

**1885-S Morgan Dollar, MS66  
Beautiful Original Toning**

- 3477 1885-S MS66 PCGS.** Cartwheel luster shimmers beneath deep powder-blue, apple-green, and rose-red toning. The sharply struck surfaces appear pristine aside from a hair-thin line on the chin and unimportant contact on the cheek. The toning is original. The 1885-S is available in typical Mint State but is rare in the present quality. Only a couple of finer pieces are known. Population: 109 in 66 (8 in 66+), 2 finer (9/20).  
*Ex: Long Beach Signature (Heritage, 2/2012), lot 4218.*  
NGC ID# 254U, PCGS# 7164

**1886 Dollar, MS68  
Cartwheel Luster, None Finer**

- 3478 1886 MS68 NGC.** *Ex: Binion Collection.* A couple million examples of the plentiful 1886 Morgan dollar are thought to exist, including hundreds of thousands of coins in MS63-MS65. This is one of the top-graded examples at NGC and PCGS combined. Cartwheel mint luster rolls over each side. The obverse remains entirely brilliant, while the reverse features golden-orange, lilac, and rose hues mainly along the right border. Virtually pristine. Census: 40 in 68 (3 in 68+, 2 in 68★), 0 finer (9/20).  
NGC ID# 254V, PCGS# 7166

---

**1889-CC Morgan Dollar, XF45**

- 3479 1889-CC XF45 PCGS.** This lightly circulated 1889-CC dollar displays bold detail and pleasant olive-gray and champagne patina. A loupe reveals hairlines in the fields on each side that do not affect remnants of luster in the protected regions. The 1889-CC is one of the keys to the entire Morgan dollar series, and it is the only “stopper” to the Carson City short set.

*Ex: FUN Signature (Heritage, 1/2017), lot 5111.*

NGC ID# 2559, PCGS# 7190

---

**1889-CC Dollar, AU50  
Famous Key**

- 3480 1889-CC AU50 NGC.** The 1889-CC is one of the most famous issues in the Morgan dollar series, if not in all of American numismatics. It is the scarcest Carson City Morgan dollar with only 350,000 pieces struck, most of which were melted. This is a minimally circulated and untoned survivor with partial mint luster around the devices. Lightly hairlined with a tiny rim nick below 18.

NGC ID# 2559, PCGS# 7190

---

**1890-CC VAM-4 Dollar, MS64  
Tail Bar, A Top 100 Variety**

- 3481 1890-CC Tail Bar, VAM-4, Top 100, MS64 PCGS.** A significant die gouge connects the fletchings to the the wreath leaves below. This near-Gem is characteristically frosted for an Uncirculated Carson City dollar. Both sides are utterly brilliant and awash in cartwheel mint luster. Strongly struck at the centers. A single identifying reeding mark appears on Liberty's jawline below the earlobe. PCGS reports only six finer Tail Bar submissions (9/20). NGC ID# 255D, PCGS# 133934 Base PCGS# 87198
- 

---

**1891-CC Dollar, MS65  
Scarce Any Finer**

- 3482 1891-CC MS65 PCGS.** This Carson City issue is not nearly as plentiful in high grades as its counterparts from the early 1880s, but it can still be located through MS65. Anything finer than this is scarce, however. Blushes of peripheral golden color complement frosty surfaces awash in cartwheel mint luster. Strongly detailed at the centers.

NGC ID# 255H, PCGS# 7206

---

**1891-O Dollar, MS65  
Satin, Attractively Toned**

- 3483 1891-O MS65 PCGS.** Deep sea-green, lilac-gray, and golden toning covers this satiny and carefully preserved New Orleans Gem. The 1891-O is readily available in most Uncirculated grades, but Gems are highly elusive. The eagle's breast and the hair above the ear show softness, as usual for the issue. PCGS reports only 13 in MS65+ and one MS66 finer (8/20).

*Ex: Long Beach Signature (Heritage, 5-6/2012), lot 4358, which brought \$4,600.*

NGC ID# 255J, PCGS# 7208

---

**1891-S Dollar, MS64+ Deep Mirror Prooflike  
Frosty with Central Golden Accents**

- 3484 1891-S MS64+ Deep Mirror Prooflike PCGS.** This near-Gem appears totally brilliant face-on, accentuating Deep Mirror Prooflike contrast. Pale blushes of chestnut-gold color over the razor-sharp central design elements come to the fore when angled. Fantastic all-around quality and eye appeal. Population: 39 in 64 (2 in 64+) Deep Mirror Prooflike, 6 finer (9/20). NGC ID# 255K, PCGS# 97211
-

**1893-CC Dollar, AU58**  
**Final-Year Carson City Example**

- 3485 1893-CC AU58 PCGS.** This is the final entry in the Carson City Morgan dollar set and always popular as such. The CC mint manufactured 677,000 dollars before shutting down its coining operations on June 1. They represent the secondmost elusive issue of the year after the 1893-S. This nearly Uncirculated is brilliant with splashes of rose-gold color around the borders. Bright surfaces glow with partial remaining luster. Close examination yield what would otherwise be an indiscernible trace of friction over the cheek, ear, and breast feathers.  
 NGC ID# 255S, PCGS# 7222

**1893-CC Morgan Dollar, Flashy MS62**

- 3486 1893-CC MS62 PCGS.** The surfaces are highly lustrous and flashy, only lightly rim-tinged in reddish hues. Numerous ticks on Liberty's face and cheek, and some scattered reeding marks from coin-to-coin contact appear, none of them singularly mentionable but together accounting for the grade. Some typical die clashing shows on the reverse. This last-year Carson City issue is always in hot demand, and this piece would be a pleasing acquisition for a series enthusiast.  
 NGC ID# 255S, PCGS# 7222

**1893-CC Dollar, MS62**  
**Frosted Central Devices**

- 3487 1893-CC MS62 PCGS.** Frosted central motifs generate partial contrast against the surrounding mirrors, which feature cartwheel luster rather than the depth or reflectivity required for a formal Prooflike designation. This is a brilliant final-year Carson City dollar without the usual number of deep and distracting bagmarks, although the centers are flat.  
 NGC ID# 255S, PCGS# 7222

**1893-O Dollar, MS61**  
**Popular Louisiana Issue**

- 3488 1893-O MS61 NGC.** Only 300,000 Morgan dollars were struck at the New Orleans Mint in 1893, making this one of the better issues in the series, particularly in high grades. The present example is mostly brilliant with dappled gold and rose-violet patina around the borders. The hair strands directly over Liberty's ear exhibit blending, but the rest of the design, including the eagle's breast feathers, is well-detailed.  
*From The Princess Collection.*  
 NGC ID# 255T, PCGS# 7224

**1893-S Dollar, VF35**  
**Pleasing Midgrade Example**

- 3489 1893-S VF35 PCGS.** Touches of gold-tan color make occasional visits to both sides of this key date Morgan, and traces of luster still reside in some of the recessed areas. Generally well-defined, except for softness on star 7 and the E preceding PLURIBUS. A very nice fit for a mid-grade circulated set of Morgan dollars.  
*Ex: FUN Signature (Heritage, 1/2008), lot 5575; FUN Signature (Heritage, 1/2017), lot 5205.*  
 NGC ID# 255U, PCGS# 7226

**1895-S/S Dollar, MS61**  
**VAM-3, Repunched Mintmark**

- 3490 1895-S/S VAM-3 MS61 NGC.** A Hot 50 Variety. The mintmark is widely repunched with the initial impression left and tilted. The 1895-S is the only collectible Morgan dollar for the year in high grades. This bright MS61 representative is completely untuned with radiant mint luster around the legends and other protected areas. Scattered grazes determine the grade.  
 NGC ID# 255Z, PCGS# 134020 Base PCGS# 7238

**1896-S/S Morgan Dollar, MS63  
Elusive San Francisco Issue**

- 3491 1896-S/S VAM-5 MS63 PCGS.** A Hot 50 Variety. Several hundred 1896-S Morgans were acquired by Reno investor LaVere Redfield many years ago, and eventually they were dispersed into the market through his estate. We can only guess if this MS63 specimen is one of those coins, but if it was, it is among the finest to emerge from that slightly haphazard hoard. We note that the coin is essentially untuned with bright luster with only a few minor abrasions on the cheek and neck. A sharp strike occurs on the motifs, except on the hair over Liberty's ear, which is a touch weak. Variety collectors will note this is the S/S repunched mintmark, the "Hot 50" VAM-5, with clear evidence of the undermintmark and an unfinished area of the die within the bow.  
Ex: Long Beach Signature (Heritage, 2/2006), lot 2273; ANA Signature (Heritage, 2/2014), lot 4926; Dallas Signature (Heritage, 4/2017), lot 16444.  
PCGS# 134022 Base PCGS# 7244

**1898-O Dollar, Brilliant MS67+  
Among the Finest at PCGS and CAC**

- 3492 1898-O MS67+ PCGS. CAC.** The 1898-O is a widely available New Orleans issue in grades as high as MS67, but this Plus-graded and CAC-approved representative ranks among the finest at PCGS (9/20). Not a speck of color appears on either side. Radiant satin mint luster shines from smooth, strongly detailed surfaces. A terrific Registry Set contender.  
NGC ID# 2569, PCGS# 7254

**1900 Silver Dollar, MS67  
Semiprooflike Fields**

- 3493 1900 MS67 NGC.** The 1900 Morgan dollar is elusive in MS67, and no finer non-Prooflike pieces are known. This Superb Gem is brilliant and sharply struck, showing clean fields and a satiny cheek on Liberty. The fields are somewhat reflective, although not fully mirrored as is necessary for the Prooflike designation. Census: 65 in 67 (5 in 67+), 0 finer (9/20).  
NGC ID# 256E, PCGS# 7264

**1901 Morgan Dollar, Frosty MS63**

- 3494 1901 MS63 PCGS.** The 1901 Morgan dollar earns a well-deserved reputation for being a "difficult" issue to find in basically any Mint State grade, leading many budget-challenged collectors to seek out nice AU55 or AU58 coins. The present Select Mint State piece displays untuned surfaces with nice, frosty luster. A few stray ticks on the most exposed area, Liberty's cheek, are unsurprising but account for the grade. Abundant eye appeal is present throughout. PCGS reports only 36 coins numerically finer (9/20).  
NGC ID# 256J, PCGS# 7272

**1903 Dollar, MS67  
None Finer at PCGS**

- 3495 1903 MS67 PCGS. CAC.** According to Dave Bowers, the 1903 Morgan dollar was elusive until bags began being paid out through Eastern banks during the mid-1950s. Today, the issue proves readily collectible through MS67, though none are graded numerically higher at PCGS (9/20). Total brilliance, full strike detail, and cartwheel luster characterize each side. Well-deserving of the CAC approval sticker.  
NGC ID# 256R, PCGS# 7284

**1903-S Dollar, AU58  
Semikey in High Grades**

- 3496 1903-S AU58 PCGS.** Well-preserved examples of the 1903-S can be difficult to come by. The issue is a challenging semikey in all but the lowest grade levels. This piece approaches Mint State, showing the slightest trace of rub over the high points and subdued luster in the exposed fields. Detail remains sharp, and the surfaces are mostly bright silver with blue, gold, and crimson rim toning.  
NGC ID# 256T, PCGS# 7288

## PROOF MORGAN DOLLARS

### 1880 Morgan Dollar, PR64 Attractively Toned

**3497 1880 PR64 PCGS. CAC.** The 1880 Morgan dollar enjoyed a generous proof mintage of 1,355 pieces, making high-grade examples relatively easy to locate in today's market. This well-detailed Choice specimen is attractively toned in shades of gray, pale gold, and cobalt-blue. The fields are deeply reflective, under the patina.

*Ex: Central States Signature (Heritage, 4/2012), lot 5798.*

**From The Maltese Collection.**

NGC ID# 2724, PCGS# 7315

### 1921 Morgan Dollar, PR62 Farran Zerbe Special Strike

**3498 1921 Zerbe PR62 PCGS. VAM-1AG.** Farran Zerbe, a prominent numismatic promoter, had a small number of 1921 Morgan dollar proofs, perhaps 200 pieces, struck on request. Recent research by Ash Harrison suggests two die pairs were used. VAM-1AG, seen here, is the usual variety identified by a number of distinctive die scratches on each side. Both sides exhibit tack-sharp design definition and satiny surfaces lightly toned in dusky golden hues. NGC ID# 257A, PCGS# 7341

## PEACE DOLLARS

### 1934-S Peace Dollar, MS63 Elusive in Mint State

**3499 1934-S MS63 PCGS.** A mintage of barely more than 1 million coins makes the 1934-S Peace dollar a better date in the series. In fact, overall it is the scarcest Peace dollar in Mint State. This Select example is sharp and lustrous. Mainly brilliant surfaces yield to golden toning that appears around portions of the outer peripheries. Scattered light abrasions determine the grade. NGC ID# 257Z, PCGS# 7377

### 1935 Peace Dollar, MS66+ Just One Certified Finer at PCGS

**3500 1935 MS66+ PCGS. CAC.** The strike is crisp and bold for a 1935 Peace dollar, with smoothly frosted surfaces and each of Liberty's tresses individually defined. Abrasions are limited to a few luster grazes and a small mark beneath L of LIBERTY. Each side is brilliant-white and sparkling with mint luster. The mintage exceeded 1.5 million pieces, yet few examples reach the high-end Premium Gem grade and the date is nearly unavailable any finer. CAC endorsement confirms the high quality. Population: 93 in 66+, 1 finer. CAC: 108 in 66, 0 finer (9/20). NGC ID# 2582, PCGS# 7378

## GOLD DOLLARS

### 1849 Gold Dollar, MS65 Dannreuther-1, No L, Repunched Star

**3501 1849 No L, D-1, MS65 PCGS.** The star at Liberty's bust point is widely repunched on this Open Wreath, No L variety. In Gem condition, the 1849 gold dollar is scarce, and finer pieces are rare. This coin displays a sharp strike and rich orange-gold mint luster. Faint die striations (mint made) appear in the obverse fields, while the reverse has a distinctive, wandering die crack that runs from the dentils at 9:30 through the wreath branches and the 1 denomination to the rim at 2:00. Population: 37 in 65, 11 finer (9/20). PCGS# 521670 Base PCGS# 7501

---

### 1857-C Gold Dollar, Choice AU

- 3502 1857-C AU55 NGC. Variety 1.** The year 1857 would be the last in the entire gold dollar series to see four different mints — Philadelphia, Charlotte, Dahlonega, and San Francisco — strike coins. The Charlotte Mint struck all of its quota of 13,280 pieces from a single die, showing a large C mintmark, doubling on DOLLAR, and the date sloping downward from left to right. This Choice AU example shows die clashing more prominent on the obverse. Reddish-orange surfaces show dappled flecks of brownish patina. Strike weakness appears on 18 and DO on the reverse, and on a couple of the peripheral letters on the obverse. Census: 54 in 55, 50 finer (9/20). NGC ID# 25CE, PCGS# 7545

---

### 1857-S Gold Dollar Sharply Struck MS61

- 3503 1857-S MS61 NGC.** The mintage of this early S-mint gold dollar was an even 10,000 pieces, with graded survivors today averaging about XF45 to AU50. Bowers writes in his series *Guide Book* that the 1857-S in “true Mint State is a formidable rarity.” This is an attractive Mint State example showing reddish-orange color with a good strike through the centers and indeed throughout the reverse. The large S mintmark is especially bold. The obverse shows minor weakness on some peripheral letters and some die crumbling at C in AMERICA. Census: 11 in 61, 6 finer (9/20). NGC ID# 25CG, PCGS# 7547

---

### PROOF GOLD DOLLARS

#### 1878 Gold Dollar, PR62 20 Proofs Struck, About 15 Survive

- 3504 1878 PR62 PCGS. JD-1, High R.6.** The design elements are as sharp as one would expect for a proof of this vintage. Stark contrast is seen between the frosty motifs and the reflective orange-peel fields, although PCGS has not awarded a formal Cameo designation. This piece was probably gently wiped a long time ago, resulting in faint wispy lines on each side that limit the grade. The 1878 gold dollar has a paltry total-mintage of 3,000 circulation strikes and merely 20 proofs, making this a rare specimen in the absolute sense. Population: 1 in 62, 3 finer (9/20). Ex: *Dallas Signature* (Heritage, 12/2017), lot 4065. NGC ID# 25EM, PCGS# 7628

---

#### 1885 Gold Dollar, Honey-Gold PR62

- 3505 1885 PR62 ANACS. JD-2, R.5.** Neither the 1885 gold dollar circulation strikes nor the proofs were an overlarge production, 11,156 of the former and 1,105 of the latter, although that was likely a sufficient number to satisfy the demand. Savvy coin dealers and collectors saw the “writing on the wall” and kept these late-series, low-mintage issues in quantities when possible. This piece shows attractive honey-gold patina over surfaces that show a few minuscule ticks, none in the least overt. NGC ID# 25EV, PCGS# 7635

---

### CLASSIC QUARTER EAGLE

#### 1839-O HM-2 Quarter Eagle, AU58 Close Fraction

- 3506 1839-O HM-2, R.4, AU58 NGC.** A prominent die crack extends from the back of the eagle’s head to the right facing wing on this late die state example. Other die cracks are also evident on the reverse. This near-Mint example has scattered grade consistent marks on its light yellow gold surfaces that retain nearly full luster. PCGS# 765182 Base PCGS# 7701

## LIBERTY QUARTER EAGLES

### 1842-C Quarter Eagle, AU53

- 3507 1842-C AU53 NGC. Variety 1.** The only die pair identified for the 1842-C quarter eagles, Variety 1 produced 6,729 examples during the year. This pleasing AU example far exceeds the average certified grade of just over XF40. Both sides have lovely intermingled straw-gold and honey-gold color. Slight weakness is evident at the hair over the forehead and on the eagle's lower extremities. Census: 13 in 53, 20 finer (9/20). NGC ID# 25GH, PCGS# 7724

### 1845-D Two and a Half, AU58 Uncommonly Sharp and Clean D-Mint Gold

- 3508 1845-D AU58 NGC Variety 6-J.** The 1845-D boasts a moderately significant mintage for the Dahlonega Mint of 19,460 pieces, but this issue circulated extensively, and high-grade examples are scarce today. This near-Mint coin displays impressively sharp detail and rich olive-gold and orange surfaces, with luster in the protected portions of the fields. The surfaces are surprisingly free of abrasions for D-mint gold. Census: 40 in 58 (1 in 58+), 9 finer (9/20). NGC ID# 25GX, PCGS# 7738

### 1854-C Quarter Eagle, Unc Sharpness

- 3509 1854-C — Cleaned — NGC Details. Unc. Variety 1.** These dies were the sole pair needed for the small emission of Charlotte quarter eagles in 1854. This is a numismatically interesting year for many reasons, but besides the most obvious one — the official opening of the San Francisco Mint — this was also a year in which Philadelphia and all four branch mints operating struck quarter eagles and half eagles. (However, assembling a 10-piece set could easily be a lifetime's work, as both S-mint denominations are extremely rare.) The present piece shows luster that is somewhat subdued from an old cleaning, but otherwise there is much appeal and few mentionable distractions. The strike on the eagle's left (facing) leg is typical for the issue.

### 1854-O Quarter Eagle, MS62 Field-Device Contrast

- 3510 1854-O MS62 NGC. Variety 2.** The 1854-O is one of the most collectible New Orleans quarter eagles despite a survival rate of less than 1%. The Louisiana branch mint struck 153,000 coins, and probably a little more than 1,000 examples are believed extant. Bright yellow-gold surfaces feature splashes of deeper orange color. Prooflike contrast exists between the razor-sharp devices as glassy fields. Census: 15 in 62, 4 finer (9/20). NGC ID# 25J2, PCGS# 7772

## PROOF LIBERTY QUARTER EAGLE

### 1902 Two and a Half, PR62 Originally Toned, Well Struck

- 3511 1902 PR62 PCGS. JD-1, R.4.** Lemon-gold toning visits radiant and reflective surfaces. Thorough evaluation reveals minor field hairlines, but the eye appeal surpasses expectations for the numerical grade. The reverse dentils are fully struck, as are Liberty's curls. The obverse dentils show minor blending near the file, usual for the proof issue. The 1902 is much more available in Mint State than in proof format. *From The Maltese Collection.* NGC ID# 288S, PCGS# 7928

## INDIAN QUARTER EAGLES

### 1911-D Quarter Eagle, XF45 20th Century Key

- 3512 1911-D XF45 NGC.** The 1911-D quarter eagle is a premier 20th century key date with only 55,680 coins struck. This example saw a modest amount of circulation and exhibits blending over the central high points on each side. Yellow-gold surfaces exhibit strong definition overall, and the mintmark is bold. *From The Princess Collection.* NGC ID# 2894, PCGS# 7943

**1911-D Quarter Eagle, AU58  
Sharp Mintmark, Excellent Surfaces**

- 3513 1911-D AU58 PCGS.** The mintmark is sharp on this piece, and the satiny surfaces retain elements of luster in the protected regions. The uniform olive-gold color is original. Many low-end Uncirculated pieces are much less attractive than this piece, showing cleaning, dipping, or other forms of brightening to ensure they climb into a Mint State holder. This AU58 coin is simply un-messed-with, and its eye appeal benefits from that important fact. In the eyes of many series specialists, this piece is visually superior to most low-end Uncirculated coins.  
NGC ID# 2894, PCGS# 7943

**1914-D Two and a Half, MS64+  
Denver Condition Key**

- 3514 1914-D MS64+ PCGS.** The key date status of the 1914-D quarter eagle in Gem condition draws increased collector demand on near-Gem examples, particular those with Plus designations. This piece is well struck and lustrous with yellow-gold surfaces and minimal marks in the elevated fields. Eye appeal is outstanding for the issue.  
NGC ID# 2899, PCGS# 7947

**THREE DOLLAR GOLD PIECES**

**1854 Three Dollar, Brilliant MS64  
Fantastic Eye Appeal**

- 3515 1854 MS64 PCGS. CAC.** The eye appeal of this lustrous near-Gem example is fantastic. The coin appears freshly minted with brilliant and boldly struck honey-gold surfaces. A loupe reveals only minimal marks on either side. An impressive, high-end representative of this popular first-year three dollar issue.  
*Ex: Dallas Signature (Heritage, 9/2009), lot 1363.*  
NGC ID# 25M3, PCGS# 7969

**1867 Three Dollar, Choice AU  
Only 2,600 Coins Minted**

- 3516 1867 AU55 NGC.** This 1867 three dollar gold piece is strongly struck — from Liberty's curls and cotton bolls to the wreath and bow, date, and denomination. Rose-gold surfaces exhibit a hint of field reflectivity despite superficial grazes. A coppery alloy spot occurs below the E in UNITED. Only 2,600 examples minted.  
NGC ID# 25MN, PCGS# 7988

**1872 Three Dollar, MS61  
Only 2,000 Coins Struck**

- 3517 1872 MS61 NGC.** Reddish-gold surfaces are noticeably semiprooflike — unsurprising given the issue's meager production of just 2,000 pieces. Both sides exhibit crisp detail with softness limited to Liberty's upper hair strands and the juncture of the bow and left wreath leaf. Superficial hairlines explain the grade.  
NGC ID# 25MV, PCGS# 7994

**1878 Three Dollar Gold, MS64+  
Elusive CAC-Approved Example**

- 3518 1878 MS64+ PCGS. CAC.** The 1878 three dollar gold piece continues to be popular among type collectors as one of the three most plentiful dates in the series in high grade. It is also known for its often shimmering mint luster that most collectors find captivating. This high-end near-Gem is lustrous and beautiful, with rich orange-gold and peach-yellow color. Slight strike softness on the wreath bowknot is not bothersome. Among a minority of pieces in this grade with CAC endorsement.  
NGC ID# 25MZ, PCGS# 8000

**1879 Three Dollar, MS62**  
Only 3,000 Pieces Produced

- 3519 1879 MS62 PCGS.** The 1879 three dollar is placed numerically next to the most common date in the series, yet it is far from common as one can immediately tell from the mintage of only 3,000 pieces. As one would expect, many of the higher grade survivors, such as this piece, show strong reflectivity in the fields. The surfaces are also tinged with light reddish patina. NGC ID# 25N2, PCGS# 8001

**1889 Three Dollar Gold, MS60**  
Rich Orange-Gold Color

- 3520 1889 MS60 PCGS.** The final-year three dollar gold is popular with type collectors. This Mint State example displays sharp definition throughout the wreath and on the bowknot, which is a typical soft spot on other coins. Rich orange-gold and rose hues adorn the satiny surfaces, complementing a surprising lack of major abrasions despite the low-end MS grade. Eye appeal is excellent for the MS60 level. NGC ID# 25NC, PCGS# 8011

**EARLY HALF EAGLES**

**1805 Half Eagle, XF Sharpness, BD-1**  
Deep Reddish Patina

- 3521 1805 BD-1, High R.3 — Scratched — PCGS Genuine. XF Details.** Bass-Dannreuther Die State a/a. The noted cluster of short but deep, horizontal scratches between the topmost stars on the reverse suggests that some long-ago doubting Thomas was testing this piece for genuineness. It could have been much worse. On the other hand, this piece will offer much “genuine” appeal not only to type collectors at an affordable entry point, but also to the many lovers of old, crusty, toned gold. The deep, reddish patina can only be acquired by decades — or likely, in the case of this coin, centuries — of loving preservation.

**CLASSIC HALF EAGLES**

**1834 Crosslet 4 Classic Five, XF45**  
Key Series Issue

- 3522 1834 Crosslet 4, HM-9, R.4, XF45 NGC.** Second Head. The Crosslet 4 variety is unquestionably the stopper to a *Guide Book* set of Philadelphia Mint Classic fives. NGC has certified fewer than 100 pieces, and many of those are resubmissions. Only a single die marriage, McCloskey 5-D, has a Crosslet 4. The reverse die later struck 1835 McCloskey 1-A, which suggests that the Crosslet 4 variety was struck near the end of that year. This Choice XF example displays moderate wear on the curls, cheek, and forehead, but luster accompanies protected areas, and the pale gold surfaces are without any distracting abrasions. PCGS# 765199 Base PCGS# 8172

**LIBERTY HALF EAGLES**

**1847 Five Dollar, MS63, Great Type Coin**

- 3523 1847 MS63 PCGS.** The Philadelphia Mint struck abundant quantities of both eagles and half eagles in 1847, nearly 916,000 circulation strikes in terms of the latter, making it among the most common No Motto fives and a great target for type-set enthusiasts. This Select Mint State coin boasts bold luster on attractive honey-gold surfaces. Minor hairlines and some trivial chatter in the fields and Liberty's cheek and lower neck account for the grade on this sharply struck piece. Population: 27 in 63 (4 in 63+), 8 finer (9/20). NGC ID# 25TL, PCGS# 8231

---

**1854-C Half Eagle, AU50**  
**Variety 2, Weak C Mintmark**

- 3524 1854-C AU50 PCGS. Variety 2.** The top of the mintmark is faintly visible on this example that retains considerable luster on its light yellow-gold surfaces. The mintage at Charlotte in 1854 totaled 39,283 coins, a seemingly adequate total, although examples are infrequently encountered today. Population: 12 in 50, 36 finer (9/20).  
NGC ID# 25UH, PCGS# 8257

---

**1856-S Half Eagle, AU58**  
**Conditionally Elusive S-Mint Five**

- 3525 1856-S AU58 PCGS.** The 1856-S half eagle is scarce in AU grades, and Mint State examples are rarely seen. This piece displays sharp definition and satiny olive-gold patina with remnants of luster in the fields. Only slight high-point friction and light contact marks are seen. From a mintage of 105,100 pieces at San Francisco. Population: 20 in 58, 6 finer (9/20).  
NGC ID# 25UZ, PCGS# 8270

---

**1870-S Half Eagle, Choice AU**  
**Historic Date, Unknown in Mint State**

- 3526 1870-S AU55 PCGS.** The 1870-S half eagles were struck in a historic year for the San Francisco Mint, in which the cornerstone for "The Granite Lady," at Fifth and Mission streets, was laid, although it would take four years for construction to be completed. Despite a reported mintage of 17,000 pieces, no Mint State coins survive today. The finest at PCGS are three grading events in AU58. PCGS reports this piece among 11 certifications in Choice AU (9/20). The reddish-orange surfaces of this lightly circulated piece shows trivial high-point wear and scattered field chatter consistent with the grade, yet eminent historicity and excellent eye appeal are also present.  
NGC ID# 25WB, PCGS# 8321

---

**1872-S Five Dollar, AU55**  
**Underrated S-Mint Issue**

- 3527 1872-S AU55 NGC.** The 1872-S half eagle is an underrated San Francisco issue, rare in high-end AU grades and nearly uncollectible in Mint State. This Choice About Uncirculated example displays bold detail and original olive-gold patina. Scattered abrasions are not bothersome. NGC has seen fewer than a dozen finer 1872-S fives. Census: 15 in 55, 11 finer (9/20).  
NGC ID# 25WH, PCGS# 8327

---

**1882-CC Half Eagle, AU58**  
**Partly Lustrous**

- 3528 1882-CC AU58 NGC. Variety 1-A.** The 1882-CC is a popularly collected Carson City issue with a mintage of 82,817 coins. Luster shines around the devices of this borderline-Mint State example, which displays sharp detail, save for the eagle's breast. Orange-gold surfaces are lightly hairlined.  
NGC ID# 25XH, PCGS# 8359

---

**1907 Liberty Five, MS66**  
**Excellent Final-Year Type Coin**

- 3529 1907 MS66 PCGS.** The final year of production for the Liberty design saw a large mintage of 626,192 half eagles at the Philadelphia Mint. This delightful Premium Gem offers well-detailed design elements and well-preserved peach-gold surfaces that radiate vibrant mint luster on both sides. Population: 34 in 66 (4 in 66+), 2 finer (9/20).  
*Ex: Dallas Signature (Heritage, 2-3/2015), lot 3234.*  
NGC ID# 25ZC, PCGS# 8416

## LIBERTY EAGLES

### 1846 Ten Dollar, AU55 Challenging This Fine

- 3530 1846 AU55 NGC.** Hints of luster remain in the most protected peripheral fields on this Choice AU No Motto type coin, while the surfaces at large exhibit olive-gold patina with light handling marks from a stint in circulation. Detail is sharp and wear is light. The 1846 Liberty eagle is rarely offered this fine. Census: 14 in 55, 10 finer (9/20).  
NGC ID# 262W, PCGS# 8594

### 1852 Ten Dollar, MS61 Important CAC Mint State Rarity

- 3531 1852 MS61 NGC. CAC.** The 1852 eagle is scarce in Mint State, and CAC-approved examples are rare in all grades. This MS61 coin displays rich yellow-gold patina and semireflective fields. Light abrasions determine the grade, but none are individually bothersome. Higher-grade 1852 tens are rare. Census: 25 in 61, 5 finer. CAC: 8 in 61, 4 finer (9/20).  
NGC ID# 263C, PCGS# 8608

### 1854-S Eagle, Orange-Gold AU58 First-Year San Francisco Issue

- 3532 1854-S AU58 PCGS.** In its first year as an official U.S. Mint, San Francisco struck four gold denominations, but two of them — the quarter eagle and half eagle — are extreme rarities. Fortunately for collectors without seven-figure bank accounts, the eagles and double eagles are available for more-modest prices. This lightly circulated AU58 eagle still boasts most of its original luster intact over orange-toned surfaces with excellent eye appeal. One mentionable scrape occurs in the lower-left obverse field, but otherwise abrasions are fairly trivial. The strike is sharp, save for a couple of the lower star centers. Population: 26 in 58 (2 in 58+), 5 finer (9/20).  
NGC ID# 263K, PCGS# 8615

### 1854-S Liberty Eagle, AU58 First S-Mint Issue

- 3533 1854-S AU58 PCGS. CAC.** The San Francisco Mint began coinage operations in 1854 and a smallish mintage of 123,826 Liberty eagles was accomplished. The issue is scarce-to-rare in AU grades today, and Mint State examples are condition rarities. This impressive near-Mint example exhibits just a trace of friction on the well-detailed design elements and the lightly abraded orange-gold surfaces retain much of their original mint luster. Population: 26 in 58 (2 in 58+), 5 finer. CAC: 11 in 58, 2 finer (9/20).  
NGC ID# 263K, PCGS# 8615

### 1856 Ten Dollar, MS60 Pleasing Luster and Color Seldom Offered in Mint Condition

- 3534 1856 MS60 NGC.** This piece is a textbook example of an MS60 coin, but one that nonetheless offers great eye appeal at arm's length due to the good luster and color. A closeup inspection reveals the scattered small- to medium-sized marks accompanied by a few larger ones, situated on the cheek and chin of Liberty. The strike is bold on the reverse, although strike softness shows on the obverse stars. Census: 14 in 60, 20 finer (8/20).  
*Ex: Summer FUN Signature (Heritage, 7/2013), lot 3686; ANA Signature (Heritage, 8/2017), lot 5715.*  
**From The Peter Jones M.D. Collection.**  
NGC ID# 263P, PCGS# 8619

### 1868 Ten Dollar, AU58 Challenging in High Grade

- 3535 1868 AU58 PCGS.** The 1868 ten dollar Liberty, although scarce overall, is among the more plentiful dates of this period. Examples are scarce but collectible in AU grades, while Mint State coins are rare. The present coin is near-Mint, showing remnants of luster in the protected peripheral fields. The strike is sharp, and semiprooflike reflectivity provides a backlight for the honey-gold patina. Scattered abrasions accompany the grade. Population: 14 in 58, 6 finer (9/20).  
NGC ID# 264N, PCGS# 8653

**1880-CC Ten Dollar, AU55  
Low-Mintage Carson City Issue**

- 3536 1880-CC AU55 NGC. Variety 1-B.** The first C in the mintmark is left of the N in TEN. The 1880-CC eagle has a mintage of 11,190 coins, of which perhaps 350 pieces survive in mostly VF and XF grades. This Choice AU example is well-struck with strong stars, curls, and feathers. Orange-gold surfaces radiate glints of original luster around the devices.  
NGC ID# 265T, PCGS# 8688

**1883-CC Eagle, Choice AU  
Elusive Carson City Issue in High Grade**

- 3539 1883-CC AU55 NGC. Variety 1-B.** This Carson City ten is elusive in high-end AU condition, and Mint State pieces are rare. The present coin displays semireflective fields with rich yellow-gold color and bold devices. Little wear is present on each side, and the scattered abrasions that accompany the grade are not bothersome. Census: 37 in 55, 23 finer (9/20).  
NGC ID# 2667, PCGS# 8700

**1881 Ten Dollar, MS64+  
Scarce With CAC Endorsement**

- 3537 1881 MS64+ PCGS. CAC.** The 1881 Liberty eagle is scarce in MS64, and only a few pieces in this grade are Plus designated as seen here. Moreover, PCGS has certified only a single finer coin. This piece is among the finest 1881 eagles with CAC endorsement. The strike is sharp, and the frosty surfaces display luminous wheat-gold patina. Only trivial signs of contact are present. Population: 48 in 64 (8 in 64+), 1 finer. CAC: 9 in 64, 0 finer (9/20).  
NGC ID# 265W, PCGS# 8691

**1887 Ten Dollar, MS63+  
Significant Condition Rarity**

- 3540 1887 MS63+ PCGS.** Sharp devices complement radiant honey-gold and peach luster on this remarkably appealing Select Mint State example. Only minor signs of contact limit the grade, allowing this coin to earn the Plus designation from PCGS. The 1887 Liberty ten is rarely seen this fine, and PCGS and NGC combined report only three higher-grade examples. Population: 9 in 63 (1 in 63+), 2 finer (9/20).  
NGC ID# 266H, PCGS# 8710

**1881-O Ten Dollar, AU58  
Conditionally Rare**

- 3538 1881-O AU58 NGC. Variety 1.** The 1881-O Liberty eagle is a challenging issue to locate in high grade. High-end AU pieces such as this one are scarce, and the date is rare in Mint State. Only 8,350 pieces were struck, and little numismatic notice was given to them at the time. This near-Mint coin displays a bold strike and rich olive-gold patina. Scattered abrasions and trivial wear on each side are not bothersome. Census: 35 in 58 (2 in 58+), 15 finer (9/20).  
NGC ID# 265Y, PCGS# 8693

**1890-CC Ten Dollar, AU58  
Bright Luster Remains**

- 3541 1890-CC AU58 PCGS. Variety 1-A.** Although only 17,500 ten dollar gold coins were struck at the Carson City Mint in 1890, collectors should not have much trouble locating an example in upper-AU or even lower-Mint State grades. This is a lustrous near-Mint representative with bright yellow-gold surfaces. Sharply struck with minor blending over the ear and olive leaves.  
NGC ID# 266S, PCGS# 8718

**1891-CC Eagle, MS63**  
**Frosty and Strongly Struck**

- 3542 1891-CC MS63 PCGS. Variety 2-B.** The 1891-CC is the most plentiful Carson City eagle, proving collectible through grades as high as Select Uncirculated. However, PCGS reports only four numerically finer submissions (9/20). This is a boldly struck and richly frosted orange-gold representative with lovely eye appeal. Light chatter in the fields.  
 NGC ID# 266U, PCGS# 8720

**1899 Eagle, MS66**  
**Cartwheel Mint Luster**

- 3543 1899 MS66 NGC.** Apricot-gold surfaces glisten with frosty cartwheel mint luster. A full strike makes this 1899 eagle all the more impressive, as do the virtually unmarked fields. A collectible Philadelphia issue with a mintage of 1.2 million coin, but scarcely seen in this outstanding grade. Census: 21 in 66, 4 finer (9/20).  
 NGC ID# 267J, PCGS# 8742

**1901-S Liberty Eagle, MS65**  
**Outstanding Type Coin**

- 3544 1901-S MS65 NGC.** From a well-produced mintage of more than 2.8 million pieces, the 1901-S Liberty eagle is the most available issue of the series in high grade and a natural choice of type collectors. This spectacular Gem exhibits sharply detailed design elements and well-preserved, lustrous surfaces. A die crack travels from the A in STATES, through the top of the banner, to O in OF. Eye appeal is outstanding.  
 NGC ID# 267S, PCGS# 8749

**INDIAN EAGLE**

**1911-D Indian Eagle**  
**Uncirculated Sharpness**

- 3545 1911-D — Cleaned — NGC Details. Unc.** Similar to its half eagle and quarter eagle cousins, the 1911-D eagle is a low-mintage production of 30,100 pieces, but it and the half eagle are far from the only keys to their respective series, unlike the quarter eagle. The 1911-D remains, nonetheless, an important obstacle to completion of a set. This piece shows much eye appeal remaining despite the noted cleaning, with attractive, deep reddish-gold color. A few contact marks are largely confined to the reverse.

**LIBERTY DOUBLE EAGLES**

**1850 Liberty Double Eagle, XF45+**  
**CAC-Endorsed First-Year Issue**

- 3546 1850 XF45+ NGC. CAC.** The United States struck double eagles for circulation for the first time in 1850 and the Philadelphia Mint produced more than 1.1 million examples of the new denomination. This Plus-graded Choice XF specimen exhibits only light wear on the design elements and the lightly abraded orange-gold surfaces retain traces of original mint luster.  
 NGC ID# 268F, PCGS# 8902

**1850-O Double Eagle, XF Sharpness**  
**First-Year O-Mint Issue**

- 3547 1850-O — Scratches — NGC Details. XF. Variety 3,** identified by the mintmark, which solidly touches the eagle's tail feathers. The 1850-O is a historic and in-demand issue, the first year of the newly released denomination struck at the New Orleans Mint. The NGC disclaimer here is caused by two short, straight scratches beneath Liberty's chin, as well as a scattering of shallower but longer scratches around the upper rays on the reverse. Moderate, even wear and consistent color are pluses.

**1853 Twenty Dollar, AU58  
Gold Rush-Era Type Coin**

- 3548** 1853 AU58 NGC. CAC. From a mintage of more than 1.2 million pieces, the 1853 Liberty double eagle is still a scarce-to-rare issue in all Mint State grades. This attractive near-Mint specimen offers colorful orange-gold surfaces that show scattered minor abrasions and retain traces of original mint luster in sheltered areas. The sharply struck design elements show just a trace of friction on the high points. NGC has graded 61 numerically finer examples. CAC: 48 in 58, 18 finer (9/20). NGC ID# 268M, PCGS# 8908

**1854 Large Date Twenty, AU Sharpness**

- 3549** 1854 Large Date — Cleaned — NGC Details. AU. The 1854 Large Date twenty is far more elusive than its Small Date counterpart, created from a date punch originally destined for a silver dollar. Besides the obvious date differences, the diagnostic die lump left of Liberty's lowest hair curl is accompanied by several small, diagonal die lines up and to the right of there. This piece shows some muted luster from an old cleaning along with a few scattered reeding marks consistent with the AU sharpness grade. Considerable eye appeal remains.

**1854-S Double Eagle, AU Details  
First Year of San Francisco Mint Operations**

- 3550** 1854-S — Cleaned — NGC Details. AU. Parting acids were in short supply but gold was available in abundance during the inaugural year of the San Francisco Mint's coinage operations. A relatively minor mintage of 141,468 double eagles was accomplished by the new mint, struck primarily on repurposed Territorial gold pieces that made a convenient source of gold bullion. This smoothly worn twenty has been cleaned, with the resultant mustard-gold color and a brownish stain in the lower left field. Grade-consistent marks exist mostly on the obverse.

**1857-S Double Eagle, AU58  
CAC, Ex: S.S. Central America**

- 3551** 1857-S No Serif, Right S, Variety 20F, AU58 PCGS. CAC. Ex: S.S. Central America, SSCA 2669. This *Central America* recovery coin has slight friction over the devices and a few scattered abrasions that keep it just outside of Mint State qualification, but for the AU58 level it is exceptionally appealing and lustrous, hence the CAC endorsement. The strike is sharp, and the rich orange-gold patina is highly attractive. PCGS# 70005 Base PCGS# 8922

**1872-CC Double Eagle, XF40  
Early Carson City Issue**

- 3552** 1872-CC XF40 NGC. Variety 1-B. The reverse features a Wide CC mintmark. This third-year Carson City product represents the first moderately accessible double eagle issue from the Nevada branch mint despite a small mintage of 26,900 coins. The 1870-CC and 1871-CC are both challenging and largely uncollectible. This red-gold survivor retains glints of original luster. Detail is good for a circulated Type Two representative. A couple of marks appear near star 3 and Liberty's nose and mouth. NGC ID# 26AE, PCGS# 8964

**1872-CC Double Eagle, XF40  
Only 26,900 Coins Minted**

- 3553** 1872-CC XF40 PCGS. Variety 1-A. The 2 is close to the dentils and the CC mintmark is narrowly spaced. The 1872-CC is a scarce double eagle issue from the early days of the Carson City Mint. Many consider it to be the first obtainable issue from the facility, with the 1870-CC being nearly impossible and the 1871-CC providing a serious challenge in its own right. The present XF40 coin is well-detailed with appealing yellow-gold color and small abrasions peppered throughout. Tiny alloy imperfections are copper-red on the obverse and black on the reverse. NGC ID# 26AE, PCGS# 8964

---

**1873 Open 3 Twenty Dollar, MS63**  
**The Logical Choice for a Type Two Twenty**

- 3554 1873 Open 3 MS63 PCGS.** The Open 3 1873 is the most frequently encountered Type Two issue, which makes it the logical choice for type purposes in this relatively short and challenging series. This is a thickly lustrous example that is well defined in all areas. As one would expect from the grade, there are a number of small, but individually insignificant abrasions scattered over each side. The MS63 grade level is the stopping point for most collectors. PCGS has only certified 14 pieces finer (8/20). NGC ID# 26AH, PCGS# 8967

---

**1874-CC Liberty Head Twenty, XF40**  
**Glints of Original Luster**

- 3555 1874-CC XF40 PCGS. Variety 5-A.** Strike definition is strong for a moderately circulated Type Two double eagle, with clear star radials and well-defined feathers. Yellow-gold surfaces showcase a hint of reddish color and glints of original luster. A popular Carson City issue with a mintage of 115,085 coins. NGC ID# 26AP, PCGS# 8971

---

**1874-CC Double Eagle, XF40**  
**Attractive and CAC-Approved**

- 3556 1874-CC XF40 PCGS. CAC. Variety 4-A.** Diagnostic markers include a die chip on Liberty's neck and the widely spaced mintmark. This eye-appealing XF40 representative maintains surprisingly vibrant luster around the hidden areas and lovely reddish-gold color overall. Characteristically defined for a Type Two twenty with marked central softness. Few CAC-approved examples at this grade level. NGC ID# 26AP, PCGS# 8971

---

**1874-CC Double Eagle, AU55**  
**Above-Average Preservation**

- 3557 1874-CC AU55 NGC. Variety 1-A.** The die chip on Liberty's jaw and the wide spacing of the CC mintmark are diagnostic. The 1874-CC is actually scarcer in high grades than its substantial mintage of 115,085 suggests. The obverse exhibits a trace of field reflectivity, while the reverse enjoys more of a frosted effect. Typically detailed for a lightly circulated Type Two twenty with scattered marks over each side. Above-average preservation. NGC ID# 26AP, PCGS# 8971

---

**1875-CC Double Eagle, XF45**  
**Minimally Abraded**

- 3558 1875-CC XF45 PCGS. Variety 7-A.** A small die chip occurs on Liberty's neck in line with the L in JBL. This is one of three collectible CC issues from the middle part of the decade. A total of 111,151 coins were struck. Luminous yellow-gold surfaces are well-detailed and minimally abraded. Good eye appeal. NGC ID# 26AT, PCGS# 8974

---

**1875-CC Double Eagle, AU55**  
**Smooth Yellow-Gold Surfaces**

- 3559 1875-CC AU55 NGC. Variety 9-A.** Mint luster is broken in the open fields but remains vibrant around the devices of this Choice AU Carson City double eagle. Smooth yellow-gold surfaces are well-defined for the type with a slender graze between the U in UNITED and the first T in TWENTY and another mark through the top of the right rays. NGC ID# 26AT, PCGS# 8974

**1876-CC Twenty Dollar, XF45  
Red-Gold Color**

- 3560** 1876-CC XF45 NGC. **Variety 3-A.** The 1 is over a dentil, the 7 is over the space between dentils, and a die line appears in the dentils below NT in TWENTY. This is a collectible Type Two twenty dollar gold piece with lovely reddish-gold color and good design detail. From a healthy production of 138,441 coins. NGC ID# 26AW, PCGS# 8977

**1876-CC Twenty Dollar, AU50  
Red-Gold, Partially Lustrous**

- 3561** 1876-CC AU50 NGC. **Variety 7-C.** The die lump in Liberty's hair over the R and the closely spaced mintmark over the right serif of the N in TWENTY confirms the attribution. This final-year Type Two issue is the scarcest double eagle for the year, although it is collectible by Carson City standards. Red-gold, partially lustrous surfaces are well-struck with small abrasions over each side. Pleasing for the grade. NGC ID# 26AW, PCGS# 8977

**1877-CC Double Eagle, XF45  
Inaugural Type Three Issue**

- 3562** 1877-CC XF45 NGC. **Variety 1-A.** After several high-production years, double eagle output at the Carson City Mint fell to 42,565 coins in 1877. This Choice XF twenty is boldly struck with only slight friction over the highest points of the design. Orange and reddish-gold hues dominate, and luster remains within the hidden areas. NGC ID# 26AZ, PCGS# 8983

**1877-CC Twenty Dollar, AU53  
Strong Definition**

- 3563** 1877-CC AU53 NGC. **Variety 2-C.** Yellow-gold surfaces display a hint of field reflectivity, and strike definition is impressively strong despite normal friction. The 1877-CC claims a mintage of 42,565 coins, of which Doug Winter estimates 500-600 examples survive in all grades, including 125-175 pieces in AU. NGC ID# 26AZ, PCGS# 8983

**1877-CC Liberty Double Eagle, AU53  
Problem-Free Collector Coin**

- 3564** 1877-CC AU53 NGC. **Variety 3-A.** The first Carson City issue of the Type Three design, struck to the extent of 42,565 pieces. This attractive About Uncirculated example displays original luster in the protected portions of the fields, with pleasing peach-gold patina overall. The strike is sharp, and only light wear is seen on the devices. NGC ID# 26AZ, PCGS# 8983

**1878 Twenty Dollar, MS61  
Surprisingly Attractive for the Grade**

- 3565** 1878 MS61 NGC. The 1878 Philadelphia double eagle is occasionally available in Mint State, making it popular with type collectors. This MS61 coin is uncommonly appealing for the grade. Sharp design elements and softly frosted orange-gold luster adorn each side, and scattered light abrasions are surprisingly unimpactful. NGC ID# 26B3, PCGS# 8985

---

1879-CC Double Eagle, XF45 Details  
Scarce Nevada Mint Issue

- 3566** 1879-CC — Cleaned — ANACS. XF45 Details. Variety 1-A. This is the second most challenging double eagle issue for the year after the famous 1879-O. It is much more elusive than either the 1879 or 1879-S. Only 10,708 examples were struck and probably no more than 350 or so pieces survive. Hints of luster appear around the stars and legends, while the exposed areas are muted from cleaning. High-end definition for the grade level.

---

1882-CC Double Eagle, AU53  
Partly Lustrous Red-Gold Surfaces

- 3567** 1882-CC AU53 NGC. Variety 1-A. The vertical spike in front of Liberty's eye and the first C in the mintmark positioned higher than the second confirm the die pairing. Luster glows around the stars, legends, and central devices on each side of this reddish-gold AU53 Carson City double eagle. Small abrasions and high-point blurring are expected. NGC ID# 26BF, PCGS# 8997

---

1882-CC Twenty Dollar, AU53  
39,140 Coins Struck

- 3568** 1882-CC AU53 NGC. Variety 1-A. The first C in the mintmark is higher than the second. Red and green-gold colors adorn both sides of this lightly circulated Nevada mint double eagle. A brush of rub occurs on the highest curls and feathers, but the overall strike is bold. From a mintage of 39,140 coins. NGC ID# 26BF, PCGS# 8997

---

1883-CC Double Eagle, XF40  
Ideal Collector Coin

- 3569** 1883-CC XF40 NGC. Variety 2-A. The second C in the mintmark is partially over the D. Naturally appealing red-gold surfaces exhibit moderate blending over the devices, and scattered marks are entirely consistent with the grade. This is an ideal collector coin from the fabled Carson City branch mint. NGC ID# 26BH, PCGS# 8999

---

1883-CC Twenty Dollar, AU53  
Collectible Western Issue

- 3570** 1883-CC AU53 NGC. Variety 2-A. The 1883-CC (59,962 coins) has become more available in recent years, but it remains a sought-after issue in virtually any grade. This is a collectible reddish-gold example with pinpoint strike definition and partial luster remaining. A touch of friction obscures a few of the finer details and small marks are peppered over each side, but they are undistracting. NGC ID# 26BH, PCGS# 8999

---

1884-CC Double Eagle, XF40  
Reddish Accents

- 3571** 1884-CC XF40 NGC. Variety 1-A. This relatively accessible Type Three Carson City double eagle issue would serve as an ideal representative of the fabled Nevada mint. Bright wheat-gold surfaces exhibit distinctive reddish accents. Strongly defined with expected evidence of high-point friction and peppered abrasions. NGC ID# 26BK, PCGS# 9001

---

**1884-CC Twenty Dollar, Choice XF  
Nevada Mint Type Coin**

- 3572 1884-CC XF45 NGC. Variety 1-A.** A single die pair manufactured 81,139 double eagles at the Carson City Mint in 1884. This Choice XF Nevada twenty dollar is partly lustrous and well-detailed for the grade. A few specks of struck-in grease appear before Liberty's nose and eye. Good for type. NGC ID# 26BK, PCGS# 9001

---

**1885-CC Twenty Dollar, VF30  
Popular, Low-Mintage Issue**

- 3573 1885-CC VF30 NGC. Variety 1-A,** the only variety. An important and popular issue in the 1870-1893 Carson City double eagle series, the 1885-CC was produced to the extent of just 9,450 pieces. This mid-grade survivor is fully original with deeply set green-gold coloration. The wear is moderate, yet evenly distributed, and the only singularly mentionable distraction is a graze in the lower-left obverse field. Ex: *Central States Signature* (Heritage, 5/2003), lot 7441. NGC ID# 26BN, PCGS# 9004

---

**1889 Twenty Dollar, MS62+  
Sharply Struck, Low-Mintage Issue**

- 3574 1889 MS62+ PCGS. CAC.** The 1889 double eagle is a product of an era when the Philadelphia Mint sharply reduced its double eagle mintages in hopes of spurring circulation of lower-denomination gold. A meager 44,070 circulation strikes were made, and most found today are basal Mint State at best. The gleaming golden-orange surfaces of this attractive Type Three twenty portend its acquisition by some astute collector. The surfaces are far nicer than usually seen, showing a few minor ticks and scuffs but abundant luster over sharply struck surfaces. Population: 8 in 62+, 34 finer. CAC: 26 in 62, 3 finer (8/20). NGC ID# 2695, PCGS# 9010

---

**1889-CC Double Eagle, AU50  
Popular Date-Mintmark Combination**

- 3575 1889-CC AU50 NGC. Variety 1-A.** This is a popular date-mintmark combination and one of only two Carson City issues for the year along with the famous 1889-CC Morgan dollar. Only 30,945 double eagles were coined. This is a bright AU50 twenty with peach-gold surfaces and glowing luster around the peripheral devices. Myriad abrasions. NGC ID# 26BV, PCGS# 9011

---

**1889-S Double Eagle, MS63  
Ex: Saddle Ridge Hoard**

- 3576 1889-S Saddle Ridge Hoard MS63 PCGS. Ex: Saddle Ridge Hoard.** Many of the high-grade 1889-S double eagles known today came out of the Saddle Ridge Hoard, unearthed on a rural farm in California several years ago. This Select example is bright and yellow-gold, with a radiant cartwheel effect that complements the sharp strike. PCGS# 109012 Base PCGS# 9012

---

**1890-CC Double Eagle, AU53  
Late Die State**

- 3577 1890-CC AU53 NGC. Variety 1-A.** The mintmark is positioned over the space between TWENTY and DOLLARS. Late die state with lapping on the right side of the eagle's tailfeathers. Yellow-gold surfaces showcase partial luster that glows around the devices. Strongly detailed despite a trace of high-point rub. NGC ID# 26BY, PCGS# 9014

**1890-CC Liberty Twenty, AU53  
Late Die State**

- 3578 1890-CC AU53 PCGS. CAC. Variety 1-A.** With a mintage of 91,209 pieces, the 1890-CC Liberty double eagle is a relatively available issue in the context of the series and a popular choice with branch mint type collectors. Struck from a late state of the dies, with some incomplete detail on the eagle's tail, due to lapping, this impressive AU53 example exhibits only light wear on the design elements and the pleasing orange-gold surfaces are lightly abraded. NGC ID# 26BY, PCGS# 9014

**1890-CC Double Eagle, AU58  
Collectible Carson City Issue**

- 3579 1890-CC AU58 NGC. Variety 1-A.** The usual die variety with the typical lapped right tailfeathers. The 1890-CC double eagle is one of the most collectible twenty dollar issues from this popular branch mint. The present AU58 representative enjoys partially frosted green and wheat-gold surfaces. Both sides are well-struck with little more than a brush of high-point rub. NGC ID# 26BY, PCGS# 9014

**1892 Double Eagle, Natural XF45  
Famously Scarce Philadelphia Issue**

- 3580 1892 XF45 NGC.** The 1892 is a famously low-mintage Philadelphia issue with only 4,430 coins struck. This is a naturally appealing red-gold example that survives in eye-appealing Choice XF condition. High-point friction over the curls and feathers is minimal for the grade, and peppered abrasions are undistracting. A lovely example of this challenging issue. NGC ID# 26C5, PCGS# 9019

**1892-CC Twenty Dollar, AU58  
Sharply Struck**

- 3581 1892-CC AU58 NGC. Variety 1-A.** All 27,265 1892-CC double eagles were struck from a single set of dies with a diagonal line from the top of the 2 in the date and a die chip above the I in AMERICA. This is a sharply struck near-Mint survivor with partially frosted orange-gold surfaces. Reddish accents and a dearth of major marks heighten the appeal. NGC ID# 26C6, PCGS# 9020

**1893-CC Twenty Dollar, AU58  
Pinpoint Strike Definition**

- 3582 1893-CC AU58 NGC. Variety 2-A.** A small spike from Liberty's neck and the B in JBL over the right side of the 8 confirm the variety. The 1893-CC is the final Carson City double eagle issue, claiming a mintage of 18,402 coins. This still-lustrous example in near-Mint condition enjoys orange-gold color and pinpoint strike definition. Minimal chatter. NGC ID# 26C9, PCGS# 9023

**1899 Double Eagle, MS65  
Almost Uncollectible Finer**

- 3583 1899 MS65 NGC.** Beautiful satin luster glistens across untouched fields and sharp devices on this Gem 1899 Liberty double eagle. Each side displays rich peach-gold color and delightful eye appeal. The 1899 is scarce in MS65, although examples are seen often enough to make the date popular as a type coin. NGC and PCGS combined have seen only three finer specimens. Census: 127 in 65 (3 in 65+), 2 finer (9/20). NGC ID# 26CM, PCGS# 9035

---

**1901 Liberty Double Eagle, MS65  
Prime Condition Rarity Any Finer**

- 3584 1901 MS65 PCGS. CAC.** Considering its relatively low mintage of 111,430 pieces, the 1901 Liberty double eagle is surprisingly available at the MS65 grade level, but finer coins are virtually unobtainable. This CAC-endorsed Gem exhibits sharply detailed design elements and well-preserved, lustrous surfaces, with outstanding eye appeal. PCGS has graded four numerically finer examples. CAC: 40 in 65, 1 finer (9/20).  
NGC ID# 26CS, PCGS# 9039

---

**1903 Liberty Twenty, MS65  
Ideal for Type Purposes**

- 3585 1903 MS65 NGC. CAC.** The 1903 Liberty double eagle claims a smallish mintage of 287,270 pieces, but the discovery of some hoards in recent times makes the issue more available than the modest production total suggests. This CAC-endorsed Gem displays well-preserved lustrous surfaces and sharply detailed design elements throughout. While the 1903 is readily available in MS65 condition, PCGS has graded only eight numerically finer examples (9/20).  
NGC ID# 26CW, PCGS# 9043

---

**1904 Coronet Twenty Dollar, MS65  
Old Green Holder**

- 3586 1904 MS65 PCGS.** This collectible Coronet double eagle type coin enjoys deep orange-gold color and strongly struck devices. Glowing mint frost swirls over each side, enhancing the captivating aesthetic appeal of this 20th century Gem. Encapsulated in an old green label holder.  
NGC ID# 26CY, PCGS# 9045

---

**1904 Liberty Double Eagle, MS65  
Outstanding Type Three Example**

- 3587 1904 MS65 NGC.** For type collectors seeking a high-quality example of the Type Three design, the 1904 Liberty double eagle is an outstanding choice. The issue was well-produced and the large mintage of more than 6.2 million pieces makes Gem examples readily available today. This delightful Gem is sharply detailed throughout, with well-preserved peach gold surfaces that radiate vibrant mint luster.  
NGC ID# 26CY, PCGS# 9045

- 3588 1904 MS65 NGC. CAC.** The 1904 is the go-to date for a Type Three double eagle. It's easy to see why with a mintage of 6.2 million pieces. This is a thickly frosted example with no abrasions of consequence and rich orange-gold color. Fully struck.  
NGC ID# 26CY, PCGS# 9045

- 3589 1904 MS65 PCGS. CAC.** Vibrant mint luster is the calling card of this upper-end Gem 1904 twenty dollar Liberty. The strike is complete in all areas, including the star centers and Liberty's hair curls. The yellow-gold surfaces show just the slightest overlay of reddish patina. Perfect for type purposes.  
NGC ID# 26CY, PCGS# 9045

---

**1904 Liberty Double Eagle, MS65  
Quintessential Liberty Type Coin**

- 3590 1904 MS65 PCGS. CAC.** The 1904 Liberty double eagle is a perennial favorite with type collectors, thanks to its large mintage of 6.2 million pieces and easy availability in high grade. This sharply detailed Gem displays vivid orange-gold surfaces that radiate vibrant mint luster and show no mentionable distractions. The terrific eye appeal is attested by the CAC sticker.  
NGC ID# 26CY, PCGS# 9045

## HIGH RELIEF DOUBLE EAGLE

### 1907 High Relief Twenty, XF Details Still-Evident Wire Rim

- 3591 1907 High Relief, Wire Rim — Cleaned — NGC Details. XF.** It is a fair question to ask: How can an XF Details coin can still show the wire rim? The best answer we have is the rim was not as strongly defined in the die as, say, a Barber half was. The rim and how high it is raised above the devices determines how well it can protect the inner devices from abrasions and wear. The extruded metal from the wire rim is fully evident on this piece even though it has endured 20 points of wear. The inner devices show even smoothing from friction, and unfortunately the surfaces were “improved” by cleaning by some misguided collector in the past. Still, an affordable example of this always popular one-year type coin.  
*From The Princess Collection.*

## SAINT-GAUDENS DOUBLE EAGLES

### 1908 No Motto Twenty, MS66 Two-Year Type

- 3592 1908 No Motto MS66 NGC.** Short Rays Obverse. The 1908 No Motto double eagle is a plentiful type coin and one of only two Philadelphia issues without IN GOD WE TRUST at the lower reverse. Glowing sun-gold surfaces display shimmering frost and smooth, unabraded fields. The columns on the Capitol dome are complete. NGC ID# 26F6, PCGS# 9142

### 1908 No Motto Double Eagle, MS66 Short-Lived Design

- 3593 1908 No Motto MS66 NGC.** Short Rays Obverse. This sharply struck Premium Gem boasts rose accents over shimmering peach-gold surfaces. Finely textured fields display nothing more than a few minute grazes, and ticks are scant within the elements of the design. An ideal candidate to represent the short-lived No Motto type. NGC ID# 26F6, PCGS# 9142

### 1908 Double Eagle, MS66 Glistening No Motto Representative

- 3594 1908 No Motto MS66 NGC.** Short Rays Obverse. A touch of softness across Liberty's face and chest is characteristic of the 1908 Short Rays, No Motto dies rather than the strike. The Capitol columns are strong, as are the eagle's talons. Rich orange-gold surfaces glisten with lighter rose accents and thick, frosty mint luster. NGC ID# 26F6, PCGS# 9142

### 1908 No Motto Double Eagle, MS66 Attractive Type Coin

- 3595 1908 No Motto MS66 PCGS.** Long Rays Obverse. Satiny wheat-gold luster complements the well-preserved surfaces and bold devices of this Premium Gem No Motto 1908 double eagle. A few minor abrasions are noted below Liberty's right (facing) arm but they are hardly detracting. The 1908 No Motto is a popular type coin due to the availability of the date following the discovery of the Wells Fargo Hoard. NGC ID# 26F6, PCGS# 9142

### 1908 No Motto Double Eagle, MS66 Lustrous and Well Preserved

- 3596 1908 No Motto MS66 PCGS.** Short Rays Obverse. Honey-gold hues and satiny luster adorn each side of this Premium Gem No Motto type coin. Sharp detail characterizes the devices, and the eye appeal is outstanding. Many MS66 No Motto coins have a number of minor abrasions, but this piece is better preserved than most we have seen. NGC ID# 26F6, PCGS# 9142

---

**1908 No Motto Twenty, MS66  
Gleaming Mint Luster**

- 3597 1908 No Motto MS66 NGC.** Short Rays Obverse. An exceptionally well-preserved Premium Gem example of the No Motto Saint-Gaudens type, showing radiant yellow-gold luster and clean fields. The design elements are mainly well struck. In this grade, the 1908 No Motto is available and popular as a type coin since the discovery of the Wells Fargo Hoard. NGC ID# 26F6, PCGS# 9142

---

**1908 No Motto Twenty Dollar, MS66  
Short Rays Subtype**

- 3598 1908 No Motto MS66 NGC.** Short Rays Obverse. The Short Rays obverse was only used until April 8, and as such it makes an interesting sub-type within the No Motto design type. This is a vibrantly lustrous example that displays a relatively strong strike. The surfaces are variegated yellow-gold and orange-gold and show no distracting abrasions. NGC ID# 26F6, PCGS# 9142

---

**1908 No Motto Twenty, MS66  
Short Rays Variant, CAC Endorsed**

- 3599 1908 No Motto MS66 NGC.** CAC. Short Rays Obverse. The highly collectible 1908 No Motto twenties are divided into two subtypes, Short Rays and Long Rays variants. Both are attainable for collectors. This example displays the usually seen dynamic mint luster and a slight tint of reddish patina. Better struck than most 1908 No Motto twenties; in fact, there are no mentionable areas of weakness on either side. NGC ID# 26F6, PCGS# 9142

---

**1908 Saint-Gaudens Twenty, MS66  
CAC-Endorsed No Motto Example**

- 3600 1908 No Motto MS66 PCGS.** CAC. Short Rays Obverse. The design of the double eagle was modified to include the motto IN GOD WE TRUST part way through the year in 1908, after a mintage of 4.2 million examples of the old design was accomplished at the Philadelphia Mint. The No Motto coins are readily available in high grade today and are a favorite choice of type collectors. This spectacular Premium Gem is well-preserved and lustrous, with outstanding quality and eye appeal, as attested by the CAC sticker. NGC ID# 26F6, PCGS# 9142

---

**1908 No Motto Saint-Gaudens Twenty  
Wells Fargo Hoard, MS67**

- 3601 1908 No Motto, Wells Fargo Nevada, MS67 PCGS.** Short Rays Obverse. This impressive Superb Gem was struck early in the year, before the design was changed to include the motto IN GOD WE TRUST. It was later discovered in the fabulous Wells Fargo Hoard. The well-preserved orange-gold surfaces are brightly lustrous and show a few highlights of rose. The design elements are sharply detailed and eye appeal is terrific. NGC ID# 26F6, PCGS# 99142 Base PCGS# 9142

---

**1908 With Motto Twenty, MS64  
Popular First-Year Type**

- 3602 1908 Motto MS64 PCGS.** Appealing antique-gold surfaces offer abundant eye appeal on this sharply struck With Motto Saint-Gaudens twenty. A Gem grade is precluded by trivial ticks mostly limited to Liberty's lower half and a couple nestled away in the eagle's feathers. Examples of the 1908 With Motto type are always in demand as a first year of type, and the issue fortunately has a plentiful survival. NGC ID# 26F8, PCGS# 9147

---

**1909-S Twenty Dollar, MS65+  
Bright Mint Luster**

- 3603 1909-S MS65+ PCGS.** It is estimated that 1.8 million pieces out of the total mintage of 2.7 million 1909-S twenties struck were used in export transactions. About 30 years ago, a sizeable hoard of this issue was located in El Salvador and we offered many of the higher grade examples in one of our auctions. This upper-end Gem has the typical appearance of pieces from that hoard, although it is higher graded than most. The surfaces exhibit bright mint frost and a strong strike throughout with minimal abrasions.  
NGC ID# 26FE, PCGS# 9153

- 3604 1911-D MS65 PCGS. CAC.** The 1911-D is one of the more available issues from this decade with an estimated 25,000 survivors. Most are not Gems, however, like this piece. Typical for the issue, the surfaces display satiny mint luster over finely textured matte-like surfaces. The strike details are complete throughout. Bright yellow-gold color.  
NGC ID# 26FK, PCGS# 9158

---

**1911-S Double Eagle, MS65  
Clean, Frosted Surfaces**

- 3605 1911-S MS65 NGC.** The 1911-S is an overlooked issue in the Saint-Gaudens series. It has approximately 60% of the number of survivors compared to the 1911-D, a much better-known issue. Like the 1911-D, it presents the typical bell curve of availability, but with only a fraction of the pieces available in each grade. Thousands of 1911-S twenties were shipped overseas, many ending up in El Salvador. The mint luster on this piece is fully frosted and there are no abrasions worthy of mention. Fully struck throughout.  
NGC ID# 26FL, PCGS# 9159

---

**1911-S Twenty Dollar, MS65  
Smooth, Lustrous Surfaces**

- 3606 1911-S MS65 NGC.** The 1911-S twenty dollar was a well-produced issue. There were 31 deliveries throughout the year with the number of coins per delivery ranging from 13,000 to 37,000 pieces. This is a bright, lustrous example that is strongly struck in all areas. Just the slightest hint of reddish patina can be seen over the otherwise yellow-gold surfaces.  
NGC ID# 26FL, PCGS# 9159

---

**1911-S Double Eagle, MS65  
Scintillating Apricot-Gold Surfaces**

- 3607 1911-S MS65 PCGS. CAC.** Gem condition is the highest readily collectible grade level for the 1911-S Saint. Finer coins are scarce. This MS65 representative with CAC approval features scintillating apricot-gold surfaces and rich mint frost. Liberty's face and torch hand are needle-sharp. CAC: 51 in 65, 7 finer (9/20).  
NGC ID# 26FL, PCGS# 9159

---

**1911-S Twenty Dollar, MS65  
Scarce Any Finer**

- 3608 1911-S MS65 PCGS. CAC.** This San Francisco issue is widely available through MS64. CAC-approved Gems are much more challenging, and anything numerically finer is conditionally scarce. Lilac accents complement this razor-sharp honey-gold double eagle. Beautifully preserved with nothing more than a few tiny ticks.  
NGC ID# 26FL, PCGS# 9159

**1913-D Twenty Dollar, MS65  
Satin Surfaces**

- 3609 1913-D MS65 PCGS.** All three 1913 issues have a cachet of rarity, but only one has a memorably low mintage, 1913-S. The Denver Mint twenty has a mintage more than ten times higher; yet, it is perceived as scarcer than other D-mint twenties from the 1910 through 1915 era. While relatively easy to locate in lower grades, Gems can be a challenge. This is a satin-surfaced example with minimal abrasions and a strong strike throughout. NGC ID# 26FP, PCGS# 9162

**1914 Double Eagle, MS64  
Lovely Color, Clean Fields**

- 3610 1914 MS64 PCGS.** Examples of this Philadelphia issue are collectible in MS64 but they become conditionally scarce in Gem condition. The present piece features sun-gold color around slightly lighter rose centers. Beautifully preserved and well-struck with a single black spot right of Liberty's right (facing) knee. An identifying ticks occurs on the sun. PCGS lists 47 numerically finer submissions (9/20). NGC ID# 26FS, PCGS# 9164

**1914 Double Eagle, MS64  
Green Holder and CAC Sticker**

- 3611 1914 MS64 PCGS.** CAC. Honey-gold color and soft mint frost blend throughout this near-Gem Saint-Gaudens twenty dollar. The Capitol dome and Liberty's torch hand are well-defined. Housed in a green label holder with matching CAC approval sticker. PCGS reports 47 numerically finer submissions. CAC: 53 in 64, 9 finer (9/20). NGC ID# 26FS, PCGS# 9164

**1914 Double Eagle, MS64  
Scarcest Issue for the Year**

- 3612 1914 MS64 NGC.** CAC. The 1914 is, by far, the scarcest double eagle issue for the year, particularly in high grades. Only 38 submissions are graded numerically finer than this near-Gem at NGC. Both sides are brightly frosted with luminous, medium yellow-gold color. Sharply struck and clean for the grade, especially the reverse. CAC: 53 in 64, 9 finer (9/20). NGC ID# 26FS, PCGS# 9164

**1920 Saint-Gaudens Twenty, MS64  
Scarcer P-Mint Date**

- 3613 1920 MS64 PCGS.** CAC. Ex: Kutasi. This peach-gold near-Gem is well struck aside from the panes of the Capitol building. Generally well preserved, we note only moderate contact near Liberty's extended arm. Between 2004 and 2006, John Kutasi owned the #1 PCGS Registry Set of Indian Eagles. His collection was the highlight of our 2007 Orlando FUN Signature auction. The 1920 twenty dollar is a better date in the P-mint series from the 1920s. Ex: Long Beach Signature (Heritage, 9/2010), lot 5769. NGC ID# 26FY, PCGS# 9170

**1923-D Twenty, MS65  
Exceptionally Attractive Surfaces**

- 3614 1923-D MS65 PCGS.** CAC. The 1923-D has the distinction of being widely regarded as having the highest percentage of attractive survivors, especially so in high grades. The mint luster is atypical for this Denver mint issue, frosted rather than satiny. This is an especially noteworthy example that displays thick mint frost and variegated color. The strike is strong throughout and there are no obvious or distracting abrasions. NGC ID# 26G6, PCGS# 9176

**1923-D Double Eagle, MS66  
CAC Approved**

- 3615 1923-D MS66 PCGS. CAC.** This coin shows why some collectors will go out of their way to obtain a 1923-D if only one coin is needed for type purposes of the Saint-Gaudens twenty. The mint luster on this piece is thick and frosted, but even more important (and a clear nod to originality) are the pinkish centers that are surrounded by deeper rose-tinted margins. Exceptional surfaces. NGC ID# 26G6, PCGS# 9176

**1924 Double Eagle, MS66  
Lustrous and Strongly Struck**

- 3616 1924 MS66 NGC.** The 1924 is unavoidable as a Saint-Gaudens type coin with an estimated 1.2 million pieces believed extant in all grades. This Premium Gem displays smooth, minimally marked surfaces that combine with bright, frosted mint luster, light reddish-tinted color, and a strong strike to deliver an upper-grade type coin.

NGC ID# 26G7, PCGS# 9177

**1924 Double Eagle, MS66  
Splendid CAC-Endorsed, High-End Coin**

- 3617 1924 MS66 NGC. CAC.** Approximately a quarter of the original mintage of 1924 twenties still exist today. Gems are not especially difficult, and even coins in MS66 can be located with some searching. However, examples in higher grades are generally not available, making this CAC-endorsed Premium Gem the perfect type coin for most collectors. The mint luster is especially pronounced over the light, reddish-gold surfaces. There are no abrasions worthy of comment. NGC ID# 26G7, PCGS# 9177

**1924 Saint-Gaudens Twenty, MS66  
Perfect for Type Purposes, CAC Endorsed**

- 3618 1924 MS66 PCGS. CAC.** The mint luster on this piece displays silky textured mint frost. One bagmark is noted on the obverse, none are worthy of mention on the reverse. The strike details are fully brought up in all areas of this Premium Gem. Collectors who only need one example of a With Motto Saint-Gaudens twenty often choose a 1924, and this piece demonstrates why. NGC ID# 26G7, PCGS# 9177

**1924 Saint-Gaudens Twenty, MS66  
Extremely Popular Type Coin**

- 3619 1924 MS66 PCGS. CAC.** From a large mintage of more than 4.3 million pieces, the 1924 Saint-Gaudens double eagle is probably the most popular type coin of the series. Even at the MS66 grade level, the issue is readily available, though it does become somewhat scarce in finer grades. This sharply detailed Premium Gem offers well-preserved orange-gold surfaces, with vibrant mint luster and a couple of microscopic amber alloy spots on the reverse. NGC ID# 26G7, PCGS# 9177

**1924 Saint-Gaudens Double Eagle, MS66  
Lovely Type Representative**

- 3620 1924 MS66 NGC. CAC.** The 1924 Saint-Gaudens double eagle is the quintessential type coin, from a mintage of 4.3 million pieces that somehow escaped the holocaust that engulfed most gold coin issues of this time period when the Gold Recall of 1933 took effect. This spectacular Premium Gem is sharply detailed and impeccably preserved, with vibrant mint luster throughout. NGC ID# 26G7, PCGS# 9177

**1925 Twenty Dollar, MS67  
Doubled Die Reverse, FS-801**

- 3621 1925 Doubled Die Reverse, FS-801, MS67 NGC.** Doubling is easiest seen on the eagle's feathers on this well-known die doubled twenty. The 1925 is available by the tens of thousands through MS64 condition, and by the thousands in MS65. The certified population begins to taper off noticeably in MS66, although examples can still be had at that level without much patience required. The same cannot be said for coins in MS67, which are conditionally scarce, bordering on rare, and impossible to upgrade. Marvelous orange-gold surfaces showcase scintillating mint frost over strongly detailed motifs and clean fields. One reeding mark left of the torch end is essentially the only apparent point of contact. Census: 3 in 67, 0 finer (8/20).

*From The Collection of a Distinguished WW2 Veteran.*  
NGC ID# 26GA, PCGS# 145743 Base PCGS# 9180

**1925-S Double Eagle, AU Details  
Challenging San Francisco Issue**

- 3622 1925-S — Cleaned — PCGS Genuine. AU Details.** The 1925-S is a better date, elusive in all Mint State grades. Although more than 3.7 million pieces were struck, many were melted in the 1930s. This AU-level coin is more accessible for collectors than its Mint State counterparts. Well-detailed design elements show minimal wear, and the surfaces have pleasing orange-gold patina. Scattered marks and hairlines reveal a light cleaning.

**1926-S Twenty Dollar, MS64  
Seldom Found Finer**

- 3623 1926-S MS64 PCGS.** While the 1926-S is not the great rarity it was once thought to be, it is still a scarce date in the Saint-Gaudens series. Only 2,000 pieces are estimated to have survived out of the 2 million coins produced. This is an attractive near-Gem that displays rich reddish-tinted patina with minimal abrasions. The strike details are complete throughout.  
NGC ID# 26GF, PCGS# 9185

**1927 Twenty Dollar, MS66  
CAC Endorsed**

- 3624 1927 MS66 NGC. CAC.** The massively minted 1927 double eagle did not suffer the near-devastating meltings of other twenties from this decade. There are an 550,000 pieces that are estimated to have survived, making it one of the most available and popular coins for type purposes. The strike details are strong throughout with the usual bright, softly frosted mint luster. Strong eye appeal, as one would expect from the grade and the CAC endorsement.  
NGC ID# 26GG, PCGS# 9186

**1927 Double Eagle, MS66  
Radiant Surfaces, CAC Endorsed**

- 3625 1927 MS66 PCGS. CAC.** As one of the most available dates in the Saint-Gaudens series, much is expected of the 1927. And with this coin much is delivered. The surfaces glow with radiant mint luster and each side is virtually unabraded. The strike is strong throughout, and each side displays bright, frosted yellow-gold color with just a hint of reddish patina.  
NGC ID# 26GG, PCGS# 9186

**1927 Saint-Gaudens Double Eagle, MS66  
Sharply Detailed, Lustrous Example**

- 3626 1927 MS66 PCGS. CAC.** From a mintage of more than 2.9 million pieces, the 1927 Saint-Gaudens double eagle largely escaped the catastrophic melting of most gold issues that followed the Gold Recall of 1933. The issue is readily available in grades up to the MS66 level, but finer coins are elusive. This spectacular Premium Gem is sharply detailed throughout, with lustrous, virtually pristine orange-gold surfaces. PCGS has graded 29 numerically finer examples. CAC: has seen 3 finer (9/20).  
NGC ID# 26GG, PCGS# 9186

**1927 Saint-Gaudens Double Eagle, MS66  
Well-Preserved and CAC Approved**

- 3627 1927 MS66 NGC. CAC.** Although the 1927 Saint-Gaudens double eagle is readily available in grades up to the MS66 level, finer coins are elusive. This delightful Premium Gem exhibits sharply detailed design elements throughout. The impeccably preserved orange-gold surfaces radiate vibrant mint luster from both sides. Overall visual appeal is outstanding. NGC has certified 61 numerically finer examples (9/20).  
NGC ID# 26GG, PCGS# 9186

**1928 Saint-Gaudens Twenty, MS66  
CAC-Endorsed Type Coin**

- 3630 1928 MS66 NGC. CAC.** The 1928 was spared the wholesale destruction that engulfed many Saint-Gaudens double eagle issues after the Gold Recall of 1933 took effect. The issue is readily available in grades up to the MS66 level today, though it does become scarce in finer grades. This sharply detailed Premium Gem displays well-preserved orange-gold surfaces, with vibrant mint luster and exceptional eye appeal.  
NGC ID# 26GK, PCGS# 9189

**1928 Double Eagle, MS66  
Lustrous, CAC Sticker**

- 3628 1928 MS66 PCGS. CAC.** Few issues in the Saint-Gaudens series of double eagles can compare with the mint luster typically exhibited by the 1928, and that is the case with this Premium Gem. The surfaces are bright and heavily frosted with rich yellow-gold color and there are no mentionable abrasions.  
NGC ID# 26GK, PCGS# 9189

**1928 Twenty Dollar, MS66  
Luminous CAC-Approved Surfaces**

- 3631 1928 MS66 NGC. CAC.** More than 8.8 million double eagles were struck in Philadelphia in 1928. It is estimated that 155,000 pieces survive, making this date one of the most available in the entire 54-issue series. This is a magnificent, bright yellow-gold example with the usually found vibrant mint luster. Exceptional quality for a Saint-Gaudens type coin.  
NGC ID# 26GK, PCGS# 9189

**1928 Saint-Gaudens Double Eagle, MS66  
Exceptional Type Coin**

- 3629 1928 MS66 PCGS. CAC.** From a series-high mintage of more than 8.8 million pieces, the 1928 Saint-Gaudens double eagle is an available issue at the MS66 grade level, but finer coins are scarce. This delightful Premium Gem exhibits sharply detailed design elements and lustrous, virtually flawless orange-gold surfaces. Eye appeal is terrific. This coin will be a welcome addition to a fine collection or type set.  
NGC ID# 26GK, PCGS# 9189

**COMMEMORATIVE SILVER**

**1900 Lafayette Dollar, MS65  
Singular Classic Commemorative Type**

- 3632 1900 Lafayette Dollar MS65 PCGS. DuVall 1-B.** A fairly plentiful variety, ideal for type collectors. This Gem Lafayette silver dollar displays brilliant cartwheel luster with delicate golden color around the outer peripheries. The strike is sharp, and neither side exhibits bothersome abrasions. Eye appeal is outstanding. The Lafayette dollar is the only silver dollar in the classic commemorative series.  
NGC ID# BYKW, PCGS# 9222

**1936 Albany Half Dollar, MS68  
Colorful, Lustrous Example**

- 3633 1936 Albany MS68 NGC.** A magnificent MS68 specimen of this popular silver commemorative, from a distribution of 17,671 pieces. This coin exhibits well-detailed design elements and virtually pristine surfaces, under attractive shades of lavender-gray and sea-green toning, with a few darker highlights of magenta and amber. Census: 12 in 68 (2 in 68★, 1 in 68+★), 0 finer (9/20). NGC ID# BYF3, PCGS# 9227

**1925-S California Diamond Jubilee Half  
Vividly Toned Rainbow MS68  
Among the Finest Pieces Certified**

- 3634 1925-S California MS68 NGC.** Beautifully toned in concentric rainbow hues, this high-end Superb Gem California half dollar boasts not only exceptional preservation but also unsurpassed eye appeal. The strike is sharp, and the vibrant luster illuminates the patina on both sides. Examples in MS68 are rare, and none are certified finer at either service. Census: 18 in 68 (6 in 68★, 2 in 68+★), 0 finer (9/20). NGC ID# BYGA, PCGS# 9281

**1922 Grant Half Dollar, MS66  
Elusive With Star Variant**

- 3635 1922 Grant With Star MS66 NGC.** The With Star Grant Memorial half dollar is significantly scarcer than its No Star counterpart, and in MS66 this issue is legitimately scarce. Only a handful of finer pieces are known. This example displays rich satin luster with delicate russet-gold toning. The preservation is exceptional. Slight strike softness is noted on Grant's hair as usual. Census: 57 in 66 (3 in 66+, 2 in 66★), 14 finer (9/20). NGC ID# BYPP, PCGS# 9307

**1928 Hawaiian Half Dollar, MS66  
Attractively Toned, Satiny Surfaces**

- 3636 1928 Hawaiian MS66 PCGS.** This high-end Hawaiian half dollar has a different look than most examples of the issue that we have seen. While the typical coin often has light golden or green-tinted patina, this piece is pearl-white throughout the centers with elements of iridescence. Moreover, the obverse border yields russet, amber, and crimson colors that frame Captain Cook's bust. The satiny luster is largely pristine, complementing the already magnificent visual appeal. PCGS lists only four higher-grade examples (9/20). NGC ID# BYGR, PCGS# 9309

**1935 Texas Half Dollar, Pristine MS68**

- 3637 1935 Texas MS68 NGC.** This is a pristine, essentially immaculate Registry coin. Both sides exhibit frosty, unmarked fields with an overlay of undisturbed mint luster. Coppini's lauded design shows full definition. The second-year 1935 Texas Independence half dollar struck at the Philadelphia Mint was distributed to the extent of 9,996 coins, and only one piece has been graded finer than this piece. NGC ID# BYJA, PCGS# 9382

**1935-D Texas Half Dollar, MS68  
Lovely Eye Appeal, Exceptional Preservation**

- 3638 1935-D Texas MS68 NGC.** The design for the Texas Centennial half dollar by Pompeo Coppini is one of the more elaborate ones in the classic commemorative series. Dusky violet and golden patina drapes the obverse of this Superb Gem, with elements of powder-blue interspersed. The reverse is brighter with more pronounced tones around the borders. Census: 18 in 68 (3 in 68★), 0 finer (8/20)

**1946-S Booker T. Washington Half  
CAC-Endorsed MS68  
Among the Finest Known**

- 3639 1946-S Booker T. Washington MS68 NGC. CAC.** Plentiful in lower grades, the 1946-S Booker T. Washington half dollar is a great rarity in MS68, the finest numeric grade achieved at either leading service. This example is one of just 10 pieces in this condition endorsed by CAC, displaying original olive-gold and amber toning across the obverse while the reverse remains brilliant. The strike is bold, and eye appeal is outstanding. Census: 16 in 68 (1 in 68+, 8 in 68★, 2 in 68+★), 0 finer. CAC: 10 in 68, 0 finer (9/20). NGC ID# BYJU, PCGS# 9406

**COMMEMORATIVE GOLD**

**1915-S Panama-Pacific Gold Dollar  
Appealing Superb Gem**

- 3640 1915-S Panama-Pacific Gold Dollar MS67 NGC.** Some sandy-gold areas on the central fields and devices melds into deep orange-gold nearer the rims on this appealing Superb Gem commemorative gold dollar. A couple of tiny ticks are visible with magnification only on the worker's cheek but are scarcely worth mentioning. This piece is a great example of the enormous yearlong observation of the Panama Canal's completion. Census: 69 in 67 (3 in 67+, 1 in 67★), 0 finer (9/20). NGC ID# BYLH, PCGS# 7449

**1926 Sesquicentennial Quarter Eagle, MS66  
Beautiful Coloration, Few Known Finer**

- 3641 1926 Sesquicentennial Quarter Eagle MS66 NGC.** This is a gorgeous Sesquicentennial quarter eagle. Not only are the surfaces devoid of all but the most insignificant abrasions, the coloration is captivating. Frosty mint luster illuminates vivid orange-gold centers, which are framed by vibrant yellow-gold borders. The strike is sharp, and eye appeal is simply outstanding. NGC has seen only four finer submissions, PCGS just one (9/20). NGC ID# BYLT, PCGS# 7466

**MODERN BULLION COINS**

**1999 Silver Eagle, MS70  
Flawless Registry Coin**

- 3642 1999 Silver Eagle MS70 NGC.** Although NGC lists a number of 1999 Silver Eagles in flawless MS70 condition, these rarely appear at auction. Our Permanent Auction Archives list fewer than three dozen appearances of a 1999 in MS70, NGC and PCGS coins combined. This piece is an essential coin for the Registry Set collector. The satiny silver surfaces are pristine, and the design elements yield full definition throughout. NGC ID# 26JX, PCGS# 9947

1999 Silver Eagle, MS70  
Pristine and Satiny

- 3643** 1999 Silver Eagle MS70 NGC. Seldom do we see a 1999 Silver Eagle in certified MS70 appear at auction, suggesting most of the coins known are tightly held off the market. This piece is brilliant, and the original satin surfaces yield radiant luster. The design elements are sharp, and the preservation is without fault in this topmost grade.  
NGC ID# 26JX, PCGS# 9947

1849 Norris, Gregg, & Norris Five Dollar  
K-3, AU Details

- 3645** 1849 Norris, Gregg, & Norris Five Dollar, Reeded Edge — Repaired, Cleaned — NGC Details. AU. K-3, R.6. No period after ALLOY. A splendidly detailed but bright example of this early and rare territorial gold maker. The high points of the eagle show only a hint of wear. NGC notes minor repair work in the fields, which is not bothersome to the unaided eye, and light cleaning overall. Listed on page 400 of the 2021 *Guide Book*.

TERRITORIAL GOLD

C. Bechtler Gold Dollar, 30G., K-1  
Appealing XF40 Example

- 3644** (1831-34) C. Bechtler Dollar, 30 G., XF40 PCGS. CAC. K-1, R.4. Reeded edge, as defined on the K-1; a plain edge example that traded three years ago, K-1a, is ranked R.8. The 30 G C. Bechtler gold dollars were the first issues of the denomination, struck prior to the 1834 Federal revaluation of gold. This piece is struck a bit off-center towards 1:30 with respect to the weight side, so that no denticulation shows from 12 to 3, and it is heaviest opposite at 7:30. The G in the weight is weakly struck. The NORTH CAROLINA GOLD side is bold throughout. This is an extremely appealing piece for the grade, showing only trivial ticks and scrapes. Listed on page 398 of the 2021 *Guide Book*. Population: 9 in 40, 68 finer. CAC: 2 in 40, 15 finer (9/20).  
NGC ID# 2B94, PCGS# 10064

PATTERNS

1856 Half Cent, PR64  
Copper-Nickel Alloy, Judd-177

- 3646** 1856 Half Cent, Judd-177, Pollock-205, R.5 PR64 PCGS. CAC. Struck from regular 1856 half cent dies with a plain edge, but in copper-nickel alloy instead of copper. Given that the famous 1856 Flying Eagle cents were struck the same year, Judd-177 may have been coined to test the alloy before small cent dies were available. The dentils are lightly impressed throughout, an early indication that the alloy would prove more difficult to coin than its copper predecessor. This is an orange-red near-Gem with exemplary preservation. One mint-made lint mark east of star 3.  
**From The Maltese Collection.**  
NGC ID# 29AV, PCGS# 11777

---

1859 Indian Cent in Copper-Nickel  
Judd-228, MS65

- 3647** 1859 Indian Cent, Judd-228, Pollock-272, R.1, MS65 PCGS. Eagle Eye Photo Seal. A popular transitional pattern with the Indian head obverse of 1859 and the shield reverse of 1860. Struck in copper-nickel with a plain edge. This is one of the few patterns that can be collected in both business strike and proof format. This light honey-gold example is well struck and shows minimal evidence of spotting.  
NGC ID# 29C8, PCGS# 11932

---

1859 Transitional Indian Cent  
Judd-228, MS65

- 3648** 1859 Indian Cent, Judd-228, Pollock-272, Snow-PT4, R.1, MS65 NGC. While the Indian Head cent design was adopted in 1859 based on pattern issues of 1858, new designs and modifications continued to be made during the introductory year, the most famous of which is Judd-228. The obverse is struck from the regular die and the reverse displays a new oak wreath and a narrow shield at the top. Struck in copper-nickel with a plain edge. Approximately 1,000 pieces were produced, possibly intended for circulation. This coin features faint pumpkin-orange coloration over minimally marked and well-struck surfaces.  
Ex: ANA Signature (Heritage, 8/2014), lot 3687.  
PCGS# 10362

---

1870 William Barber Half in Silver  
Judd-933, PR66 Cameo

- 3649** 1870 Half Dollar, Judd-933, Pollock-1039, Low R.7, PR66 Cameo NGC. William Barber's Seated Liberty design, interesting for its placement of the shield behind her legs which is supported with her right hand. She holds an olive branch in her left. A liberty pole is behind the shield and a scroll crosses the shield and is inscribed LIBERTY in incused letters. The reverse is the type used for regular issue Seated halves. Struck in silver with a reeded edge. Each side is brilliant, except for a faint suggestion of color on the lower obverse.  
NGC ID# 29Y5, PCGS# 61179

---

1882 Liberty Nickel, Struck in Nickel  
Judd-1690, PR66 Ultra Cameo

- 3650** 1882 Liberty Head Five Cents, Judd-1690, Pollock-1892, R.5, PR66 Ultra Cameo NGC. A popular precursor to the Liberty nickel. Dated 1882 instead of 1883, and the stars are arranged differently relative to the portrait, particularly star 10. The reverse is identical to the issued 1883 No Cents nickel. Struck in nickel with a plain edge. The fields are deeply reflective with strongly contrasting mint frost over the devices.  
PCGS# 826016 Base PCGS# 62095

## GSA DOLLARS

### 1879-CC GSA Dollar, MS62 Frosty and Brilliant

- 3651** 1879-CC GSA MS62 NGC. Ex: GSA Hoard. Only the 1889-CC stands above this second-year Morgan dollar issue among Nevada mint coins in this series. The present GSA representative maintains total brilliance and frosty luster. Both sides are strongly struck at the centers. Lightly bagmarked, as usual.  
NGC ID# 253T, PCGS# 518848 Base PCGS# 7086

### 1890-CC Dollar, Bright MS61 Ex: GSA Hoard

- 3652** 1890-CC GSA MS61 NGC. Ex: GSA Hoard. Only 3,610 Uncirculated 1890-CC Morgan dollars were released as part of the 1970s GSA hoard. This MS61 representative showcases bright mint frost over totally brilliant surfaces. Peppered bagmarks limit the technical grade. Eye-appealing nonetheless.  
NGC ID# 255D, PCGS# 518878 Base PCGS# 7198

## REDFIELD DOLLAR

### 1895-S Silver Dollar, MS65 Housed in a Red Paramount Holder Redfield Collection

- 3653** 1895-S Morgan Dollar, Paramount MS65 (MS63 NGC). Ex: Redfield Collection. Red holder. A much better date within the vast Redfield holdings. This lustrous example is predominantly white but displays freckles of golden-brown and steel-blue toning. The centers show minor blending of impression.  
PCGS# 43799 Base PCGS# 7238

## SO-CALLED DOLLAR

- 3654** 1826 Erie Canal Completion, White Metal, HK-1, R.6, Uncertified. The first variety in the standard Hibler-Kappen so-called dollar reference. In an era preceding railroads, the completion of the Erie Canal was a significant event in New York. The present example is Mint State and exhibits the gray oxidation typical for its white metal alloy. It is accompanied by its original round wooden box, which retains the inner paper labels that state the box was made from wood delivered by *The Seneca Chief*, the first boat to bridge the canal.  
NGC ID# 2DU3, PCGS# 642001

## AWARD MEDAL

### National Institute of Social Sciences Award Gold, Awarded to Helen Hartley Jenkins

- 3655** (1916) National Institute of Social Sciences Gold Award MS64 NGC. 98.38 grams. The Baxter-unlisted medal was designed and sculpted by Laura Gardin (Fraser). Awarded in 1916 to Helen Hartley Jenkins. Jenkins (1860-1934) was a New York philanthropist who donated much of her fortune to hospitals, universities, and housing for the poor. This is a well-preserved apricot-gold example that displays a sharp strike and excellent eye appeal. Incorrectly dated 1964 by NGC.

# Terms and Conditions of Auction

## Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., Heritage Auctions, Inc., Heritage Collectibles, Inc., Heritage Luxury Property Auctions, Inc., Heritage Numismatic Auctions, Inc., Heritage Vintage Sports Auctions, Inc., Currency Auctions of America, Inc., Heritage Auctions (HK) Limited, or Heritage Auctions – Europe Cooperative U.A. as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the “Auctioneer”). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

## Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
  - For Domain Names & Intellectual Property Auction lots the Buyer's Premium is fifteen percent (15%) subject to a minimum of \$19 per lot;
  - For US Animation Art, Comic, Currency, Movie Posters, Sports Collectibles, US Coin, and World & Ancient Coin Auction lots the Buyer's Premium is twenty percent (20%) subject to a minimum of \$19 per lot, except for Sports Collectibles lots which are subject to a minimum of \$14 per lot;
  - For Wine Auction lots the Buyer's Premium is twenty-three percent (23%) subject to a minimum of \$19 per lot;
  - For European Comic Art Auction lots, the Buyer's Premium is twenty-five percent (25%) subject to a minimum of \$19 per lot;
  - For lots in all other categories not listed above, the Buyer's Premium per lot is twenty-five percent (25%) on the first \$300,000 subject to a minimum of \$49 per lot, plus twenty percent (20%) of any amount between \$300,000 and \$3,000,000, plus twelve point five percent (12.5%) of any amount over \$3,000,000.

## Auction Venues:

3. Heritage Weekly Internet Auctions (Coin, Currency, Comics, Jewelry, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins, and Rare Wine) are conducted solely on the Internet. Signature Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

## Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction (“Bidder(s”).
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

## Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectible-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Internet bids will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Auctioneer may, in its sole discretion, require a deposit in good funds of twenty-five percent (25%) of the amount of each bid prior to acceptance of the bid. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security so a credit check may be performed prior to Auctioneer's acceptance of a bid. Settlement via check and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction.

## Bidding Options:

8. Bids in Signature Auctions may be placed as set forth in the printed catalog section entitled “Choose your bidding method.” For auctions held solely on the Internet, see the alternatives on HA.com. Review at <http://www.ha.com/c/ref/web-tips.xzfbiddingTutorial>.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) and floor bids must be on-increment or at a half increment (“Cut Bid”). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding or entry of bids. When identical mail or fax bids are submitted, preference is given to the first received. To ensure the greatest accuracy, written bids should be entered on the standard printed bid sheet and received by Auctioneer at least two business days prior to Auction start. Auctioneer is not responsible for executing mail bids or fax bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, fax, email, Internet, or in person once Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-409-1425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: “How can I lose by less than an increment?” on our website. Bids will be accepted in whole dollar amounts only. No “buy” or “unlimited” bids will be accepted. Current bidding increments during any live auction session or components thereof (e.g. mail/fax bids and LiveProxy bidding) (see HA.com/c/ref/web-tips.xz#guidelines-increments) are:

Current Bid .....	Bid Increment	Current Bid .....	Bid Increment
< \$10 .....	\$1	\$10,000 - \$19,999 .....	\$1,000
\$10 - \$49 .....	\$2	\$20,000 - \$49,999 .....	\$2,000
\$50 - \$99 .....	\$5	\$50,000 - \$99,999 .....	\$5,000
\$100 - \$199 .....	\$10	\$100,000 - \$199,999 .....	\$10,000
\$200 - \$499 .....	\$20	\$200,000 - \$499,999 .....	\$20,000
\$500 - \$999 .....	\$50	\$500,000 - \$999,999 .....	\$25,000
\$1,000 - \$1,999 .....	\$100	\$1,000,000 - \$1,999,999 .....	\$50,000
\$2,000 - \$4,999 .....	\$200	\$2,000,000 - \$9,999,999 .....	\$100,000
\$5,000 - \$9,999 .....	\$500	>= \$10,000,000 .....	\$200,000

Note: Half-increment bidding is available prior to the live auction session.

12. If Auctioneer calls for a full increment, Bidder may request Auctioneer to accept a Cut Bid only once per lot. After offering a Cut Bid, Bidder may continue to bid on lot only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature Auctions. Bids solicited by Auctioneer at other than the expected increment will not be considered Cut Bids.

## Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A “Minimum Bid” is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN “Minimum Bids” ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE

“Minimum Bid”, THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. “Minimum Bids” are generally posted online several days prior to the Auction closing. Any successful bid placed by a consignor on his property on the Auction floor, by any means during the live session, or after the “Minimum Bid” for an Auction have been posted, will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot. Auctioneer or its affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates.

14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher. Auctioneer reserves the right after the hammer fall to accept bids and reopen bidding for bids placed through the Internet or otherwise. Regardless of placed bids, Auctioneer reserves the right to withdraw any lot, or any part of a lot, from Auction at any time prior to the opening of any such lot by the auctioneer (crier), or in the case of Internet-only auctions when the bid opens for either live Internet bidding or the beginning of any extended period.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in “Good Faith” when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in “Good Faith.” Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (generally 40%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold or the Auctioneer may place a protective bid on behalf of the consignor.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, bidding may be extended at Auctioneer's discretion. Bidders unable to place their bids through the Internet are directed to contact Client Services at 877-HERITAGE (437-4824).
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots.
22. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
23. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

## Payment:

24. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the merchandise; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes “good funds”: checks drawn on a U.S. bank are subject to a ten business day hold, thirty days when drawn on an international bank. Clients with pre-arranged credit may receive immediate credit for payments via eCheck, personal, or corporate checks. All others will be subject to a hold of 5 business days, or more, for the funds to clear prior to releasing merchandise. (Ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website. Payment via credit card (Visa, Mastercard, and Discover) will be accepted upon prior approval by Auctioneer. All payments by credit card will incur a surcharge of 2.5%. Payment by eCheck, wire transfer, or check will not incur a surcharge. This fee only applies to credit transactions, and does not exceed Auctioneer's cost of processing.
25. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after Auction close. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot or Auctioneer. Alternatively, Auctioneer at its sole option, may charge a twenty (20%) fee based on the amount of the purchase. In either case the Auctioneer may offset amount of its claim against any monies owing to the Bidder or secure its claim against any of the Bidder's properties held by the Auctioneer.
26. Purchased lots may be subject to taxes or fees imposed by various foreign taxing agencies. Buyer is responsible for paying all foreign imposed taxes whether VAT, GST, etc. prior to delivery unless other arrangements are made in writing. Lots delivered to Buyer, or Buyer's representative are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. Should state sales tax become applicable in the state for delivery prior to delivery of the property on the invoice, Buyer agrees to pay all applicable state sales tax as required by the delivery state as of the shipping date. Buyer agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, or inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction, or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
27. In the event that Buyer's payment is dishonored upon presentment(s), Buyer shall pay the maximum statutory processing fee set by applicable state law. If Buyer attempts to pay via eCheck and Buyer's financial institution denies this bank account, or the payment cannot be completed using the selected funding source, Buyer agrees to complete payment using your credit card on file (subject to the surcharge detailed in paragraph 24).
28. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount. If the Auctioneer refers any invoice to an attorney for collection, Buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
29. In the event Buyer fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) (securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Buyer agrees to pay for the reasonable costs of resale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Buyer is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 15% seller's commissions, if sold at an Auctioneer's auction.
30. Title shall not pass to Buyer until all invoices are paid in full. Auctioneer shall have a lien against the merchandise purchased by Buyer to secure payment of any and all outstanding Auction invoices. Auctioneer is further granted a lien and the right to retain possession of any other property of Buyer then held by Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due Auctioneer or affiliates from Buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale (including a 15% seller's commission, if consigned to an auction conducted by Auctioneer). Any Heritage

foreclosure auction venue, whether or not the same venue as when the debt was incurred (e.g. Signature, Internet, or weekly), is deemed a reasonably commercial sale. In addition, with respect to payment of the Auction invoice(s), Buyer waives any and all rights of offset he might otherwise have against Auctioneer and the consignor of the merchandise included on the invoice. If Buyer owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Buyer, and it may secure by possessory lien any unpaid amount by any of the Buyer's property in their possession.

#### **Delivery, Shipping, and Handling Charges:**

31. Buyer is liable for all shipping, handling, registration, and renewal fees, if any. Please refer to Auctioneer's website HA.com/c/shipping.zx for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Merchandise will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer (subject to the surcharge detailed in paragraph 24).
  32. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item's(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot.
  33. On all shipments in which Auctioneer charges the Delivery, Handling, and Transit Fee *infra*, any risk of loss during shipment will be borne by Auctioneer until the common carrier's confirmation of delivery to the address of record in Auctioneer's file, this is the "Secure Location". A common carrier's confirmation is conclusive to prove delivery to Buyer; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature. Auctioneer shall arrange, select, and engage common carriers and other transportation vendors on your behalf. Transit services are subject to the following terms and conditions:
    - a. **Scope of Transit Services:** Merchandise for transit will be insured under one or more insurance policies issued by an authorized broker to Auctioneer. The merchandise will be insured for the invoice price of the properties (hammer price plus Buyer's Premium) ("Insured Value"). For each shipment, Buyer will provide a Secure Location to which the items will be delivered. NOTICE: **Auctioneer is neither an insurance company nor a common carrier of any type.**
    - b. **Auctioneer's Compensation for Transit Services:** Auctioneer will provide transit services to Buyer for ¼ of 1% of the Insured Value, plus packaging and handling fees and fees for the common carrier (collectively, "Delivery, Handling, and Transit Fee"). Buyer agrees to pay Delivery, Handling, and Transit Fee and comply with all terms of payment as set forth herein.
    - c. **Auctioneer's Limitation of Liability for Transit Services:** Buyer understands and agrees that Auctioneer's liability for loss of or damage to the items, if any, ends when the items have been delivered to the Secure Location, and Auctioneer has received evidence of delivery. Any claim that property has sustained loss or damage during transit must be reported to Auctioneer within seventy-two (72) hours of the delivery date. Any recovery for loss of or damage to any merchandise is limited to the lesser of actual cash value of the merchandise or the Insured Value. **Under no circumstances is Auctioneer liable for consequential or punitive damages.**
  34. It shall be the responsibility for Buyer to arrange pick-up or shipping in a timely manner (within 10 days). Merchandise will be subject to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5 daily for smaller items (storage fee per item) after 35 days. In the event the merchandise is not removed within ninety days, the merchandise may be offered for sale to recover any past due storage or moving fees, including a 20% Seller's Commission.
  35. A. NOTICE OF CITES COMPLIANCE: The purchase of items made from protected species: Any property made of or incorporating endangered or protected species or wildlife may have import and/or export restrictions established by the Convention of International Trade in Endangered Species of Wild Fauna and Flora (CITES) in various countries and domestically. Plant and animal properties include (but are not limited to) items made of (or including) Brazilian rosewood, ivory, whalebone, turtle shell, coral, crocodile, alligator, lizard, or other wildlife. These items may not be available to ship internationally or, in some cases, domestically. Domestic bans and restrictions exist in these states: 1) California state law prohibits the importation of any product containing Python skin into the State of California, thus no lot containing Python skin will be shipped to or invoiced to a person or company in California. 2) Fossil Ivory is currently banned or restricted in 5 U.S. states: New York, New Jersey, California, Hawaii, and New Mexico. By placing a bid, the bidder acknowledges that he or she is aware of any restriction in their country or place of residence and takes responsibility for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay, failure, or incapacity to obtain any such license or permit does not relieve the buyer of timely payment or afford them the capacity to void their purchase or payment. Lots containing potentially regulated wildlife material are noted in the description as a convenience to our clients. Heritage Auctions does not accept liability for errors or failure to mark lots containing protected or regulated species. For further assistance, please contact client services at 1-800-872-6467.
  35. B. California State law prohibits the importation of any product containing Python skin into the State of California. No merchandise containing Python skin will be shipped to or invoiced to a person or company in California.
  35. C. Auctioneer shall not be liable for any loss caused by or resulting from:
    - a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
    - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles.
  36. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.
- #### **Cataloging, Warranties, and Disclaimers:**
37. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of merchandise or second opine contained in this Auction is for the sole purpose of identifying merchandise for those Bidders who do not have the opportunity to view merchandise prior to bidding, and no description of merchandise has been made part of the basis of the bargain or has created any express warranty that merchandise would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, e.g. Fine Art, may have express written warranties and Bidder is referred to those specific terms and conditions.
  38. Auctioneer is selling only such right or title to merchandise being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the merchandise. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
  39. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
  40. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any merchandise by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
  41. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for return or reduction in purchase price.

#### **Release:**

42. In consideration of participation in Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein, and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.

43. Notice: Some merchandise sold by Auctioneer is inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Buyer accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or consequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

#### **Dispute Resolution, Arbitration, and Remedies:**

By placing a bid or otherwise participating in Auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein.

44. **Exclusive Dispute Resolution Process:** All claims, disputes, or controversies in connection with, relating to, and/or arising out of Bidder's participation in Auction or purchase of any lot, any interpretation of the Terms and Conditions of Sale or any amendments thereto, any description of any lot or condition report, any damage to any lot, any alleged verbal modification of any term of sale or condition report or description, and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation, or any claim made by Bidder of a lot or Bidder's participation in Auction involving the auction or a specific lot involving a warranty or representation of a consignor or other person or entity including Auctioneer (which claim Bidder consents to be made a party) (collectively, "Claim") shall be exclusively heard by, and the claimant (or respondent) and Auctioneer each consent to the Claim being presented in a confidential binding arbitration before a single arbitrator administered by and conducted under the rules of, the American Arbitration Association. The locale for all such arbitrations shall be Dallas, Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. In the event that any Claim needs to be litigated, including actions to compel arbitration, construe the agreement, actions in aid of arbitration, or otherwise, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. If a Claim involves a consumer, exclusive subject matter jurisdiction for the Claim is in the State District Courts of Dallas County, Texas and the consumer consents to subject matter and in personam jurisdiction; further CONSUMER EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY. A consumer may elect arbitration as specified above. Any claim involving the purchase or sale of numismatic or related items may be submitted through binding PNG arbitration. A Claim is not subject to class certification.
45. **Choice of Law:** Agreement and any Claim shall be determined and construed under Texas law.
46. **Fees and Costs:** The prevailing party (a party that is awarded substantial and material relief on its damage claim based on damages sought versus awarded or the successful defense of a Claim based on damages sought versus awarded) may be awarded reasonable attorneys' fees and costs.
47. **Remedies:** Any Claim must be brought within two (2) years of the alleged breach, default or misrepresentation or the Claim is waived. After one (1) year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. Exemplary or punitive damages are not permitted and are waived. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Buyer; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, refund Buyer's purchase price without further obligation. Nothing herein shall be construed to extend the time of return or conditions and restrictions for return.
48. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

#### **Miscellaneous:**

49. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
50. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
51. **Rules of Construction:** Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

#### **State Notices:**

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City: This Auction is conducted in accord with the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This a Public Auction Sale conducted by Auctioneer. The New York City Auctioneers conducting the sale of behalf of Heritage Auctions No. 1364738-DCA ("Auctioneer") are licensed Auctioneers including Daves, Nicholas 1304724, Guzman, Kathleen 0762165, Luray, Elyse 2015375, or as listed at HA.com/Licenses and as posted at the venue site. All lots are subject to: the consignor's right to bid thereon and consignor's option to receive advances on their consignments. Auction may offer, in its sole discretion, advances on consignments and extended financing to registered bidders, in accord with Auctioneer's internal credit standards. Auctioneer will disclose to bidders, upon request, a list of lots subject to an advance, reserve, guarantee, or Auctioneer's financial interests of any kind. All Terms and Conditions of Sale are available at HA.com and in the printed catalog, including term #21 which states: Consignor, auctioneer's affiliates and, its employees may bid on their lots or other lots for their own account in accordance with the laws of New York and they may have information as to the lots not available to the public. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

## Additional Terms & Conditions: COINS & CURRENCY

COINS and CURRENCY TERM A: Signature® Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-872-6467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY. Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet THREE (3) DAY RETURN POLICY: Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (877-HERITAGE (437-4824)) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage Auctions, 2801 W. Airport Freeway, Dallas TX 75261. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcg.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Belleview Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency and PMG may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 10470, Peoria, IL 61612-0470; PCGS Gold Shield, PO Box 9458, Newport Beach, CA 92658. Third-party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Notes graded by PCGS Currency between February 4, 2009 and January 30, 2019 were graded and authenticated by K3B, Inc. under license from Collectors Universe, Inc. K3B, Inc., now operating as Legacy Currency Grading, has expressed in writing that notes graded under the license during this time period will still be covered by the full written guaranty of PCGS Currency. Warranties may be available from Collectors Universe, Inc. for all PCGS Currency notes graded prior to February 4, 2009.

COINS and CURRENCY TERM G: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM H: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS and CURRENCY TERM I: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM J: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM K: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the noncertified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM L: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM M: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM N: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS and CURRENCY TERM O: Financing. Auctioneer offers various extended payment options to qualified pre-approved persons and companies. The options include Extended Payment Programs (EPP) Flexible Payment Program (FPP) and Dealer Terms. Each program has its specific terms and conditions and such terms and conditions are strictly enforced. Each program has to be executed by the purchaser. Auctioneer reserves the right to alter or deny credit and in such case these auction terms shall control.

For wiring instructions, call the Credit department at 877-HERITAGE (437-4824) or email: CreditDept@HA.com.

### Notice as to an Auction in New York City:

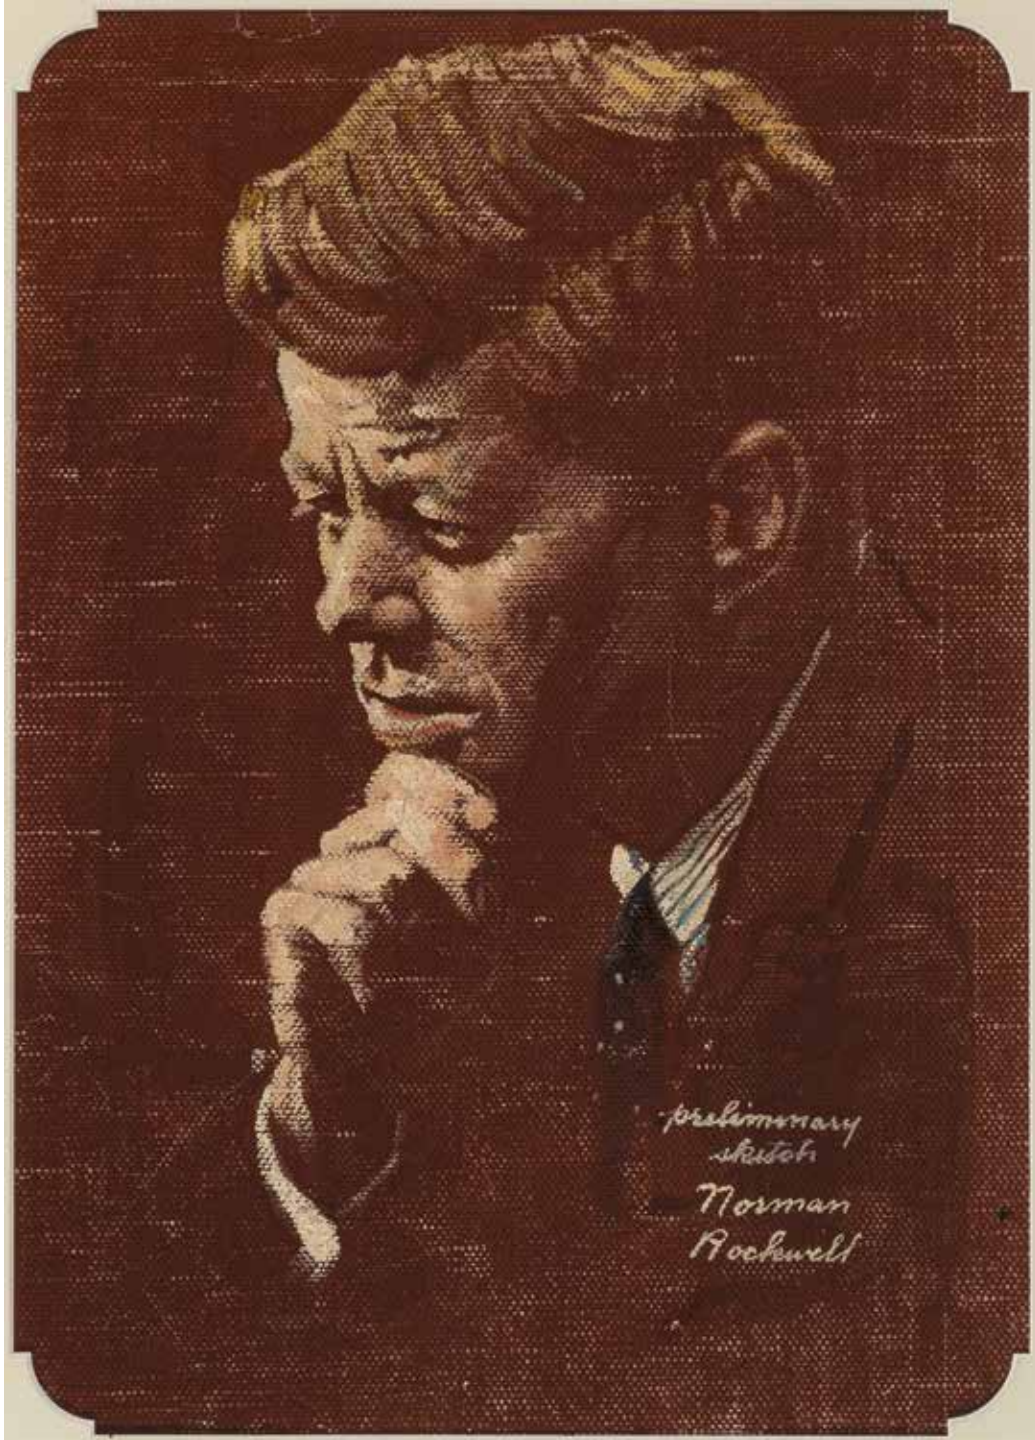

This Auction is conducted in accord with the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This a Public Auction Sale conducted by Auctioneer. The New York City Auctioneers conducting the sale of behalf of Heritage Auctions No. 1364738-DCA ("Auctioneer") are licensed Auctioneers including Dawes, Nicholas 1304724, Guzman, Kathleen 0762165, Luray, Elyse 2015375, or as listed at HA.com/Licenses and as posted at the venue site.

All lots are subject to the consignor's right to bid thereon and consignor's option to receive advances on their consignments. Auction may offer, in its sole discretion, advances on consignments and extended financing to registered bidders, in accord with Auctioneer's internal credit standards. Auctioneer will disclose to bidders, upon request, a list of lots subject to an advance, reserve, guarantee, or Auctioneer's financial interests of any kind. All Terms and Conditions of Sale are available at HA.com and in the printed catalog, including term #21, which states: The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.
